1.GENERAL INFORMATION

1.1 Program Goals and Objectives - The New Freedom Program, also known as Section 5317, was created to support new public transportation services and public transportation alternatives beyond those required by the Americans with Disabilities Act of 1990. This program is codified at 49 U.S.C. 5317.

As much as possible, activities must be coordinated with other transportation activities offered by public transportation providers or social service agencies. This coordination is assured by the development of locally developed, coordinated public transit-human services transportation plan (the Local Plan). All projects funded under the Section 5317 program must be derived from one of these plans. Appendix A provides a listing of example activities under the Section 5317 program.

The Section 5317 program grew out of the New Freedom Initiative introduced by the Administration under Executive Order 13217, "Community Based Alternative for Individuals with Disabilities," on June 18, 2001.

The New Freedom Program is intended to fill the gaps between human service and public transportation services previously available and to facilitate the integration of individuals with disabilities into the workforce and full participation of the community.

1.2 Roles and Responsibilities - The Governor of the State of Missouri has designated the Missouri Department of Transportation (MoDOT) as the agency responsible for administering funds made available through Federal Transit Administration programs. The Transit Section of the Multimodal Operations Division is responsible for administering the New Freedom program for small-urbanized (50,000-199,999 population) areas and non-urbanized (less than 50,000) rural areas of Missouri.

The department also administers the state transit operating assistance and the state funded Missouri Elderly and Handicapped Transportation Assistance Program.

Additional support is provided by the Chief Counsel's office and General Services (Purchasing).

This State Management Plan (SMP) describes the State's policies and procedures for administering the Section 5317 program. The SMP further clarifies the requirements from the New Freedom circular and allows the State to tailor the program to their subrecipients needs. The 5317 SMP is available for review on MoDOT's web site.

MoDOT completed a long-range plan (released April 11, 2007) that included transit issues. The plan was developed from stakeholder committees that met four times during the planning process. Transit issues discussed were the need for capital investment and continued operating support for the transit systems.

MoDOT works with local public officials through the regional planning commission and metropolitan planning organizations whose board members are local officials. Member of the Long-Range planning team attend both policy and technical committee meetings.

1.3 Designated Recipient - The Missouri Department of Transportation (MoDOT) has been named the designated recipient for this program for the small urbanized and non-urbanized areas. Large urbanized areas have local designated recipients that administer their own funds. The responsibilities of the designated recipient are included in Section 4.

The Interagency Committee on Special Transportation acted as MoDOT's review committee for the development of the workshop training materials (see Section 4.2). The committee includes representatives from the departments of Elementary and Secondary Education, Social Services-Family Support (Medicaid), Mental Health, and Social Services, and the Governor's Council on Disability

1.4 Other Information

1.4.1 Definitions - The following definitions will apply to the 5317 program:

New Freedom Circular: Circular 9045.1 issued by the Federal Transit Administration containing program guidance and application instructions.

Metropolitan Planning Organization (MPO): an organization located in a small or large urbanized area that is responsible for highway and transit planning.

Non-urbanized area: Any area not included in a small or large urbanized area of 50,000 persons or more that meets the density requirements of the last decennial census.

Public Transportation Services -

Regional Planning Commission (RPC): one of 19 quasi-public entities that conducts planning and grant administration for its member municipalities and counties.

Small urbanized area: an area with a population of 50,000-199,999 persons and that meets the density requirement of the last decennial census.

Subrecipient: an entity that receives a New Freedom grant through MoDOT. An "applicant" becomes a subrecipient upon being awarded funds.

1.4.2 Transfer of Funds - The State may transfer New Freedom funds to the small urbanized (Section 5307) or non-urbanized (Section 5311) programs. However, the funds must be used for New Freedom eligible activities.

1.4.3 Private Sector Participation - Private for-profit entities are not eligible to apply for New Freedom funding unless they are operators of public transportation services. However, subrecipients may contract with the private sector for service. All applicants should have procedures for providing for the maximum feasible participation by private providers..

1.4.4 Conflict of Interest - All subrecipients are required to develop and implement policies that ensure proper use of project funds, facilities, and equipment including policies on personal gain by staff or board members, employment of relatives, or preferential operation of project services.

