\$ 150,000.00

MO-La Monte—Nfo Rd. Crossing Upgrade

Project Narrative Statement for Rail Crossing Discretionary Funds Application

- *Background* – Briefly describe the events that led to the development of this project and the issue the project will address. Also provide a description of the role of high-speed rail as a component of the State's transportation system, including:
 - a. The State's high-speed rail service objectives for the Federally-designed HSR Corridor on which the proposed project is located;
 - b. The type of service currently in operation and that which is envisioned (e.g. number of daily round trips, speed, trip times, locations served, etc); and
 - c. The State's long-range investment program for current and future high-speed rail infrastructure, including a list of rail capital projects expected to be undertaken or supported by the State to develop the HSR Corridor.
- See attached Federal HSIPR map.
- See attached most recent map of all projects planned on the corridor for HSIPR.
- See most recent summary of all crossings awarded under HSIPR program.
- See attached map of the Missouri crossing project candidates applied for 2011 Discretionary Funds under the Railway-Highway Crossing Hazard Elimination in High Speed Rail Corridors Program.
- See Show Me Improved Rail Service high speed rail projects overview—June 2011.

This package of crossing project improvements is located on the Union Pacific Railroad in Missouri along the *Missouri River Runner* route, which is the Amtrak-state supported service and has been designated as a High Speed Rail Corridor.(see attached map) Any of these projects in combination or singly will improve service and safety along the route. There are 10 Amtrak stations along the route that include St. Louis, Kirkwood, Washington, Hermann, Jefferson City, Sedalia, Warrensburg, Lee's Summit, Independence and Kansas City. There is no commuter rail service on this line. The only freight use is by Union Pacific freight trains, which will also benefit from the project. There will be no donated land from the railroad in order to construct the project.

As illustrated in the attached information, this project will improve on-time performance along the entire Union Pacific corridor in Missouri between St. Louis and Kansas City. It will also enhance the future provision of 90- to 110-mph service. Many of these crossings have a history of train-vehicle accidents, most of them involving the higher-speed Amtrak trains. These crossings were identified through a process that reviewed the busiest five rail corridors in Missouri. Since this is the busiest Amtrak corridor and one of the top 10 busiest freight corridors in Missouri, these crossings all need improvements for overall traffic and train safety. These projects will improve up to 9 highway/rail at-grade crossings between Jefferson City and Kansas City. It is important to note that there are already 13 crossings that will receive lights and gates, and two crossings that will be closed on this corridor as a result of federal award of ARRA HSIPR money in 2010 that is currently in the construction agreement stages and on which work will begin soon. When these projects are completed, nearly the entire 283-mile

corridor will be completely “sealed” in the sense that public crossings will be either grade-separated or will have a full set of lights and gates.

This project is part of an already existing agreement between MoDOT and the Union Pacific Railroad in which the costs are split 80-20 between the two parties. UP's share remains the same at 20 percent. MODOT intends to use both state funds and federal 23 USC Section 130 funds for its share of 20 percent. MoDOT is proposing federal funds for the other 60 percent.

All the crossings identified in an attached sheet are in, Pettis, Johnson, Morgan, Jackson and Cole counties on the UP Sedalia Subdivision. Crossing improvements will all be full lights and gates installations with constant warning time circuitry and LED lighting. Closed crossings will be closed with type IV object markers and surfaces obliterated. The overall purpose of this project is to promote crossing safety and reduce the amount of accidents between Amtrak trains and vehicles, thereby, increasing safety for both the general public and for train crews and passengers.

- *Project Location* – *Specify the location of the proposed project, including:*
 - a. *The county, city, cross streets, Federally-designated HSR Corridor, railroad right-of-way owner, railroad milepost number, DOT crossing inventory number, and longitude and latitude coordinates;*
 - b. *The characteristics of the crossing, including the number of railroad tracks, number of roadway traffic lanes, existing traffic control devices, average annual daily traffic, volume of truck traffic, and the history of train-vehicle accidents at the crossing; and*
 - c. *Any nearby areas of significant concern, such as schools, hospitals, first responders, or other emergency services providers.*
- a. This project is located at DOT crossing no. 442 092K on the Union Pacific Railroad Sedalia Subdivision at railroad milepost 198.67, longitude 93.38627, latitude 38.76581. This crossing is located on the St. Louis-Kansas City spoke of the Chicago Hub Network federally-designated HSR corridor.

