

Industry Meeting

Southwest I-44 Improvements Project

November 13, 2025

SCAN TO SIGN IN

Southwest District

Missouri Department of Transportation

Welcome & Introductions

Southwest I-44 Improvements Project

Presenting Today:

- Kristi Bachman – MoDOT Project Director

MoDOT Team:

- Matt Koppitz – Deputy Project Director
- Beth Schaller – Deputy Project Director
- Bethany Willis
- Terrell De 'Sha
- Eric Turner
- Tyler Lindsay
- Mia Crossfield
- Dave Simmons

Consultant Team:

- Wilson & Company
- Garver
- TREKK
- EFK Moen
- Shockey
- GeoEngineers
- OR Colan

Industry Meeting Agenda

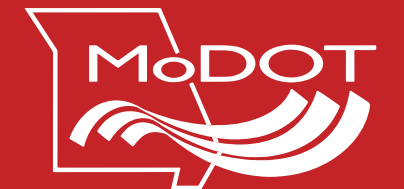

Southwest I-44 Improvements Project

Agenda:

- Project Overview
- Project Goals
- Project Schedule
- Budget
- Review of Segments
- Request for Qualifications
- Risk Allocation and Update
- Networking

Project Overview

Southwest District I-44 Bundled Improvements

Southwest District

Missouri Department of Transportation

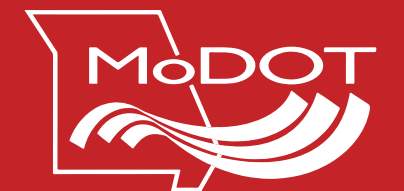

Project Goals

Southwest Forward 44

- 1 Deliver the project within the programmed budget
- 2 Maximize safety and reliability with innovative improvements that reduce crashes, and promote economic development
- 3 Construct a durable transportation facility that is compatible with freight movement and future expansion
- 4 Minimize and mitigate delays to the traveling public while ensuring the highest level of safety for both workers and the public
- 5 Deliver the project on or before November 15, 2031

Funding Sources

Southwest Forward 44

STIP Funding

State and federal transportation revenues are distributed by formula to MoDOT districts around the state for capital projects. The projects, selected in coordination with regional planning partner agencies, are included in the annual Statewide Transportation Improvement Program (STIP).

General Revenue Funding

General Revenue Funds are the primary operating funds of the State of Missouri, collecting broad-based taxes not dedicated to a specific purpose. These funds primarily originate from state income taxes, state sales and use taxes, and various other fees and licenses. They are used to support a wide range of state services, including transportation projects, ensuring the state's ability to address diverse needs.

