MoDOT Leadership

Ed Hassinger, P.E., was named director on November 13, 2024, following two months as interim director. Prior to the interim role, Ed served as chief engineer beginning in 2013 and added the title of deputy director in December 2018. He previously served as St. Louis district engineer for 12 years. He began his MoDOT career in 1984 as a design engineer in the Bridge Division. He has also worked as a traffic engineer, bridge maintenance engineer, assistant district engineer in St. Louis, and spent one year as district engineer in the Northeast District in Hannibal.

Eric Schroeter, P.E., was named deputy director/chief engineer on December 12, 2024. Eric served as assistant chief engineer the previous six years, after serving as state design engineer for over five years. He has enjoyed a 30-plus-year career at MoDOT in a variety of positions, including construction, operations and design at both the district and central office management levels. He was interim district engineer in the Central District prior to becoming state design engineer.

Mark Croarkin, P.E., was named assistant chief engineer on February 10, 2025. Mark served as district engineer for the Southeast District the previous four years. He has been with the department for nearly 27 years, including serving as a resident engineer in the Northeast District and being on one of the first MoDOT Design-Build teams, the Statewide Safe and Sound Bridge Program. In addition, he has been the St. Louis District bridge maintenance engineer, as well as assistant district engineer.

Brenda Morris, CPA, was named chief financial officer in January 2019. Previously, she served as MoDOT's Financial Services/Resource Management director since October 2007. She has been with the department for more than 25 years and in state government for more than 35 years.

Becky Allmeroth, P.E., was named chief safety and operations officer in January 2019. She became the state maintenance engineer in June 2015, following six years as district maintenance engineer in the St. Louis District. A 30-plus-year MoDOT veteran, she started her career as a highway designer in Willow Springs. In 1996, she moved to the St. Louis District where she worked in planning and traffic.

Lester Woods has served as interim chief administrative officer since July 2019 and was permanently appointed to the position in April 2020. He previously served nearly 18 years as External Civil Rights director. Before joining MoDOT, he worked in human relations at the University of Missouri.

Section 2 – Introduction, Public Involvement, and Reference Information

DRAFT

This page intentionally left blank

Missouri Statewide Transportation Improvement Program

The state transportation system is a tremendous asset owned by the citizens of Missouri. A significant component of the state system is the 33,814 miles of roads and 10,427 bridges, both of which rank among the largest for any state in the nation. On average, Missouri drivers pay $37 per month in fuel taxes and fees to fund the maintenance and improvements to this asset. Over the last 10 years, Missourians have invested in 4,211 projects totaling $9.6 billion to maintain and improve the system. Looking forward, $9.7 billion is estimated to be available for projects over the next five years for additional improvements.

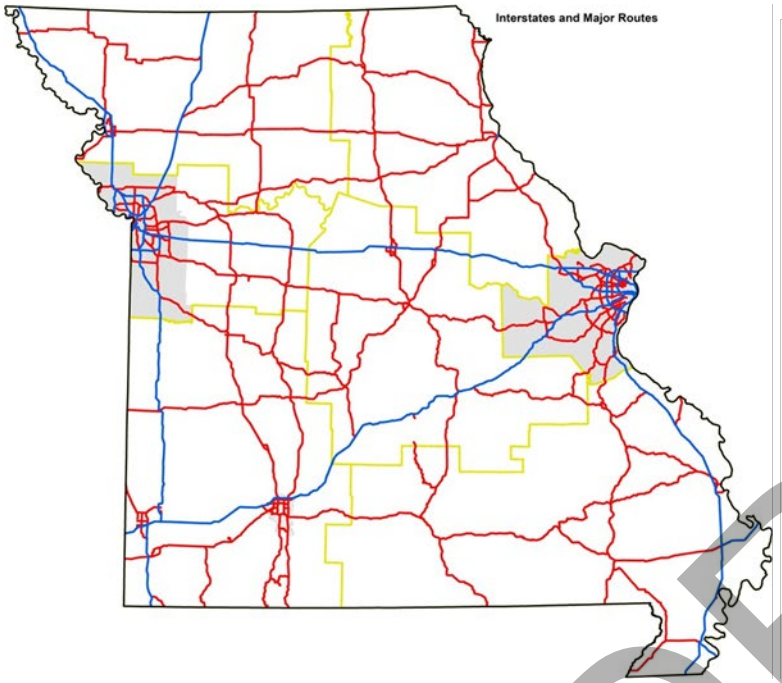

Since transportation needs greatly outweigh funding availability, the challenge is determining the optimal projects to fund that provide the greatest return on investment to taxpayers. Across every region of the state, feedback from Missourians has consistently prioritized maintaining the existing system as the highest priority. Other priorities include projects that improve safety and reliability, spur economic growth and provide more transportation choices.

