

I-44/U.S. 50 Interchange Improvements Project

What is the project about?

MoDOT is planning improvements at the I-44/U.S. 50 interchange and U.S. 50/AT intersection. This project aims to increase safety and reliability while improving roadway conditions.

I-44 is a key connection that's vital for Missouri's traveling public. It is also an important route for freight moving across the country. Many portions of I-44, especially at the U.S. 50 interchange, have outdated design standards based on its construction more than 50 years ago.

MoDOT wants to hear from you!

Take our online survey and help shape the future of this important interchange.

What are the goals for the project?

GOAL 1

Improve safety and reliability within the I-44/U.S. 50 interchange, U.S. 50/Route AT intersection and entire project limits within the program budget.

GOAL 2

Provide a long-lasting and expandable transportation system that minimizes maintenance and future traffic impacts.

GOAL 3

Safely construct a project that minimizes impacts to the public.

GOAL 4

Deliver the project on schedule.*

**Schedule will be finalized in the coming months.*

All future decisions made during this design-build project will be based on the final goals you help shape.

What is Design-Build?

MoDOT's contractor will perform both design and construction. On this type of project, designs are completed in phases. This allows the contractor to start building parts of the project early, while finishing the design for later phases at the same time.

Benefits

- » MoDOT defines the project's goals, budget, schedule and other performance measures.
- » Contractors focus on providing the best value and most scope for a fixed price.
- » Overlapping design and construction phases shorten project timelines.

I-44/U.S. 50 Interchange Improvements Project

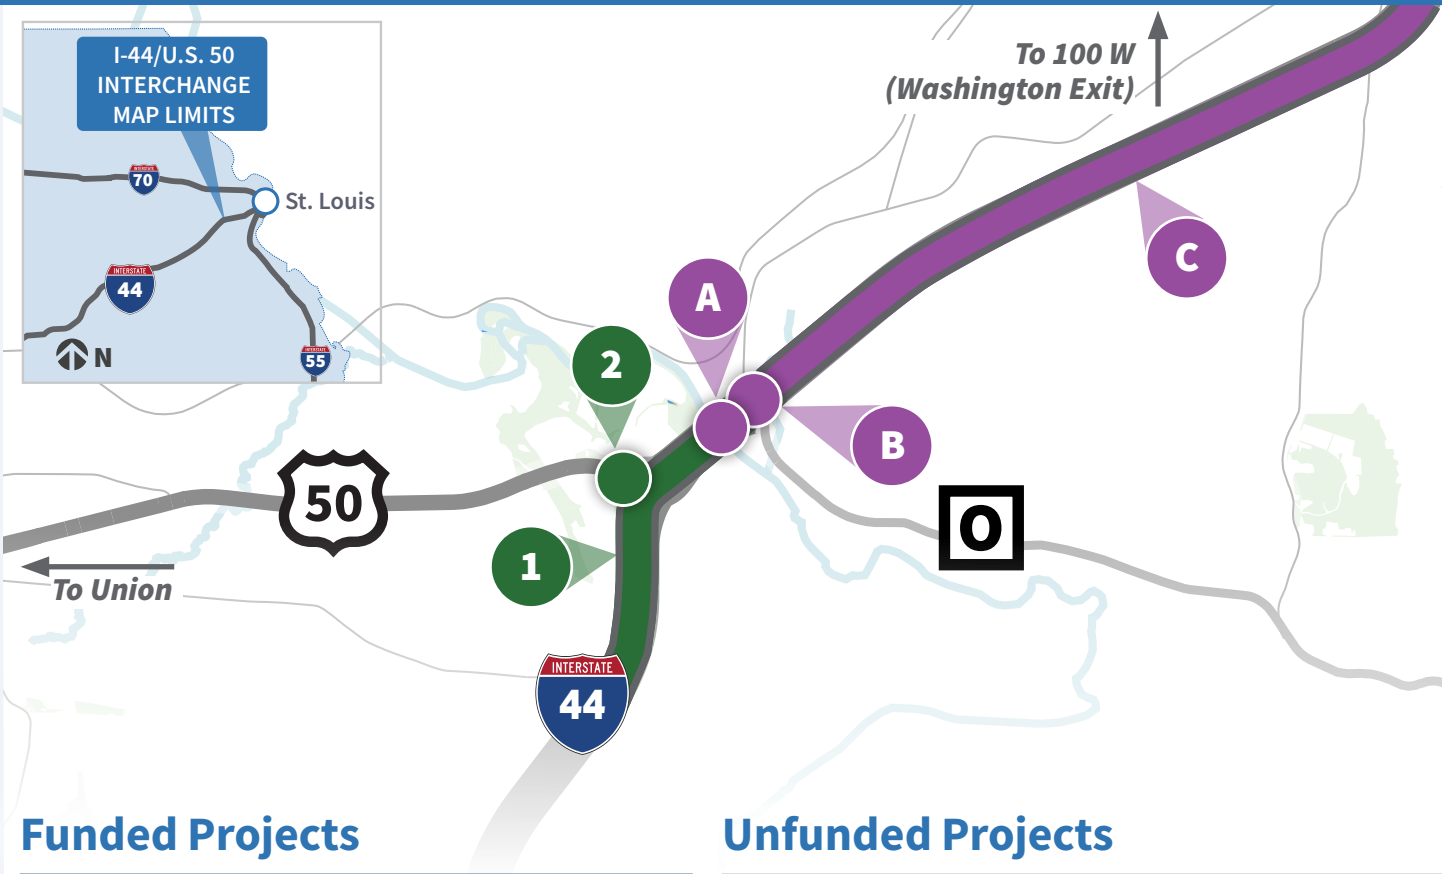

Next Steps

- Public Meeting for Project Goals
November 6, 2025
We are here
- Design-Build Procurement and Proposal Development
2026
- Project Award & Public Meeting to Share Design & Construction Schedule

Funded Projects

Limits	Funding
1 I-44 Interchange and Pavement Improvements at U.S. 50	\$125 million
2 U.S. 50/Route AT Intersection	

Unfunded Projects

Limits	Estimate
A Replace Bourbeuse River Bridges	\$20 million
B Replace Route O Bridges	\$20 million
C Rebuild and Widen I-44 from 100 W (Washington Exit) to U.S. 50 (Union Exit)	\$70 million