Missouri Department of Transportation

Programmed Budget

Southwest Forward 44

Fixed Price – Best Value

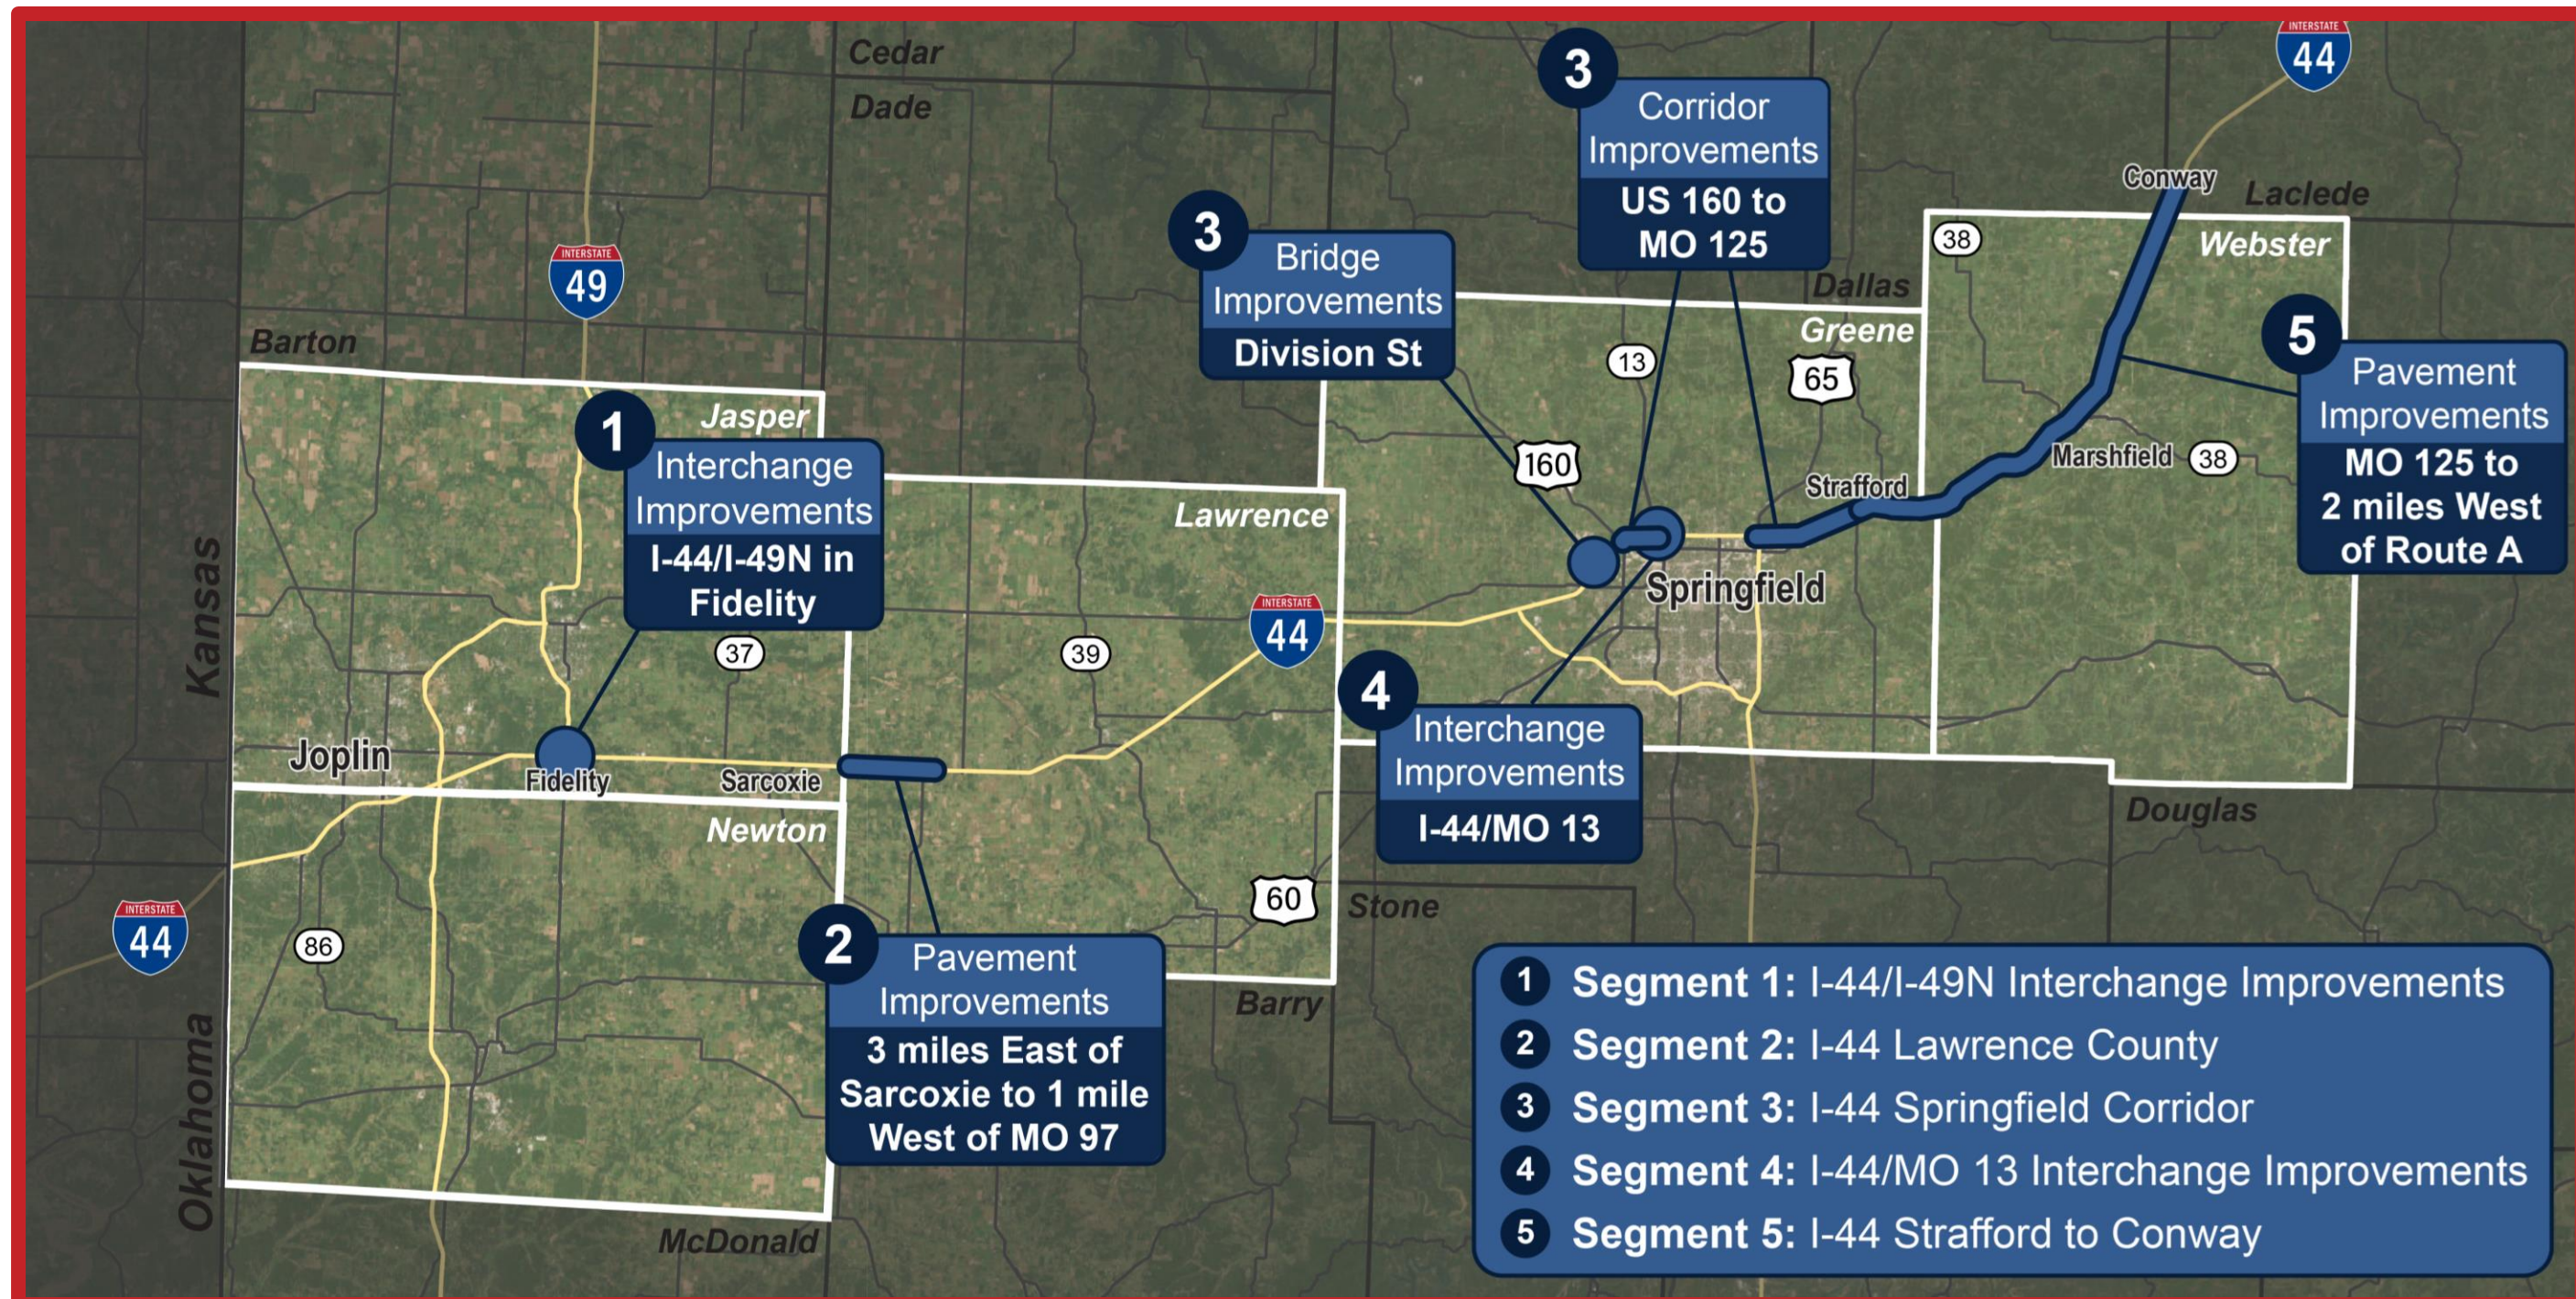

Southwest District

Missouri Department of Transportation

I-44 Improvement Segments

Southwest District I-44 Bundled Improvements

Southwest District

Missouri Department of Transportation

Segment 1: I-44/I-49N Interchange Improvements

Southwest Forward 44

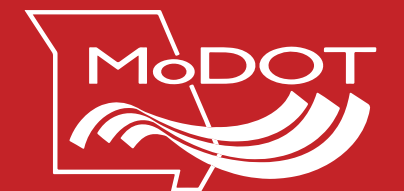

Risks

- NEPA – Approved PCE
- Utilities - Lumen
- IAJR – FHWA-HQ Approval anticipated by end of 2025
- Right of Way and Utility Relocations will be part DB contract

Southwest District

Missouri Department of Transportation

Segment 1: I-44/I-49N Interchange Improvements

Southwest Forward 44

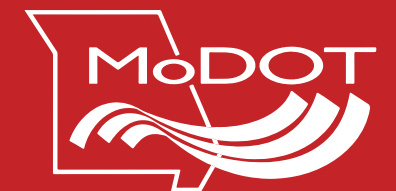

Configuration Requirements

- Reduce fatal and serious injuries
- Increase reliability of traffic operations
- Correct vertical clearances
- Direct connects for interstate-to-interstate movements

