

Section 7 – Multimodal Programs

Multimodal Operations

The Multimodal Operations Division performs statewide planning, grant administration, and technical assistance in the areas of aviation, railroads, transit, freight development, and waterways. In addition, MoDOT has regulatory responsibility over railroads.

The Fixing America's Surface Transportation (FAST) Act of 2015, Federal Aviation Administration (FAA) Reauthorization Act of 2018, and state revenue provide the proposed funding for this section. Coronavirus Relief Funding is detailed in Section 6 of the STIP. Changes in any fiscal year may occur depending on the availability of state, federal or local funds; federal or state laws and regulations; local goals and objectives; or unforeseen changes in planning variables. This section begins with an estimated financial summary for the next five state fiscal years.

Program descriptions are included within the appropriate modal area of responsibility. The programs listed support local projects that are locally matched, owned, and operated. These projects are impacted by community priorities and budgets. Therefore, the projects change with the dynamics around the community.

Some Multimodal Operations programs require investments from State General Revenue funds; however, these are subject to the legislative appropriations process and gubernatorial release of funds. At the completion of the State Budget, a STIP Amendment will be processed to include these investments and associated projects.

Multimodal Estimated Financial Summary – FY 2022-2026

* Funding for Passenger Rail and Port Capital Improvements is annually appropriated by the Missouri legislature. The numbers for FY 2022 were passed out of the House Budget Committee on March 25, 2021. Because of uncertainty, no funds are budgeted for FY 2023 - 2026.

State Transportation Assistance Revolving Fund

In 1996, Senate Bill 780 established the State Transportation Assistance Revolving Fund, and an initial appropriation of \$2.5 million was made in 1997. Provisions are contained in the Revised Statutes of Missouri (RSMo) 226.191. The Missouri Highways and Transportation Commission administers the fund, which assists political subdivisions or not-for-profit organizations in the development of non-highway transportation facilities. This includes aviation, rail, water, freight or transit facilities. Funds cannot be used for operating expenses or for the construction or maintenance of state highways. The following are the specific eligibility requirements:

- The planning, acquisition, development and construction of facilities for transportation by air, water, rail, freight or transit;
- The purchase of vehicles for the transportation of elderly or disabled persons; or
- The purchase of rolling stock for transit purposes.

Applications are received and reviewed at any time. Loans are awarded based on the type of project, the benefit to the public, the financial viability and the local sponsor's willingness and ability to complete the project. Loan repayments and any interest earned go back into the fund for additional transportation projects. Since its inception, this program has been primarily used to help local public airports finance improvements not eligible for federal or state grant programs. This includes hangar, terminal building, and fuel facility projects. The program also assisted in financing a multimodal facility in St. Louis to bring together passenger rail, light rail, and public transit modes.

Table 7-2 State Transportation Assistance Revolving (STAR) Fund		STATE FISCAL YEAR PROJECT BUDGETING

	Total	1,000,000	1,000,000	1,000,000	1,000,000	1,000,000

Aviation

Aviation

Grant Program Funding - Aviation grant programs assist in the planning, purchase, construction, maintenance and improvement of airports.

Federal funding is appropriated by the U.S. Congress through the Federal Airport Improvement Program (AIP) and provides up to 90 percent of eligible project costs. Missouri is one of ten states currently participating in the State Block Grant Program, under which MoDOT administers federal aviation funding to general aviation airports. The FAA programs and administers federal funding to the airports with commercial passenger service over 10,000 annual passenger enplanements including St. Louis Lambert International, Kansas City International, Springfield-Branson National, Columbia Regional, Joplin Regional, and Cape Girardeau Regional.

There is a significant amount of uncertainty associated with federal aviation funding. Notification of the amount to be received and the actual transfer of funds often do not occur until several months into the federal fiscal year. Also, the non-primary airport entitlement program can significantly impact funding available for MoDOT programming, but it is only implemented if Congress appropriates funding above a threshold level. There are currently 68 airports participating in this program. Eligible airports may receive federal funding of up to \$150,000 annually, with an exception for airports with more than 8,000 but less than 10,000 passenger enplanements. Those airports may receive up to \$600,000 per year. MoDOT is basically a pass-through agency for the non-primary airport entitlement program. There are also opportunities for additional federal funding through discretionary grants. MoDOT staff aggressively pursues this additional funding whenever possible.