The crossing is located 2.08 miles east of the city of La Monte, MO in Pettis County. The Railroad operates a single main track through this crossing and timetable direction is east/west.
- b. Crossing no. 442 092K is a public at grade crossing where Nfo Road, a 2-lane county maintained gravel roadway traversing north/south intersects at right angle with the Railroad's track. Approximately 750 feet south of the crossing Nfo Road intersects at right angle with US Highway 50, a 4-lane asphalt divided highway with a Function Classification at this location of Rural Other Principal Arterial.

Approximately 22 freight and 4 passenger trains operate daily thru this crossing, maximum timetable authorized speed at this location is 70 mph passenger and 55 mph freight.

The warning devices consist of R15-1 crossbuck signs and W10-1 advance warning signs located on the right hand side of each roadway approach.

The estimated AADT is 10 which consists of 40% trucks.

There have been no train/vehicle collisions at this crossing.

- c. A farming operation located approximately 800 feet north of the crossing operates large farm machinery through the crossing at various times of the year.
- *Scope of Activities* – *Clearly describe the scope of work to be accomplished and identify the general objectives of the proposed project, including:*
 - a. *General Objective* – *Provide a general description of the work to be accomplished through this grant, including project work effort and other parties involved. Describe the end-state of the project, how it will address the need identified in Background (above), and the outcomes that will be achieved as a result of the project; and*
 - b. *Description of Work* – *Provide a detailed description of the work to be accomplished through this grant by task (e.g., discreet design and construction elements) including a description of the geographical and physical boundaries of the project. Address the work in a logical sequence that would lead to the anticipated outcomes and the end state of the activities.*
- a. General Objective – The objective of this project is to upgrade the passive warning devices at this crossing to flashing light signals and gates.

The \$150,000 grant amount requested for this project represents 60% of the estimated cost to upgrade to flashing light signals and gates. In addition to the requested grant, MoDOT and Union Pacific will each contribute 20% of the upgrade cost. MoDOT's 20% contribution will be split evenly between Section 130 and State Grade Crossing Safety Account funds.

- b. Description of Work – New flashing light signals and gates with LED lights and constant warning time circuitry will be installed by Union Pacific Railroad signal forces.
- *Response to Evaluation Criteria* – *Describe how the proposed project addresses the evaluation criteria listed below:*

Evaluation Criteria

Applications submitted for consideration will first be screened for completeness and eligibility. Eligible and complete applications will then be evaluated against the following criteria:

- *Improves safety at a crossing that has recent activity or high potential for accidents between pedestrian and/or vehicle traffic and HSR or intercity passenger rail operations;*
 - Upgrading the warning devices from passive crossbucks to flashing lights and gates will improve safety at this crossing. There is presently a high potential for accidents as there is limited sight distance in the northwest quadrant, maximum timetable authorized speed at this location is 70 mph passenger and 55 mph freight and large, slow moving farm machinery operates through the crossing during the year.
- *Upgrades a crossing or a series of crossings to create a "sealed Corridor" segment utilizing advanced warning technology, four-quadrant gates, or median separators - with preference to crossing closures;*
 - After this project (and related crossing upgrades or closures that are also included in this grant application) are completed, nearly the entire St. Louis-Kansas City HSR corridor will be sealed because every public crossing save one will be either grade-separated or equipped with flashing light signals and gates.
- *Supports a HSR Corridor Service Development Plan*
 - This project supports the Chicago Hub Network Corridor Service Development plan of which the St. Louis-Kansas City line is a spoke.
- *Is included on a Corridor with active HSR or intercity passenger rail service that has programmed capital funding for an increase in service frequency or speeds of 90 mph or greater – with preference toward the development of Corridors with speeds of 110 mph or greater;*
 - This project is included on a Federally-designated HSR Corridor with active intercity passenger rail service.
- *Will generate improvements to existing HSR or intercity passenger rail service, as reflected by estimated increases in ridership, increases in operational reliability, increases in average and/or top operating speeds, reductions in trip times, additional service frequencies, and other related factors;*
 - This project will increase the operational reliability of existing intercity passenger rail service because the high potential of a train/vehicle collision at this crossing will be eliminated.
- *Demonstrates support from key project partners, including the infrastructure owning railroad, local governments, and other relevant stakeholders;*