2. PLANNING REQUIREMENTS - COORDINATION

All projects must be derived from a locally developed, coordinated public transit-human services plan (the Local Plan). MoDOT will assist local planning agencies in developing the plan (see MoDOT's activities in Section 4). This scope of the plan must address the needs of individual with disabilities.

2.1 Local Plan Criteria - For the New Freedom program, the Local Plan must meet the following criteria:

2.1.1 An assessment of available services that identifies current transportation providers - public, private, and not-for-profit. The assessment should include the number of vehicles (both accessible and non-accessible), service area, and days and times of operation.

2.1.2 An assessment of the transportation needs of people with low incomes. The assessment can be based on the experiences and perceptions of the planning partners or on more sophisticated data collection efforts. Gaps in service should be identified.

2.1.3 Strategies and activities that would address the identified gaps in service. Applicants are urged to not include specific projects in the plan, as the plan should be based on a higher level of need. Including only strategies and activities will allow the subrecipients to have more flexibility to meet the changing transportation needs of their riders.

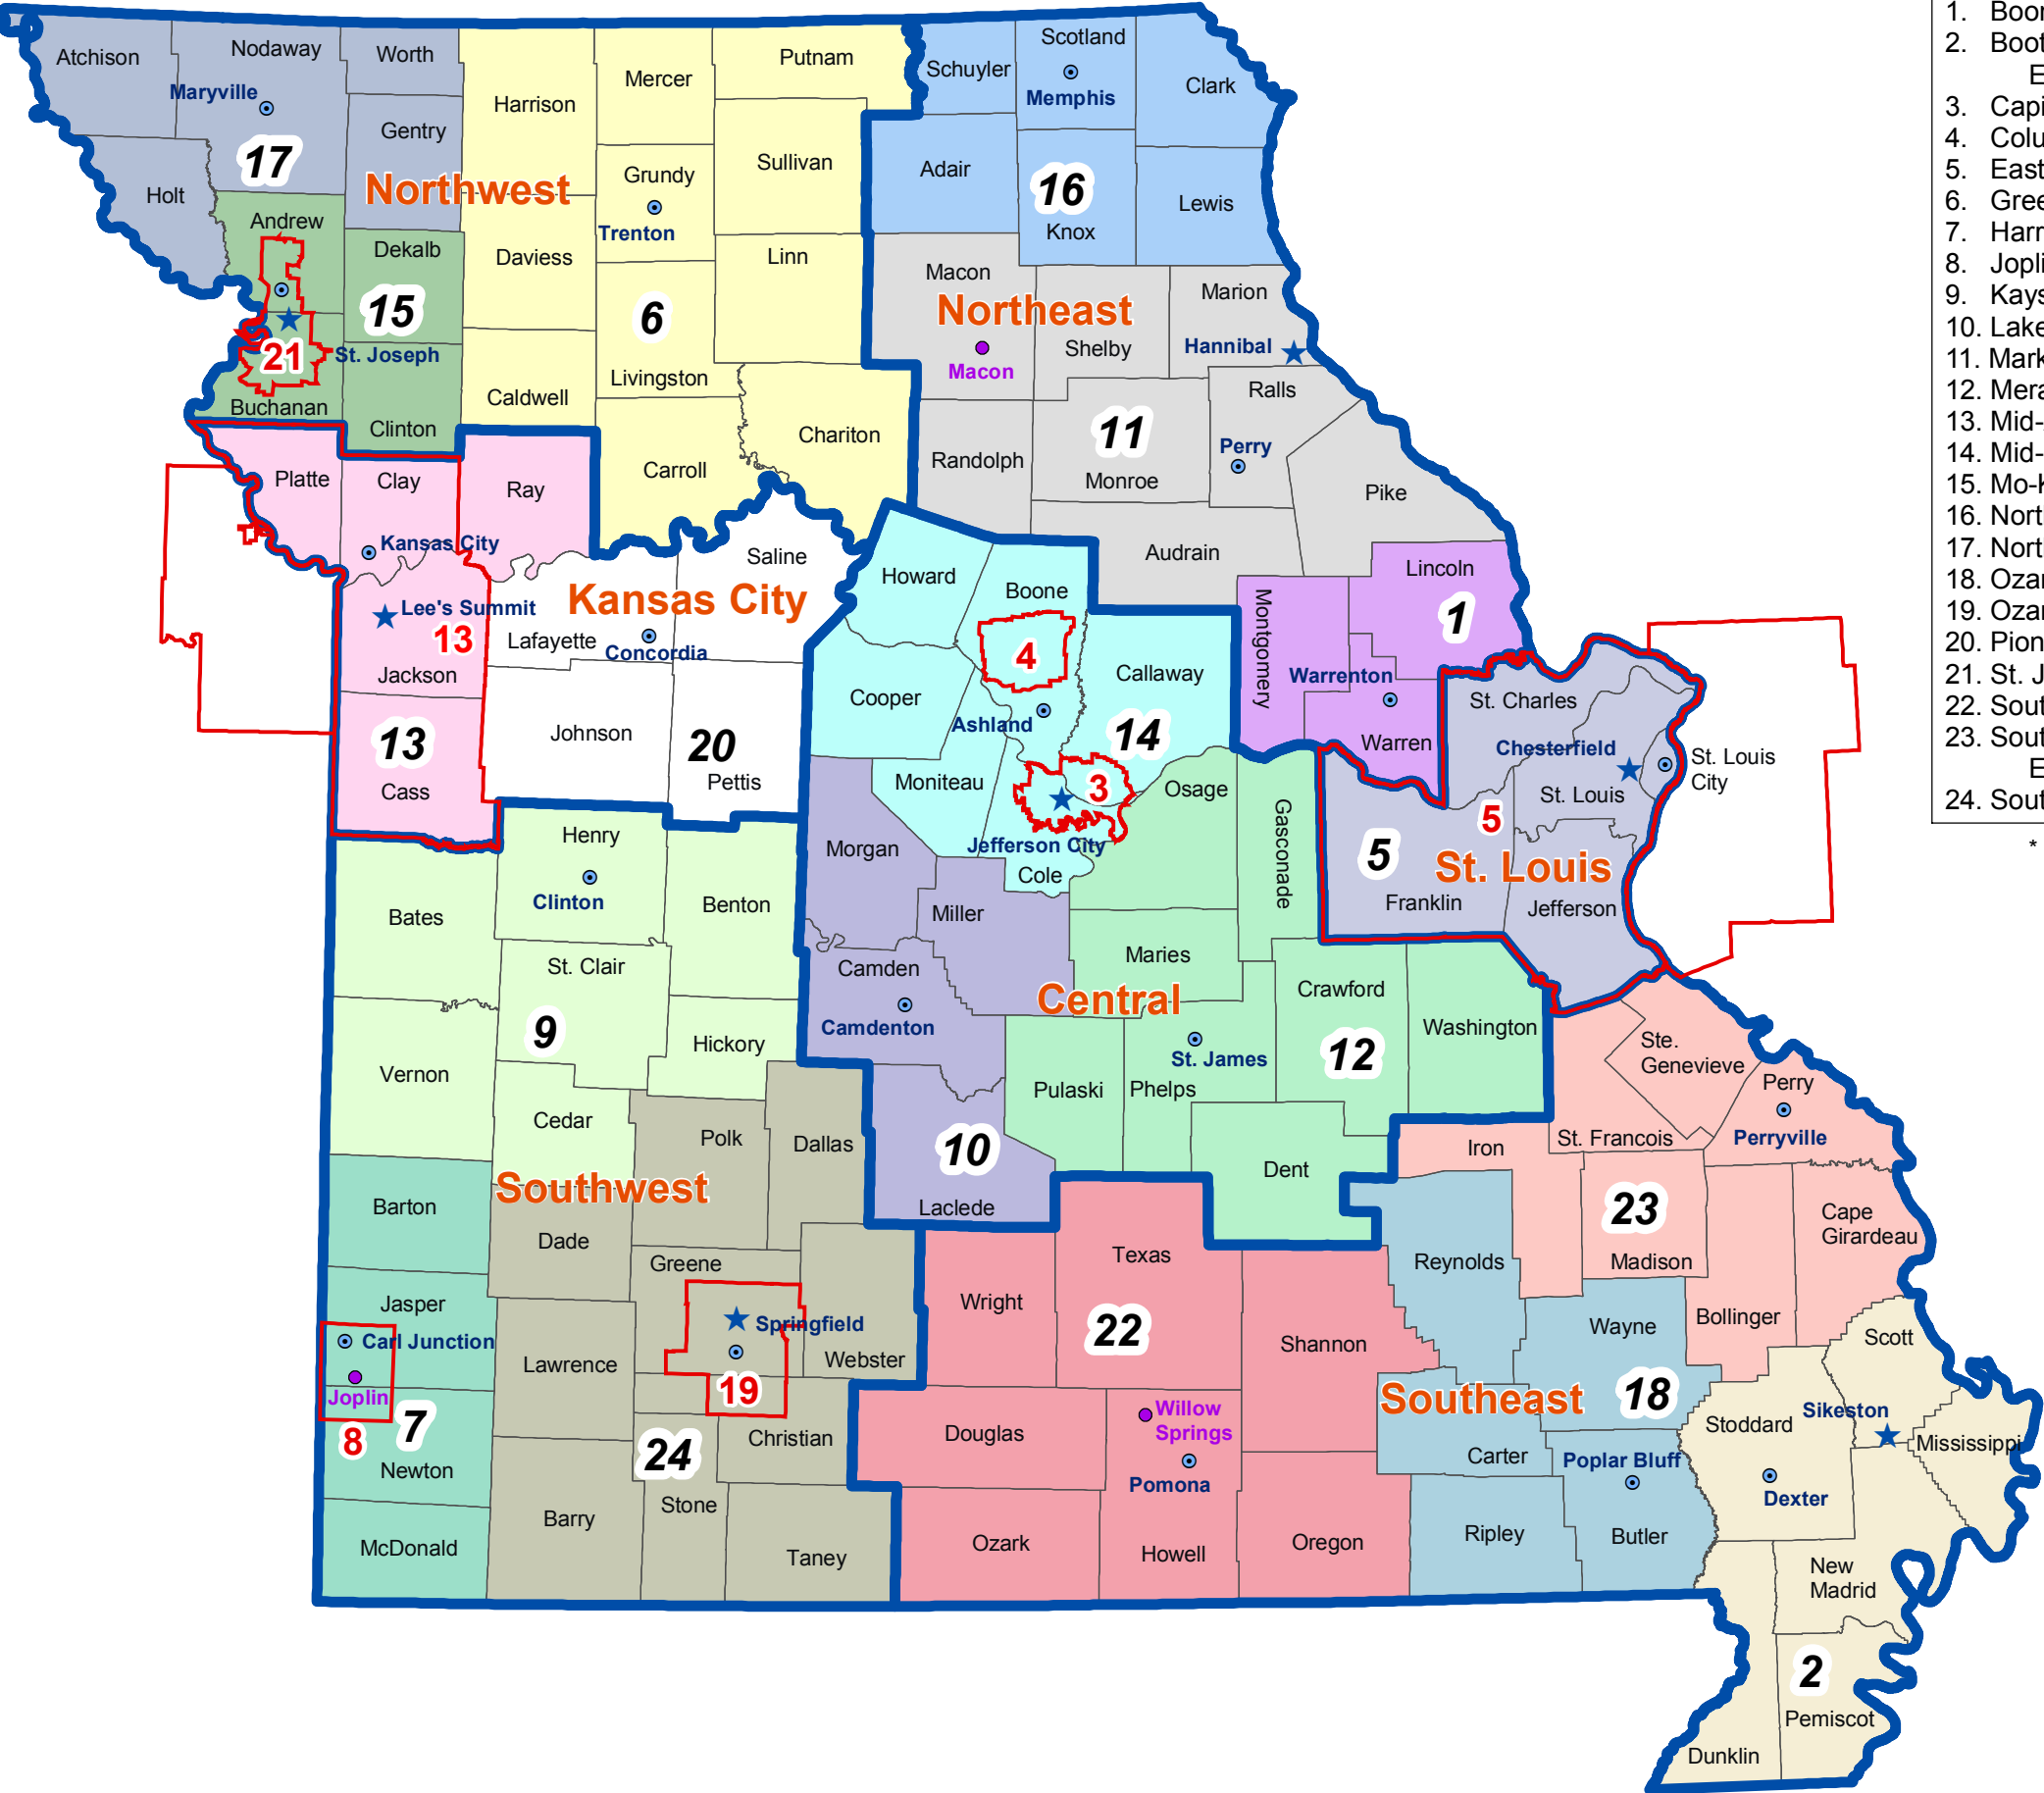

2.1.4 Priorities of implementation based on resources. Prioritizing strategies will allow the subrecipients to select the most important projects as funding becomes available. MoDOT recognizes that the highest priority activities may not be the projects that are implemented due to the small amount of federal funding available and/or the availability of local match.