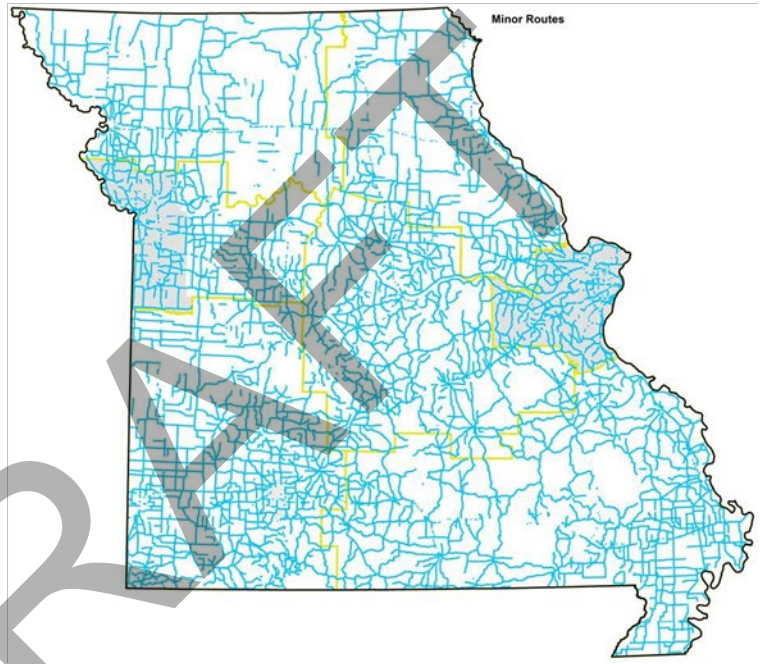

With the priority of maintaining the existing system, MoDOT has developed asset management plans for each district with the goal to maintain current pavement and bridge conditions. The asset management plans focus on preventive maintenance improvements to keep roads and bridges in good condition. Research shows preventive maintenance solutions, such as cyclical overlays on roads in good condition, are the most cost-effective approach to taking care of road and bridge assets. If preventative maintenance investments are not made, the cost of improving the asset in poor condition can cost four to ten times more.

The projects in the 2027-2031 Statewide Transportation Improvement Program (STIP) deliver what taxpayers have asked for – take care of the existing system. While $9.7 billion of available funding represents a significant investment, many regions will only have adequate funding to maintain current pavement and bridge conditions. While maintaining the status quo is not what Missourians desire, it is not prudent for the state to expand the transportation system in regions that struggle to take care of the existing system.

DRAFT

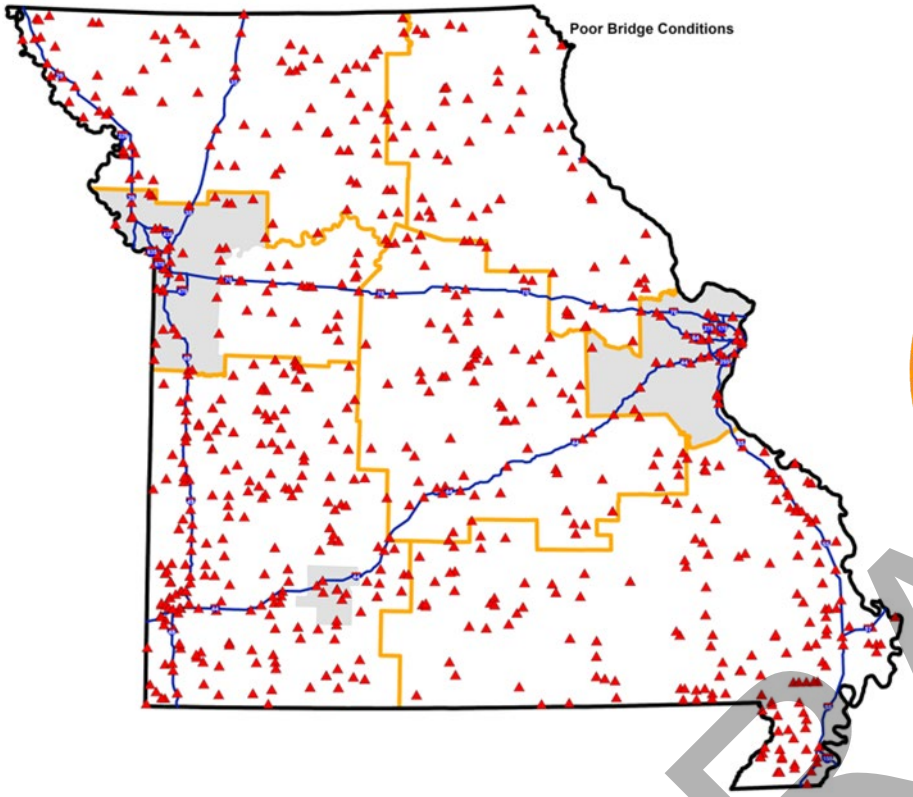

Available STIP funds are programmed to specific projects – thereby creating systemic fiscal constraint on a rolling five-year basis. This approach provides MoDOT with the ability to deliver programmed projects during the STIP horizon despite future uncertainty. From 2027 through 2031, the highway and bridge projects identified in Section 4 of this document are projected to provide adequate investments to ensure current conditions are maintained in each district. Specifically, planned projects include work on 1,919 lane miles of interstate pavements, 3,581 miles of major route pavements and 5,928 miles of minor route pavements during this timeframe of the STIP.

