**Clearly state your goal and action plan that will address drivers' safety issues in your school**

The overall goal for our After Prom is to provide a safe and comfortable environment that

encourages and educates students on making wise decisions during high-pressure situations. We intend to encourage conscientious living and awareness of defensive driving on high-risk driving nights. We have programs, faculty, and activities in place at our high school to draw safe driving information from and to help host presentations providing roadway safety instruction and information. Our faculty and programs include: the driver's education course teacher, the driver's education program, the traction club supervisor, the traction team, driver awareness guest speakers, driving simulation presentations and activities, and buckle up - phone down pledge participants.
