Missouri Skill Performance Evaluation Certificates

For Intrastate Drivers

Missouri allows individuals to apply for a Skill Performance Evaluation certificate if they are not physically qualified to drive commercial motor vehicles intrastate because of one or more of the following conditions:

- Limb amputation
- Limb impairment
- Vision impairment
- Insulin-treated diabetes mellitus

If the application is approved, the driver is authorized to haul in intrastate commerce – that is, the vehicle and its load must originate and end within Missouri's borders only.

Is the Missouri SPE certificate the same as the federal SPE certificate?
No. The Missouri certificate qualifies drivers to operate only within Missouri's borders.

The federal SPE certificate program is for interstate drivers and applies only to limb-impaired and amputee drivers.
Drivers with a vision impairment or diabetes can apply for a federal medical exemption to operate interstate.

Can I apply for an SPE certificate on my own or do I need a sponsor?
Applications can be filed by an individual driver or jointly by the driver and a sponsoring employer.

What is involved in the SPE process?
Applicants must complete an application and provide required documents. In limb-impaired/amputation cases, a skill evaluation must be performed. Vision and diabetes exemptions are submitted for public comment before a decision is made.

I already have a federal SPE certificate or medical exemption. Now I want to drive in Missouri only. Can I?
You must apply for a Missouri SPE certificate, but some application requirements can be waived if your federal certificate or exemption is still valid.

How long does the Missouri SPE certificate application process take?
Once your completed application is received, the process is normally complete within six months. However, the process could take longer if any application details or documents are missing or if scheduling issues delay a skill evaluation (when applicable).

What supporting documents are required with the application?
The documents needed vary with each disabling condition. If you are not physically qualified because of two or more of the conditions listed above, submit the required documentation relating to each condition.
Most forms are available for download at www.modot.org/mcs under Safety & Compliance Exceptions include forms provided by other agencies, such as a motor vehicle driving record or a federal SPE certificate.

NOTE: *MoDOT is neither responsible for selecting the medical specialist(s) needed to complete the application, providing the vehicle for a skill evaluation nor for any expenses incurred. These are the applicant's responsibility.*

(See the next page for a list of supporting documents.)

For example, if you answered “yes” to question #5 regarding heart disease, heart attack, bypass, or other heart problem, indicate which type of heart condition. If you checked “yes” to question #23 regarding cancer, indicate the type of cancer. Please add any information that will be helpful to the Medical Examiner.
- **CMV Driver Signature and Date:** Please read the certification statement, sign and date it, indicating that the information you provided in Section 1 is accurate and complete.

Medical Examiner:

Section 2: Examination Report

- **Driver Health History Review:** Review answers provided by the driver in the driver health history section and discuss any "yes" and "not sure" responses. In addition, be sure to compare the medication list to the health history responses ensuring that the medication list matches the medical conditions noted. Explore with the driver any answers that seem unclear. Record any information that the driver omitted. As the Medical Examiner conducting the driver's physical examination you are required to complete the entire medical examination even if you detect a medical condition that you consider disqualifying, such as deafness. Medical Examiners are expected to determine the driver's physical qualification for operating a commercial vehicle safely. Thus, if you find a disqualifying condition for which a driver may receive a Federal Motor Carrier Safety Administration medical exemption, please record that on the driver's Medical Examiner's Certificate, Form MCSA-5876, as well as on the Medical Examination Report Form, MCSA-5875.
- **Testing:**
  - **Pulse rate and rhythm, height, and weight:** record these as indicated on the form.
  - **Blood Pressure:** record the blood pressure (systolic and diastolic) of the driver being examined. A second reading is optional and should be recorded if found to be necessary.
  - **Urinalysis:** record the numerical readings for the specific gravity, protein, blood and sugar.
  - **Vision:** The current vision standard is provided on the form. When other than the Snellen chart is used, give test results in Snellen-comparable values. When recording distance vision, use 20 feet as normal. Record the vision acuity results and indicate if the driver can recognize and distinguish among traffic control signals and devices showing red, green, and amber colors; has monocular vision; has been referred to an ophthalmologist or optometrist; and if documentation has been received from an ophthalmologist or optometrist.
  - **Hearing:** The current hearing standard is provided on the form. Hearing can be tested using either a whisper test or audiometric test. Record the test results in the corresponding section for the test used.
- **Physical Examination:** Check the body systems for abnormalities and indicate normal or abnormal for each body system listed. Discuss any abnormal answers in detail in the space provided and indicate whether it would affect the driver's ability to safely operate a commercial motor vehicle.