Southwest District

Missouri Department of Transportation

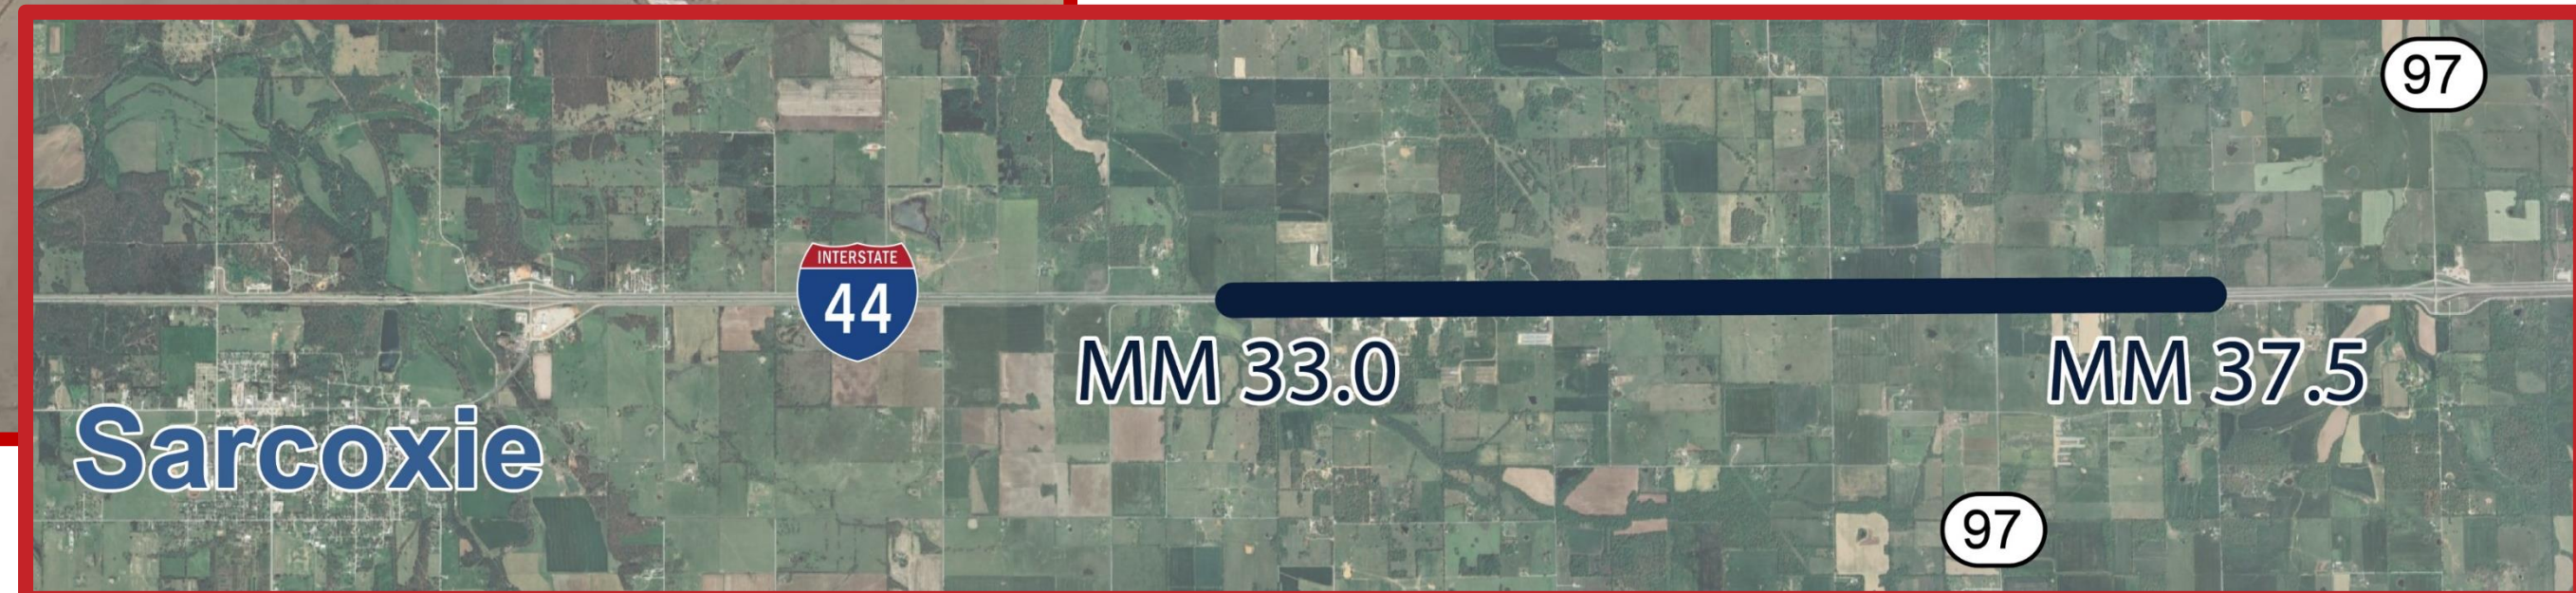

Segment 2: I-44 Lawrence County

Southwest Forward 44

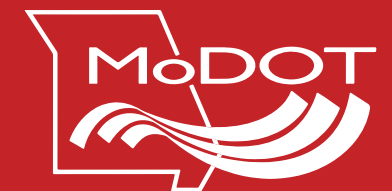

Risks

- NEPA – Approved PCE
- Lumen located in median

Southwest District

Missouri Department of Transportation

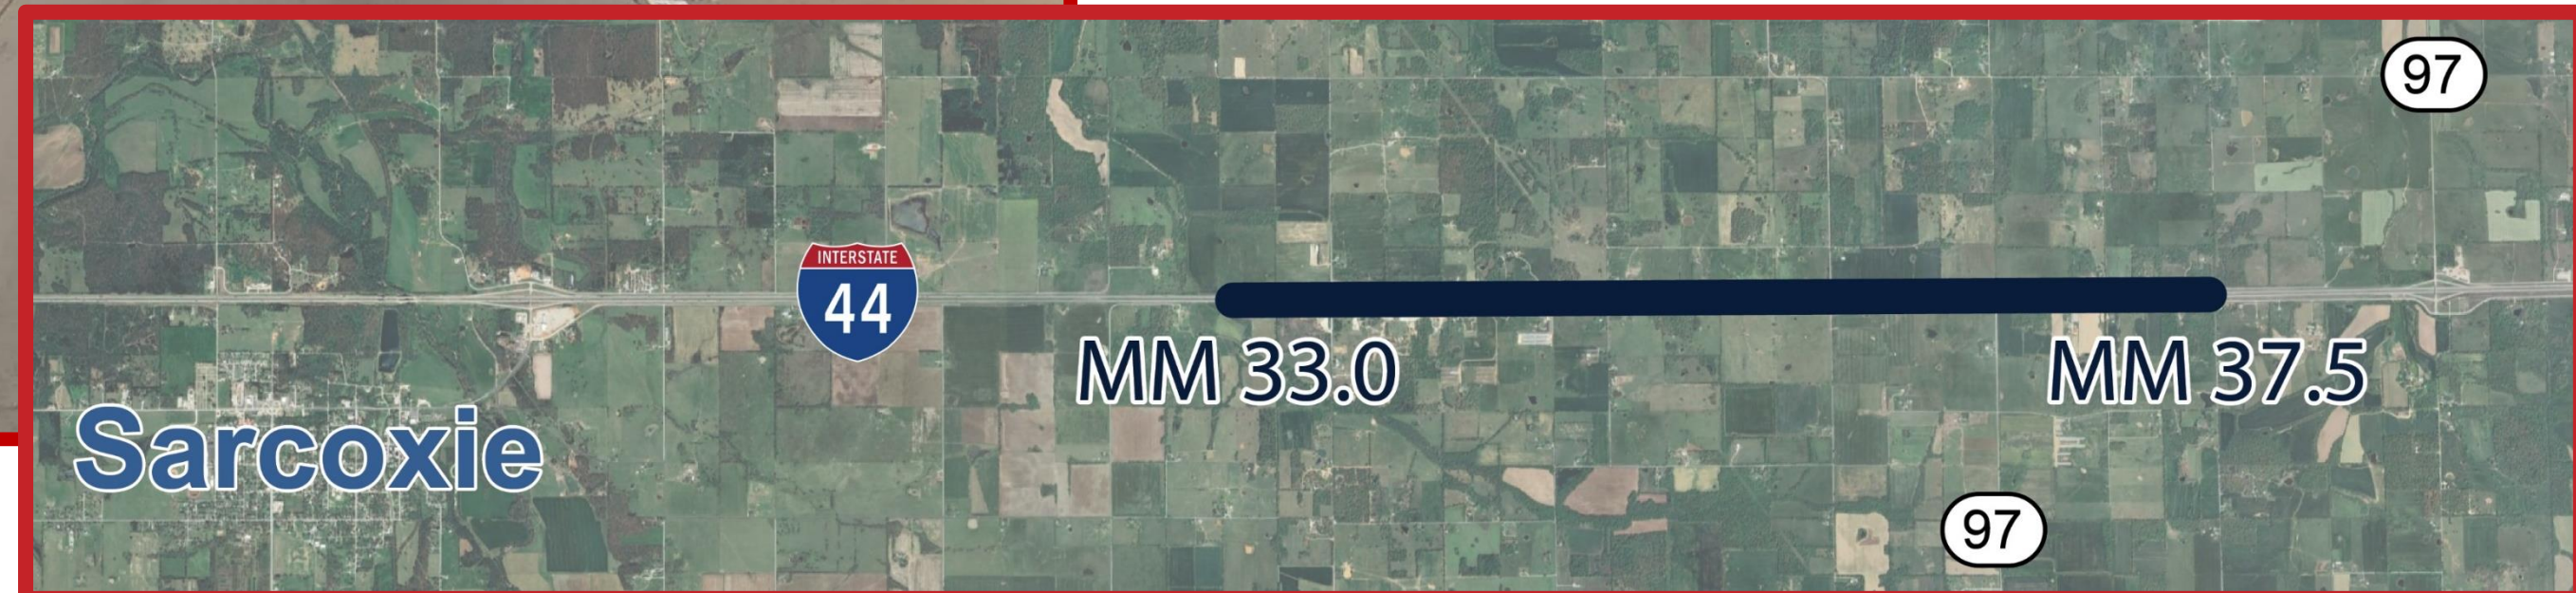

Segment 2: I-44 Lawrence County

Southwest Forward 44

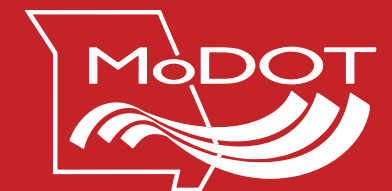