Current federal authorization legislation for the FAA and for the AIP, the Federal Aviation Administration Reauthorization Act of 2018, which includes all federal aviation funding, expires on September 30, 2023. The FAA Reauthorization Act of 2018 continues AIP funding at the same level as it has been at since 2012, as established in the FAA Modernization and Reform Act of 2012.

State funding comes from the State Aviation Trust Fund, which derives its revenue from a portion of the state sales tax on jet fuel and a 9-cent per gallon tax on aviation gasoline. On state/local projects, the state can provide up to 90 percent of eligible project costs. The state can also provide up to 50 percent of the local share on federally funded projects. Safety-related equipment and services do not require cost sharing.

Project Priorities - The primary sources for prioritizing airport projects are the FAA National Plan of Integrated Airport Systems (NPIAS), the MoDOT State Airport System Plan, and the Capital Improvement Plans (CIPs) submitted by airports. The NPIAS establishes basic criteria for airports to be eligible for federal aviation funds. The State Airport System Plan is a working document updated regularly to reflect current activity levels and changes to airport facilities and air navigation aids. All federally-obligated airports are required to annually submit an updated CIP, and non-NPIAS airports are encouraged, but not required, to submit similar documentation. These plans document an airport's upcoming project needs.

Project applications are reviewed, and funds are distributed based on an established priority system that considers items such as the number of based aircraft, activity levels and the type of project requested. To program AIP funds, FAA requires MoDOT Aviation to utilize the project prioritization

formula in FAA Order 5090.5. This formula determines how projects compete for federal funding. MoDOT Aviation uses the same prioritization formula to program Aviation Trust Fund projects, but also considers additional factors such as the political subdivision's willingness and ability to complete the project, commitment of local matching funds, prior maintenance and support of the airport, and aviation staff knowledge of airport needs. Project needs always exceed the funds available, so throughout the project prioritization process, MoDOT Aviation works closely with airport sponsors to discuss project needs, to ensure they are aware of what can and cannot be funded, and to package projects together that will best compete for federal funding. These detailed discussions with airport sponsors ensure that airports are already aware of which projects will be programmed prior to the release of the STIP.

Railroads

Railroads

Missouri is located in the central corridors of the nation's railroad transportation system, with St. Louis and Kansas City being the second and third largest rail hubs in the nation, behind only Chicago, Illinois. Approximately 60 percent of the freight products entering Missouri, both raw materials and finished products, are moved on the rail system. Missouri is the fifth-most rail intensive state by tonnage carried and ninth largest in total size. The rail system is also critical to the nation's passenger rail transportation and Missouri's passenger rail service between St. Louis and Kansas City, the Missouri River Runner.

The MoDOT Multimodal Operations Division administers the state's railroad program. This program includes freight rail safety regulation, passenger rail, light rail safety oversight, rail construction, highway/rail construction coordination, and highway/rail crossing safety and outreach.

Passenger Rail—State supported passenger rail service is provided between St. Louis and Kansas City, with stops in Kirkwood, Washington, Hermann, Jefferson City, Sedalia, Warrensburg, Lee's Summit and Independence. In state fiscal year (SFY) 2020, this service carried more than 118,000 passengers. The service provided two daily round trips from July 1, 2019 to March 30, 2020 and one round trip from March 31, 2020 to June 30, 2020. Amtrak operates the service and provides some of the passenger rail equipment. The Midwest Fleet Board, which is comprised of Missouri, Illinois, Wisconsin, and Michigan, owns locomotives and passenger rail coaches for use on the state supported Midwest passenger rail routes.

The rail line on which the Missouri River Runner operates is owned and maintained by Union Pacific Railroad and two terminal railroads. MoDOT, Union Pacific Railroad, and Amtrak focus on reliable on-time performance through coordination, efficient dispatching, bottleneck removal and capacity enhancements.

There is no dedicated funding in Missouri for the state supported passenger rail. Funding is subject to legislative general revenue appropriation and gubernatorial approval each year. Funding provided for the state supported Missouri River Runner has not kept pace with the cost of providing two daily roundtrips, resulting in periodic arrearage to Amtrak for more than ten years.

To help control costs, MoDOT has consistently increased passenger fares for the Missouri River Runner Service. The following are the latest fare increases: SFY 2012 - 2%; SFY 2013 - 3%; SFY 2014 - 2%; 5% each year SFY 2017 - 2020.