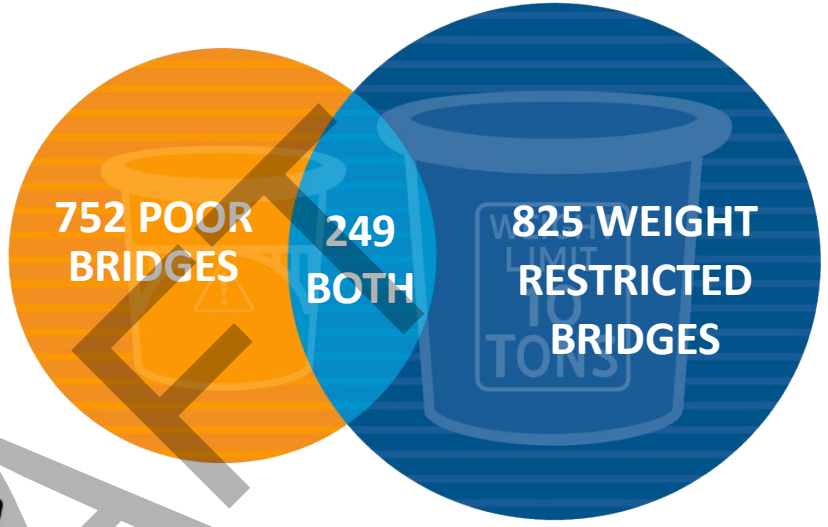

Of the 10,427 bridges in the state, 752 are currently in poor condition and 825 are weight restricted. As bridges age, approximately 95 will fall into poor condition each year. From 2027-2029, the STIP invests in approximately 787 bridges (over 22 million square feet) with the goal of keeping the state's number of poor condition bridges below 900.

DRAFT

DRAFT

During the 2021 Missouri Legislative Session, SB 262 was passed and signed by the Governor, increasing the state's motor fuel tax by 2.5 cents per year for the next five years. As of July 2025, the motor fuel tax increase was fully implemented. The federal reauthorization of the Bipartisan Infrastructure Law (BIL) in November 2021 also increased transportation revenues to the state of Missouri.

Additionally, in 2022, the General Assembly passed a transportation cost-share program which made $75 million available for local community transportation priorities. In January 2023, the Missouri Highways and Transportation Commission (MHTC) approved the award of 28 projects, totaling $75 million under the program.

During the 2023 Missouri legislative session, the Missouri General Assembly addressed the top transportation need in the state, widening I-70. Missouri's FY 2024 budget from the General Assembly provides General Revenue for the costs to plan, design, construct, reconstruct, rehabilitate, and repair three lanes in each direction on approximately 200 miles of I-70 from Blue Springs to Wentzville.

In addition to the I-70 project, the General Assembly also made several investments in other projects in recent years. These other projects are funded by General Revenue and the Budget Stabilization Fund and include work to conduct environmental studies on future corridor enhancements, construct multimodal projects, and improve pavement conditions on routes with 1,000 or less vehicles per day.

During the 2024 Missouri legislative session, the General Assembly addressed many transportation needs in the state, highlighted by the investment in several locations of I-44. Missouri's FY 2025 budget from the General Assembly provides General Revenue for the costs to plan, design, construct, reconstruct, rehabilitate, and repair designated segments and other I-44 needs from tiers 2 and 3 of the High Priority Unfunded Needs List.

In addition to the I-44 projects, the General Assembly also made substantial investments in other projects. These other projects are funded by the General Revenue and Budget Stabilization Fund on corridors, including but not limited to, routes such as US 65, US 67 and I-49.

