

CITY OF FOUNTAINS
HEART OF THE NATIONKANSAS CITY
MISSOURI**SELECTIVE DEMOLITION**Project Number **70142204**Project Title **Paseo Gateway Intersection****A. Building Demolition (1409 Independence Ave):**

All building structures located at 1409 Independence Ave are to be demolished. A phase II environmental site assessment was conducted for 1409 Independence and 1400 Admiral Boulevard. Underground Storage Tanks (UST) were found on 1400 Admiral Blvd. USTs will be removed by Intertek-PSI.

Asbestos or lead survey of the building structures at 1409 Independence was not included in the Phase II site assessment. The city will retain a consultant experienced and well versed in the identification of Asbestos Containing Materials (ACM) and Lead Based Paints (LBP). The consultant will inspect each structure to be demolished and will issue a written report to the Contractor. If ACM or LBP are found in the structures, ACM will be removed by the city's contractor and the Contractor shall handle LBP in accordance with all applicable, Federal, State and Local laws with during building demolition.

All structures at 1409 Independence Ave are currently occupied by the previous owner. All equipment including not limited to commercial vehicles, passenger vehicles, machinery, etc that are currently on 1409 Independence are expected to be removed April 15, 2022. Building demolition shall not commence until all equipment are moved out of 1409 Independence Ave and all utilities have been disconnected and capped.

- B. Disposal of Demolition Debris:** All demolition debris shall be disposed of at a legal landfill or at a site where dumping of such materials is allowed under federal, state and local laws.

Demolition debris is defined as used building materials resulting from demolition, and waste materials from the construction of buildings or site clearing. Broken concrete, reinforcing steel, and asphalt are some of the many things considered to be demolition debris.

- C. B.Z.A. Approved Dumpsites:** In Kansas City, demolition debris dumpsites are permitted by the Board of Zoning Adjustment. These sites are not obligated to take your debris.

For further information on approved dumpsites contact: Diane Binckley, City Development, 15th Floor, City Hall, 513-2874. Other sites are available in the metropolitan area.

- D. Earthen Landfills:** Soil, rock, and gravel are not considered to be demolition debris and can be placed at properly permitted locations. Obtain grading permits, erosion control permits, and floodplain certificates as applicable (from Codes Administration in KC). Broken concrete, with reinforcing closely trimmed and removed, may be placed in some earthen landfills, subject to approval by the landfill owner.
- E. Submittals:** At the pre-construction conference, CONTRACTOR shall submit the proposed sites for disposal of demolition debris and earthen material, in writing, to the OWNER. Once work starts, all substitute sites shall be submitted in writing to the OWNER. Submittals shall include a copy of the permit authorizing disposal at each site whether in or out of the City Limits.

Owner's Representative will confirm that the proposed sites, both within and out the City Limits, are properly authorized. Owners Representative will advise Contractor in writing if a disposal site is not properly authorized. Lack of a response to inquiry is sufficient cause to reject a disposal site.

- F. Remedy:** Failure to abide by these contract requirements to use only approved dumpsites, whether intentional or inadvertent, is deemed to be a major violation of the contract. In the event of such violation, the City shall have two special remedies, in addition to local ordinance penalties. It may, at its sole option:

1. Direct that the materials which have been dumped at a site other than the approved one be moved to the approved location, and that the site where the unapproved dumping took place to be restored to its previous condition, or
2. Terminate the contract immediately by written notice to the CONTRACTOR, in which case the CONTRACTOR shall have no right to cure its default. The CONTRACTOR shall be entitled to be paid for the completed portion of his contract less the expense to remedy the unauthorized dumping. Such payment shall be made only after the work is complete and all costs are finally determined.

Before either of such remedies is invoked, the CONTRACTOR will be given five (5) Working Days written notice of the alleged violation. During the five (5) day period, the contractor may submit information for consideration by the OWNER. Due to the nature of illegal dumping, OWNER need not have proof positive; "alleged" is herewith adjudged sufficient evidence to terminate this contract.

- G. Payment:** No separate payment will be made for "Demolition Disposal". All costs pertaining thereto shall be incidental to the other contract pay items.

PROJECT DESCRIPTION:

THE PASEO & INDEPENDENCE AVENUE

PROJECT NUMBER 70142204
FEDERAL NUMBER STP 3301 (508)

PROJECT CONSISTS OF SUPPLYING ALL LABOR, MATERIALS, AND EQUIPMENT NECESSARY FOR RECONSTRUCTION OF PASEO, INDEPENDENCE AVE. AND CLIFF DRIVE - 2020 PASEO GATEWAY INCLUDING, BUT NOT LIMITED TO; SURVEYING, CLEARING, GRUBBING, DEMOLITION, EXCAVATION, BACKFILLING, GRADING, CONCRETE WORK / FOOTINGS, TRAFFIC SIGNALS, STORM DRAINAGE, SIDEWALKS / TRAILS, LANDSCAPING, EROSION CONTROL, SEEDING, AND CLEANUP COMPLETE IN ACCORDANCE WITH DRAWING NUMBERS LISTED BELOW, AND SPECIFICATIONS CONTAINED UNDER SEPARATE COVER.