In this next section, you will be completing either the Federal or State determination, not both.

- **Medical Examiner Determination (Federal):** Use this section for examinations performed in accordance with the FMCSRs (49 CFR 391.41-391.49). Complete the medical examiner determination section completely. When determining a driver's physical qualification, please note that English language proficiency (49 CFR part 391.11: General qualifications of drivers) is not factored into that determination.
  - **Does not meet standards:** Select this option when a driver is determined to be not qualified and provide an explanation of why the driver does not meet the standards in 49 CFR 391.41.
  - **Meets standards in 49 CFR 391.41; qualifies for 2-year certification:** Select this option when a driver is determined to be qualified and will be issued a 2-year Medical Examiner's Certificate.

- **Meets standards, but periodic monitoring is required:** Select this option when a driver is determined to be qualified but needs periodic monitoring and provide an explanation of why periodic monitoring is required. Select the corresponding time frame that the driver is qualified and if selecting other, specify the time frame.
  - **Determination that driver meets standards:** Select all categories that apply to the driver's certification (e.g., wearing corrective lenses, accompanied by a waiver/exemption, driving within an exempt intracity zone, etc.).
- **Determination pending:** Select this option when more information is needed to make a qualification decision and specify a date, on or before the 45 day expiration date, for the driver to return to the medical exam office for follow-up. This will allow for a delay of the qualification decision for as many as 45 days. If the disposition of the pending examination is not updated via the National Registry on or before the 45 day expiration date, FMCSA will notify the examining medical examiner and the driver in writing that the examination is no longer valid and that the driver is required to be re-examined.

- **MER amended:** A Medical Examination Report Form (MER), MCSA-5875, may only be amended while in determination pending status for situations where new information (e.g., test results, etc.) has been received or there has been a change in the driver's medical status since the initial examination, but prior to a final qualification determination. Select this option when a Medical Examination Report Form, MCSA-5875, is being amended; provide the reason for the amendment, sign and date. In addition, initial and date any changes made on the Medical Examination Report Form, MCSA-5875. A Medical Examination Report Form, MCSA-5875, cannot be amended after an examination has been in determination pending status for more than 45 days or after a final qualification determination has been made. The driver is required to obtain a new physical examination and a new Medical Examination Report Form, MCSA-5875, should be completed.

- **Incomplete examination:** Select this when the physical examination is not completed for any reason (e.g., driver decides they do not want to continue with the examination and leaves) other than situations outlined under determination pending.
- **Medical Examiner information, signature and date:** Provide your name, address, phone number, occupation, license, certificate, or registration number and issuing state, national registry number, Medical Examiner's Certificate expiration date, signature and date.

- **Medical Examiner Determination (State):** Use this section for examinations performed in accordance with the FMCSRs (49 CFR 391.41-391.49) with any applicable State variances (which will only be valid for intrastate operations). Complete the medical examiner determination section completely.
  - **Does not meet standards in 49 CFR 391.41 with any applicable State variances:** Select this option when a driver is determined to be not qualified and provide an explanation of why the driver does not meet the standards in 49 CFR 391.41 with any applicable State variances.
  - **Meets standards in 49 CFR 391.41 with any applicable State variances:** Select this option when a driver is determined to be qualified and will be issued a 2-year Medical Examiner's Certificate.
  - **Meets standards, but periodic monitoring is required:** Select this option when a driver is determined to be qualified but needs periodic monitoring and provide an explanation of why periodic monitoring is required. Select the corresponding time frame that the driver is qualified and if selecting other, specify the time frame.
    - **Determination that driver meets standards:** Select all categories that apply to the driver's certification (e.g., wearing corrective lenses, accompanied by a waiver/exemption, etc.).

