

MORE THAN ENGINEERING. MAKING LIVES BETTER.

We're engineers, yes – but also visioneers, driven to make lives better. We think like owners. We do whatever it takes to get your job from concept to completion. We help you navigate opportunities like funding and building public support for a project. Always adding value and imagining what's possible. Our engineering and planning expertise includes transportation, aviation, structures, water, wastewater, stormwater management, land development, landscape architecture, construction observation, administration, surveying, and community development.

Since 1956, McClure has grown to a firm of **220** professionals in **eleven** offices located in Ankeny, Carroll, Cedar Rapids, Clive (headquarters), North Liberty, Fort Dodge, and Sioux City, Iowa; North Kansas City, Macon, and Columbia, Missouri; and Lenexa, Kansas. McClure has **sixty** Professional Engineers, **twelve** Professional Land Surveyors, **three** Licensed Landscape Architects, **four** LEED Accredited Professionals, **two** Certified Envision Sustainability Professionals, and **one** AICP Certified Planner.

Our team members embrace our core values — integrity, kindness, innovation, commitment, and fun and fulfilling. We are committed to providing outstanding project delivery services, personal communication, and innovative and cost-effective design. If you've got a vision, we've got the team to bring it to life. When you choose McClure, you're choosing a partner with an unmatched depth of experience, all the specialists you need, and a passion for building great communities. **It's time to get to work.**

YOUR VISION. ENGINEERED HERE.

TRANSPORTATION

DRIVING GROWTH IN YOUR COMMUNITY.

Most people look at roads as a means to get from Point A to B. McClure considers transportation as a way to make lives better by connecting people. It's not just about concrete and asphalt. A smart and safe transportation system is an economic lifeline for communities, critical in attracting and retaining talent for businesses. So, while we work like engineers in executing your transportation project—we also think like city managers and developers, looking for ways to increase the impact and return on your investment.

We consider public engagement an essential element of our standard of service on every project. This means we actively listen to comments from our clients, the community, and other stakeholders, so we can understand their questions or concerns. You want to see your community grow and thrive. Our engineers and traffic specialists share your vision, connecting people with prosperity.

WHERE WE MAKE AN IMPACT:

- ADA Compliance
- Asset Management
- Bridge Design and Inspection
- Capital Improvement Plan (CIP) Preparation
- Construction Administration
- Corridor Analysis/Redevelopment
- Geographic Information Systems (GIS)
- Geotechnical Engineering
- Grant Funding Applications
- Institutional Roadway Design
- Intelligent Transportation System (ITS)
- Multi-Modal Facilities
- Municipal Roadway Design
- Pavement Management
- Pedestrian Trails
- Primary and Non-Primary Highways
- Rail Design
- Right-of-Way Acquisition
- Special Assessment Assistance
- Streetscape and Downtown Revitalization
- Traffic Incident Management Services
- Traffic Operations
- Transportation Planning

BRIDGE

KEEPING PEOPLE CONNECTED AND COMMUNITIES THRIVING.

It's more than a county bridge. It's the road to a better economy. A pathway for kids to get to school. A bond that connects people. With more than 60 years of transportation and bridge engineering expertise, our mission is simple: Keep people connected and communities thriving. We inspect, design, and repair a multitude of bridges, including steel and concrete I-beam, prestressed concrete, metal truss, steel, and concrete culverts, metal arch, and concrete arch structures. Finding the right partner can help you find the right funding in times of limited budgets. That's why we think beyond the specs and the structure. Doing everything we can to keep your community more livable and viable.

WHERE WE MAKE AN IMPACT:

General Bridge Services

- Coatings and Corrosion Consultation
- Conceptual and Preliminary Design
- Construction Administration and Observation
- Feasibility Studies
- Final Design (ASD, LFD, and LRFD)
- Fracture Critical Bridge Inspection
- Load Rating (ASR, LFR, and LRFR)
- Routine Inspection and Condition Evaluation

Inspection, Design, and Repair

- Culverts
- Foundations (Spread and Deep)
- Pre-Stressed Concrete
- Reinforced Concrete
- Retaining Walls

- Seismic Design
- Steel (Plate, Girder, and Wide Flange)
- Truss

Support Services

- Geotechnical Design
- Hydraulics
- Maintenance of Traffic
- Right-of-Way Acquisition
- Roadway
- Safety
- Survey with LiDAR
- Utility

STRUCTURAL

HELPING BUILDINGS STAND TALL AND STAND OUT.