Configuration Requirements

- Improve Pavement Conditions

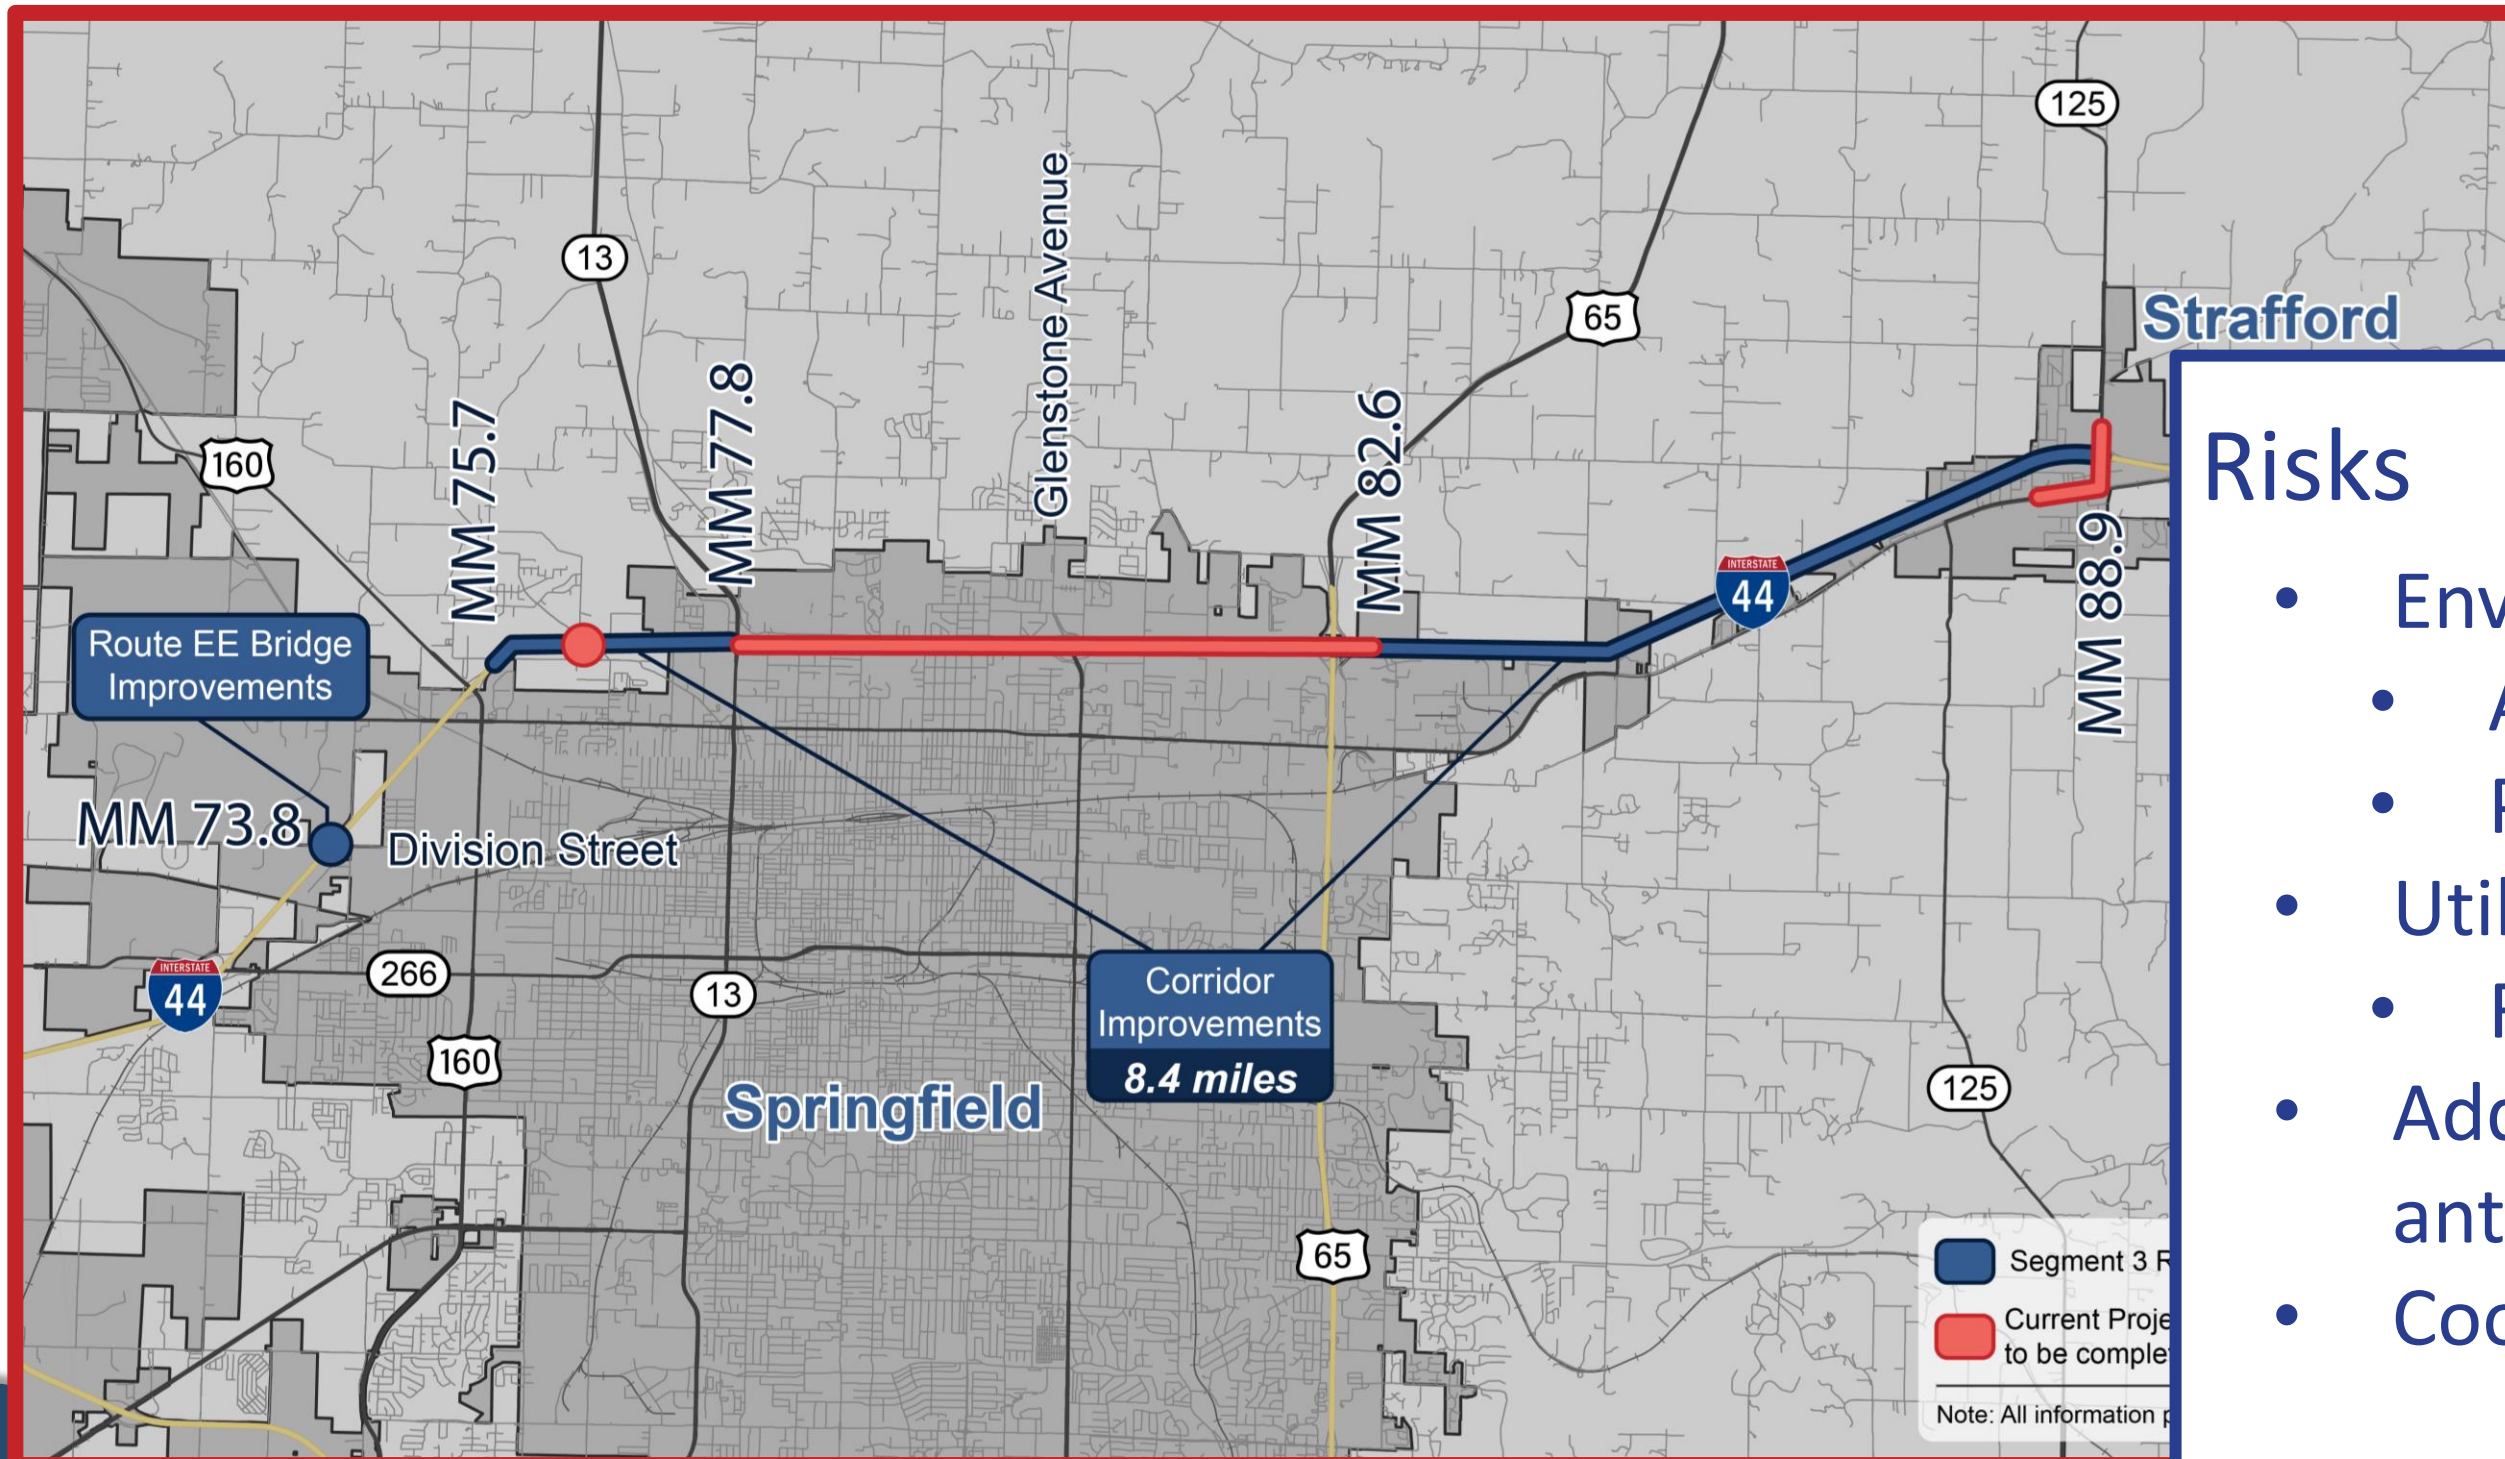

Southwest District

Missouri Department of Transportation

Segment 3: I-44 Springfield Corridor

Southwest Forward 44

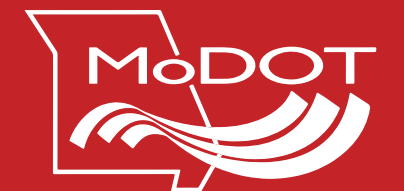

Risks

- Environmental
- Approved PCE
- Potential Sound Wall near Strafford
- Utilities
- Relocation of Lumen in progress
- Additional Right of Way not anticipated
- Coordination with adjacent projects

