Section I: Scope of Work

St. Charles County is seeking assistance of a qualified consultant for design, project management, and integration support for Automated Traffic Signal Performance Measures (ATSPM) for traffic signals along the corridors Elm St, Fifth St, First Capitol Dr/ Kingshighway Blvd, and Zumbuhl Rd. This is to include design plans, integration assistance, installation of new Advanced Traffic Controllers (ATC) capable of high-resolution data logging, new non-invasive vehicle presence detection systems, new non-invasive advanced vehicle detection systems, and NEMA traffic signal cabinet upgrades. These improvements will work together to generate data for a full suite of automated signal performance measures.

It is also proposed to have a qualified traffic engineer develop traffic signal timing plans following the installation of traffic controllers, detection systems, and cabinet upgrades to ensure the network of intersections are operating at optimum efficiency.

A Statement of Qualifications shall be submitted by firms that have a capable and demonstrable background in the Project Details described herein. Additionally, all interested firms shall have sufficient, readily available resources in the form of trained personnel, support services, specialized consultants, and financial resources to carry out the work without delay or shortcomings.

Project Locations

The project outlined herein is within the County of St. Charles in the State of Missouri. The following intersections are included in the project (**see Exhibit A**):

The Consultant will be responsible for all aspects of work needed to complete the project requirements as outlined in the following Project Details, Tasks 1-3. Tasks include but are not limited to the following:

- Design, project management, procurement.
- Construction engineering and inspection.
- Quality of data assurance.
- Integration and implementation support services.
- Submittals as required by MoDOT's local road program.

The Consultant will also be responsible for project documentation and submittals associated with a federal aid project including but not limited to field logs and diaries, reimbursement requests, and other submittals as required by MoDOT's local road program.

Integration and implementation support duties may include, but are not limited to, operation and monitoring of the centralized traffic management system and ATSPM module, planned and unplanned response to traffic, controller database management, signal operations and communications troubleshooting, system training, system reporting, timing plans, work zone safety, public outreach, and other staffing and support.

Project Details

Task 1 Project Management

This task includes general project management related tasks including preparation of invoices, budget oversight, project scheduling, and general project coordination. A project kick-off meeting with maintaining agencies to establish project scope, schedule, and deliverables, as well as obtain special requests and considerations is mandatory. Additional progress meetings or calls between St Charles County and the Consultant are expected through the life of the project in order to provide project updates, review alternatives, etc.

Task 2 Roadway Improvements

This task involves design of new, non-invasive vehicle presence detection and advanced vehicle detection systems, as well as removal of existing controllers and cabinet equipment to be replaced by new ATC controllers and cabinet equipment. These devices will be capable of high-resolution data logging needed to support automated signal performance measures reporting. These elements will need to be designed and configured for optimal deployment to produce quality data and work with the ATSPM module.

Task 3 Signal Timing Development and Implementation

The Consultant will implement new signal timing plans once ATSPM Verification, Testing, and Training procedures are complete. The Consultant will provide monitoring and reporting support for the ATSPM module in the evaluation of existing and proposed signal timing plans. The module's reports and tools will allow for greater analysis, which may lead to adjustments during and after implementation of the proposed signal timing plans. The following sub-tasks shall be performed as part of signal timing plan development, implementation, and reporting:

- Perform thorough field investigation, survey, review & observation of existing conditions of the intersections and corridors.
- Obtain 15-minute turning movement counts for a minimum of eight (8) hours during a typical weekday (Tuesday-Thursday) and a minimum of four (4) hours on Saturday at each intersection (to be approved by the maintaining agency).
- Obtain seven-day, 24-hour traffic counts for the corridor (locations to be approved by maintaining agency).
- Develop signal timing plans as needed (consider AM, Midday, PM, Off-Peak, and Saturday Midday plans as a minimum).
- Evaluate yellow change, red clearance, and pedestrian clearance intervals.
- Build of Synchro (latest version) models for signal systems.
- Review locations and movements with excessive delays.
- Analyze left turn TOD phasing (FYA) and implementation.
- Prepare a pre-implementation memo including at a minimum Existing Condition Summary, Day Plan Schedule, Synchro Timing Report and Time Space Diagrams.
- Implement signal timing plans and update of controller databases.
- Perform observations following implementation and make timing adjustments as needed.
- Respond to customer service calls regarding complaints and make adjustments as needed.
- Complete field observation sheets; and
- Prepare a Final Report including arterial analysis (arterial travel times, delays, avg. speeds, number of stops, arterial LOS, etc.) and intersection analysis (movement delays, queuing, LOS, MOE, etc.). Atypical corridor problem movements/ locations should also be noted. This report will also identify improvements to the corridor in terms of annual reductions in fuel consumption costs and vehicle pollutant emissions. Short derivation of values obtained must be included, such as data and formulas used and where obtained.

