## HIGH-PRIORITY UNFUNDED NEEDS

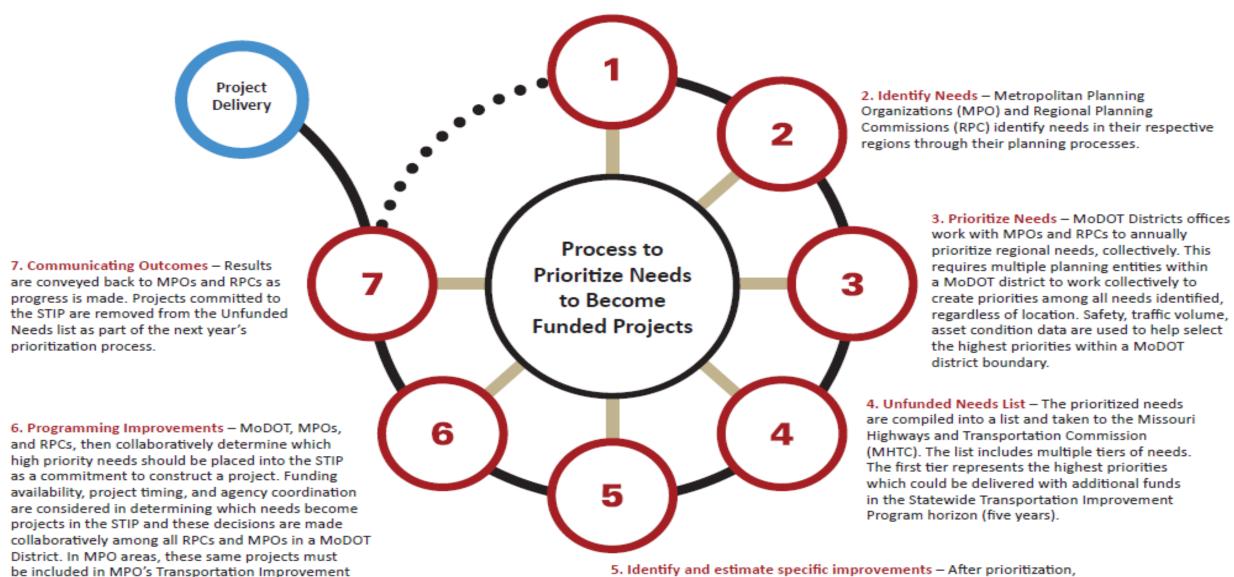

Nov. 2021

1. Establish a vision – MoDOT's vision for its transportation future is best captured by the five goals established by Missourians in the Long-Range Transportation Plan. In priority order, they are: 1) Take care of the transportation system; 2) Keep all travelers safe; 3) Invest in projects that spur economic growth and create jobs; 4) Give Missourians better transportation choices; and 5) Improve reliability and reduce congestion.

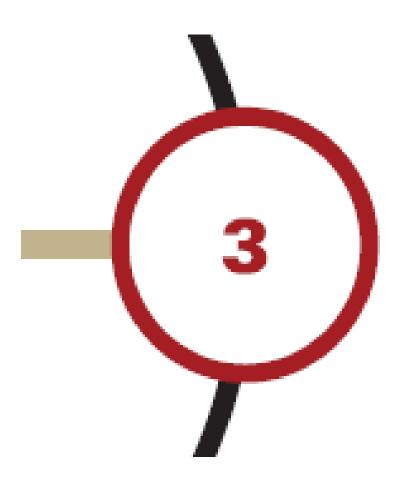

needs are analyzed to determine the most complete, efficient, and cost-

effective transportation improvements. This is also known as scoping.

Programs by their respective Boards' of Directors.

