# BRIDGE REHABILITATION

Pulaski County  
Route 28  
I-44 Overpass Bridge

## PROJECT HIGHLIGHTS

**Construction:** Expected summer 2025.

**Location:** Pulaski County Route 28 over I-44.

**Traffic impact:** Route 28 at the bridge will be closed during construction.

**Project estimate:** \$621,000.

**Average daily traffic:**

Approximately 5,200 vehicles daily.

Subject to change. Information current as of Feb 2024.

Scan to visit the project's webpage.

# PROJECT DETAILS

## **Why is MoDOT rehabilitating the bridge?**

The bridge was built in 1961. The supporting structures are in good condition but the deck and substructure are in need of rehabilitation. This project will enhance drivability, traffic flow and increase the lifespan of the bridge.

## **How will traffic be impacted?**

The bridge over I-44 on Route 28 will be closed during construction. All ramps will remain open, but traffic will not be able to cross the bridge. A signed detour will direct traffic to the next interchange to exit, cross I-44, and return to the interstate to Exit 163 (Route 28). Westbound traffic will be directed to Route Y at Exit 161 and eastbound traffic will be directed to Exit 169 at Route J.

## **When is MoDOT planning to make the improvements?**

At this time, the project is expected to be part of MoDOT's January 2025 letting when contractors may submit competitive bids.

Construction is anticipated to take place in the summer of 2025, however the exact schedule has not yet been determined.

As with all projects that are in the planning stage, these dates are subject to change.

## **What is the cost of the project?**

The anticipated total construction and engineering cost for this project is \$621,000. This is subject to change.

Scan to visit the project's webpage.