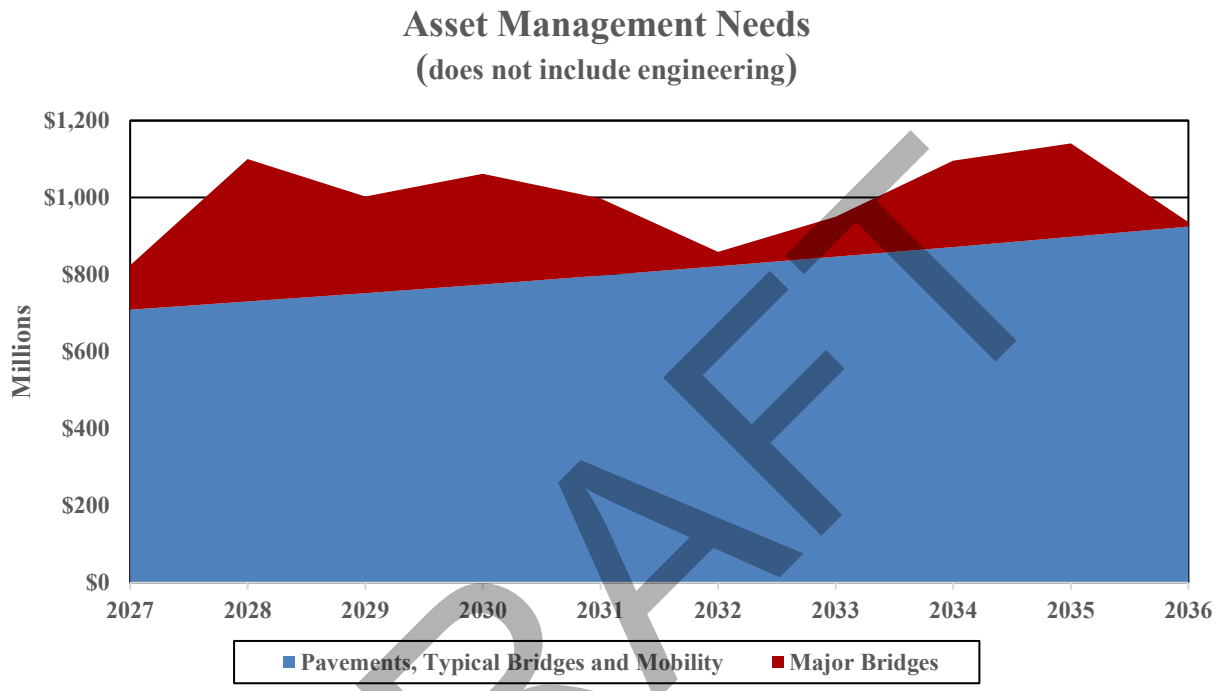

In addition to the STIP investments, MoDOT spends approximately $725 million annually for system operations which include maintenance, fleet, facilities and information systems. Most of those expenditures, approximately $597 million, are for maintenance services performed by MoDOT employees, like plowing snow and mowing. It also includes maintaining pavements on the state's lower-volume routes, many of which are not eligible for federal reimbursement. There is a large disparity in the lower-volume route conditions around the state, and to close the gap, MoDOT is targeting funding to the worst conditions on minor and low-volume routes. In January 2022, the MHTC approved an increase to the Asset Management Deficit program. The increase was made to fund $25 million per year in STIP allocation instituted by the MHTC in 2017 to assist those districts that are unable to meet MoDOT's asset management goals. The goal of the Asset Management Deficit program is to improve the pavement conditions of minor and low-volume routes, so Missourians have similar driving experiences around the state. Approximately $282 million is spent by maintenance forces each year on pavements for various activities, for example asphalt pavement repair, chip sealing, pothole patching, full-depth concrete pavement replacement, and striping (see Section 9).

Each MoDOT district receives funding to invest in Missouri's transportation system. Since 2003, the MHTC has used a formula (see Section 5) to distribute construction program funds for road and bridge improvements to each of its districts. The formula provides funding for safety improvements, asset management needs, and system improvements.

MoDOT has adopted a statewide transportation asset management approach to make the best decisions with transportation investments. MoDOT's Asset Management Plan (AMP) is a crucial element in achieving MoDOT's strategic goal of keeping roads and bridges in good condition. The AMP summary can be found at Asset Management Summary (modot.org). The AMP is a rolling 10-year strategic framework for making cost-effective decisions about allocating resources and managing road and bridge system infrastructure. It is based on a process of monitoring the physical condition of assets, predicting deterioration over time and providing information on how to invest to meet asset management goals.

DRAFT

The following chart illustrates the asset management needs over the next 10 years:

DRAFT

The AMP objective is to keep the state's transportation assets in good condition over the life cycle of those assets at the most practical cost. Based on current funding constraints, the goal of the AMP is to maintain existing pavement and bridge conditions. In the 2027-2031 STIP, MoDOT has programmed approximately $6.4 billion in the first three years to move MoDOT towards the federal bridge and pavement performance targets.

MoDOT is committed to providing a safe transportation system by incorporating safety improvements throughout the STIP to reduce the number of fatalities and serious injuries on Missouri roadways. From 2021-2025, Missouri averaged 986 fatalities and 5,220 serious injuries each year from traffic crashes. In 2025 (preliminary), there were 911 traffic fatalities in Missouri, a 5% reduction from the previous year. MoDOT, in conjunction with the Missouri Coalition for Roadway Safety, has developed a strategic highway safety plan that identifies emphasis areas and corresponding strategies for reducing fatalities and serious injuries. Show-Me Zero | Missouri Department of Transportation adopts the Safe System Approach to address safety by considering efforts across multiple disciplines, including education, public policy, enforcement, engineering and emergency services. The plan identifies five key emphasis areas for improving safety on Missouri's roadways: safer people,

safer vehicles, safer speeds, safer infrastructure and safer response. While the plan is comprehensive and includes strategies all Missourians can help implement, the STIP is particularly effective in implementing key engineering strategies identified in the plan. In the 2027-2031 STIP, MoDOT has programmed approximately $505 million in funding in the first three years to help move the department towards the federal safety performance targets. To achieve the ultimate goal of zero fatalities on Missouri roadways, this collective effort of roadway improvements and improved driver behaviors must remain a priority.

Missourians expect to get to their destinations on time and without delay, regardless of their choice of travel mode. MoDOT coordinates and collaborates with our transportation partners throughout the state to keep people and goods moving freely and efficiently. MoDOT also maintains and operates the transportation system in a manner that minimizes the impact to our customers and partners.

System performance on the interstate and non-interstate National Highway System (NHS) is measured and assessed using a combination of Federal Highway Administration's (FHWA) National Performance Management Research Data Set (NPMRDS) and other traffic data made available to the department. These data sets allow MoDOT to assess congestion, travel time reliability, and freight movement along the state's most heavily traveled roadways. Unreliable roadways are generally the result of variable events that adversely impact travel. Specifically, a high frequency of crashes or ongoing construction that blocks travel lanes can have significant impacts on the reliability of a roadway. Likewise, adverse weather and spikes in traffic volumes for large events (concerts, sporting events, festivals) can also lead to unreliable conditions.

An overwhelming majority of STIP projects are designated for preserving the condition of the state's road and bridge conditions. When funding allows, MoDOT invests in projects that enhance reliability and reduce congestion on the busiest corridors. In some cases, this can mean individual construction projects aimed at improving the safety, capacity and efficiency of a roadway. In addition, MoDOT funds system management and operations functions to help improve reliability. These functions include services such as Transportation Management Centers in St. Louis, Kansas City and Springfield, emergency response crews on the state's major highways, and intelligent transportation systems to provide customers with real-time information to increase the likelihood of a reliable trip. In the 2027-2031 STIP, MoDOT has programmed projects and services to move the department towards the federal system reliability and congestion performance targets.

MoDOT has also developed a 2022 State Freight and Rail Plan Document | Missouri Department of Transportation to help the department make smarter decisions and investments to optimize Missouri's ability to move products throughout the state. The freight plan, updated in 2022, will help the state better prepare for necessary improvements to facilitate a reliable movement of goods well into the future. MoDOT is currently working on developing the 2026 Statewide Freight plan with an anticipated completion date in mid-2026. In the 2027-2031 STIP, MoDOT has programmed projects to move the department toward the federal freight performance target.