State funding for Fiscal Year 2022 will be determined by the Missouri General Assembly and as approved by Missouri's Governor. Funding for Missouri's passenger rail service is used to pay Amtrak's contract and expenses to maintain the Midwest Fleet.

Prior to the end of 2014, Missouri received nearly \$50 million in Federal Railroad Administration (FRA) funding to improve passenger rail services. These funds leveraged nearly \$20 million in private investment. Projects targeted improvements in on-time performance and travel time reduction. Notable completed projects include a new Osage River Bridge, a universal crossover near Kirkwood, a third main line in St. Louis on the Terminal Railroad, a new approach to Merchant's Bridge, and the upgrade of 15 crossings. Projects are located along the state supported passenger rail line from St. Louis to Kansas City. The federal funding required a state commitment to continue operation of the Missouri River Runner passenger rail service. Missouri also introduced new locomotives in SFY 2018 to increase reliability of equipment as part of the Midwest Fleet. The new locomotives are Tier IV compliant and have reduced emissions by 90 percent over previous equipment. The new locomotives were obtained through a 100 percent federally funded grant to the states of Missouri, Wisconsin, Illinois, Michigan, Washington and California. In SFY 2022, new passenger coaches are expected to be in use on the Missouri River Runner through another 100 percent federally funded grant. These passenger coaches will be operated as part of the Midwest Fleet, and will feature spacious interiors focused on passenger comfort and convenience, with Wi-Fi, spacious seats with convenient power outlets and USB ports, large windows, overhead luggage storage, work tables, state-of-the-art restrooms with touchless controls and full ADA accessibility, and modern information and route map displays. Bicycle racks will also be built into the coach cars.

Highway/Rail Crossing Safety Program - There are approximately 3,800 public highway/rail crossings in Missouri. These crossings are evaluated and ranked annually according to a safety index which considers train traffic and speed, vehicle traffic and speed, crossing accident history, and sight distance. Projects are identified initially through safety data which considers relevant factors used to determine the baseline of possible projects. Factors include emergency services routes, school bus routes, volume and speed of traffic and other nearby crossings. Project improvements typically include the installation of railroad crossing signal devices and may vary in scope depending on funding availability and programming restrictions each fiscal year. Once the projects are ranked, and the amount of available funding is applied, MoDOT works with local communities and railroads to determine their willingness to move forward with the suggested safety improvements. Most projects are on local roads. On the average, highway/rail crossing projects cost \$250,000 - \$300,000, resulting in improvement to approximately 25 to 30 crossings per year. Project completion typically takes approximately one year.

Each year, approximately \$6 million of Federal Highway Administration (FHWA) Surface Transportation Program Safety Funds and approximately \$1.8 million of state Grade Crossing Safety Account funds are available to improve safety at these crossings. The Grade Crossing Safety Account funds are created from a 25-cent state motor vehicle licensing fee.

Transit

Transit

Missouri public transit provides mobility to individuals of all ages, incomes and circumstances throughout the state of Missouri. Missouri's public transit agencies provide over 62 million one-way passenger trips each year. MoDOT offers financial and technical assistance to 34 public transit providers and more than 200 specialized transportation providers. Some form of public transit or specialized transit is available in all of the 114 counties of Missouri.

MoDOT Multimodal Division administers State and Federal Transit Administration (FTA) funds to Missouri transit providers to support planning, maintenance, operating and capital assistance activities.

MoDOT is committed to transit asset management to try to maintain a state of good repair (SGR) for Missouri's public transportation assets. Transit asset management (TAM) is a business model that uses transit asset condition to guide the optimal prioritization of funding.

Transit asset performance is measured by asset class, a subgroup of capital assets within an asset category. MoDOT coordinated with transit agencies and MPOs to develop the MoDOT State Sponsored Group Transit Asset Management (TAM) Plan, including the state TAM targets.

In the 2022-2026 STIP, MoDOT has programmed projects to move MoDOT towards the federal transit asset management targets. These funds are distributed to transit providers based on annual applications. Transit agencies request funding to replace equipment, rolling stock and make facility improvements. Annual applications exceed funding availability and awards are evaluated based on transit needs.

Statewide Transit Planning Grants

Section 5304

Section 5304 of Chapter 53, Title 49, U.S.C. Federal Transit Administration - MoDOT administers Federal Transit Administration (FTA) statewide transit planning and other technical assistance activities grants that can be used for planning support, research, development and demonstration projects, fellowships for training in the public transportation field, university research and human resource development.

