

Appendix 28: Neighborhood Meetings Schedule

Meeting Date	Organization	Contact Name
Tuesday, April 19, 2022	Forest Park Southeast Neighborhood Association	Dan Doelling
Thursday, May 12, 2022	Covenant Blu – Grand Center Neighborhood Association	Audrey Ellermann
Wednesday, April 20, 2022	Central West End North CID	Erica Lembo
Wednesday, April 20, 2022	Gate District West Neighborhood Association	Patrick Adegboyega
Monday, May 2, 2022	JVL Neighborhood Association	Miguel & Carla Alexander
Monday, June 6, 2022	Shaw Neighborhood Improvement Association	Brandon Robnett
Monday, May 23, 2022	Botanical Heights Neighborhood Association	Bob Hilgemann
Wednesday, June 1, 2022	Central West End Association	Kate Walter

Future64 Study Presentation

Why Future64 Study

- Aging infrastructure along I-64 between Kingshighway and Jefferson needs repairing and/or replacement
- I-64 central corridor is actively experiencing a substantial amount of change (jobs, housing, retail, entertainment, etc), and the Missouri Department of Transportation (MoDOT) wants to partner with the community to learn how to make I-64 a better fit
- MoDOT is conducting a 13-month PEL (planning and environmental linkages) study that will evaluate how MoDOT and partnering organizations can invest in short and long-term transportation improvements
- Study will result in three potential alternatives that are responsive to community issues and aspirations
- MoDOT staff collaborating with community to think out of the box. This holistic approach recommends transportation outcomes and how infrastructure impacts social, economic, environmental, and public health, and well-being of people and businesses in communities

Council of Governments

Technical Tasks

- Existing conditions analysis
- Transportation network analysis
- Environmental analysis
- Traffic forecasting
- Community assessment (equity, quality of life, land use and real estate, environmental sustainability)
- Planning data collection
- Bike and pedestrian facilities assessment
- Transportation infrastructure alternatives development

Public Engagement Tasks

- Stakeholder interviews
- Technical Advisory Group (TAG)
- Community Advisory Group (CAG)
- Commuter survey
- Public meetings (both in-person and online)
- Pop-Up meetings
- Online engagement

Study's Purpose & Need

- Guiding vision for study and its outcomes
- Developed through data analysis and public input about the issues and needs
- Used to guide development and analysis of alternatives
- Public that ensures the Purpose and Need, is responsive to community needs and issues, and helps shape study outcomes what should be built and why
- Alternatives responsive to goals and needs identified in Purpose and Need

How to get involved & influence decision-making

- Attend public meetings and give your input
- Take surveys
- Attend pop-up meeting
- Encourage friends, family, neighbors, co-workers to participate!
- Visit project website and provide comments at www.Future64.com