MoDOT is committed to improving air quality through modifying its operations, providing information to the public and employees, leading air quality improvements, managing congestion to reduce emissions, providing alternative choices for commuters, and promoting the use of environmentally friendly fuels and vehicles. A Congestion Mitigation and Air Quality (CMAQ) Performance Plan, created by the East-West Gateway Council of Governments helps direct the department and its partners to make more informed decisions regarding the use of federal, state and local transportation air quality funding. The CMAQ Performance Plan can be found at Performance Dashboard – East-West Gateway

DRAFT

Council of Governments (EWGCOG). In the 2026-2030 STIP, MoDOT has programmed approximately $12.2 million in the first three years to move the department towards the CMAQ federal performance targets.

MoDOT's performance dashboard for federal performance targets can be found at this link: State Performance Dashboard - Missouri - State - Reporting - Transportation Performance Management - Federal Highway Administration. This includes a link to the Tracker, MoDOT's performance management tool, as well.

MoDOT continues to maximize available funds for transportation. The MHTC's cost share program provides MoDOT and external partners the ability to pool resources and better leverage investment efforts to deliver transportation improvements. The local funds leveraged for cost share projects increase available funds for transportation. The MHTC allocated cost share funds of $45 million for 2027 and reduced to $30 million starting in 2028.

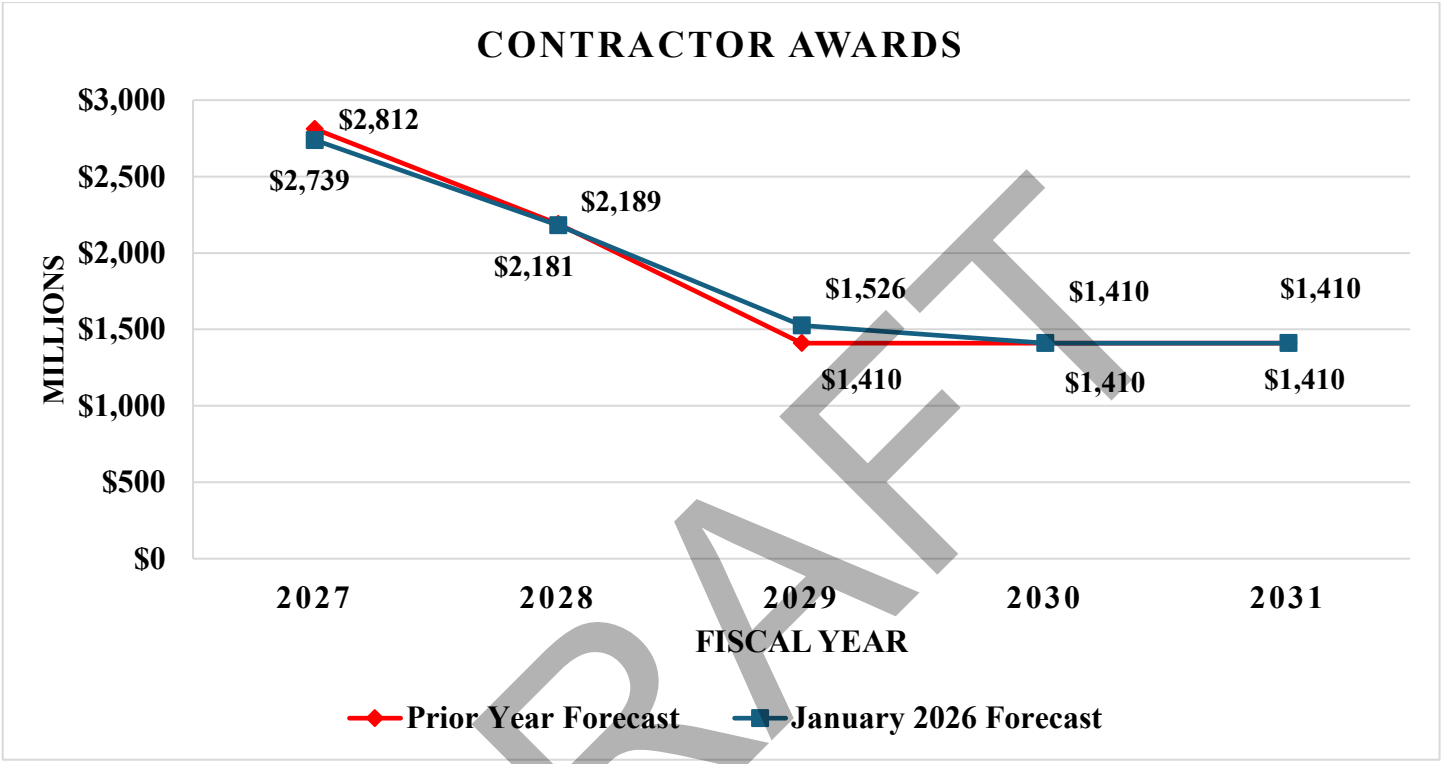

For the 2027-2031 period, the financial forecast relies heavily on deficit spending. Deficit spending will reduce the combined balance of the State Road Fund, State Road Bond Fund, and State Highways and Transportation Department Fund from an estimated $1,714.9 million on July 1, 2026 (the beginning of FY 2027) to $789.7 million on June 30, 2031 (the end of FY 2031). Of the $789.7 million projected to be in the state treasury at that time, $729.7 million is the projected State Road Fund balance. Additional cash is necessary in the State Road Fund for cash flow purposes.

