City of Lake Saint Louis Department of Public Works

307 Parkway Industrial Drive Lake Saint Louis, Mo. 63367

Date: September 27, 2023

Dear Consultant:

The City of Lake Saint Louis is requesting the services of a consulting engineering firm to perform the described professional services for the project included on the attached list. If your firm would like to be considered for these consulting services, you may express your interest by responding to the appropriate office, which is indicated on the attachments. Limit your letter of interest to no more than <u>5</u> pages. This letter should include any information which might help us in the selection process, such as the persons or team you would assign to each project, the backgrounds of those individuals, other projects your company has recently completed or that are now active, and unique approaches or insights applicable to this particular project. It is required that your firm's Statement of Qualification (RSMo 8.285 through 8.291) be submitted with your firm's Letter of Interest. The statement of qualification is not included in the total page count limit.

DBE firms must be listed in the MRCC DBE Directory located on MoDOT's website at <u>www.modot.gov</u>, in order to be counted as participation towards an established DBE Goal. We encourage DBE firms to submit letters of interest as prime consultants for any project they feel can be managed by their firm.

It is required that your firm be prequalified with MoDOT and listed in <u>MoDOT's</u> <u>Approved Consultant Prequalification List</u>, or your firm will be considered nonresponsive.

All letters must be received in a <u>sealed and clearly labeled envelope</u> by $\underline{12}$ pm, 10/19/2023 delivered to:

Lake Saint Louis City Clerk's Office 200 Civic Center Drive Lake Saint Louis, MO 63367

Please note: The outside of the envelope should be clearly labeled "RFQ No. 12-23 Lake Saint Louis Boulevard S Phase 2 Improvement Project" It is recommended that this sealed envelope be placed inside the shipping envelope as the shipping envelope will likely be opened.

Deliveries may be made in person, via parcel service (FedEx, UPS, etc.), or via US mail. It is recommended that several days additional time be allowed if using an option without guaranteed delivery and tracking. Late deliveries will not be accepted.

Sincerely,

Jerry Rigdon

Terry Rigdon Director of Public Works

City of Lake	e Saint Louis	
Lake Saint Louis Boulevard S	Phase 2 Improvement Project	
Federal Aid No:	STBP /302 (/01)	
Location:	Lake Saint Louis Blvd (Hawk Ridge Circle	
Due a constante de la constante	to Hawk Ridge Irail).	
Proposed Improvement:	I his project proposes widening Lake Saint	
	Louis Blvd from 2 to 3 lanes, new curb and gutters, closed drainage length of project	
	6' and 10' shared nath sidewalks	
I ength:	0.36 Miles	
Approximate Construction Cost:	\$3 304 647	
DBF Goal Determination:	12%	
Consultant Services Required:	Major Project scope items include:	
Consultant Services Required.	Poodway Widening	
	Curb and Gutter	
	Curb and Outler	
	• Storm Sewers	
	• Sidewark/Pedesirian Improvements	
	• Utility relocations, if required	
	T1	
	The engineering responsibilities may	
	include but are not limited to the following:	
	The preparation of Conceptual plans,	
	Preliminary plans, Contract plans. Design	
	services may include, right of way plans,	
	surveying, geotechnical investigations,	
	traffic engineering, retaining wall design,	
	storm water drainage design, public	
	involvement, contract documents, assisting	
	with the bidding process, construction	
	support as needed, utility coordination and	
	traffic controls including the preparation of	
	PS&E and final documents.	
	• Preparation and submittal of all	
	necessary environmental/historic	
	preservation documents for	
	clearance as necessary	
	• Preparation of all permitting	
	required	
	• Conduct topographic and ROW	
	surveys at the project intersections	
	and prepare electronic deliverables	
	• Review application and recommend	

 changes to the project as necessary to conform to applicable standards. Prepare concept engineering plans (30%) that include horizontal alignment, vertical alignment, basic intersection geometrics, traffic engineering related to RRFB's and pedestrian crossings, conceptual improved drainage design, conceptual traffic control plan, and cost estimate Prepare ROW plans (70%) and associated legal documents for the City to obtain required easements and ROW needed for the project Prepare all ROW and easement exhibits, legal descriptions, and all other work associated to acquisition, including obtaining title commitments. Prepare draft final plans (95%) and contract documents for bidding. Submit draft final plans and contract documents. Provide final construction plans (incl. comprehensive traffic control plans) and contract documents for bidding Prepare and submit all required documentation for Plans Specs and Estimates (PS&E) approval from MoDOT. Provide exhibits, material, and staff at open house style public meetings (1 public and 1 property owner) Facilitate utility coordination by sending plans to utility companies Provide shop drawing review and clarification of plans during the construction phase services
• Attend coordination meetings as
required.
• Attend two (2) on -site visits during