Federal Transit Administration distributes funds to Missouri based on the latest census information. However, a state must receive at least 0.5 percent of the amount annually apportioned. For these planning and technical assistance activities, the federal share is 80 percent, and the local non-federal share is 20 percent. This funding is used for statewide transit planning with an amount allocated to the state transit association for transit related technical assistance activities.

MoDOT provides funding to each of the Regional Planning Commissions (RPC) and Metropolitan Planning Organizations (MPO) for updates to the Coordinated Public Transit – Human Services Transportation Plans. These plans are updated every five years. These plans must be updated to allow subrecipients to apply for FTA Section 5310 funding within each planning area.

Enhanced Mobility of Seniors and Individuals with Disabilities Program Federal Transit Administration – Section 5310

Section 5310 of Chapter 53, Title 49, U.S.C. Federal Transit Administration - Section 5310 funds provide capital assistance and operating assistance for non-profit organizations as well as governmental entities that provide service to senior citizens and persons with disabilities. These funds are annually apportioned to each of the large urbanized areas (St. Louis, Kansas City and Springfield), apportioned separately on an aggregate basis to the small urbanized areas (between 50,000 – 199,999 population) and annually apportioned separately in aggregate to the rural areas of the state. A portion of the Section 5310 funds apportioned in the St. Louis and Springfield urbanized areas are administered by MoDOT once the Metropolitan Planning Organization’s (MPO) for these areas have allocated apportioned funds. Section 5310 funds apportioned to rural and small urban urbanized portions of Missouri are administered by MoDOT. Projects to be funded by Section 5310 must be derived from a locally developed Coordinated Public Transit – Human Services Transportation Plan.

Table 7-7 Section 5310 Funding		STATE FISCAL YEAR PROJECT BUDGETING				
		7/2021 - 6/2022	7/2022 - 6/2023	7/2023 - 6/2024	7/2024 - 6/2025	7/2025 - 6/2026
Section 5310	MoDOT Administered Federal Funds	3,292,000	2,768,000	2,768,000	2,768,000	2,768,000
	Local Match	823,000	1,142,000	1,142,000	1,142,000	1,142,000
	Total	4,115,000	3,910,000	3,910,000	3,910,000	3,910,000

Rural fund priorities are selected and programmed directly by MoDOT on the basis of received applications. Eligible applications for what FTA defines as “traditional projects” are first reviewed and prioritized by MoDOT to attain the Section 5310 program’s 55 percent funding floor. For projects proposed in small urbanized areas, any prioritization of projects provided to MoDOT from the MPOs will be accepted as long as those projects are Section 5310 eligible activities proposed by eligible applicants. Otherwise, within this category of “traditional projects”, the rural prioritization and small urbanized prioritization of projects in descending order is:

- (a) Replacement of accessible vehicles that have reached the end of their useful life,
- (b) Replacement of non-accessible vehicles that have reached the end of their useful life,
- (c) Accessible vehicles to be used in eligible expanded mobility services,
- (d) Non-accessible vehicles to be used in eligible expanded mobility services,
- (e) Support for mobility management and coordination programs, and
- (f) All other “traditional” Section 5310 eligible project types.

In selecting “traditional” projects for funding, consideration will be given to a geographic distribution to deter concentrations of projects and funds in a few areas of the state. Also, based on applicant responses to Title VI Civil Rights questions about clients served, consideration will be given to ensure low-income individuals and minorities are not excluded from accessing funds for eligible Section 5310 activities.

Rural Transit Assistance Program

Federal Transit Administration Section 5311

Section 5311 of Chapter 53, Title 49, U.S.C. Federal Transit Administration - Section 5311 provides capital and operating assistance to public transportation systems in rural areas. A rural area is outside an urbanized area of 50,000 or greater population. Section 5311 projects include planning and technical studies, system design, capital assistance, and assistance in defraying operating losses. Intercity over-the-road bus services are also eligible for funding.

Eligible recipients of Section 5311 assistance include public bodies, private not-for-profit corporations and operators that provide general public transportation services. Private for-profit providers of service are eligible through purchase of service agreements with a local public body for the provision of public transportation services. For-profit intercity carriers are also eligible.