DRAWING INDEX:

1	TITLE SHEET
2	RECAPITULATION OF QUANTITIES
3-4	GENERAL LAYOUT NOTES & REFERENCE POINTS
5-8	DEMOLITION PLANS
9-16	RIGHT-OF-WAY PLANS
17-21	TYPICAL SECTIONS
22-36	PLAN AND PROFILE SHEETS
37-38	ENLARGED FENCE PLANS
39-47	INTERSECTION DETAILS
48-60	ROADWAY DETAIL SHEETS
61-87	STORM SEWER PROFILES & DETAILS
88-89	RETAINING WALL PLAN & PROFILE & DETAILS
90-91	WEIR WALL PLAN & PROFILE & DETAILS
92-110	TRAFFIC SIGNAL PLANS & DETAILS
111-121	STREET LIGHTING PLANS & DETAILS
122-139	PAVEMENT MARKING & SIGNING PLANS & DETAILS
140-150	EROSION CONTROL PLANS & DETAILS
151-158	GATEWAY PLANS & DETAILS
159-165	LANDSCAPING PLANS & DETAILS
166	GRADING PLAN SHEETS
167-258	TRAFFIC CONTROL PLANS & DETAILS
259-263	SUMMARY OF QUANTITIES
264-273	DRAINAGE AREA MAP & CALCULATIONS
274-300	CROSS SECTIONS (PASEO)
301-311	CROSS SECTIONS (INDEPENDENCE AVENUE)
312-329	CROSS SECTIONS (CLIFF DRIVE)
1-6	WATER MAIN REPLACEMENT PLANS

REVISED DRAWINGS:

ADDENDUM NUMBER 2

Project Number **STP 3301 (508) City Project No. 70142204**
Project Title **Paseo Gateway Intersection**

ISSUE DATE: **October 1, 2021**

Bidders are hereby notified that the Bidding and Contract Documents for the above project, for which Bids are to be received on **October 6, 2021**, are amended as follows:

Information to Bidders The following is provided to Bidders for information only:

Q1.	What is the difference between Bid Item #15 (2" Mill & Overlay), Bid Item #28 (Concrete Driveway Approach 8"), and Bid Item #218 (Temporary Asphalt Pavement)?
A1.	To clarify, the former Bid Item #14 (Full Depth Pavement Replacement) was intended to pay for repairing the road above the storm pipe going into Independence Avenue east of station 21+50. That bid item been eliminated because that pavement, including backfill, is included as subsidiary in Standard Drawing SR-1 (sheet 53) and Spec 2600. Bid Item #15 is intended to pay for the cosmetic mill & overlay east of station 21+50 which will hide that the trenching has occurred. Bid Item #28 includes the square yardage for driveway approaches AND the entire parking lot on the northwest corner of Independence and Paseo. This is shown in the table on sheet 259R, and the section required (including AB-3, compaction and 8" concrete) is described on sheet 50. Bid Item #218 includes the shoulder widenings and temporary connection shown in the Sequence of Construction plans.
Q2.	Does the building to be removed on the southwest corner of Paseo & Independence contain asbestos?
A2.	Building removal is part of Bid Item #3 Demolition & Removal. The city will be responsible for asbestos inspection and removal. Please see updated Section 02220.
Q3.	Is there any additional information/guidance concerning the transformer to be installed on the SW corner of Paseo & Independence?
A3.	The Evergy pad mounted transformer was included in the street lighting summary quantity (Bid Items 129, 130 & 131) and general note #16 on sheet 121. The contractor should include the Evergy transformer and pad for the transformer in the bid.

Specifications

1. Replace Section 00015-List of Drawings with the updated form included with this addendum.

2. Replace Section 00412-Unit Prices Form with the updated form included with this addendum. Quantities have been changed.
3. Replace Section 02220-Selective Demolition with the updated form included with this addendum. Requirements for asbestos inspection and removal have been changed.

Drawings:

1. Replace Title Sheet & Recapitulation of Quantities – Sheets 1R1 & 2R1 with the updated sheets included with this addendum.
2. Replace Independence Mill & Overlay – Sheets 31R1 & 32R1 with the updated sheets included with this addendum.
3. Replace Intersection Details – Sheet 43AR with the updated sheet included with this addendum.

NOTE: Bidders must acknowledge receipt of this Addendum by listing the number and date, where provided, on the Bid Form - Document 00410.