2.2 *Lead Agency* - The lead agency in the planning process (in Missouri, this will be the MPOs and the RPCs) must develop a process for adoption of the plan. All MPO and RPC plans must be submitted to and approved by MoDOT's Transit Section before any funding will be allocated.

2.3 *Public Participation* - Development of the plan must include an opportunity for all interested parties to participate. The planning process should include human service agencies, local governments, private and public transit providers, and potential riders as well as members of the general public. There should be specific methods for outreach to those individuals with disabilities who are not part of the human services delivery system. The Local Plan should document how public participation was solicited, i.e. newspaper ads, public service announcements, direct mail, etc. A lack of public interest in the project will not count against the project if adequate outreach was conducted.

2.4 *Inclusion in MPO Plans and TIPs* – All projects in small-urbanized areas or nonurban areas that lie within the planning area of an adjacent Metropolitan Planning Organization (MPO) must be included in the MPO's plan. All non-urban projects will be described at the program level in the Statewide Transportation Improvement Program (STIP).

3. PROJECT REQUIREMENTS

Projects will be awarded funding on a competitive basis. For evaluation purposes, the applicants must submit information that can be evaluated on a quantitative basis as well as general information about the project itself.

3.1 Local Plan Requirement - The project must be derived from a submitted and adopted Local Public Transit – Human Service Transportation Coordination Plan as discussed in Section 2.

3.2 Service Area - The area served by each project must be defined. No more than one project will be funded in any given service area except under special circumstances as determined by MoDOT. If multiple applications are received for the same service area, the applicants will be permitted to combine their applications and coordinate the planned services.

The New Freedom funding administered by MoDOT has two categories, small urbanized and nonurban.

3.2.1 Funding for small-urbanized areas is very limited, and will be used to fund the project(s) that MoDOT determines will utilize the money the most. For FFY 2009 the amount was \$210,910; for FFY 2010 the amount was \$206,995, the amount for FFY 2011 is \$208,064 and the amount for FFY 2012 is \$210,483.

3.2.2 Funding for nonurban areas is very limited, and will be used to fund the project(s) that MoDOT determines will utilize the money the most. For FFY 2009 the amount was \$565,078; for FFY 2010 the amount was \$554,590, the amount for FFY 2011 is \$557,455 and the amount for FFY 2012 is \$563,935.

3.3 Eligible Subrecipients - Eligible subrecipients are local public bodies and their agencies, private not-for-profit organizations, and operators of public transportation services. Private for-profit operators may participate under contract with an eligible recipient with the approval of MoDOT.

3.4 Eligible Activities – New Freedom Program funds are available for capital and operating expenses that support new public transportation services beyond those required by the ADA of 1990, and new public transportation alternatives beyond those required by the ADA. For “new” services, the definition of new is those services/activities that were not operational on August 10, 2005, that date that SAFETEA-LU legislation was signed into law. See Appendix A for a more detailed list of eligible activities.

3.5 Local Share Requirements - Local share can come from a variety of sources. The only funding sources that cannot be used as match are passenger service fares as well as funding received through another U. S. Department of Transportation program. For local share, MoDOT will NOT allow bank liens for capital purchases

3.5.1 Operating Grants – New Freedom funding for an operating project cannot exceed 50% of the total eligible project cost. Total project cost is determined by calculating the total operating costs of the project including any in-kind expenses (salaries paid by another entity or office space provided at no cost) and subtracting any fares paid by the riders.

3.5.2 Capital Grants – New Freedom funding for capital acquisitions cannot exceed 80% of the total cost of vehicles and/or equipment. ADA related improvements and bicycle access improvements can be funded at a 90/10 ratio if funding permits. The applicant must verify that sufficient funds from non-operating sources are available at the time of application. Capital funding will take precedence in project selection over operating funding.

3.5.3 In-kind and Volunteer Contributions - Volunteer and contributed services may be included in a project budget as an expense and as a part of the local share in the calculation of project costs. Volunteer and contributed services may not, however, replace any contract revenue, passenger revenue, payment for services or

unrestricted donations earned by the subrecipient during the project period. MoDOT must approve all volunteer services and the value assigned to them in advance. Time sheets and other documentation must be kept to substantiate the value of any volunteer or contributed services.