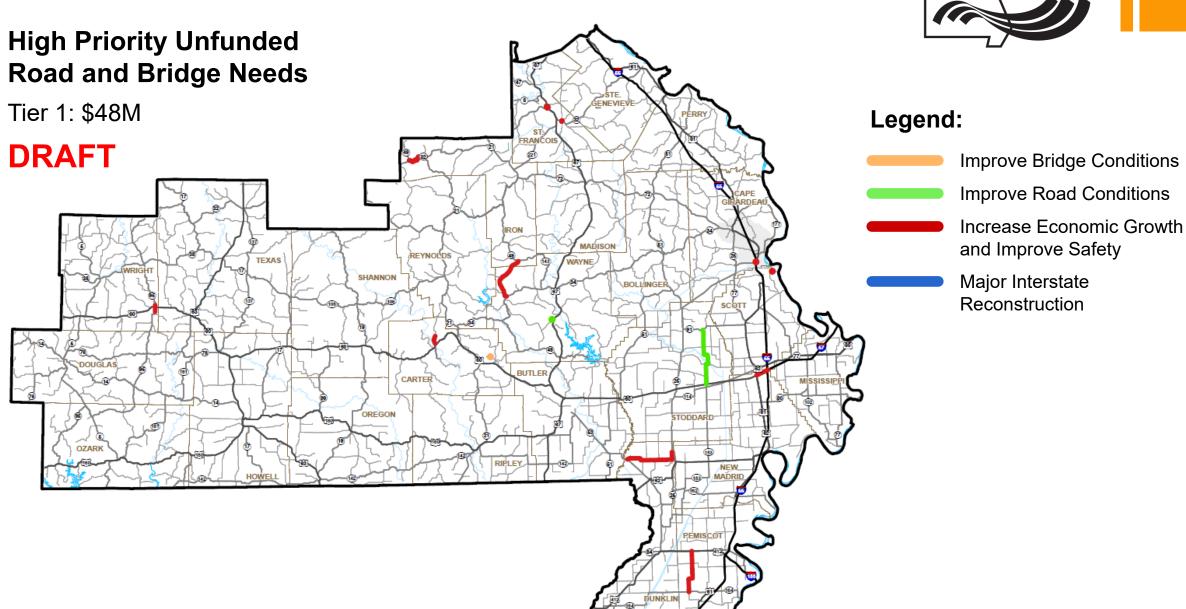

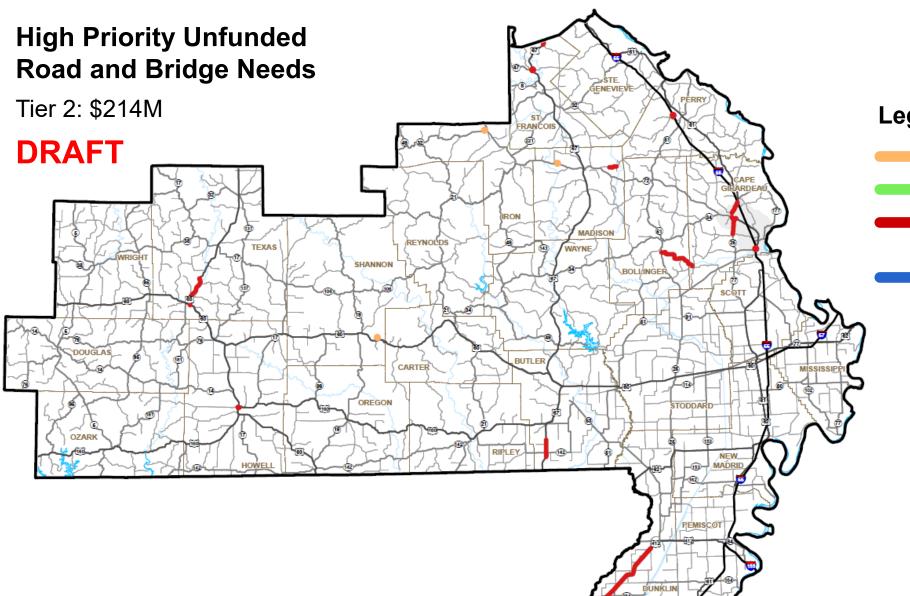

3. Prioritize Needs – MoDOT District offices work with MPOs and RPCs to annually prioritize regional needs, collectively. This requires multiple planning entities within a MoDOT district to work collectively to create priorities among all needs identified, regardless of location. Safety, traffic volume, asset condition data are used to help select the highest priorities within a MoDOT district boundary.
