# PROJECT DETAILS

## **Why is MoDOT planning changes?**

Adding acceleration and deceleration lanes, installing offset left-turn lanes, and removing the crossover will provide safer turning opportunities at the U.S. Route 54 intersection with Old Jefferson City Road/County Road 306.

## **How will traffic be impacted?**

The roadway will remain open during construction. Single-lane closures may take place under traffic control during working hours. The crossover at the intersection will be permanently closed, beginning with the onset of construction.

## **What is the cost of the project?**

The anticipated total cost for this project is \$1.6 million.

## **When is MoDOT planning to make the improvements?**

At this time, the project is expected to be part of MoDOT's November 2023 letting, when contractors may submit competitive bids.

Construction is anticipated in 2024.

As with all projects that are in the planning stage, these dates are subject to change.