For the 2027-2031 period, $1.9 billion remains from the 2023 legislative session for the Improve I-70 Project and from the 2024 legislative session for the Forward 44 Project and other legislatively designated projects approved by Governor Parson and the General Assembly. The projects are to plan, design, construct, rehabilitate and repair three lanes in each direction on approximately 200 miles of I-70 from Blue Springs to Wentzville and to plan, design, construct, reconstruct, rehabilitate, and repair specific portions of I-44. There are also other legislatively designated projects for US 67 and US 65 among others. The funding for I-70 includes $1.4 billion of General Revenue and the borrowing of $1.4 billion with $136 million of General Revenue to make the debt service payments annually for 15 years. The funding for I-44 includes $213.7 million of General Revenue and the borrowing of $363.8 million with $44 million of General Revenue to make the debt service payments annually for 10 years.

This STIP was developed assuming the estimated federal funding level provided by the Infrastructure Investment and Jobs Act (IIJA), which was enacted on Nov. 15, 2021. Other funding assumptions include bond issuances in 2026 and 2028 to be repaid with dedicated motor vehicle sales tax revenue, which is deposited in the State Road Bond Fund per the Amendment 3 legislation.

DRAFT

The following chart demonstrates MoDOT's anticipated contractor awards (including the I-70, I-44 and General Assembly Program funding):

DRAFT

Missourians enjoy access to a large transportation system that keeps us connected. Maintaining and improving the transportation system is expensive, but a most worthwhile investment. Through accountability, innovation, and efficiency, MoDOT will keep our commitment to preserve the $63 billion Missourians have invested in their transportation assets that have a replacement value of approximately $171 billion.

Introduction

The Missouri Department of Transportation (MoDOT), in accordance with state and federal law, has prepared this Statewide Transportation Improvement Program (STIP), for state fiscal years (FY) 2027 through 2031 (July 1, 2026, through June 30, 2031). The STIP is prepared annually and includes projects proposed for funding under the Infrastructure Investment and Jobs Act (IIJA) of 2021, FAA Reauthorization Act of 2018, and state revenue. The five-year highway act, IIJA (P.L. 117-158), was signed into law by the President on November 15, 2021, which

authorizes federal surface transportation funding for highways, highway safety, transit, freight, port, and rail. The FY 2027-2031 STIP meets all state and federal requirements and is fiscally constrained.

The STIP establishes work for a rolling five-year period. As each year is completed, the STIP is updated, and a new year is added.

Public Involvement

Public involvement in project development and programming activities is a key element in gaining acceptance critical to the success of any transportation improvement program. The recent multi-year federal transportation bills have emphasized the necessity of public involvement. In Missouri, the approach is primarily to seek involvement from four groups: metropolitan planning organizations, regional planning commissions, local officials, and the general public. Through public involvement, all Missourians have a say in how transportation dollars are spent. The following links provide information on the public involvement process: 121.2 The Planning Framework for Transportation Decision-Making - Engineering_Policy_Guide (modot.org) and Citizen's Guide to Transportation Funding in Missouri | Missouri Department of Transportation.

Metropolitan planning organizations represent urbanized areas with populations over 50,000. They are responsible for transportation planning within their regions. Regional planning commissions represent multi-county rural regions and are charged with coordinating functions of local governments, including transportation planning. The public is involved in the planning process in two ways: 1) through election of the local officials who comprise the regional planning commission and metropolitan planning organization boards of directors; and 2) through direct contact with MoDOT, metropolitan planning organizations, regional planning commissions or local officials. (See Section 1 for contact information regarding metropolitan planning organizations, regional planning commissions, and MoDOT district offices.) Public involvement for development of transportation improvements begins several years before the projects appear in the STIP.

Transportation planning consists of a series of decisions that direct the use of current and future available resources to accomplish Missouri's transportation goals. The current transportation planning process can be summarized in the following steps:

1. Develop Missouri's long-range transportation plan.
2. Identify and prioritize needs.
3. Develop solutions and design projects.
4. Prioritize and select projects for the STIP's Highway and Bridge Construction Schedule.

Develop Missouri's Long Range Transportation Plan

MoDOT's long-range transportation plan identifies the state's transportation vision for the next 20 years. The plan also identifies what the public expects of the state transportation system.

DRAFT

The MHTC approved MoDOT's long-range transportation plan at the June 2018 MHTC meeting. The federally required plan called "Missouri's 2018 Long-Range Transportation Plan" is designed to guide transportation decision making throughout the state. It was developed after a one-month public engagement period that resulted in 7,716 participants and 5,377 comments. The survey was used to gather input about priorities for the future of Missouri's transportation system.

Based on the input received, the following five current goal areas should be a focus in the future: 1) take care of the transportation system and services we enjoy today; 2) keep all travelers safe, no matter the mode of transportation; 3) invest in projects that spur economic growth and create jobs; 4) give Missourians better transportation choices (more viable urban and rural transit, friendlier bike and pedestrian accommodations, improvements in rail, ports, and airport operations); and 5) improve reliability and reduce congestion on Missouri's transportation system.

The plan, including what Missourians said should be priorities over the next 20 years, can be found at Long Range Transportation Plan | Missouri Department of Transportation.

Identify and Prioritize Needs

There are many transportation problems, often called needs, on Missouri's transportation system. Identifying these needs is a continuous process and is crucial for successful planning. For example, one need might be redesigning a high-crash location, such as an intersection; another need might be a location improvement that helps a new business move products more efficiently. There are two levels of needs identification - regional and statewide.

Statewide needs are identified formally through the long-range transportation planning process, and public outreach is done in conjunction with the long-range transportation plan development. These needs typically cross several county lines and involve interstates and major highways.