- Submit a Data Appendix including collected turning movement count data, 24-hour traffic count data, change interval timing calculation sheets, travel time delay data, fuel, costs, and emissions data tables, left-turn capacity analysis sheets, and observation sheets.

Section II: Qualifications for the Project

1. **Letter of Interest.** The responding firm must provide a letter of interest limited to five pages maximum. This letter should include a statement to indicate your firm's understanding of the project. It should also include any other information which might help us in the selection process, including key personnel you would assign to the project and the backgrounds of those individuals, and any sub-consultants you would propose to use, and an indication of your firm's approach to promoting and developing a diverse workforce. The letter must include name, phone number, and email address of the person who the County should contact in the event that questions arise regarding the firm's submission.
2. **Qualifications.** Please attach up to four pages with detailed information on similar projects that your key personnel have worked on. Indicate the role your key personnel played in the projects and include reference contact information.
3. **Schedule.** Please provide a proposed schedule including project milestones and deliverables limited to one page.
4. Subcontractors List
5. Disadvantage Business Enterprise (DBE) List (DBE Goal 12%)
6. Statement of Qualification (RSMo 8.285 through 8.291)
7. Affidavit of Compliance with the Federal Work Authorization Program
8. E-Verify Memorandum of Understanding (15 CSR 60-15.020)

Section III: Evaluation Criteria

Partners of the Gateway Green Light will evaluate firms based on:

- Past Performance – signal optimization projects of similar size and scope (maximum of 35 points)
- Qualifications of Personnel Assigned – qualities/experience of individual employees to be designated to the various tasks for this specific job (maximum of 25 points)
- Familiarity/Capability – basic technical/engineering knowledge of the corridor(s), suggesting rudimentary traffic control strategies for improvements and offering mitigation strategies for saturated conditions when applicable (maximum of 15 points)
- General Experience of Firm – similar types of signalized corridors of size and volumes and/or related type work of the many tasks of signal optimization (maximum of 15 points)
- Accessibility of Firm and Staff – knowledge/aquaintance of the area and/or previous responsiveness of local needs (maximum of 10 points)

Firms will be evaluated based on satisfaction of scope requirements and deliverables. Remote communication to the Gateway Green Light advanced traffic management system is required.

Section IV: Selection Procedures

A consultant will be selected by St. Charles County and its project partners – which includes City of St. Charles – after analysis of all information provided in the Qualifications. Interviews and presentations will not be required.

This request does not commit the County to award a contract, to pay any costs incurred in preparation of a response to this invitation, or to procure or contract for services or supplies. The County reserves the right to accept or reject any or all responses received as a result of this request, or to cancel this request in part or in its entirety if it is in the best interest of the County to do so. Respondents shall not offer any gratuities, favors or anything of monetary value to any officer, employee, agent, or director of the County or its project partners for the purpose of influencing favorable disposition toward either their proposal or any other proposal submitted as a result of the Request for Qualifications.

The County reserves the right to suggest to any or all respondents to this RFQ that such respondents form into teams or organizations deemed to be advantageous to the County in performing the scope of work. The County will suggest the formation of such teams when such relationships appear to offer combinations of expertise or abilities not otherwise available.

Respondents have the right to refuse to enter into any suggested relationship.

All proposals submitted hereunder become the exclusive property of the County.

Exception Sheet

If the item(s) and/or services proposed in the response to this Request for Qualifications is in any way different from that contained in this Request for Qualifications, the Firm is responsible to clearly identify all such differences in the space provided below. Otherwise, it will be assumed that the Firm's offer is in total compliance with all aspects of the Qualification.