- Both Union Pacific Railroad and Pettis County support the upgrade of this crossing from passive crossbucks to flashing lights and gates.

and

- *Conforms to the FRA's "High-Speed Passenger Rail Safety Strategy" guidance published November 2009, which is posted on the FRA website at the following link - <http://www.fra.dot.gov/downloads/safety/HSRSafetyStrategy110609.pdf>.*
 - This project conforms to the above referenced FRA guidance as the proposed crossing upgrade, coupled with similar planned upgrades, are part of the overall plan to create a “sealed Corridor” on the St. Louis-Kansas City HSR corridor.

Missouri is currently embarking on a project to develop a PRIIA compliant Missouri State Rail Plan. This project is anticipated to complete by May 2012.

ASSURANCES - CONSTRUCTION PROGRAMS

Public reporting burden for this collection of information is estimated to average 15 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Office of Management and Budget, Paperwork Reduction Project (0348-0042), Washington, DC 20503.

PLEASE DO NOT RETURN YOUR COMPLETED FORM TO THE OFFICE OF MANAGEMENT AND BUDGET. SEND IT TO THE ADDRESS PROVIDED BY THE SPONSORING AGENCY.

NOTE: Certain of these assurances may not be applicable to your project or program. If you have questions, please contact the Awarding Agency. Further, certain Federal assistance awarding agencies may require applicants to certify to additional assurances. If such is the case, you will be notified.

As the duly authorized representative of the applicant, I certify that the applicant:

1. Has the legal authority to apply for Federal assistance, and the institutional, managerial and financial capability (including funds sufficient to pay the non-Federal share of project costs) to ensure proper planning, management and completion of the project described in this application.
2. Will give the awarding agency, the Comptroller General of the United States and, if appropriate, the State, through any authorized representative, access to and the right to examine all records, books, papers, or documents related to the assistance; and will establish a proper accounting system in accordance with generally accepted accounting standards or agency directives.
3. Will not dispose of, modify the use of, or change the terms of the real property title, or other interest in the site and facilities without permission and instructions from the awarding agency. Will record the Federal interest in the title of real property in accordance with awarding agency directives and will include a covenant in the title of real property acquired in whole or in part with Federal assistance funds to assure non-discrimination during the useful life of the project.
4. Will comply with the requirements of the assistance awarding agency with regard to the drafting, review and approval of construction plans and specifications.
5. Will provide and maintain competent and adequate engineering supervision at the construction site to ensure that the complete work conforms with the approved plans and specifications and will furnish progress reports and such other information as may be required by the assistance awarding agency or State.
6. Will initiate and complete the work within the applicable time frame after receipt of approval of the awarding agency.
7. Will establish safeguards to prohibit employees from using their positions for a purpose that constitutes or presents the appearance of personal or organizational conflict of interest, or personal gain.
8. Will comply with the Intergovernmental Personnel Act of 1970 (42 U.S.C. §§4728-4763) relating to prescribed standards for merit systems for programs funded under one of the 19 statutes or regulations specified in Appendix A of OPM's Standards for a Merit System of Personnel Administration (5 C.F.R. 900, Subpart F).
9. Will comply with the Lead-Based Paint Poisoning Prevention Act (42 U.S.C. §§4801 et seq.) which prohibits the use of lead-based paint in construction or rehabilitation of residence structures.
10. Will comply with all Federal statutes relating to non-discrimination. These include but are not limited to: (a) Title VI of the Civil Rights Act of 1964 (P.L. 88-352) which prohibits discrimination on the basis of race, color or national origin; (b) Title IX of the Education Amendments of 1972, as amended (20 U.S.C. §§1681 1683, and 1685-1686), which prohibits discrimination on the basis of sex; (c) Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. §794), which prohibits discrimination on the basis of handicaps; (d) the Age Discrimination Act of 1975, as amended (42 U.S.C. §§6101-6107), which prohibits discrimination on the basis of age; (e) the Drug Abuse Office and Treatment Act of 1972 (P.L. 92-255), as amended, relating to nondiscrimination on the basis of drug abuse; (f) the Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment and Rehabilitation Act of 1970 (P.L. 91-616), as amended, relating to nondiscrimination on the basis of alcohol abuse or alcoholism; (g) §§523 and 527 of the Public Health Service Act of 1912 (42 U.S.C. §§290 dd-3 and 290 ee 3), as amended, relating to confidentiality of alcohol and drug abuse patient records; (h) Title VIII of the Civil Rights Act of 1968 (42 U.S.C. §§3601 et seq.), as amended, relating to nondiscrimination in the sale, rental or financing of housing; (i) any other nondiscrimination provisions in the specific statute(s) under which application for Federal assistance is being made; and, (j) the requirements of any other nondiscrimination statute(s) which may apply to the application.

