# BRIDGE REPLACEMENT PROJECT

Dent County  
Route 19  
Standing Rock Creek Bridge

## PROJECT HIGHLIGHTS

- **Construction:** 2024
- **Location:** Missouri Route 19 between Salem and Gladden in Dent County.
- **Traffic impact:** Full road closure (closed up to 45 days) with signed detour
- **Cost estimate:** \$1,830,000
- **Average daily traffic:** Approximately 950 vehicles daily.

Subject to change. Information current as of September 2023.

# PROJECT DETAILS

## **Why is MoDOT planning changes?**

The Standing Rock Creek Bridge, sometimes referred to as the Gladden Creek Bridge, is 100 years old, in poor condition and does not meet current standards. The new longer, wider bridge will be a prestressed concrete girder bridge without the overhead truss that currently limits the passage of larger agricultural and commercial equipment over the span. Alignment of the new bridge will also be shifted slightly to allow for curve correction.

## **How will traffic be impacted?**

Route 19 will close to all traffic at the bridge for up to 45 days. A signed detour will direct motorists around the closure.

## **What is the cost of the project?**

The anticipated total cost for this project is \$1.83 million. This is subject to change.

## **When is MoDOT planning to make the improvements?**

At this time, the project is expected to be part of MoDOT's January 2024 letting when contractors may submit competitive bids.

Construction is anticipated to take place in 2024, however the exact schedule of the 45-day closure has not yet been determined.

It is vital that stakeholders provide input during the open comment period (Sept. 28 - Oct. 13, 2023) to help the project team determine the parameters to build into the contract that will guide the contractor during the construction process.

As with all projects that are in the planning stage, these dates are subject to change.