	construction during critical portions		
	of work, to ensure compliance.		
Other Comments:	Submit <u>4</u> copies of RFQ		
	Approved project application is attached.		
Contact:	Name: Terry Rigdon		
	Address: 307 Parkway Industrial Drive		
	Lake Saint Louis, MO 63367		
	Phone: 636.695.4221		
	Email: trigdon@lakesaintlouis.com		
Deadline:	October 19, 2023 at 12:00 PM		
• Submit: Letter of interest should not exceed 11 inches and printed on one side. <u>4</u> at the address and by the time specified. <u>One</u>	<u>5</u> pages total. A page is defined as 8-1/2 by copies of the letter interest should be received a copy of all submittals should be unbound.		

Pursuant to the Brooks Act for Consultant Selection – the following criteria will be the basis for selection. Additional criteria can be added with the approval of Central Office Design- MoDOT.

Experience and Technical Competence -	<u>_30</u>	Max Points
Capacity and Capability -	<u>25</u>	Max Points
Availability of staff assigned to project to attend project meetings and meet for on-site consultation –	_10_	Max Points
Project specific factors (approach, understanding, innovative ideas) -	_10_	Max Points
Past Record of Performance -	<u> 25 </u>	Max Points

Experience & Technical Competence

Individuals: Rate the qualifications of employees designated to this specific job. Consider both Technical Competence of the employees for the given discipline or skill set, but also experience with similar projects. Recent experience with jobs of similar scope and complexity and appropriateness of qualifications should be specifically considered.

Capacity & Capability

Firm and Team: Evaluate the consulting firm for experience on similar and related types of work it has performed. Appropriateness of team size, ability to provide backup staffing if necessary without adding complexity to the project with unnecessary division of labor. Consider Firm's workload. The Firm should include a statement of QA/QC strategies and methods. The submitted schedule will also be evaluated as part of this portion of the rankings.

Availability of Staff

Key personnel should be reasonably available for meetings. Geographically distant or disbursed personnel would normally reduce this score without appropriate mitigating strategies, and justification.

Project Specific Factors

The proposal should include some degree of narrative describing the firms approach, project understanding, and highlight innovation the team can bring to the project. This score is an opportunity to reward outstanding insight or approaches.

Past Record of Performance

Quality of work performed for the City on previous contracts, and responses from reference checks.

Surface Transportation Block Grant Program

2023 Call for Projects

For the St. Louis Region

Road Project Type

Sponsoring Agency:

Project Title:

Federal Amount Requested:

Applications Due: February 9, 2023 by 4:00 pm

November 2022

SURFACE TRANSPORTATION BLOCK GRANT PROGRAM (STP-S) ROAD – PROJECT APPLICATION FORM

Please refer to the STP-S Project Development Workbook and the STP-S Scoring Criteria Guide for more information on the program requirements, available funding, and scoring criteria. The STP-S Project Development Workbook, STP-S Scoring Criteria Guide, and supplemental materials are available on the East-West Gateway Council of Governments (EWG) <u>STP-S Call for Projects</u> web page: <u>http://www.ewgateway.org/transportation-planning/transportation-improvement-program/competitive-transportation-programs/call-for-projects-stp-s/</u>

PLEASE NOTE:

This project application form is for the road project type. There are separate project application forms for the other project types, including: bridge, traffic flow, safety, active transportation, transit, and freight/economic development. If your agency is interested in applying for those project types, please obtain the application form from the EWG STP-S Call for Projects web page, or contact EWG staff for more information.

The call for projects begins on **November 4, 2022** and ends on **February 9, 2023** at 4:00 pm. Applications received after the deadline will not be accepted. Submit the completed application and necessary attachments electronically to EWG at stys@ewgateway.org. Save the electronic copy as a PDF file using the following format: 2023STPS_[Sponsor]_[Project Name].pdf. The electronic submission must include scanned signatures and attachments. Please submit one application per email. You will receive an email confirmation within one business day of submittal. If you do not receive confirmation or have questions about the application, contact EWG staff. The information provided in this application is public record.