11. Will comply, or has already complied, with the requirements of Titles II and III of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (P.L. 91-646) which provide for fair and equitable treatment of persons displaced or whose property is acquired as a result of Federal and federally-assisted programs. These requirements apply to all interests in real property acquired for project purposes regardless of Federal participation in purchases.
12. Will comply with the provisions of the Hatch Act (5 U.S.C. §§1501-1508 and 7324-7328) which limit the political activities of employees whose principal employment activities are funded in whole or in part with Federal funds.
13. Will comply, as applicable, with the provisions of the Davis-Bacon Act (40 U.S.C. §§276a to 276a-7), the Copeland Act (40 U.S.C. §276c and 18 U.S.C. §874), and the Contract Work Hours and Safety Standards Act (40 U.S.C. §§327-333) regarding labor standards for federally-assisted construction subagreements.
14. Will comply with flood insurance purchase requirements of Section 102(a) of the Flood Disaster Protection Act of 1973 (P.L. 93-234) which requires recipients in a special flood hazard area to participate in the program and to purchase flood insurance if the total cost of insurable construction and acquisition is \$10,000 or more.
15. Will comply with environmental standards which may be prescribed pursuant to the following: (a) institution of environmental quality control measures under the National Environmental Policy Act of 1969 (P.L. 91-190) and Executive Order (EO) 11514; (b) notification of violating facilities pursuant to EO 11738; (c) protection of wetlands pursuant to EO 11990; (d) evaluation of flood hazards in floodplains in accordance with EO 11988; (e) assurance of project consistency with the approved State management program developed under the Coastal Zone Management Act of 1972 (16 U.S.C. §§1451 et seq.); (f) conformity of Federal actions to State (Clean Air) Implementation Plans under Section 176(c) of the Clean Air Act of 1955, as amended (42 U.S.C. §§7401 et seq.); (g) protection of underground sources of drinking water under the Safe Drinking Water Act of 1974, as amended (P.L. 93-523); and, (h) protection of endangered species under the Endangered Species Act of 1973, as amended (P.L. 93-205).
16. Will comply with the Wild and Scenic Rivers Act of 1968 (16 U.S.C. §§1271 et seq.) related to protecting components or potential components of the national wild and scenic rivers system.
17. Will assist the awarding agency in assuring compliance with Section 106 of the National Historic Preservation Act of 1966, as amended (16 U.S.C. §470), EO 11593 (identification and protection of historic properties), and the Archaeological and Historic Preservation Act of 1974 (16 U.S.C. §§469a-1 et seq.).
18. Will cause to be performed the required financial and compliance audits in accordance with the Single Audit Act Amendments of 1996 and OMB Circular No. A-133, "Audits of States, Local Governments, and Non-Profit Organizations."
19. Will comply with all applicable requirements of all other Federal laws, executive orders, regulations, and policies governing this program.