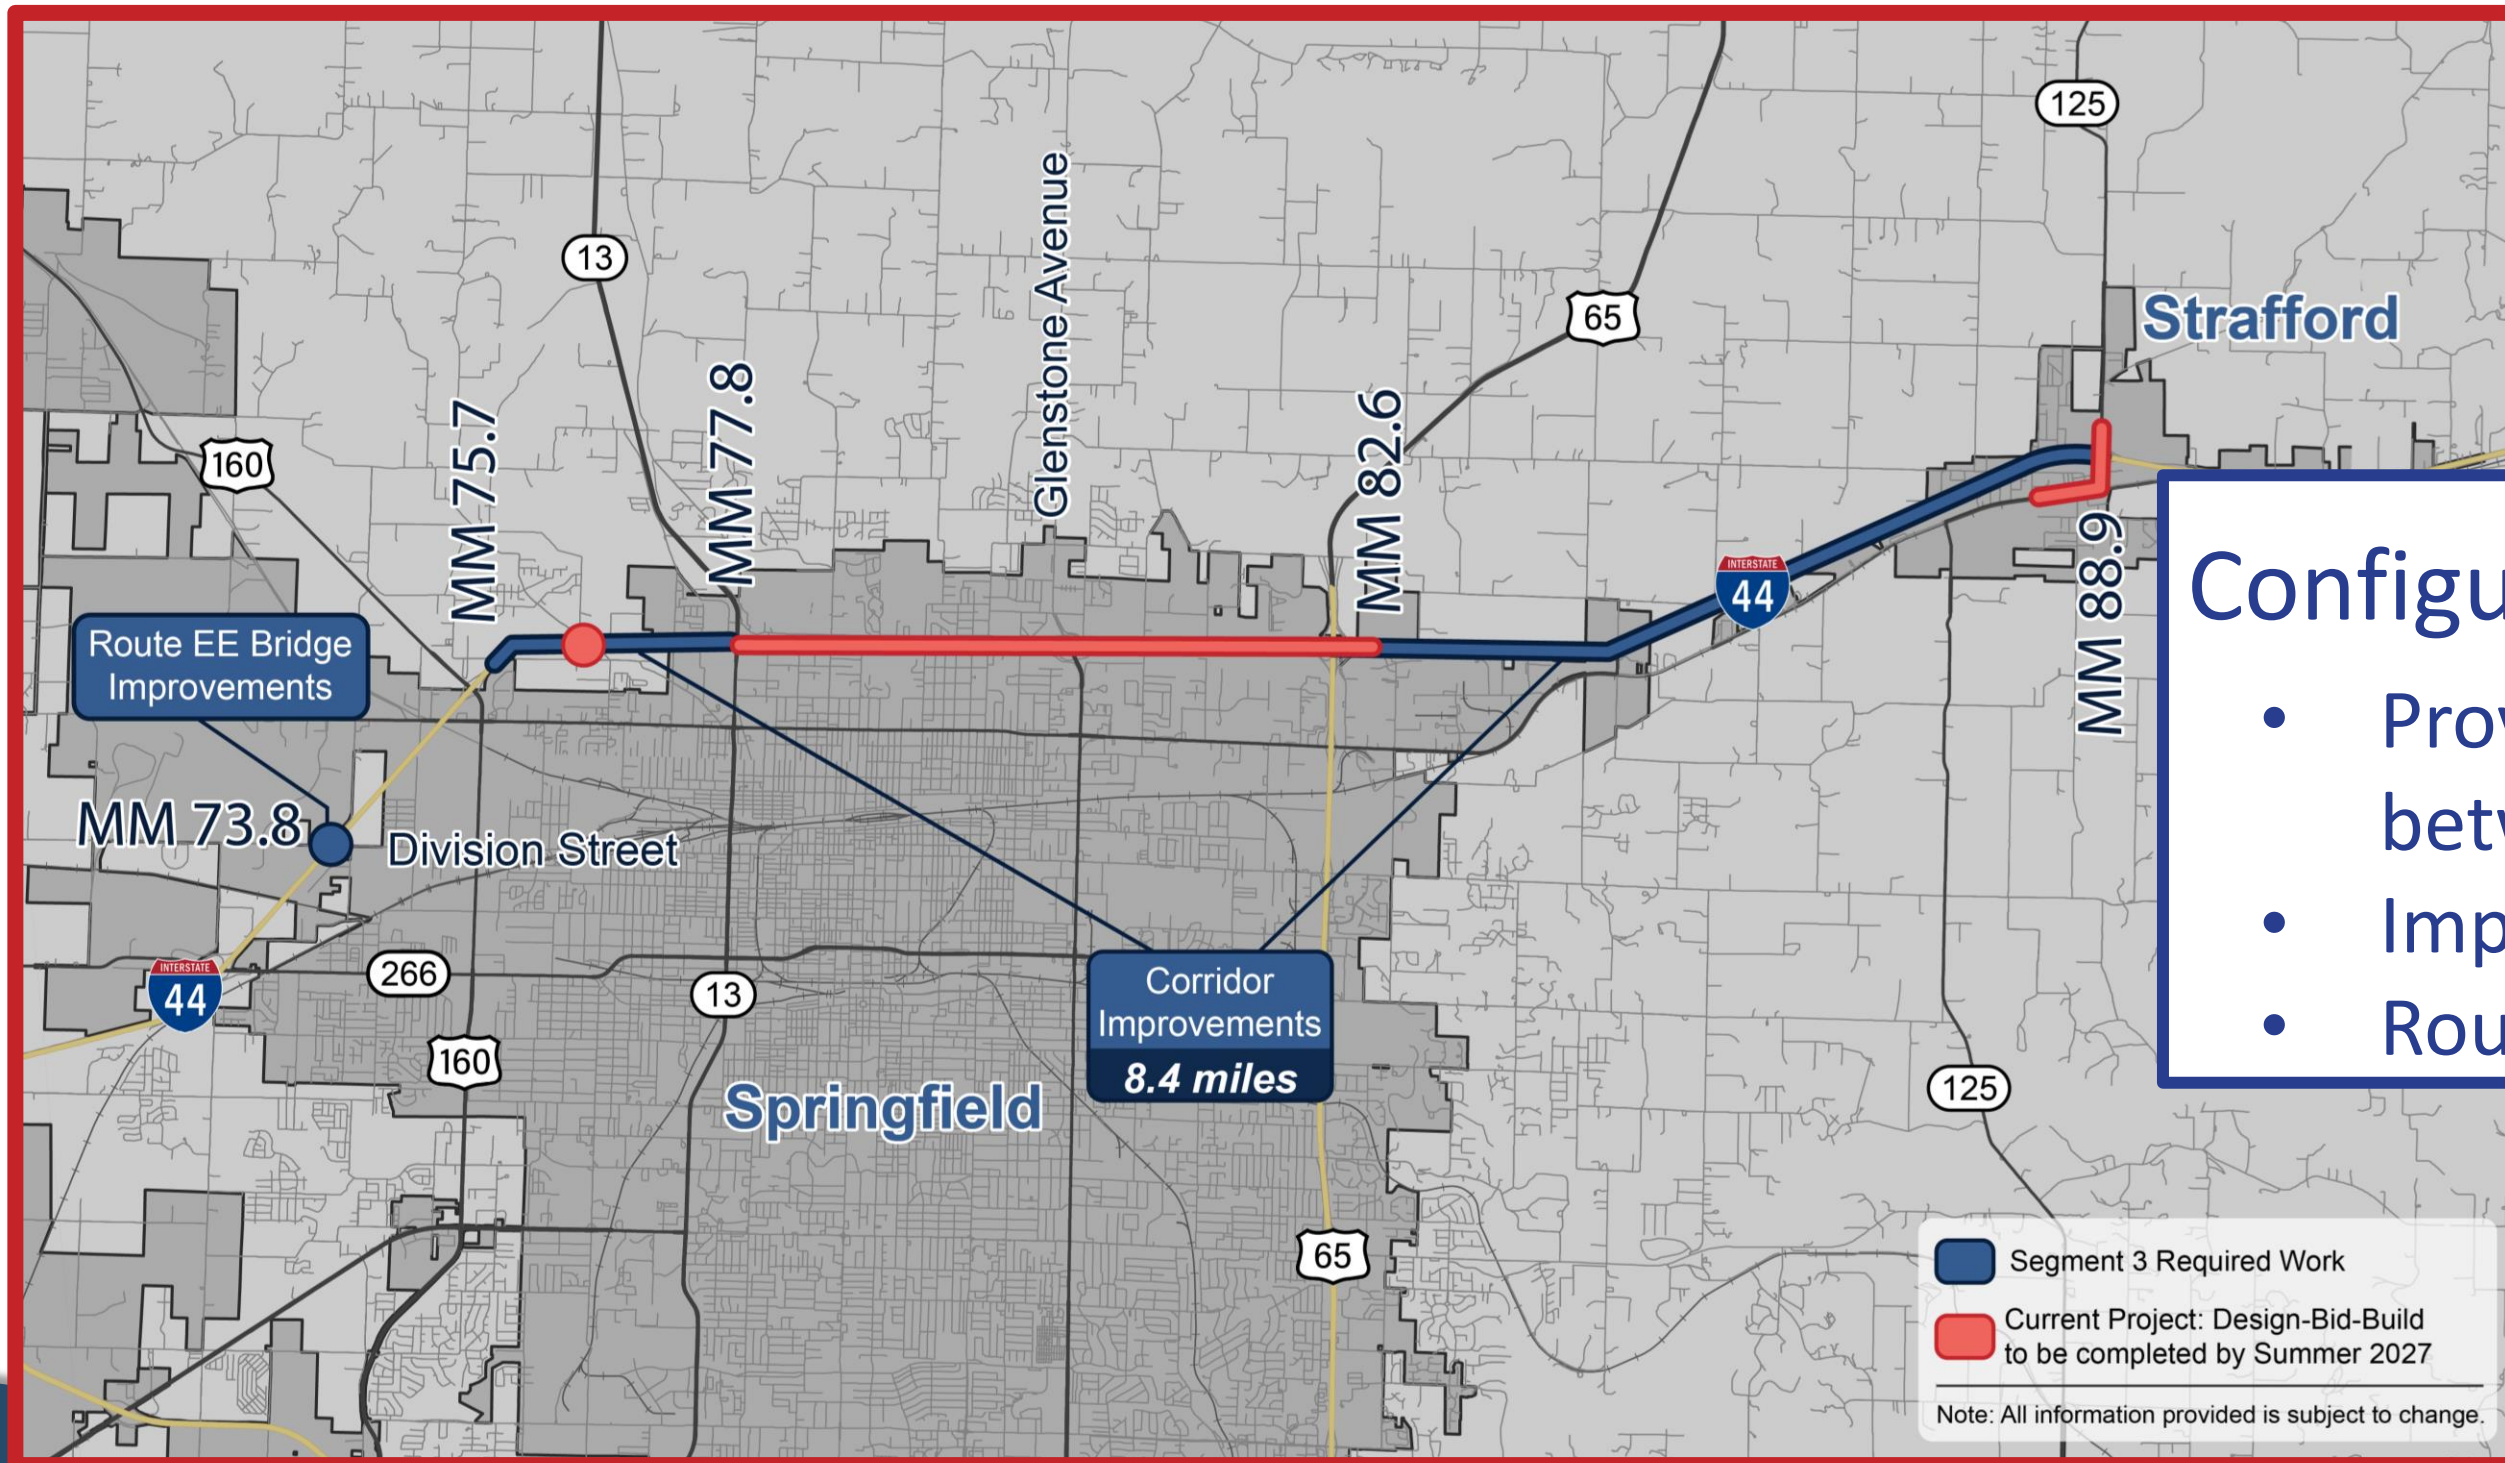

Southwest District

Missouri Department of Transportation

Segment 3: I-44 Springfield Corridor

Southwest Forward 44

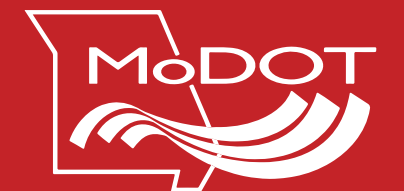

Configuration Requirements

- Provide 3 lanes for each direction between US160 and MO125
- Improve Pavement Conditions
- Route EE – Bridge Rehabilitation

Southwest District

Missouri Department of Transportation

Segment 4: I-44 / MO 13 Interchange

Southwest Forward 44

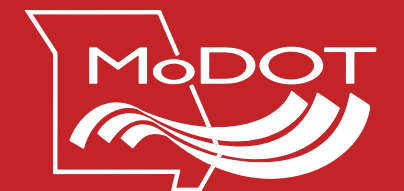

Risks

- NEPA - Anticipate Approved PCE by end of 2025
- No noise walls identified
- Utilities – Coordination has started
 - City Utilities of Springfield (Water, Electric, Gas and Fiber)
 - Lumen - Relocated
- Right of Way acquisition costs will be responsibility of DB team
- IAJR – Anticipate Approval by FHWA-MO by end of 2025
- Third Parties – Stakeholder Engagement

Southwest District

Missouri Department of Transportation

Segment 4: I-44 / MO 13 Interchange

Southwest Forward 44

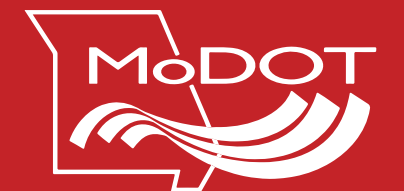

Configuration Requirements

- Reduce fatal and serious injuries
- Increase reliability of traffic operations
- Upgrade condition of existing infrastructure
- Direct connect for MO13 SB to I-44 EB

Southwest District

Missouri Department of Transportation

Segment 5: Greene, Webster, and Laclede Counties

Southwest Forward 44

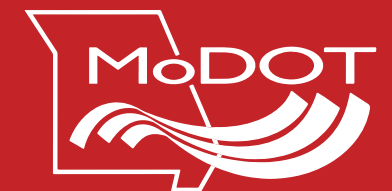

Risks

- NEPA – Approved PCE
- Utilities – Coordination has started
 - Relocation of Lumen in progress
- Existing Pavement Condition concerns

