

MISSOURI ROUTE 7 OVER SELLARS CREEK, MURPHY CREEK BRIDGE DECK REPLACEMENTS

PROJECT OVERVIEW

Planned Improvements

The supporting structures of the Route 7 bridges over Sellars Creek and Murphy Creek are in good condition, but the driving surface – the deck – has deteriorated and must be replaced.

Planned improvements include:

- New 26-foot wide decks - the same width as the existing structures.
- New concrete barriers to replace the current railings.
- New guardrail at all four corners of each bridge.

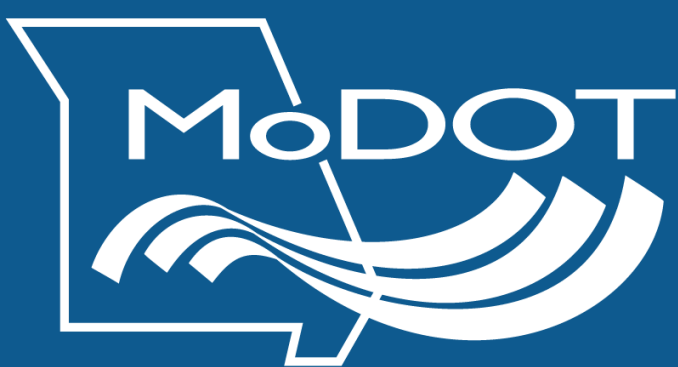

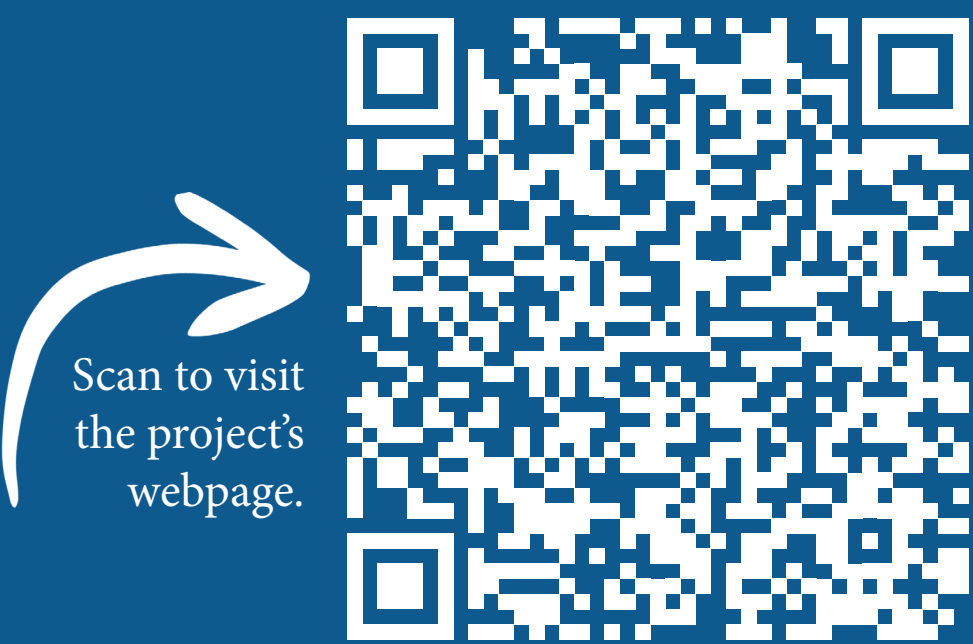

Estimated Cost

- \$1.7 million including engineering and construction costs.*

**As of March 2025. This amount is subject to change.*

Current Project Timeline

- **December 2025:** Contractors submit competitive bids.
- **January 2026:** Missouri Highways and Transportation Commission may award contract for work.
- **February 2026:** If awarded in January, the earliest the contractor may begin work.
- **End of 2026:** Anticipated completion of project.