- **Medical Examiner information, signature and date:** Provide your name, address, phone number, occupation, license, certificate, or registration number and issuing state, national registry number, Medical Examiner's Certificate expiration date, signature and date.

II. If updating an existing exam, you must resubmit the new exam results, via the Medical Examination Results Form, MCSA-5850, to the National Registry, and the most recent dated exam will take precedence.

III. To obtain additional information regarding this form go to the Medical Program's page on the Federal Motor Carrier Safety Administration's website at http://www.fmcsa.dot.gov/regulations/medical.

ADDITIONAL INSTRUCTIONS FOR APPLICANTS WITH INSULIN-TREATED DIABETES MELLITUS (ITDM) [1]

Overview. MoDOT's Director of Motor Carrier Services may grant an exemption from the physical qualification for drivers of commercial motor vehicles (**CMVs**) required by 49 CFR § 391.41(b)(3), which requires that a driver "has no established medical history or clinical diagnosis of diabetes mellitus currently requiring insulin for control". The Director may grant an exemption by issuing a Skill Performance Evaluation (**SPE**) Certificate for a period up to two years, if MoDOT finds that: "such exemption would likely achieve a level of safety that is equivalent to, or greater than, the level that would be achieved absent such exemption."[2]

Publication of Notice of Application. MoDOT Motor Carrier Services Division must publish a notice of each completed application received, in the *Missouri Register*, explaining that the application has been filed, and inviting the public to inspect the safety analysis and any other relevant information known to MoDOT Motor Carrier Services Division, and to comment on the application. Prior to granting an application for an exemption, MoDOT Motor Carrier Services Division must publish a second notice in the *Missouri Register,* identifying the person or class of persons who will receive the exemption, the provisions from which the person will be exempt, the effective period, and all terms and conditions of the exemption. The terms and conditions established by MoDOT Motor Carrier Services Division must ensure that the exemption will likely achieve a level of safety that is equivalent to, or greater than, the level that would be achieved by complying with the regulation. In addition, MoDOT is required to monitor the implementation of each exemption to ensure compliance with its terms and conditions. If the Director denies an application for an exemption, MoDOT Motor Carrier Services Division must publish a notice in the *Missouri Register* identifying the person whose application is denied, and the reasons for the denial.

Renewal and Revocation of Exemption. Generally, the duration of an exemption is limited to not more than two years from the date of approval, but may be renewable upon application to the Director. MoDOT Motor Carrier Services Division is required immediately to revoke an exemption if: (1) The person fails to comply with the terms and conditions of the exemption; (2) The exemption has resulted in a lower level of safety than was maintained before the exemption was granted; or (3) Continuation of the exemption would not be consistent with the goals and objectives of the exemption regulations.

Obtaining an Application Packet. Persons who desire to apply for an exemption may mail requests for an application packet to: MoDOT Motor Carrier Services Division, Medical Exemption Program, P.O. Box 270, Jefferson City, MO 65102-0270, or by telephone, Motor Carrier Investigations Specialist, at (toll free) 866-831-6277 ext. #6. MoDOT will mail the required forms and instructions.

