

## Wireless Trailer Lights

### Description and Benefit

This innovation included purchasing wireless trailer lights that can be paired with any trailer or equipment that is being towed. These lights are portable, magnetic and easy to assemble. The use of remote lights eliminates pigtails; just plug in the lights to the truck and put lights on the trailer. The wireless connection can range up to 60-80 feet and have a full charge for up to eight hours.

### About this item

- **[Magnetic Wireless Design]** Led trailer lights have a 2.4 G wireless connector that provides a working range of 100 feet(30.5 meters). The wireless trailer lights kit has no need for wiring installation, the super magnet is easy to install and disassemble. And avoid the problem of shortening the service life due to the damage or poor contact of the wire.
- **[Rechargeable and Waterproof]** The wireless tow lights use built-in batteries, charge trailer tail lights for 3 hours, it can be used for up to 8 hours, which can be recharged and reused, No need to buy batteries, very energy-saving and environmentally friendly. At the same time, tow trailer lights are IP67 waterproof and can be applied to different vehicles or boats in various weather environments.
- **[High Quality and Durable]** Wireless design avoids having to deal with rewiring the trailer or loose connections every 2-3 years. The magnetic tow lights rechargeable use a more powerful magnetic base and are made of stronger ABS plastic, which provides great insulation, impact, and shock resistance,