APPLICATION FEE

An application fee is required for each project that is submitted for consideration. The application fee is ½ of one percent of the federal funds being requested. For example, a project sponsor requesting \$800,000 in federal funding would be required to pay a \$4,000 application fee. Counties make annual contributions to EWG and, as such, a credit equal to their annual contribution is applied against their application fee. Counties will be invoiced for any amount above the annual contribution credit.

The TIP Application Fee Payment Information Form must be included with the TIP application fee. This form is available on the STP-S Call for Projects web page. Application fees may be submitted by check via mail or through electronic funds transfer (EFT). Mailed application fees must be postmarked by February 9, 2023. For check payments, send the TIP Application Fee Payment Information Form and check to:

TIP Application East-West Gateway Council of Governments 1 S. Memorial Drive, Suite 1600 St. Louis, MO 63102-2451

For EFT payments, send the TIP Application Fee Payment Information Form via email to <u>tipappfees@ewgateway.org</u>. EFT payments are due by February 16, 2023.

CONTACT INFORMATION

Jason Lange, TIP Coordinator East-West Gateway Council of Governments 1 S. Memorial Drive, Suite 1600 St. Louis, MO 63102-2451 E-mail: <u>stps@ewgateway.org</u>

¹ EWG Functional Classification maps: <u>http://www.ewgateway.org/transportation-planning/roadway-functional-classification/</u>.

² If source is state DOT, use data from most recent available year. If source is a count conducted by the local agency, must be within five years. ³ <u>Poor</u>: the sidewalk has deep cracking and buckling, poor drainage, or tree root damage). Impassable to mobility impaired pedestrians. <u>Fair</u>: the sidewalk contains cracks or an uneven and distressed surface. Hinders mobility of the average pedestrian. <u>Good</u>: the sidewalk is free from significant cracking, buckling, or gravel surfaces. Unlikely to hinder mobility of the average pedestrian. <u>Excellent</u>: the sidewalk is in like new condition and contains no cracking or buckling. Does not hinder mobility of the average pedestrian. <u>None</u>: no sidewalk is present. ⁴ On-road bicycle facility includes: bike lanes (separated, buffered, and standard). **Shared-lane markings (sharrows) and share the road/bikes may use full lane signage are not bicycle facilities**. View the EWG Bicycle Planning Guide for a description on bicycle facilities: <u>https://www.ewgateway.org/wp-content/uploads/2018/07/BicyclePlanningGuide_June2018.pdf</u>.

PROJECT DESCRIPTION

Define the **scope** and **specific elements** of the project. Describe current conditions / problems / issues that the project will address. Be as specific as possible.

COMMUNITY SUPPORT

Describe the public involvement activities to date on the proposed project:

ROAD – PROJECT APPLICATION FORM 2023 CALL FOR PROJECTS

PROJECT DEVELOPMENT	SCHEDULE r concurrently.				
			Start Date	Finish Date	Time Frame
Activity Description					
Execute agreement (project sponsor and DOT)		10/2023	10/2023	1	
Engineering services contract submitted and approved*					
Obtain environmental cleara	ances (106 CF2 T&	Fetc)			
Public meeting/hearing	1000, 002, 10	2, 200.7			
Develop and submit prelimit	nary plans				
Preliminary plans approved	,				
Develop and submit right-of	-way plans				
Review and approval of right	t-of-way plans				
Submit and receive approva	al for notice to prod	ceed for			
Right-of-way acquisition (A-	Datej				
Utility coordination					
Develop and submit PS&F					
District approval of PS&E/advertise for bids*					
Submit and receive bids for review and approval					
Project implementation/construction					
* Finish date must match fiscal year for each milestone shown in bold text.					
FINANCIAL PLAN Note: federal participation for a phase of work must not exceed 80% in Missouri for all phases of work and 80% in Illinois for construction/construction engineering phase only. In Illinois, PE and right-of-way must be paid with local funds.					
Activity ⁶	Starting Federal Fiscal Year ⁷	Total Phas Cost	e STP-S Fund Requested	ls d Sponsor Shar	Sponsor Share e Percentage
PE / Planning / Environmental Studies	FY				
Right-of-Way (ROW)	FY				
Construction Engineering	FY				
Construction / Implementation	FY				
TOTAL	PROJECT COST				

Identify the source(s) of local matching funds (e.g., state DOT, city, county, county road board, county motor fuel tax, private entity), and the amount for each source:

⁶ <u>Illinois</u>: construction/construction engineering funds are available in FY 2027.

