**Missouri Eastern Railroad**  
**Union Transload Facility Project**  
**Union, Missouri Franklin County**  
**Notice to Engineering Firms**

Interested parties are invited to submit a proposal to complete the below scope for the proposed Missouri Eastern Railroad (MER) Union Transload Facility project in Union, MO.

**Scope of Work**

MER Union Transload Facility project will be completed in Union, Missouri. Engineering Firm services will provide all necessary labor and support to complete the 100% engineering design for the facility. Total construction of the facility must be completed by June 15, 2024. The scope of services is further described as follows:

- Provide professional engineering, consulting, and related services in connection with the project.
- Complete engineering survey and design plans, permitting for Union Transload Facility Project.
- Coordinate with permitting agencies to update property owners' legal information.
- Prepare engineers estimate.
- Prepare technical specifications.
- Prepare construction bid and contract documents.
- Prepare the anticipated schedule.
- Attend Pre-bid meeting.

**Standards**

All standards referenced by project plans and specifications will meet AREMA standards and approval by Missouri Eastern Railroad (MER).

**Submittals**

The following documents shall be submitted by the firm as part of the project at the times listed.

1. Firms may request Prequalification Questionnaire at email address.  
[tcx@jag-transport.com](mailto:tcx@jag-transport.com)
2. Prequalification Questionnaire due back by August 30, 2023 at 11:59pm CDT.
3. Certificate of Insurance – Submitted prior to site entry.
4. All firms must recognize this is a state contract.
5. This work will be offered for one lump sum fee.

**Submission of Proposals**

All proposals must be submitted no later than September 6, 2023 by at 11:59pm CDT. All proposals will be reviewed by MER and MODOT. Please ensure your proposals include all required information. All incomplete proposals shall be rejected. Firms who wish to submit a proposal must have completed the Pre-Qualification questionnaire. The structure of your proposal must be clearly understood and shall provide the following line items:

1. Provide professional engineering, consulting, and related services in connection with the project.
2. Complete engineering survey and design plans, permitting for Union Transload Facility Project.
3. Prepare engineers estimate.
4. Prepare technical specifications.
5. Prepare construction bid and contract documents.
6. Prepare the anticipated schedule.
7. Attend Pre-bid meeting.

Proposals shall be submitted at email address [tcx@jag-transport.com](mailto:tcx@jag-transport.com)