MoDOT districts work with planning partners, such as local and regional elected and community officials, and representatives of the metropolitan planning organizations and regional planning commissions throughout the year to identify regional transportation needs.

Prioritizing needs is a process of deciding which problems from the list of identified needs should be addressed first. This can be a difficult task given a wide variety of needs. Not only do needs have different subject matter – safety, maintenance, or economic development – they have varying time horizons. A poor condition bridge might be a more immediate need than a resurfacing project. However, simply being an immediate need does not guarantee a higher priority. These complicated decisions require a coordinated effort from many groups.

In 2019, MoDOT and planning partners began using the planning framework through a yearly effort to establish a list of needs for which funds had not been identified and committed. With the October 2025 update of the High Priority Unfunded Needs list, we have identified $4.7 billion in road and bridge needs across three tiers. Tier one includes $525 million and focuses on needs that could be accomplished within the current five-year STIP as federal and state funding is available. Tier two is worth $2.2 billion and includes needs beyond the current STIP timeframe with broader estimates. Tier three includes $2 billion of needs also beyond the current STIP timeframe with broader estimates. MoDOT staff also worked with regional planning partners to identify an additional $1 billion in multimodal needs. The unfunded needs list serves to help

DRAFT

stakeholders understand the breadth of needs throughout the state and as a tool to augment the needs prioritization efforts associated with STIP development.

Needs prioritization is based on the goals in Missouri's long-range transportation plan. MoDOT districts work with planning partners to prioritize regional needs annually. Each region develops a program that first addresses its asset management goals of maintaining the current condition. If a region has funds remaining after programming the work needed to keep its system at its current condition, then other regional needs may be considered and prioritized.

Develop Solutions and Establish Scope

When the highest priority needs have been identified, they are evaluated to find the best solution to the problem based on engineering expertise, public input, and financial considerations. Environmental impact is another factor that influences the development and selection of a solution. There are a variety of environmental reviews that must occur for the proposed solutions. Some solutions may be less desirable or eliminated from consideration due to the extent of the environment impacts. After a solution is agreed upon, design plans are started. Determining the cause of a problem is often more complicated than one might expect. For instance, a high incidence of crashes at a given intersection might be due to poor sight distances, weather conditions, signal timing, roadway geometry or even reckless driving. Identifying the primary reason or combination of reasons for the problem is key to developing effective solutions.

When a problem is identified, the natural tendency for any problem solver is to immediately offer the solution. Effective planning requires developing many possible solutions to capture the most efficient and effective solution. MoDOT engineers and planners are experts at generating good solutions to transportation problems. MoDOT staff are even more effective when working with local and regional officials to generate the solutions. This process reveals issues and concerns that may not have previously been evident.

The public's involvement in defining needs and determining the appropriate solutions takes several forms. The public may initiate the investigation of needs by contacting MoDOT or its planning partners. The public, through its local officials, has representation in determining the best solution for the transportation need. As MoDOT develops public involvement plans for specific projects, the public will have further opportunity to review concepts and provide input.

Prioritize and Select Projects for Construction

Deciding which projects to do and when to do them is a complicated and often controversial matter. Gathering and discerning public input is crucial to realizing the full benefit of available funds for Missouri's transportation system. MoDOT relies on local and regional planning agencies for this process. The project prioritization processes are based primarily on data and serve as a starting place for determining the best candidates for funding.

Each region must first develop a program to reach its asset management goals. After a region demonstrates it can reach those goals, it may prioritize and fund other regional needs. The project prioritization processes include the following:

- Safety

DRAFT

- Asset management
- Major bridge
- Other regional needs / System Improvement

Projects are typically divided into three categories – high, medium and low – within each funding category. Each time projects are prioritized, existing projects not yet programmed for construction are re-evaluated.

Projects are prioritized against other projects in the same funding category. Smaller projects and those intended to take care of the existing system are compared with one another. Once a region demonstrates it can meet its asset management goals, similar-sized regional projects may be prioritized against one another. MoDOT works with local and regional officials to determine the priority of the projects in each funding category. Projects on the high-priority project list are candidates for funding. The project selected for funding are shown in Section 4.

Additionally, each of Missouri's nine Metropolitan Planning Organizations (MPOs) located in Cape Girardeau (Southeast Metropolitan Planning Organization – SEMPO), Columbia (Columbia Area Transportation Study Organization – CATSO), Fayetteville-Springdale-Rogers, AR (and a small part of McDonald County, MO) (Northwest Arkansas Regional Planning Commission – NWARPC), Jefferson City (Capital Area Metropolitan Planning Organization – CAMPO), Joplin (Joplin Area Transportation Study Organization – JATSO), Kansas City (Mid-America Governments – EWGCOG) and Springfield (Ozarks Transportation Organization – OTO) prepares a Transportation Improvement Program (TIP) and a long-range Metropolitan Transportation Plan (MTP) for its MPO area. These TIPs are the accumulation of federally funded projects proposed by their local governments and MoDOT. These projects are consistent with the MTP's goals and objectives. MoDOT uses public input received throughout the year to develop its submittal for the MPO's TIP. Each MPO has an approved public involvement plan for its respective area that allows for review and feedback from individual citizens, organizations, agencies, and local area governments. Using public input as one of its decision factors, the MPO determines the projects in its area that will be programmed for construction.

These TIPs are incorporated by reference into the five-year STIP without modification (See Section 1).