May 27, 2011

To Whom It May Concern:

This letter is to demonstrate Union Pacific Railroad's (UP's) support for the Missouri Department of Transportation (MoDOT) to obtain additional funding through the 2011 Discretionary Grant Program for Railway-Highway Crossing Hazard Elimination in High Speed Rail Corridors jointly administered by the Federal Railroad Administration and the Federal Highway Administration. UP has worked collaboratively with MoDOT to advance projects like this in the past. It is understood that MoDOT has not yet received funding for these projects along the KC to STL Corridor:

1. Centertown-Close Oak St crossing by making engineering improvements near Rt NN crossing
2. Syracuse-MFA crossing-Close crossing by providing incentive payment to MFA
3. LaMonte- Nifo Road-Upgrade to flashing lights & gates
4. LaMonte- Walnut St-Upgrade to flashing lights & gates
5. Knob Noster-Upgrade to flashing lights & gates
6. Kingsville-Upgrade to flashing lights & gates
7. Strasburg-Co Rd. 1971Close crossing by providing incentive payment to Johnson County
8. Strasburg-Rogers Rd-Upgrade to flashing lights & gates
9. Greenwood—Ranson Rd-Grade separation

Sincerely,

A handwritten signature in cursive script that reads "Michael L. Benjamin".

Michael L Benjamin

Mr. Rodney Massman
Administrator of Railroads
Missouri Department of Transportation
830 MoDOT Drive
Jefferson City, MO 65109

Dear Mr. Massman:

The National Railroad Passenger Corporation (Amtrak) would like to take this opportunity to express its support for Missouri's 2011 Discretionary Grant Program application for Railway-Highway Crossing Hazard Elimination in High Speed Rail Corridors jointly administered by the Federal Railroad Administration and the Federal Highway Administration.

Amtrak's support relates to the following infrastructure improvement projects on the St. Louis-Kansas City federally designated high speed rail corridor:

1. Centertown-Close Oak St crossing by making engineering improvements near Rt NN crossing
2. Syracuse-MFA crossing-Close crossing by providing incentive payment to MFA
3. LaMonte- Nifo Road-Upgrade to flashing lights & gates
4. LaMonte Walnut St-Upgrade to flashing lights & gates
5. Knob Noster-Upgrade to flashing lights & gates
6. Kingsville-Upgrade to flashing lights & gates
7. Strasburg-Co Rd. 1971Close crossing by providing incentive payment to Johnson County
8. Strasburg-Rogers Rd-Upgrade to flashing lights & gates
9. Greenwood--Ranson Rd-Grade separation

These projects, upon completion, will improve intercity passenger rail service and benefit the Amtrak system. Based on the information made available to us regarding the projects' eligibility, and subject to the development of such project-specific agreements as FRA and FHWA may require, we support their selection for grant funding and ultimate implementation.

The advancement of projects like these will help develop high-speed and quality intercity passenger rail service in the United States. We appreciate your leadership in filing this application and look forward to a favorable decision.

Sincerely,

A handwritten signature in dark ink, appearing to read "Michael W. Franke".

Michael W. Franke
Assistant Vice President, Policy and Development (Central Region)

Show Me **IMPROVED** Rail Service

.....
June 2011

High-speed rail has long been part of the vision for Missouri's passenger rail service. In an effort to help bring efficient passenger rail services to the Midwest, studies have been completed, partnerships have been solidified and plans have been formulated. Now, through the High-Speed Intercity Passenger Rail Program – an opportunity is ahead.

In partnership with the Union Pacific Railroad, Amtrak and the terminal railroads, the Missouri Department of Transportation is submitting to the Federal Railroad Administration project applications that address capital improvements for track sections between St. Louis and Kansas City. Missouri has had a state-supported Amtrak route on this line, which is owned by Union Pacific, for more than 30 years. A goal of this cooperative effort, through a focus on service reliability, is to remove rail system bottlenecks in order to increase ridership. The type of high-speed rail projects Missouri plans to develop is one that would make the train service on the existing line faster over time. These applications will allow the state to take the next step toward faster service.