3.6 Project Selection Criteria - If funding requests exceed the amount of funding available, the application will be evaluated based on the following criteria:

3.6.1 Is the project a capital project? - 50 points

3.6.2 What is the percentage of individuals with disabilities in the service area as compared to the State of Missouri as a whole? - 15 points

3.6.3 Has local funding for the project been secured at the time of application? - 10 points

3.6.4 Will the project be integrated with existing transportation? - 10 points

3.6.5 Is the strategy for the project listed as a high priority in the Local Plan? - 10 points

3.6.6 Estimated number of persons to be served (methodology must be submitted with the application) - 5 points

3.7 Supporting documentation - Documentation must be submitted to address the project requirements listed on page 1, Sections A through C. Section D of your application is the FTA assurances that must be signed by the Board President. In addition to the FTA assurances, application Section D needs to include the following:

- Letter of financial commitment from your organization
- Letters of support from the community
- Letters to local area providers, stating your intent to apply for this grant through MoDOT
- Affidavit of publication signed by the local newspaper where your advertisement appeared

3.8 Fair and Equitable Distribution – Before grant awards are made based on the above criteria, MoDOT will review the geographic and demographic distribution of the grants. While some areas may not receive funding in any one-grant cycle, MoDOT will distribute the grants as evenly as possible. As historical data is made available, the selection criteria may be revised to address this issue.

3.9 Grant Cycle - The funding cycle will be based on the State fiscal year, July 1 to June 30. Applications may be submitted for multiple years.

3.9.1 Special funding cycles for awards made under SAFETEA-LU. - Funding for Federal Fiscal Years 2011 and 2012 will be awarded up to 24 months in duration.

3.10 Application Process - Biannually, MoDOT will notify current subrecipients, the RPCs, transit systems, MPOs in small-urbanized areas, and boards and/or organizations formed to develop the Local Plan of the availability of funds.

3.10.1 Applications - The application will be available on MoDOT's website or interested parties may contact MoDOT's Transit Section for applications. MoDOT plans to allocate funds in one two-year cycles. All applications will be due January 2, 2013.

All awards are dependent on the funding being allocated by the FTA and published in the Federal Register and the Local Coordination Plans having been submitted to and approved by MoDOT

3.10.2 Technical Assistance - Technical assistance will be available for the development and evaluation of projects. First time applicants are urged to contract MoDOT's Transit Section as early in the project development phase as possible. **See Appendix A for contact information.**

3.11 Grant Management – Subrecipients must have the financial resources available to manage the project. The New Freedom grant program, if an operating grant, is a “reimbursement” program, i.e. funds can be requested only after the expenses have been paid. Requests may be made monthly or quarterly.

If the subrecipient provides services other than transportation, the accounting system must be capable of identifying the New Freedom expenses and revenues separately from other operations.

In-kind donations such as a portion of an employee's salary being charged to the grant must be documented by timesheets. For other in-kind donations such as rent, the fair market value of the space must be established before the donation can be included in the expense.

3.11.1 Requests for Reimbursement – All subrecipients will be issued reimbursement forms to be used when requesting grant funds. The following information must be submitted:

Number of Rides Provided during the time period
Number of Individuals Served
Mileage
Detail of Expense
Detail of Fares, Local Match and Other Revenues

The request for reimbursement must include an original signature of an officer or director of the subrecipient. Faxed requests will not be honored except under special circumstances.

The number of rides provided is one of the performance measures that will be reported to the FTA. Recipients will be expected to send in requests for reimbursement in a timely manner so this information can be forwarded to the FTA annually.

3.11.2 Audit – All subrecipients whose total transportation budget exceeds \$50,000, must have an independent audit annually. Entities who receive more than \$500,000 annually in federal funds from all sources are subject to an OMB A-133 audit. A copy of the audit must be submitted to MoDOT for review within nine (9) months of the end of the agency's fiscal year. For those subrecipients with a transportation budget less than \$50,000 annually, the Section 5317 program manager will conduct a field audit each year.

4. STATE'S ROLE AND RESPONSIBILITIES

As the state agency designated by the Governor to administer New Freedom funding, MoDOT will provide planning and technical assistance to all applicants.