Section 5311 project selection is performed by MoDOT based upon annual applications. Request for operating assistance is given priority over capital project requests. Once operating assistance is awarded, capital requests are reviewed for award if funding is available. Operating assistance awards are based upon the project's budget for the coming year compared to previous year expenditures. Priority is given to local public bodies because they meet the program's primary objective of offering general public service. Not-for-profit organizations are also eligible to participate in the program if they meet program criteria and have available local matching funds. Generally, capital projects are funded 80 percent federal and 20 percent local. Operating assistance projects may be used to support up to 50 percent of a project's net operating loss. Net operating loss is the total expense incurred minus any fares collected. As federally required, 15 percent of the Section 5311 funds are reserved to support intercity bus service. In the event eligible applicants do not express an interest in supporting intercity bus service or, if the requests received are less than the reserved amount, the funding reserved for intercity bus will be transferred to the rural public transit service. The grant allows for up to 10 percent of Section 5311 apportionment for program administration, planning and technical assistance, with no state match required.

Rural Transit Assistance Program Section 5311 (b)

Section 5311 (b) of Chapter 53, Title 49, U.S.C. Federal Transit Administration - MoDOT administers the Federal Transit Administration Section 5311 (b) Rural Transit Assistance Program for the development and implementation of training, technical assistance and other support services for use by local transit providers in rural areas. No matching funds are required.

Federal Transit Administration allocates Rural Transit Assistance Program funds to each state based on an administrative formula. Federal Transit Administration first allocates \$65,000 to each state, and then distributes the balance of the annual funding according to the rural population of each state.

Through a competitive selection process, MoDOT currently contracts these services with the Missouri University of Science and Technology.

Table 7-9 Section 5311 (b) Funding		STATE FISCAL YEAR PROJECT BUDGETING

State Safety Oversight Formula Grants Federal Transit Administration – Section 5329

Section 5329 of Chapter 53, Title 49, U.S.C. - Federal Transit Administration - Each state with transit rail systems not regulated by the Federal Transit Administration (FTA) is required to establish a state safety oversight (SSO) program with the responsibility to enforce federal law and oversee fixed guide way public transportation safety. MoDOT administers Federal Transit Administration Section 5329 SSO grants. These Section 5329 grants fund up to 80 percent of the cost to administer and operate the state safety oversight program. Grant matching funds may not be derived from the transit systems subject to the state safety oversight and are funded through the State Transportation Fund. Systems subject to MoDOT oversight from this program are St. Louis MetroLink, the Delmar Loop Trolley and the Kansas City Street Car.

MoDOT’s State Safety Oversight program uses a combination of internal staff and contract expertise to help ensure the systems in Missouri are as safe as possible. MoDOT elected to competitively procure expertise when new requirements were passed by the U.S. Congress in MAP-21. This allowed MoDOT to quickly get up to speed with the new, more stringent requirements and to develop and implement ways of improving the safety of these systems much quicker than hiring and training internal staff. Each of the systems regulated have reduced incidents and improved efficiencies because of this approach.

Bus and Bus Facilities Program Formula Grants Federal Transit Administration – Section 5339

Section 5339 of Chapter 53, Title 49, U.S.C. - Federal Transit Administration - MoDOT administers Federal Transit

Administration Section 5339 Bus and Bus Facilities formula program grants. This grant category funds up to 80 percent of the cost to replace, rehabilitate and purchase buses and related equipment as well as construction of bus related facilities. These funds are annually apportioned to each of the large urbanized areas (St. Louis, Kansas City and Springfield), apportioned separately on an aggregate basis to the small urbanized areas (between 50,000 – 199,999 population) and annually apportioned separately in aggregate to the non-urbanized/rural areas of the state. MoDOT administers the funds apportioned to the non-urbanized/rural areas of Missouri.

MoDOT worked with the Missouri Public Transit Association (MPTA), to develop consensus on a formula funding arrangement for the allocation of the FTA Section 5339 Bus & Bus Facilities Program funds to Missouri’s large urbanized areas, small urbanized areas, and rural transportation providers.

MoDOT only administers the Section 5339 Rural apportionment for rural transportation providers. Rural transportation providers submit an annual application requesting vehicle replacement or expansion. Awards are based upon the useful life criteria identified in the Transit State Management Plan. Useful life criteria identifies the expected lifetime of vehicles based upon years and/or mileage. Vehicles must meet or exceed the useful life criteria to be eligible for replacement.

The Small Urbanized apportionment and Large Urban apportionment is transferred to the 5307 program for ease of grant management. By transferring to the 5307 program, the large urban and small urban providers apply directly to FTA to receive funds for eligible projects in the Section 5339 Bus & Bus Facility program. In addition, MoDOT administers Section 5339 discretionary funding to rural projects throughout Missouri.

