Service is our Business

Our primary goal is to serve you, our client, by providing expert advice and comprehensive engineering services. We can help with everything from initial consultations and feasibility studies to final designs and construction oversight.

When you're choosing an engineering partner, you're looking for a firm that's qualified, available, and has a proven track record of delivering projects on time. With over 55 years of experience, we're confident we can meet those expectations. Our size is a key advantage for our clients: we are large enough to take on your most complex projects, yet small enough that a Principal or Associate will be personally involved in your work from start to finish. We work with a wide range of clients on multi-discipline engineering projects, assisting them from the initial concept phase all the way through construction and follow-up operational assistance.

We would welcome the chance to talk with you about your next engineering or survey project. Please feel free to call, email, or visit our office.

Consulting Engineers & Land Surveyors

We are dedicated to serving our clients throughout the entire project lifecycle, from initial concept to construction completion and facility operations.

Kirksville, MO - (660) 665-3575
Rolla, MO - (573) 364-0980
Taylorville, IL - (217) 971-5929

SERVICES

Civil/Site Development: We bring your vision to life, whether it's a residential neighborhood, commercial property, or agricultural site.

Drinking Water: We help you manage and improve your water systems, from routine maintenance to complex new facilities.

Electrical: We provide in-house electrical engineering expertise to ensure your projects are efficient, durable, and safe.

Funding Assistance: We help you find and secure the funding you need to make your project happen.

Pools & Recreation: We help you create inviting community parks and recreational spaces that enhance quality of life.

Rural Water: We are experts in delivering reliable water to rural communities, no matter how vast or challenging the terrain.

Structural: Our licensed engineers design safe, durable structures using advanced tools and decades of experience—building strong foundations for your project.

Surveying & Geomatics: We provide the precise, accurate data you need for your project using the latest technology.

Subsurface Utility Engineering (S.U.E.): We help you avoid costly delays and accidents by accurately locating underground utilities before you start construction.

Transportation: We design effective transportation networks—from local roads to urban streetscapes—that connect your community.

Water Resources: We develop sustainable stormwater solutions that protect your community's natural resources and support its economic growth.

Wastewater: Our experienced engineers and licensed operators are ready to deliver smart, compliant solutions for sewer rehabilitation, treatment upgrades, new facilities, and more.

Partnership. Commitment. Results.

Since 1970, Benton Engineering delivers reliable, cost-effective results with a focus on high-quality service. Our team—engineers, surveyors, certified operators, and construction observers—is passionate about continuous improvement and building better communities. We invest in ongoing education to bring you the most advanced engineering practices available.