4.1 State Administrative Costs - The State is permitted to reserve up to 10% of New Freedom funding for costs incurred administering the grant. These funds will be used to assist the RPCs in completing the Local Plans and to provide continuing assistance to the RPCs and subrecipients.

4.2 Planning Workshops - With the inception of the planning requirements outlined in Section 2, MoDOT conducted 11 workshops (in 2007) statewide to familiarize the RPCs and other interested parties in the planning process. A CD was also distributed with the workshop presentation and other information to all attendees. MoDOT will continue to work with the RPCs in updating the Local Plans required and conducting other workshops, as needed. These workshops were conducted using planning funds made available through the FTA.

4.3 Compliance with FTA Requirements - MoDOT will comply with all federal requirements as contained in the FTA Master Agreement. These requirements are outlined in Section 6.

4.4 TEAM Grant Management – The Section 5317 Program Manager will apply for federal funds through FTA’s TEAM software system. A program of projects will be developed that includes the following information for each subrecipient:

- Location
- Service Area
- Status as Public or Non-Profit Agency
- Status of Small Urbanized Area or Nonurban Area
- Federal Share
- Total Cost
- Congressional District
- Description of Project

4.5 SAM II Accounting System – MoDOT uses the State Office of Administration’s SAM II accounting system to track grant payments. The Multimodal Operations division has two full-time employees who enter all transactions in the system.

5.0 – CIVIL RIGHTS - TITLE VI

All applicants are required to execute the standard Civil Rights Assurances that is referenced in the Section 5317 Application Guideline Booklet. The required Local Civil Rights Assurance is submitted to the department in the application and kept on file in the recipient’s folder. Recipients of Section 5317 assistance are monitored for civil rights compliance during onsite reviews. Civil rights complaints must be submitted in writing, with copies sent to the Section 5317 program manager. Complaints must be signed by the complainant and shall state the facts and circumstances surrounding the alleged discrimination. Complaints that are not resolved at the local level will be referred to MoDOT within 30 days. MoDOT will investigate the complaint and, with FTA’s concurrence, may deny funding or repossess equipment from any grantee whose policies and actions are deemed to be in non-compliance. Any legal action filed against the grantee must be reported to MoDOT within 30 days.

Title VI of the Civil Rights Act of 1964 is a Federal law that protects individuals and groups from discrimination on the basis of their race, color, and national origin in programs and activities that receive Federal financial assistance. Reference to Title VI includes other civil right provisions of Federal statutes and related authorities to the extent they prohibit discrimination in programs and activities receiving Federal financial assistance.

Title VI compliance is defined as when the recipient has effectively implemented all of the Title VI requirements or can demonstrate that every good faith effort has been made toward achieving this end. MoDOT and all Section 5317 program recipients must meet these requirements.

All programs conducted by MoDOT and the Section 5317 program recipients must meet the requirements. Education, training, work opportunities, benefits, and provision of services are examples of programs that must meet the Title VI requirements, whether provided directly by the recipient or its agents, contractors, or other vendors.

Discrimination is defined as: an act (action or inaction) whether intentional or unintentional, through which a person or group, solely because of race, color, national origin, disability, sex, age or income status, has been otherwise subjected to unequal treatment or impact, under any program or activity receiving Federal financial assistance.

A complaint may be filed by any individual or group that believes they have been subjected to discrimination or retaliation based on their race, color, national origin, sex, age, disability or income status. The complaint may be filed by the affected party or a representative and must be in writing.

Section 5317 program recipients who feel they have been discriminated against by any MoDOT employee or its agent/contractor may contact MoDOT's External Civil Rights Office. A review will be made to determine if MoDOT has jurisdiction to investigate the issues raised. If MoDOT does not have jurisdiction, the complaint will be forwarded to the appropriate agency. If MoDOT does have jurisdiction, the allegations will be investigated and an attempt will be made to resolve the matter. If violations are found and negotiations to correct the violation are unsuccessful, enforcement proceedings may be initiated to attain compliance.

In addition, any individual or group who believes they have been discriminated against by an employee of a Section 5317 program recipient or its agent/contractor should first contact the Section 5317 recipient in writing. MoDOT should also be notified of the complaint within 5 working days.

MoDOT and the Section 5317 program recipients are prohibited from retaliating against any person because they reported an unlawful policy or practice, or made charges, testified, or participated in any complaint action under Title VI. If an individual or group believes they have been retaliated against, they should immediately contact MoDOT's External Civil Rights Office to report their allegation. Filing a complaint with MoDOT does not prevent an individual or group from seeking remedy through other resources.