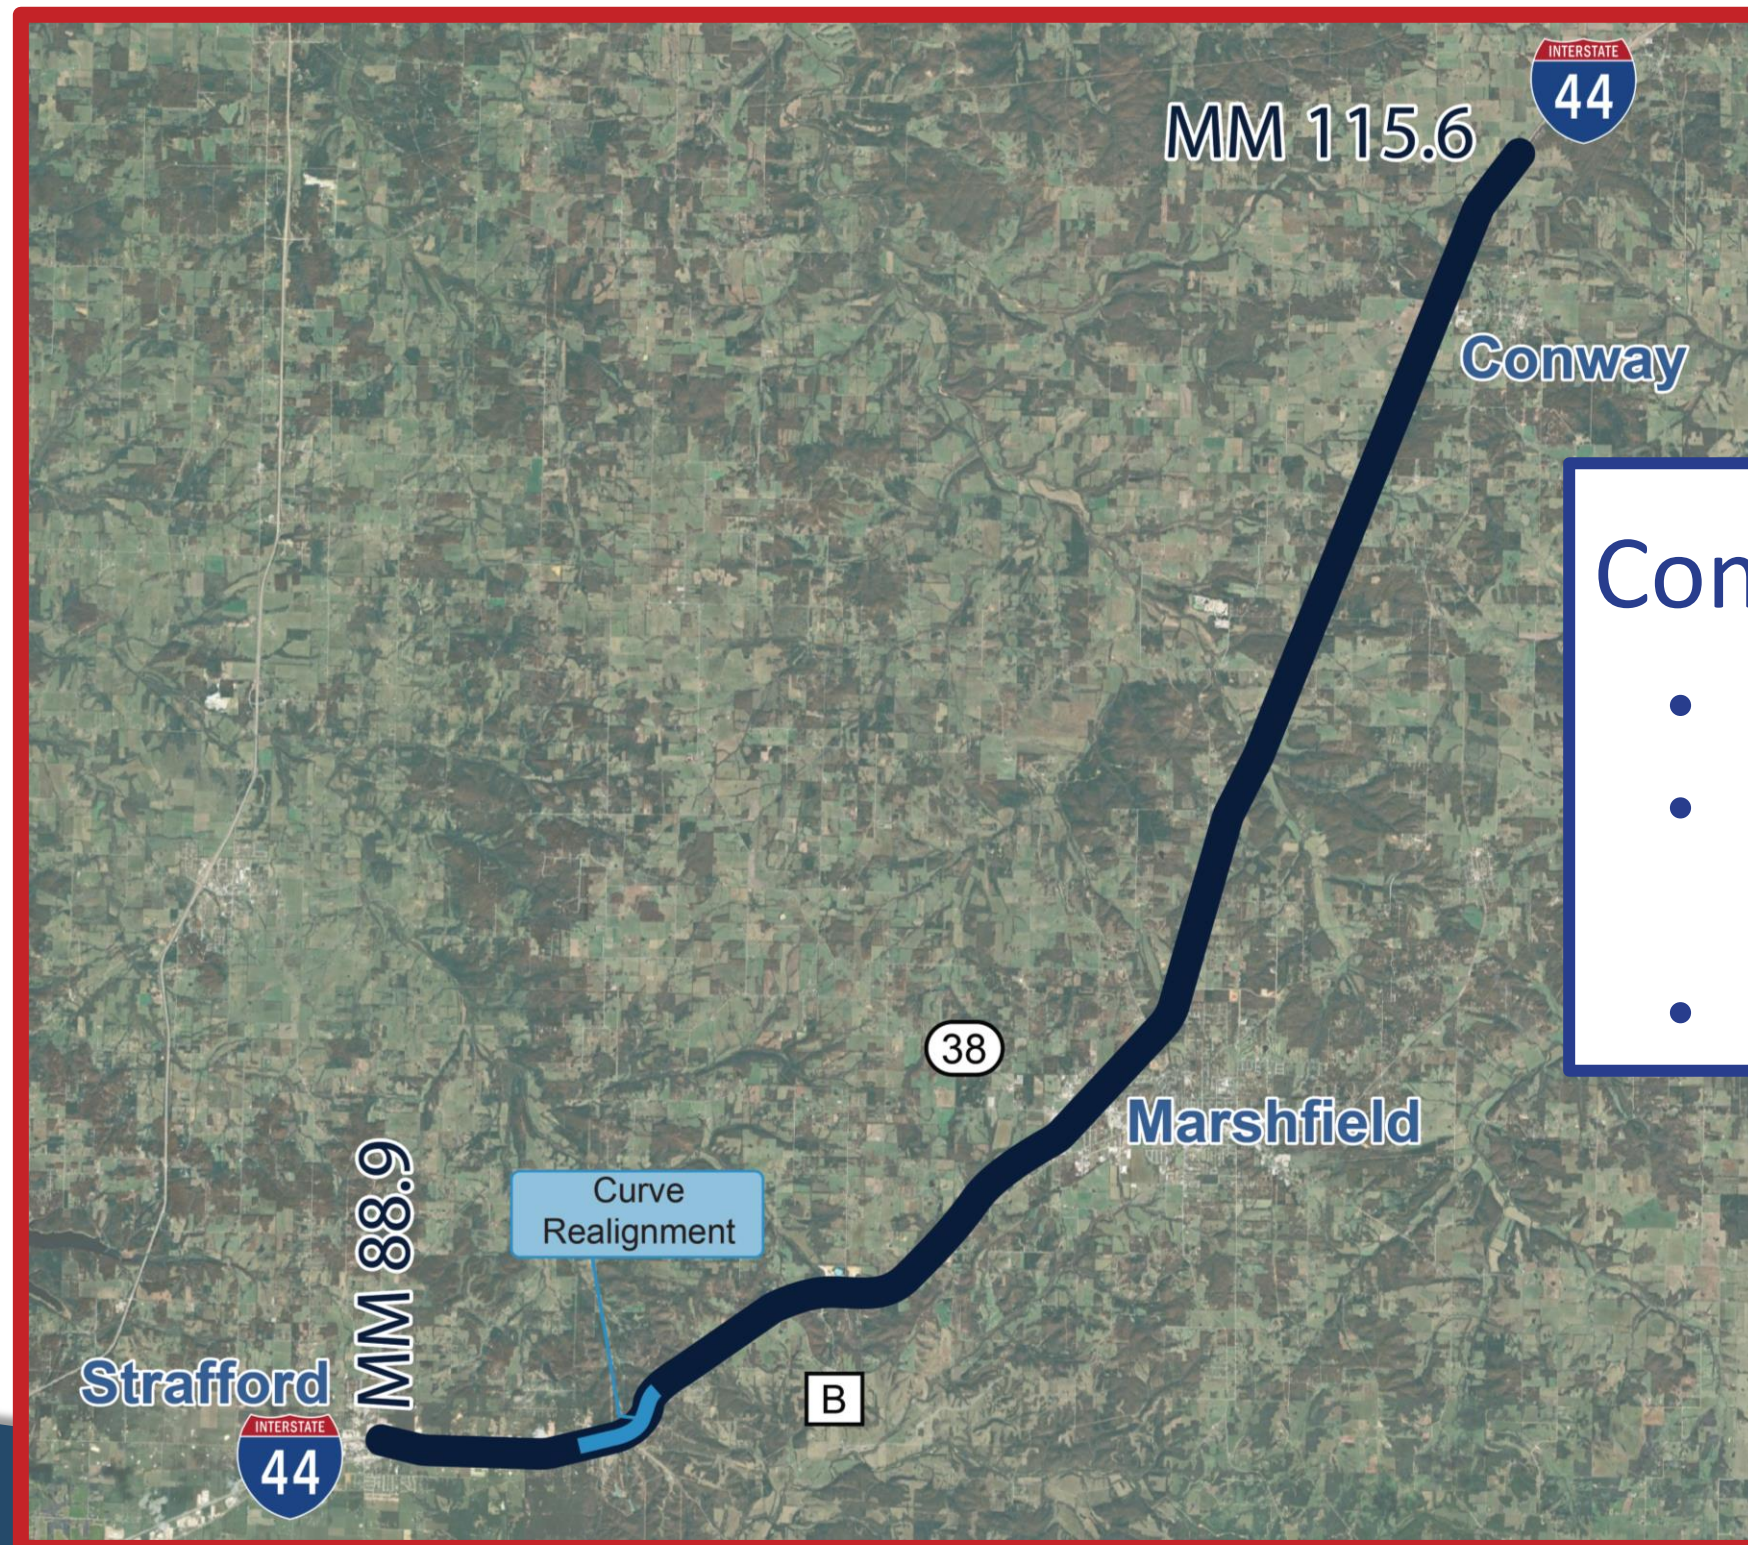

Southwest District

Missouri Department of Transportation

Segment 5: Greene, Webster, and Laclede Counties

Southwest Forward 44

Configuration Requirements

- Improve Pavement Conditions
- Reduce crashes and improve geometrics compatible with future expansion
- Improve ramps to current EPG standards