You want to make buildings that make an impact. We can bring your ideas to life. At McClure, we think beyond concrete and steel, creating innovative structures that wow with design. And functionality. We restore buildings to their former glory. And adapt historical buildings to a modern world.

You can rely on us for speed and responsiveness when fast action is critical to the success of your project. And you'll appreciate our ability to anticipate problems before they occur. We think like owners, partners, and entrepreneurs, always looking for better ways to make your vision even better. You want to create livable spaces where memories are made—or kept alive. Let's build on those ideas together.

WHERE WE MAKE AN IMPACT:

- Blast and Progressive Collapse Resistant Structures (D.O.D.)
- Post-Tensioned Structures
- Complex CFS Framing with Radiused Surfaces
- Engineer of Record Architectural Services
- Full Building Systems Designed with Cold-Formed Steel (CFS)
- Historic Rehab and Repurposing
- Industrial and Manufacturing Structural Services
- Licensed in 48 States plus D.C.
- Modular and Prefabrication Design
- Non-Bearing CFS Cladding and Wall Systems
- Peer Reviews and Expert Witness
- Reinforced Concrete including Precast and Prestressed
- Special Analysis—Vibration, Instrumentation, Testing, High Seismic, etc.
- Specially Designed CFS Roof and Floor Open Web Trusses
- Storm Shelters and Hardened Structures
- Structural Evaluations, Insurance, and Property Assessments
- Value Engineering Solutions including Design-Build Experience

LANDSCAPE ARCHITECTURE

CONNECTING PEOPLE WITH NATURE.

When you think about what makes a city unique, you think of beautiful, natural spaces. Gathering places where people play, catch up or just relax. A little oasis in the middle of a modern world. At McClure, we create and shape vibrant spaces, making your city healthier and more livable. Our pedestrian oriented designs attract 21st century workforce while improving air and water quality.

Whether it's coming up with a master planned vision for your site, or a residential, commercial, industrial, or recreational project, our landscape architecture team offers expertise at every stage. We also excel at 3D modeling, hardscape design, and green infrastructure. Community parks, rain gardens, bioswales, or beautification projects add value and prestige to your city. Create them with a team that adds value to your project all along the way.