By enhancing the capacity of the current system, these new rail projects, which will complement several recent and ongoing improvements, will create and support jobs. These jobs deliver both economic and transportation benefits by bringing about more reliable service and eventually producing faster travel times.

The rail projects will profoundly impact on-time performance, and in the future, the ability of trains to move at 90- to 110-miles per hour. If fully implemented, the analysis of the St. Louis-to-Kansas City corridor improvement plan shows a 47.6 percent reduction in passenger train delays while maintaining a critical freight rail delivery system.

There are even more benefits! To further enhance this opportunity to improve transportation choices, the long-term plan along this corridor is to add additional frequencies and purchase new equipment for the train service when reliable on-time performance is achieved. Another benefit is the enhancement of Missouri's role in passenger rail by providing a section of the Midwest Regional Rail Initiative, which is a planning effort of MoDOT and eight other state transportation departments launched in 1996. An additional benefit is the establishment of a key transfer point in St. Louis, through the new gateway Multimodal Station, to the high-speed Chicago-to-St. Louis rail line.

To demonstrate full support, MoDOT, Union Pacific Railroad and the terminal railroads are committing significant financial contributions to completing the improvement projects represented in this round of applications. Because the passenger rail needs far outweigh the limited resources of the federal program, Missouri's projects are listed in a priority order to help address the most critical issues first.

Throughout the past 30 years, the poor on-time performance of passenger rail has adversely affected its use. Missourians are speaking loudly and clearly: passenger rail service must be reliable. Together – MoDOT, Union Pacific, Amtrak and the terminal railroads – are making steady progress in improving this rail corridor in order to give customers a dependable service. These grants will provide the down payment Missouri needs to further enhance both passenger and freight movement, and thus move significantly closer to clearly realizing the vision of a national network of high-speed rail corridors.

MO-KC to STL Corridor-Missouri Rail Crossing Safety Improvements
Union Pacific Owned St. Louis to Kansas City Corridor
FRA Designated High-Speed Corridor and Current State-Supported Amtrak Route
MoDOT Proposed ARRA Project to Improve Crossing Safety
Preliminary Total Project Cost Estimate: \$3,144,100

Proposed Grade-Crossing Upgrades

NOTE - Any roadway improvements required in conjunction with any of the following projects will be financed with non-ARRA funds.

1. Berger, Missouri: Install new lights and gates with constant warning time circuitry at crossing # 442 781E (**Zero Rd**) on the Jefferson City Subdivision. It currently has flashers only with phase motion detector circuitry and has had 1 grade-crossing accident since 1976.

Estimated Cost: \$211,100.00

2. Osage City, Missouri: Install new lights and gates with constant warning time circuitry at crossing # 442 827R (**Fourth St**) on the Jefferson City Subdivision. It currently has flashers only with phase motion detector circuitry and has had 1 grade-crossing accident since 1976.

Estimated Cost: \$268,200.00

3. Near Tipton, Missouri: Install new lights and gates with constant warning time circuitry at crossing # 442 194D (**Howard Rd**) on the Sedalia Subdivision. It currently has only crossbucks and has had 2 grade-crossing accidents, including 1 with Amtrak, since 1976.

Estimated Cost: \$212,700.00

4. Near Syracuse, Missouri: Install new lights and gates with constant warning time circuitry at crossing # 442 172D (**Otter Dr**) on the Sedalia subdivision. It currently has only crossbucks.

Estimated Cost: \$243,800.00

5. Near Smithton, Missouri: Install new lights and gates with constant warning time circuitry at crossing # 442 160J (**Florence Rd**) on the Sedalia subdivision. It currently has only crossbucks and has had 1 grade-crossing accident, involving Amtrak, since 1976.

Estimated Cost: \$217,300.00

6. Near La Monte, Missouri: Install new lights and gates with constant warning time circuitry at crossing # 442 087N (**Carlin-Mar Rd**) on the Sedalia Subdivision. It currently has only crossbucks.