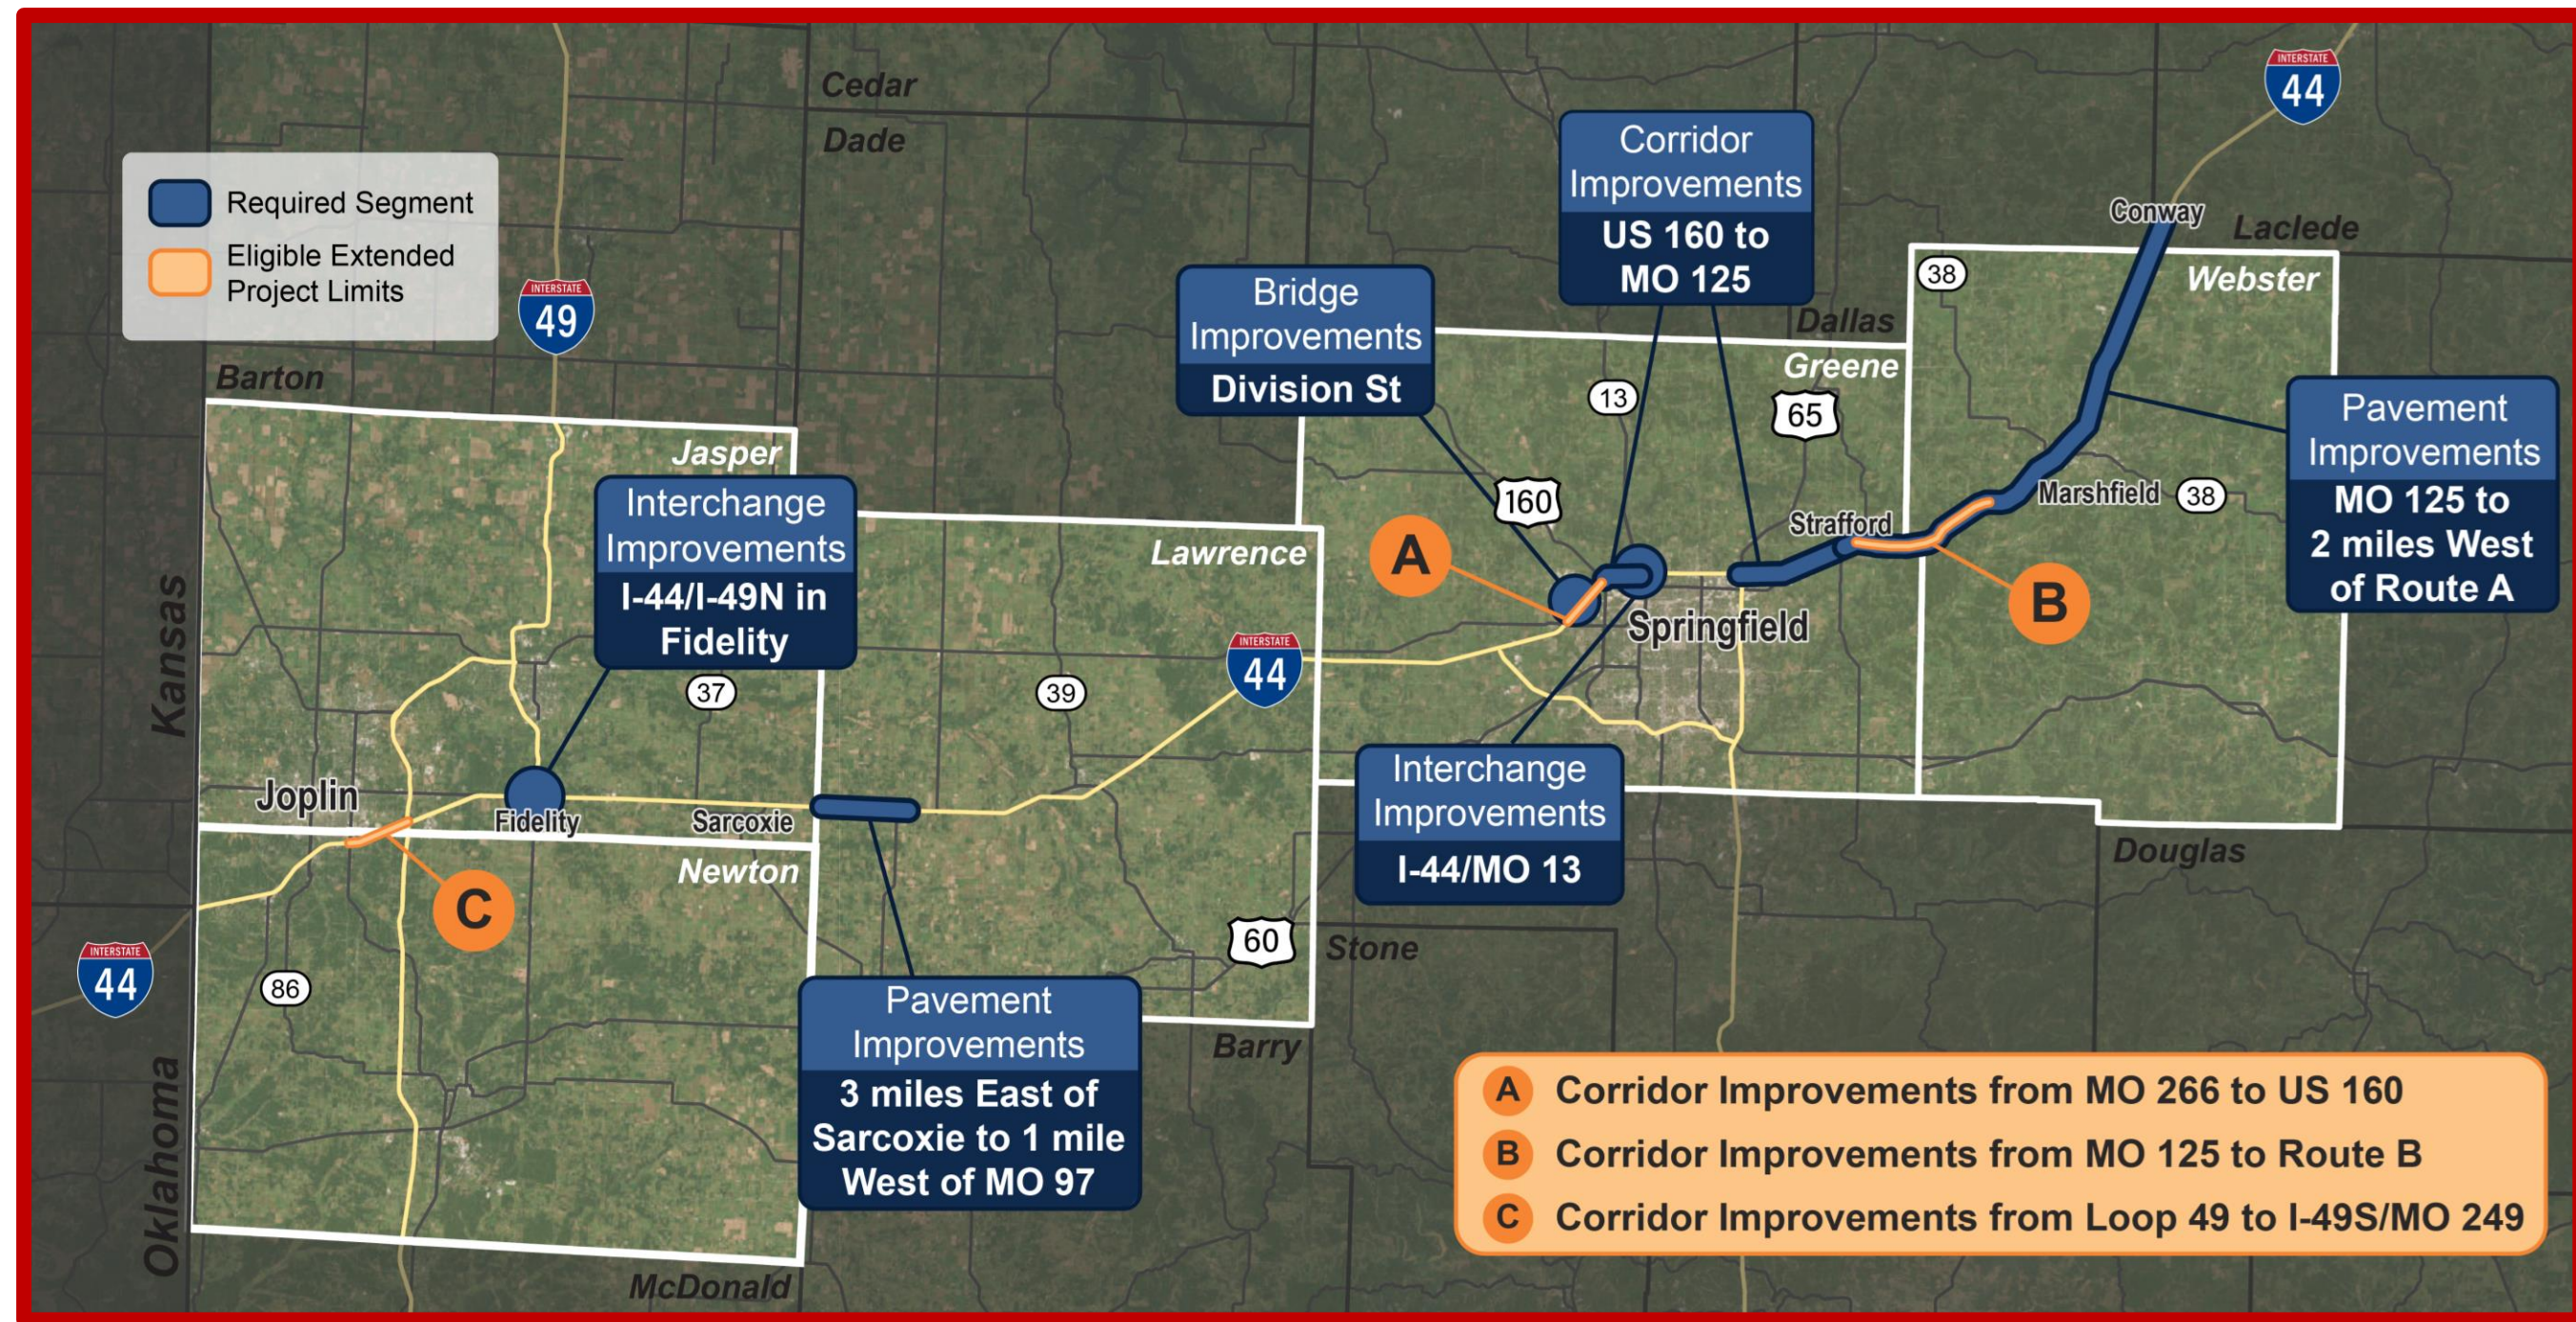

Southwest District

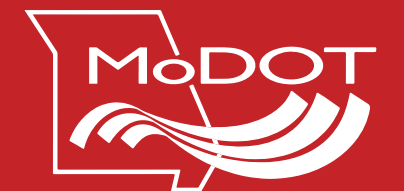

Missouri Department of Transportation

Eligible Extended Project Limits

Southwest Forward 44

Southwest District

Missouri Department of Transportation

Request for Qualifications

Southwest Forward 44

Submitter Experience – 60 points

- Executive Summary
- 5 Reference Projects maximum

Additional Details

- DBE Goal: 0%
- OJT Requirements: 3

Key Personnel – 40 points

- Project Manager
- Quality Manager
- Design Manager
- Construction Manager
- Maintenance of Traffic Manager

Southwest District

Missouri Department of Transportation

Ineligible Firms

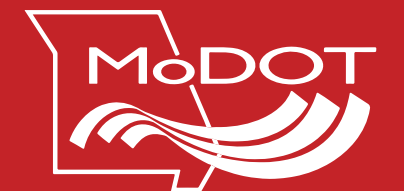

Southwest Forward 44

The following firms are assisting MoDOT with project procurement and are ineligible to compete:

- Wilson & Company, Inc., Engineers & Architects
- Garver, LLC
- TREKK Design Group, LLC
- Shockey Consulting Services, LLC
- O.R. Colan Associates, LLC
- EFK Moen, LLC
- GeoEngineers, Inc.

Southwest District

Missouri Department of Transportation

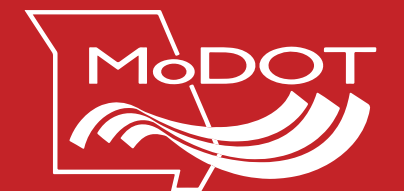

Risk Updates

Southwest Forward 44

- Construction Staging / Incident Management
- Utility Coordination – Lumen, City Utilities
- Third Parties
- Environmental Clearances
- Right of Way Acquisitions
- Coordination with adjacent projects

Southwest District

Missouri Department of Transportation

Information Release

Southwest Forward 44

- Purpose and Need Study
- Existing Concept Reports
- Active Bridge and Roadway Plans
- Existing Structure Reports
- Survey Data
- Traffic Data
- Environmental Footprint
- Utility Information

Request access via email to SWForward44@modot.mo.gov

- Email notices go out when new information is posted