Complaints should be addressed to:

SAMPLE PUBLIC NOTICE

TO: Public and Private Transportation Providers

The Senior Citizens of Newcomb, Inc., 503 Greene, Newcomb, MO 65302, provides notice that it intends to apply to the Missouri Department of Transportation for a federal operating and/or equipment New Freedom grant to serve the transportation needs of persons with disabilities in Quinton County, including Newcomb. RESPONDING TO NEGATIVE COMMENTS FROM EXISTING OPERATORS

If negative comments are received by public or private transit or paratransit operators on projects requesting funding under Section 5317 program, the applicant must meet with the complainant to determine how their differences may be resolved and how their services may be coordinated and/or consolidated. Means by which this coordination or consolidation of service may take place are:

1. A contract-for-service or fare-subsidy arrangement between the applicant and the existing operator; or
2. A memorandum of understanding or other agreement between the parties stating how the specialized transportation service market will be divided and how their services will be coordinated.

It is the applicant's responsibility to give existing operators an opportunity to provide the needed service.

In case that no agreement can be reached, the applicant must document his efforts to coordinate with the complainant. The applicant must provide documentation to the Missouri Department of Transportation that the service provided or offered to be provided by the complainant is insufficient or inappropriate in terms of type of service, quantity or quality of service, or cost of service. The complainant will then be given an opportunity to respond to the argument presented by the applicant.

The final decision will be made by the Missouri Department of Transportation whether the proposed 5317 project or part of the proposed project will be considered for funding. The state's decision will be based on:

1. The degree to which the service provided or offered to be provided by the complainant is insufficient or inappropriate to meet the existing need;
2. The degree to which a good-faith effort was made to involve the complainant to the maximum extent feasible in the planning and provision of service.

TERMINATION
49 U.S.C. Part 18 FTA Circular 4220.1F

a. Termination for Convenience (General Provision) The Missouri Department of Transportation (MoDOT) may terminate this contract, in whole or in part, at any time by written notice to the Applicant when it is in the Government's best interest. The Applicant shall be paid its costs, including contract closeout costs, and profit on work performed up to the time of termination. The Applicant shall promptly submit its termination claim to MoDOT for payment. If the Applicant has any property in its possession belonging to MoDOT, the Applicant will account for the same, and dispose of it in the manner MoDOT directs.

b. Termination for Default [Breach or Cause] (General Provision) If the Applicant does not deliver supplies in accordance with the contract delivery schedule, or, if the contract is for services, the Applicant fails to perform in the manner called for in the contract, or if the Applicant fails to comply with any other provisions of the contract, MoDOT may terminate this contract for default. Termination shall be effected by serving a notice of termination on the Applicant setting forth the manner in which the Applicant is in default. The Applicant will only be paid the contract price for supplies delivered and accepted, or services performed in accordance with the manner of performance set forth in the contract.

If it is later determined by MoDOT that the Applicant had an excusable reason for not performing, such as a strike, fire, or flood, events which are not the fault of or are beyond the control of the Applicant, MoDOT, after setting up a new delivery of performance schedule, may allow the Applicant to continue work, or treat the termination as a termination for convenience.

c. Opportunity to Cure (General Provision) MoDOT in its sole discretion may, in the case of a termination for breach or default, allow the Applicant [thirty (30) to sixty (60) days, depending on severity] in which to cure the defect. In such case, the notice of termination will state the time period in which cure is permitted and other appropriate conditions

If Applicant fails to remedy to MoDOT's satisfaction the breach or default or any of the terms, covenants, or conditions of this Contract within [ten (10) days] after receipt by Applicant or written notice from MoDOT setting forth the nature of said breach or default, MoDOT shall have the right to terminate the Contract without any further obligation to Applicant. Any such termination for default shall not in any way operate to preclude MoDOT from also pursuing all available remedies against Applicant and its sureties for said breach or default.

d. Waiver of Remedies for any Breach In the event that MoDOT elects to waive its remedies for any breach by Applicant of any covenant, term or condition of this Contract, such waiver by MoDOT shall not limit MoDOT's remedies for any succeeding breach of that or of any other term, covenant, or condition of this Contract.
