Scaling Box, Delete Page, Apply/Add Other, NB, SB, EB, WB, Approaching, Looking Towards, Looking At, As Seen From, Top, Prev, Next, Down.
- Input Fields: EVGC#, MSHP#, County, Route, At, City, Fatalities, Serious Injuries, Date, Reviewer.

Description and Benefit

Excel VBA Macro programmed to input photos taken of highway crash scenes and process/format into series of photo pages complete with needed information, for archiving and legal purposes. Uses existing MS Windows/Excel capabilities to enable user to take collection of several photos and compile each into a standard-formatted and populated form using only a few buttons clicks. Macros and user form performs series of tasks that otherwise would take several steps by user.