Procedures for Applying for an Exemption. Procedures for the review of exemption applications require MoDOT Motor Carrier Services Division to review a completed application for an exemption, and to prepare, for the Director's signature, a *Missouri Register* notice requesting public comment. After a review of the comments received, MoDOT Motor Carrier Services Division will make a recommendation to the Director. MoDOT will publish a notice of the Director's final decision in the *Missouri Register*. The Director will issue a final decision within 180 days of the date MoDOT Motor Carrier Services Division receives an individual's completed application packet. However, if the applicant should omit important details or other information necessary for MoDOT Motor Carrier Services Division to conduct a comprehensive evaluation, the Director will issue a final decision within 180 days of the date that it receives sufficient information. MoDOT recognizes that this potential six-month waiting period may seem burdensome. However, MoDOT must carefully evaluate each and every application for regulatory relief from the diabetes standard, to assess the potential safety performance of each applicant. In addition, MoDOT must prepare and publish notice of each application in the *Missouri Register,* and then must evaluate comments received before the Director makes a final decision. MoDOT's overriding concern is to ensure the safety of intrastate CMV operations. MoDOT will notify all applicants in writing once the Director makes a final decision.

(5) **No Recurrent Hypoglycemic Loss of Consciousness or Seizures.** Has had no recurrent (two or more) hypoglycemic reactions resulting in a loss of consciousness or seizure within the past five years. A period of one year of demonstrated stability is required following the first episode of hypoglycemia;

(7) **No Recurrent Hypoglycemic Impairment of Cognitive Function.** Has had no recurrent hypoglycemic reactions resulting in impaired cognitive function that occurred without warning symptoms within the past five years. A period of one year of demonstrated stability is required following the first episode of hypoglycemia,

(8) **Endocrinologist Examination.** Has been examined by a board-certified or board-eligible endocrinologist (who is knowledgeable about diabetes) who has conducted a complete medical examination. The complete medical examination must consist of a comprehensive evaluation of the applicant's medical history and current status with a report including the following information:

- (A) The date insulin use began,
- (B) Diabetes diagnosis and disease history,
- (C) Hospitalization records,
- (D) Consultation notes for diagnostic examinations,
- (E) Special studies pertaining to the diabetes,
- (F) Follow-up reports,
- (G) Reports of any hypoglycemic insulin reactions within the last five years,
- (H) A current measure of glycosylated hemoglobin (HgA1C), taken during the 30 days immediately before filing the application,

(9) **Endocrinologist Certification.** Submits a signed statement from an examining endocrinologist (which must be submitted using MoDOT's completed **SPEC-F Form**) indicating the following medical determinations: The endocrinologist is familiar with the applicant's medical history for the past five years, either through actual treatment over that time or through consultation with a physician who has treated the applicant during that time; the applicant has been using insulin to control his/her diabetes before the date of the application for the minimum period of insulin use described above; the applicant has been educated in diabetes and its management, thoroughly informed of and understands the procedures which must be followed to monitor and manage his/her diabetes and what procedures should be followed if complications

arise; and the applicant has the ability and has demonstrated willingness to properly monitor and manage his/her diabetes; and

(10) **Ophthalmologist or Optometrist Examination and Certification.** Submits a separate signed statement from an ophthalmologist or optometrist (which must be submitted using MoDOT's completed **SPEC-D Form**) that the applicant has been examined and that the applicant does not have diabetic retinopathy and meets the vision standard at 49 CFR 391.41(b)(10), or has been issued a valid medical exemption. If the applicant has any evidence of diabetic retinopathy, he or she must be examined by an ophthalmologist and submit a separate signed statement from the ophthalmologist that he or she does not have unstable proliferative diabetic retinopathy (i.e., unstable advancing disease of blood vessels in the retina).

Special Driving Conditions Required After Issuance of an Exemption to ITDM Individuals. There are special conditions attached to the issuance of any exemption for ITDM. The Director will impose the following requirements:

(1) **Medical Supplies for Glucose Management.** Individuals with ITDM shall maintain appropriate medical supplies for glucose management while preparing for the operation of a CMV and during its operation. The supplies shall include the following:
   (A) An acceptable glucose monitor with memory,

(2) **Driver's Daily Record.** Individuals with ITDM shall maintain a daily record of actual driving time which must show the times when the driver performs the daily glucose measurements described in the next paragraph; and

(3) **Monitoring and Maintaining Blood Glucose Levels.** Individuals with ITDM shall self-monitor their blood glucose levels prior to driving, and every two to four hours while driving, using a portable glucose monitoring device equipped with a computerized memory. Prior to and while driving, individuals shall adhere to the following protocol for monitoring and maintaining appropriate blood glucose levels:
   (1) Check glucose before starting to drive and take corrective action if necessary. If glucose is less than 100 milligrams per deciliter (mg/dl), take glucose or food and recheck in 30 minutes. Do not drive if glucose is less than 100 mg/dl. Repeat the process until glucose is greater than 100 mg/dl;
   (2) While driving check glucose every two to four hours and take appropriate action to maintain it in the range of 100 to 400 mg/dl;

      b. A current measurement of glycosylated hemoglobin.

(2) **Annually - Comprehensive Medical Evaluation by Endocrinologist.** Submit on an annual basis, a comprehensive medical evaluation by an endocrinologist. The evaluation will include a general physical examination and a report of glycosylated hemoglobin concentration. The evaluation will also involve an assessment of the individual's willingness and ability to monitor and manage the diabetic condition;

(3) **Annually - Confirmation of No Diabetic Retinopathy.** Provide on an annual basis confirmation by an ophthalmologist or optometrist that there is no diabetic retinopathy and the individual meets the current vision standards at 49 CFR 391.41(b)(10). If there is any evidence of diabetic retinopathy, provide annual documentation by an ophthalmologist that the individual does not have unstable proliferative diabetic retinopathy;
(4) **Annually - Documentation of Ongoing Education.** Submit annual documentation by an endocrinologist of ongoing education in management of diabetes and hypoglycemia awareness;

The required conditions include the following:

(1) **Yearly Physical Examination.** Each individual must have a physical examination every year:
    (a) The physical examination must first be conducted by an endocrinologist indicating the driver is:

            (A) No recurrent (two or more) hypoglycemic reactions resulting in a loss of consciousness or seizure within the past five years. A period of one year of demonstrated stability is required following the first episode of hypoglycemia,
            (B) No recurrent hypoglycemic reactions requiring the assistance of another person within the past five years. A period of one year of demonstrated stability is required following the first episode of hypoglycemia, and
            (C) No recurrent hypoglycemic reactions resulting in impaired cognitive function that occurred without warning symptoms within the past five years. A period of one year of demonstrated stability is required following the first episode of hypoglycemia,
        2. Able to and has demonstrated willingness to properly monitor and manage his/her diabetes, and
        3. Will not likely suffer any diminution in driving ability due to his/her diabetic condition; and
    (b) Secondly, the physical examination must be conducted by a medical examiner who attests that the individual is physically qualified under 49 CFR 391.41, or holds a valid exemption or SPE Certificate.
(2) **Compliance Conditions.** Each individual must agree to and must comply with the following conditions:
    (a) Submit blood glucose records to both the endocrinologist and medical examiner at the annual examinations or when otherwise directed by an authorized agent of MoDOT Motor Carrier Services Division; and

(3) **Provide Report Indicating No Diabetic Retinopathy.** Each individual must provide a copy of the optometrist's or ophthalmologist's report indicating that there is no diabetic retinopathy and the individual meets the current vision standards at 49 CFR 391.41(b)(10). If there is any evidence of diabetic retinopathy, the individual must provide to the medical examiner at the time of the annual medical examination a copy of the ophthalmologist's report indicating that the individual does not have unstable proliferative diabetic retinopathy; and
(4) **Provide Annual Medical Certification To Employer.** Each individual must provide a copy of the annual medical certification to the employer for retention in the driver's **qualification** file, or must keep a copy in his/her driver's **qualification** file if he/she is self-employed.