Missouri Elderly and Handicapped Transportation Assistance Program

The Missouri Elderly and Handicapped Transportation Assistance Program (MEHTAP) is a state funded program that provides funding to the Area Agencies on Aging (AAA), non-profit organizations, and other eligible applicants statewide that offer transportation services to senior citizens and persons with disabilities at below-cost rates.

MEHTAP funding is allocated by the Department in accordance with Revised Statutes of Missouri (RSMo) Sections 208.250 – 208.265 and Code of State Regulations (CSR) 7 CSR 10-7.010, based on the following criteria: need for service, trip purpose, cost effectiveness, and cost and availability of alternative service.

Fifty percent of the MEHTAP appropriation is reserved for Area Agencies on Aging. Reserved funds supplement state and federal funds available to the area agencies for transportation. Area agencies may use MEHTAP funds in combination with other transportation funds to provide transportation services or to contract with existing providers for service. Each year, project funding is contingent upon receipt of applications from eligible providers and an appropriation from the state legislature. Federal, local and private matching funds do not flow through MoDOT.

Missouri State Transit Assistance Program

The Missouri State Transit Assistance Program is a state funded program that provides state funds to public transportation service providers to defray the operating and capital cost incurred by public transportation service providers. State Transit Assistance funding is allocated by MoDOT in accordance with Revised Statutes of Missouri (RSMo) Section 226.195 and Code of State Regulations 7 CSR 10-7.030. The distribution of funds to public transportation service providers is made on the basis of population, ridership, cost and efficiency of the public mass transportation service provider's program, availability of alternative public transportation in the service area, and local effort or tax support.

Each year, project funding is contingent upon the total number of grant applications received from eligible providers. The State Transit Assistance program is funded with state transportation funds and general revenue funds and is subject to the Missouri General Assembly legislative appropriation process and any subsequent directives mandated by the Governor regarding withholdings.

Waterways

Waterways

Missouri is fortunate to have over 1,000 miles of navigable waterways on the Mississippi and Missouri rivers, which provide tremendous opportunities for waterborne commerce. In 2020, approximately 3.6 million tons of material was handled through Missouri's public port authorities. Barge transport provides a safe and environmentally friendly way to transport large amounts of material at a lower cost compared to other modes. One barge can hold the equivalent of 13 railcars or 58 trucks. The Missouri General Assembly appropriates funding for waterway programs from General Revenue and the State Transportation Fund. Projects are implemented when funds are appropriated through the legislative and gubernatorial budget processes.

Port Authority Administrative Grants - The administrative grants are used to reimburse public port authorities for administrative costs, such as salaries, benefits, travel, office expenses and utilities authorized in Section 68.035.1, RSMo. These grants do not require a match and are funded from the State Transportation Fund. The administrative grants were created to assist public port authorities as they establish their economic base (i.e. "keep the lights on"). The port authority must demonstrate tangible efforts to mature the port to be eligible for administrative grants. The majority of the administrative funds are allocated by formula based on two components: a base amount and a performance amount. The formula allocates a base amount of \$4,000 as the minimum level of support for a total of \$64,000. The performance amount (\$336,000) is focused on assisting the ports as they establish their economic base with the level of assistance decreasing as the port becomes more self-sustaining. Objective criteria used to evaluate performance includes ownership of capital assets, movement of freight or passengers during the prior year, whether tonnage was over or less than 1 million tons in the last four years, development of a work plan for purchasing capital assets or moving freight/passengers within the next three years, and lastly, a penalty for ports that allowed funding to lapse within the previous five years.

The remaining \$200,000 is allocated to port authorities to prepare plans for upcoming capital improvement projects. When the proposed project priority list is developed for the Port Capital Improvement Program, port authorities request funding for preliminary engineering to prepare these plans for construction to begin in one year. This funding stream allows the public port authorities to be ready for construction at the beginning of the budget year (July 1) if the General Revenue funds are received.

This program has received an appropriation for FY 2018, 2019, 2020, and 2021 of \$600,000. Six hundred thousand dollars was requested for FY 2022. The program currently offers assistance to the following port authorities:

Heartland Port Authority of Central Missouri	Howard/Cooper County Regional Port Authority	Jefferson County Port Authority
Port of Kansas City	Lewis County Regional Port Authority	Mid-America Port Commission
Mississippi County Port Authority	New Bourbon Regional Port Authority	New Madrid County Port Authority
Pemiscot County Port Authority	Pike/Lincoln County Port Authority	St. Charles County Port Authority
St. Joseph Regional Port Authority	St. Louis County Port Authority	City of St. Louis Port Authority
Southeast Missouri Regional Port Authority	Marion-Ralls County Port Authority

Ferry Boat Operating Assistance - The State of Missouri currently provides funding for two public ferry boat operations in Ste. Genevieve and Mississippi counties. These ferry services provide a link for passengers and freight moving from Missouri to Illinois or Kentucky, respectively, at substantially less expense than constructing a Mississippi River bridge crossing in the areas. Each ferry charges a toll that is supplemented annually by \$88,000 to support each ferry boat operation. During FY 2020, the ferry services transported on 22,377 passengers and 9,100 vehicles. The State of Kentucky matches dollar for dollar support for the Mississippi County ferry service. Illinois does not provide operating assistance to the Ste. Genevieve County ferry.

Port Capital Improvement Program - Capital improvement funds assist ports with capital expenditures, such as dock construction, mooring dolphins, access improvements, utility extensions, and general site development as authorized in Section 68.035.2, RSMo. MoDOT requests \$12 million annually from the State of Missouri General Revenue budget for Port CIP. Funding requires an annual appropriation by the general assembly, budget approval by the governor, and State of Missouri projections continuing to demonstrate sufficient incoming revenue to allow release of all or a portion of the approved funds. Fluctuations in Missouri revenue can result in restrictions on General Revenue funded programs, including the port Capital Improvement Program (CIP) funds. When appropriated, the CIP requires a 20 percent local match. The amount of funds available for the CIP can vary greatly from year to year, and it is difficult to predict funding in future years. In FY 2017, the legislature appropriated \$12.4 million for the CIP; however, due to the lower revenue projections only \$4 million was available for the CIP projects. In FY 2018, \$1.5 million was appropriated for the CIP; in FY 2019, that amount was \$7.8 million; FY 2020, \$9.4 million; and FY 2021 had \$6.1 million. Once the budget is signed, the STIP is amended to show the port CIP projects.

Each summer, each public port presents two priority projects to be considered for the next fiscal year. The Missouri Port Authority Association members evaluate and prioritize each of these projects, based on economic development benefit to the state, increased freight capacity and tonnage at the port, environmental impacts of the project, and safety improvements. As the legislature discusses General Revenue appropriations, the prioritized list is used to match the highest priority projects with the appropriated funding. The ports have detailed more than \$100 million in current port capital improvement needs.

Freight

Freight

Freight Enhancement Program - The objective of the Freight Enhancement Program is to focus on improving and maintaining the high priority freight assets and corridors that are critical to the movement of freight into, out of, within, and through the state. This process is based on partnerships with freight stakeholders and public officials to identify the greatest freight movement needs and remove barriers to efficient movement of goods through capital improvements to the system. MoDOT annually requests \$1 million dollars from the Missouri legislature and has that amount for FY 2018, 2019, 2020, and 2021 from the State Transportation Fund. A minimum 20 percent local match is required. MoDOT solicits project applications each spring. Staff evaluates and selects projects based on correlation to the Missouri State Freight Plan goals and metrics including proximity to freight routes, improvements to performance metrics, reduced oversize/overweight trucks on the roadways, and whether the project shifts movement of freight from an out-of-state facility to an in-state facility. Because program funding comes from the State Transportation Fund, projects are limited to non-highway locations. Project selections are announced by July 1 to allow project sponsors the full fiscal year to implement the project. The STIP is then amended to incorporate those projects.

Freight is the economy in motion. As freight efficiency increases in a state, the total economy of the state increases. Businesses receive raw materials at less cost and therefore their finished products are more competitive on the domestic and global market. Lower freight transportation costs decrease prices at the store providing financial savings for Missouri consumers. Lower transportation cost attracts new businesses and allows reinvestment and expansion of current businesses.

Freight movement depends upon the connectivity, safety, reliability, and condition of the transportation system. Missouri's central location within 600 miles of 50 percent of all US households is a natural advantage to attract the freight industry. Missouri's transportation assets in rail, water, interstate highways, and airports combined with Missouri's strategic location provides great opportunity to become the freight center of the nation.

Table 7-17 Freight Enhancement Program		STATE FISCAL YEAR PROJECT BUDGETING
