

Highway and Bridge Construction Schedule RSMo 21.795.3(3)

Introduction

The information in this section is in accordance with the highlighted portion in the following section of the reporting statute. *"(3) The proposed allocation and expenditure of moneys and **the proposed work plan for the current fiscal year, at least the next four years**, and for any period of time expressed in any public transportation plan approved by either the general assembly or by the voters of Missouri. This proposed allocation and expenditure of moneys shall include the amounts of proposed allocation and expenditure of moneys in each of the categories listed in subdivision (1) of this subsection; ..."* Section 21.795.3(3), RSMo Supp. 2002 (L. 2003 TAFP HB 668) (emphasis added).

MoDOT has proposed a specific plan for highway construction covering the next five years. The plan relies only on currently anticipated revenues, and it specifies projects assumed to be placed under contract or authorized for right-of-way acquisition in the state fiscal years 2008 through 2012. As each year of the plan is completed, a new year is added. This plan also includes other modes of transportation.

The 2008–2012 STIP incorporates new projects in 2012. This happens each year – as one year of projects is completed, another year is added. The construction schedule identifies all projects located on the state system.