Missouri: preliminary engineering (PE) funds are available in FY 2024, right-of-way (ROW) in FY 2024 (only if PE is locally funded) OR FY 2025, and construction/construction engineering in FY 2026 (if ROW is scheduled for FY 2024) OR FY 2027. ⁷ Fiscal years are federal fiscal years (October 1 through September 30).

Were there any crashes along project limits from 2016-2020? N	lote: a project can still potential	ly receive partial
points if it does not have crashes, but includes a preventive safe	ty countermeasure.	, ,
Yes No		
Total number of crashes by severity type along project limits:

MULTIMODAL	
Does the proposed project incorporate any of the following bicycle-related improvements? Separated bike lane/cycle track/protected bike lane Shared-use path/trail/arterial sidepath Buffered bike lane Standard bike lane (not buffered) Marked shared roadway (shared-lane markings, "sharrow") Paved shoulder Wayfinding or end of trip facilities Other None	
Describe the bicycle-related improvements (including 'other') in detail:	
Does the proposed project incorporate any of the following pedestrian-related improvements? New sidewalks (where none currently exist) Sidewalk spot slab improvements Sidewalk reconstruction Construction of new curb ramps (where none currently exist) Curb ramp reconstruction Sidewalk/roadway separation Wayfinding, furniture, or other end of trip facilities Pedestrian-scale lighting (e.g., glare shielded, lower height (12' to 16'), in-pavement) Other None	
Describe the pedestrian-related improvements (including 'other') in detail: Approximately what percentage of the project limits includes new or reconstructed sidewalk or	
shared-use path?	

Does the proposed project incorporate any of the following intersection or crossing treatments?
Elicycle signals or dicycle detection
Rectangular Rapid-Flashing Beacon (RRFB)
Pedestrian Hybrid Beacon (PHB or HAWK)
Marked crosswalks (standard parallel crosswalk markings or brick crosswalk)
High-visibility crosswalks (e.g., ladder, zebra, or continental crosswalk markings)
Raised crosswalks
Midblock crossings
Pedestrian refuge islands
Curb radius reduction
Curb extension or bulb-outs
Bicycle boxes
Colored pavement crossings for bicycles lanes marked through intersection
Other
None
Describe the intersection or crossing treatments (including 'other') in detail and identify crosswalk locations:
If the project incorporates any safety, traffic calming, or design improvements, describe the improvements (e.g.,
improvements at a rail-grade crossing, intersection improvements, road diets, buib-outs, raised median barriers,
center Islands, roadway markings, improved signage and signals):
Does the project improve access to transit stops, stations, park-and-ride lots, or other major transit facilities?
└
If yes, identify the bus route and/or transit facility:

Does the project incorporate improvements to existing transit ste	ops or stations (e.g., 5' x 8' ADA landing pads,
benches, shelters)?	
YesNo	
If yes, identify the improvements:	
Does the project provide direct access (i.e., adjacent) to a school	l (grades K-12 and college/university)?
Yes No	
Is the project within ½ mile of a school?	
Yes No	
If yes, identify the school(s):	
School Name	Proximity to Project
	Direct Within ½ mile
	Direct Within ½ mile
	Direct Within ½ mile
	Direct 🗌 Within ½ mile
Does the project provide direct access (i.e., adjacent) to a comm	unity resource (e.g., park/trail, full service
grocery store, civic building, library, health center, recreation cer	nter)?
Yes No	
If yes, identify all community resources (planned or existing) that	t the project directly serves:
Does the project include management and operations strategies	that optimize the performance of the read
Le g ITS technologies traffic operational improvements)?	that optimize the performance of the road
If yes, explain the strategy and how it improves the reliability of t	the transportation system:
in yes, explain the strategy and now it improves the reliability of t	

INTERMODAL CONNECTIONS
Is the project located within an industrial site area (per St. Louis Regional Freight Study)?
If yes, what is the name of the industrial site area (e.g., Broadway-Arsenal, Earth City, GM Plant)?
Is the project adjacent to or does it directly impact an intermodal freight facility, major freight generator, logistic
center, manufacturing and warehouse industrial facility, or port facility?
∏ Yes ∏ No
If yes, identify the facility or major freight generator:
Identify any commercial vehicle countermeasures proposed, and explain how the project provides improvement
to the movement of freight to and from the industrial site area, facility, or major freight generator:
ENVIRONMENT
Does the project incorporate any of the following green infrastructure improvements?
Bioswales
Rain gardens
Pervious pavements
Green bulb-outs
Solar powered lighting fixtures
Other
None None
Describe the green infrastructure improvements (including 'other') in detail:
