

# Trail & Sidewalk Design

Connective. Accessible. Natural.

Solutions That **Inspire.**

**KLINGNER**  
& ASSOCIATES, P.C.  
Engineers • Architects • Surveyors

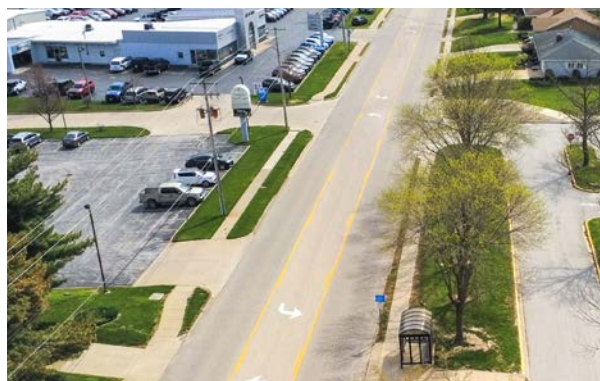

## Improving essential infrastructure...

Trails and sidewalks encourage healthy lifestyles, create opportunities for outdoor recreation, increase safety, and so much more.

The designers at Klingner believe that sustainable, inviting, and economical designs are the best way to foster community connectivity. Routes, materials, and landscaping are selected on a project-by-project basis. This more conscientious and practical approach allows us to reduce long-term maintenance for stakeholders while creating unique experiences.

### HIGHLIGHTED SERVICES

- ✓ Walking Trails
- ✓ Multiuse Paths
- ✓ Bike Trails
- ✓ Nature Paths
- ✓ Sidewalks
- ✓ ADA Corners
- ✓ Signage Design

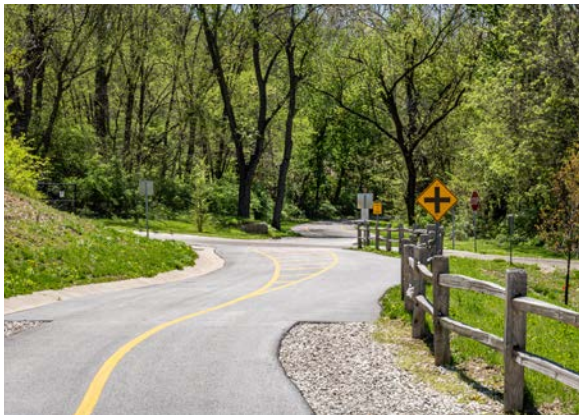

*"Outstanding customer service! This perfectly illustrates what we want to convey in a very easy-to-understand format. Great job!"*

**Terry Bruns, Planning & Development Program Director**  
Missouri State Parks

## Committed To Natural Habitats

By becoming familiar with site habitats, we build a better understanding of the native flora; fauna; and the food, water, nutrients, space, and shelter that is necessary for them to thrive. At Klingner, we are committed to helping the biodiversity of natural areas remain stable or thrive. To do so, our designs consider maintenance, the long-term ability of an area to maintain populations, and what is required for the conservation of an area.

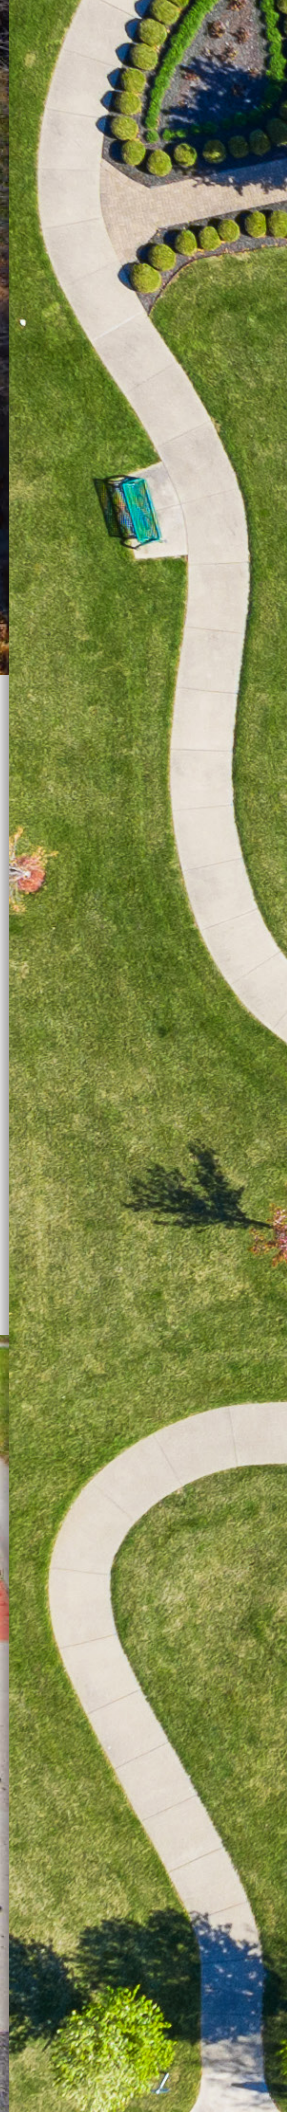

## Accessible Experiences

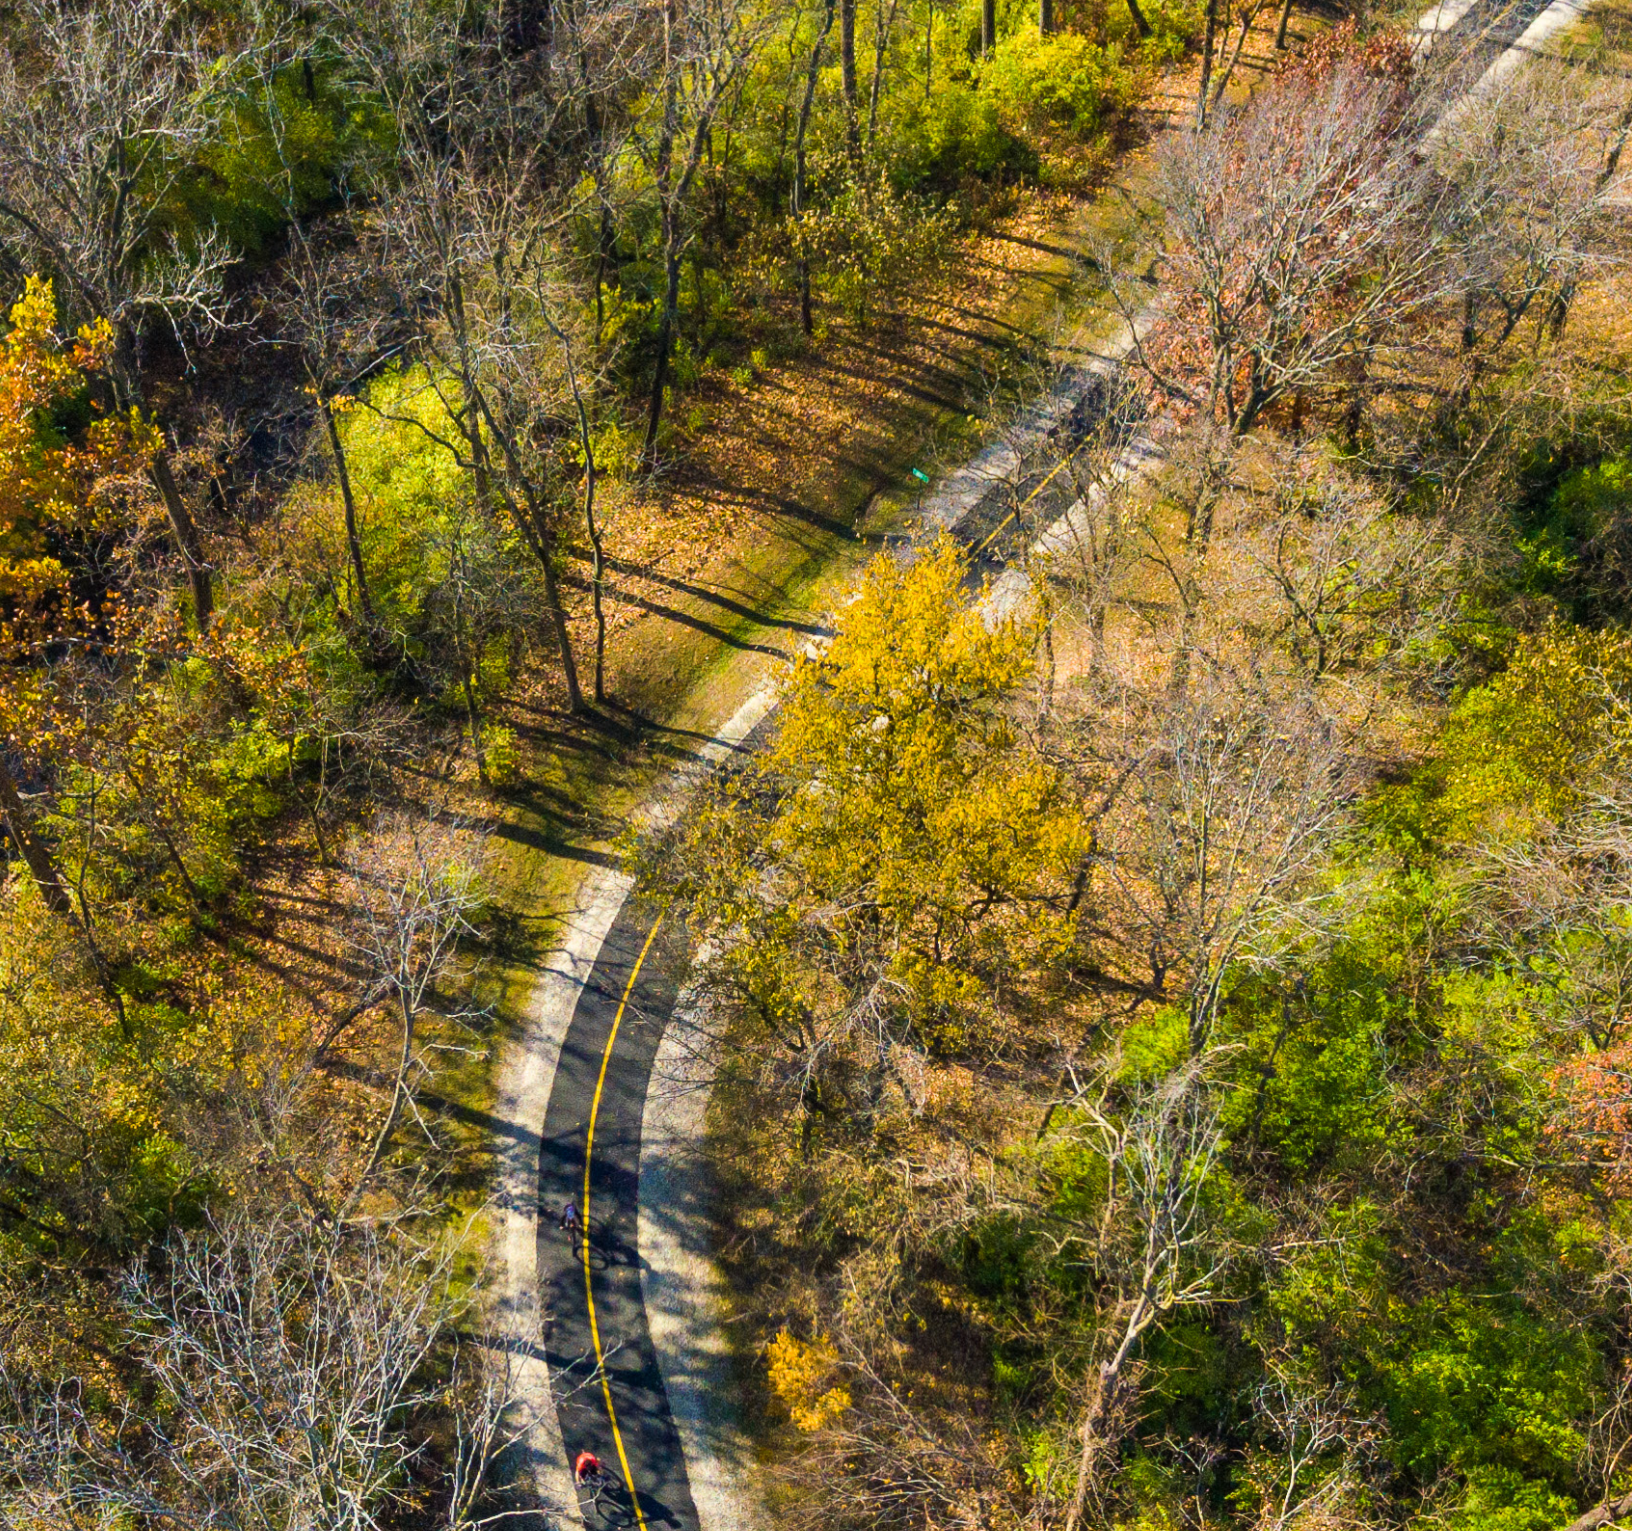

Whether we are designing a neighborhood sidewalk or wooded walking trail, continuous accessibility is one of our top priorities. Klingner plans sidewalk / trail widths, slopes, and cross slopes; curb ramps and detectable warnings; gutters; and driveway approaches to facilitate safe passage for all users. In our recreational trails, this manifests in carefully-chosen routes that not only showcase an area's natural beauty, but that also minimize grading work – ultimately reducing construction costs.