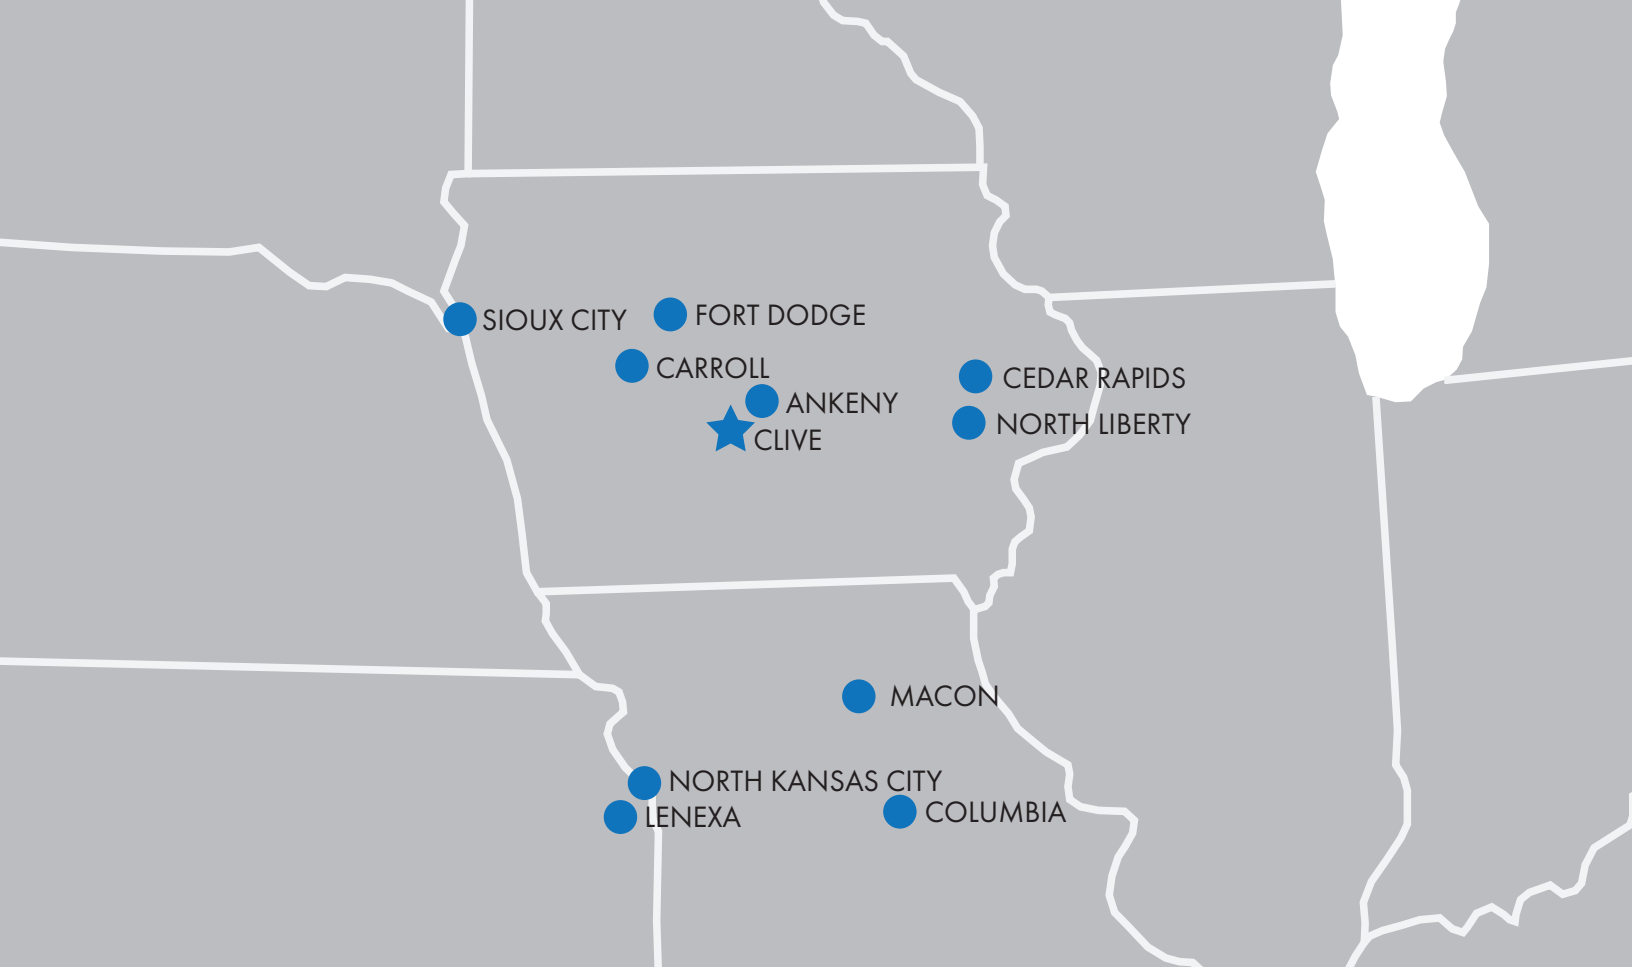

WHERE WE MAKE AN IMPACT:

PLANNING

- Community Planning
- Cost Analysis/ Funding Assistance
- Design/Build Options
- Downtown Redevelopment Planning
- Multi-Modal Facilities
- Park Master Plans
- Preliminary & Final Landscape Plans
- Streetscape Design
- Sustainable Design Concepts

DESIGN

- 3D Modeling
- Community Outreach and Public Involvement
- Design Guidelines
- Green Infrastructure
- Hardscape Design
- Natural Areas/Wetlands
- Parks and Recreation
- Sports Complexes
- Streetscape Design, Complete Streets, and Traffic Calming
- Trails
- Wayfinding/Signage/Monumentation Design