Estimated Cost: \$260,100.00

MO-KC to STL Corridor-Missouri Rail Crossing Safety Improvements
Union Pacific Owned St. Louis to Kansas City Corridor
FRA Designated High-Speed Corridor and Current State-Supported Amtrak Route
MoDOT Proposed ARRA Project to Improve Crossing Safety
Preliminary Total Project Cost Estimate: \$3,144,100

7. Near Montserrat, Missouri: Install new lights and gates with constant warning time circuitry at crossing # 442 064G (**Co Rd 115**) on the Sedalia Subdivision. It currently has only crossbucks and has had 7 grade-crossing accidents, including 3 with Amtrak (1 fatality), since 1976.

Estimated Cost: \$179,400.00

8. Near Centerview, Missouri: Install new lights and gates with constant warning time circuitry at crossing # 442 040T (**Co Rd 301**) on the Sedalia Subdivision. It currently has only crossbucks and has had 2 grade-crossing accidents since 1975.

Estimated Cost: \$249,300.00

9. Near Centerview, Missouri: Install new lights and gates with constant warning time circuitry at crossing # 442 037K (**Co Rd 401**) on the Sedalia Subdivision. It currently has only crossbucks.

Estimated Cost: \$267,800.00

10. Near Holden, Missouri Project Description: Install new lights and gates with constant warning time circuitry at crossing # 442 012P (**Co Rd 1451**) on the Sedalia Subdivision. It currently has only crossbucks and has had 4 grade-crossing accidents since 1975.

Estimated Cost: \$266,400.00

11. Near Strasburg, Missouri: Install new lights and gates with constant warning time circuitry at crossing # 442 005E (**Co Rd 1971**) on the Sedalia Subdivision. It currently has only crossbucks.

Estimated Cost: \$343,400.00

12. Near Strasburg, Missouri: Install new lights and gates with constant warning time circuitry at crossing # 441 995T (**Beattie Rd**) on the Sedalia Subdivision. It currently has only crossbucks.

Estimated Cost: \$194,300.00

13. Near Pleasant Hill, Missouri: Install new lights and gates with constant warning time circuitry at crossing # 441 993E (**Francy Rd**) on the Sedalia Subdivision. It currently has only crossbucks and has had 1 grade-crossing accident since 1975.

Estimated Cost: \$230,300.00

MO-KC to STL Corridor-Missouri Rail Crossing Safety Improvements
Union Pacific Owned St. Louis to Kansas City Corridor
FRA Designated High-Speed Corridor and Current State-Supported Amtrak Route
MoDOT Proposed ARRA Project to Improve Crossing Safety
Preliminary Total Project Cost Estimate: \$3,144,100

Proposed Grade-Crossing Closures and Roadway Improvements

NOTE – the following projects will be financed with non-ARRA funds.

La Monte, Missouri: Close at grade crossing at crossing # 442 089C (**Walnut St**) on the Sedalia Subdivision. It currently has flashers only with phase motion detector circuitry and is located approximately 500 feet west of crossing # 442 090W which is equipped with lights and gates and 1 mile east of crossing # 442 087N, a crossbuck crossing that is recommended for upgrade to lights and gates.

Near Montserrat, Missouri: Build turn lanes on eastbound lane of US 50 near in conjunction with installation of new lights and gates with constant warning time circuitry at crossing # 442 064G (**Co Rd 115**) on the Sedalia Subdivision.

Near Centerview, Missouri: Close at grade crossing at crossing # 442 038S (**Co Rd 100**) on the Sedalia Subdivision. It currently has only crossbucks only & lies .85 miles west of crossing # 442 040T (**Co Rd 301**) & .30 miles east of crossing # 442 037K (**Co Rd 401**), both of which are crossbuck crossings & recommended to be upgraded to flashing lights & gates. Build connecting road between Co Rd 100 & Co Rd 401 (approximately .3 mile)

Near Strasburg, Missouri: Improve entrance to county road from State Route 58 in conjunction with installation of new lights and gates with constant warning time circuitry at crossing # 442 005E (**Co Rd 1971**) on the Sedalia Subdivision.