In the non-urban, or rural areas, transportation planning and needs identification are done in collaboration with each of the state's Regional Planning Commissions (RPC). Each RPC has a Transportation Advisory Committee (TAC) which meets on a regular basis to discuss transportation issues and identify needs within their respective areas. These TACs are comprised of elected officials, city and county staff, and MoDOT representatives.

Public Review Period

Comments from the public and planning partners are considered throughout the year to maximize Missouri's resources. Based on public and engineering input, a draft of the STIP is published, followed by a 30-day public review period. During this public review period, the STIP is available on MoDOT's website at Statewide Transportation Improvement Program (STIP) | Missouri Department of Transportation. Citizens can provide comments by mail, e-mail, or telephone (by calling 1-888-ASK-MODOT) to district representatives during this time. MoDOT responds to the comments received through an acknowledgement or by providing additional information, depending on the nature of the comment. Most answers or acknowledgements are sent within five business days of receiving the comment. Some comments require more

DRAFT

time for research before an answer can be provided. Changes are made, as appropriate, in response to comments before a final STIP is developed and presented to the MHTC for approval. Input from this part of the process will be used to measure the effectiveness of the program and to begin making improvements on next year's program. The STIP becomes effective when approved by the MHTC as well as the FHWA and FTA.

Program Amendments

After the STIP has been approved, which typically occurs in July, project changes may occur. Projects may need to be added or revised because of unforeseen circumstances. These changes are referred to as amendments. The public involvement process for STIP amendments occurs prior to incorporating the project in the program. Public involvement for projects inside an MPO area will be coordinated by the MPO according to its approved TIP amendment process.

A seven-day public comment period is provided for all proposed amendments and administrative amendments to the STIP. Administrative modifications do not require a seven-day public comment period. All projects follow the public involvement processes and policies defined in MoDOT's planning framework.

The MHTC-approved STIP, and all STIP changes, are made available for viewing on the MoDOT website at Statewide Transportation Improvement Program (STIP) | Missouri Department of Transportation.

DRAFT

Reference Information

Administrative Amendment – Project revisions involving the addition of federally-funded scoping projects, state-funded regionally significant scoping projects, hardship right of way purchases, emergency/urgent projects, major scope changes less than $1 million and less than 25% budget increase, the splitting of general location projects into specific locations or the addition of right of way to construction projects already in the STIP . Administrative amendments require MHTC and FHWA / FTA approval. The MHTC has delegated authority to approve administrative amendments to the Chief Engineer. Administrative amendments occur between annual STIP updates.

Administrative Modification – Project revisions involving the addition of state-funded non-regionally significant scoping projects, fiscally constrained changes to existing projects such as splitting or incorporating projects or changing fiscal years, minor scope changes, modifying funding sources to projects, advance construction changes, and technical corrections. Administrative modifications require MHTC approval but not FHWA / FTA approval. However, administrative modifications are provided to FHWA and FTA for informational purposes. The MHTC has delegated authority to approve administrative modifications to the Chief Engineer. Administrative modifications occur between the annual updates of the STIP.

Advance Construction – A mechanism that allows a project to be funded with state funds now and preserves a project's eligibility for federal reimbursement in the future.

Allocation – An administrative distribution of funds for federal-aid highway programs that are not distributed to states by a statutory formula.

Amendment – Project revisions involving the addition of new projects, deletion of existing projects, or a budget change exceeding $1 million and greater than 25% to an existing project. Amendments require MHTC and FHWA / FTA approval. Amendments occur between the annual STIP updates.

Anticipated Federal Funds –Categories include CMAQ, CRP, Earmark, NHFP, NHPP, PROTECT, STBG, and Safety. An anticipated federal funding category of "State" indicates no federal funds are anticipated to be used on the project. The anticipated federal category identifies the likely type of federal funding that will be used on the project.

Apportionment – The distribution of funds for federal-aid highways that are distributed to states by a statutory formula.

Appropriations Act – Action of a legislative body that makes funds available for expenditure with specific limitations as to amount, purpose, and duration. In most cases, it permits money previously authorized to be obligated and payments made, but for the federal-aid highway program operating under contract authority, the appropriations act specifies amounts of funds that Congress will make available for the fiscal year to liquidate obligations.

Asset Management – A STIP funding category focused on maintenance or preservation-type improvements that preserve the existing transportation system.

Asset Management Plan (AMP) – A rolling 10-year strategic framework for making cost-effective decisions about allocating resources and managing road and bridge system infrastructure. It is based on a process of monitoring the physical condition of assets, predicting deterioration over time and providing information on how to invest to meet asset management goals.

At-Grade Intersection – An intersection of two or more roadways that provides for vehicular and pedestrian traffic movement on the same level of the riding surface.

Authorization Act – Substantive legislation that establishes or continues federal-aid programs or agencies and establishes an upper limit on the amount of funds for the programs.

Better Utilizing Investments to Leverage Development (BUILD) Program – Provides dedicated, discretionary federal funding to invest in road, rail, transit, and port projects that promise to achieve national objectives. Previously known as Transportation Investment Generating Economic Recovery, or TIGER Discretionary Grants, Congress has dedicated nearly $7.9 billion for 11 rounds of National Infrastructure Investments to fund projects that have a significant local or regional impact.

Congestion Mitigation and Air Quality Improvement (CMAQ) Program – Federal funds allocated to state and local governments for transportation projects and programs to help meet the requirement of the Clean Air Act.

Coronavirus Aid, Relief, and Economic Security (CARES) Act – Provides economic stimulus to Americans in response to the economic fallout of the Coronavirus (COVID-19) pandemic.

DRAFT

Coronavirus Response and Relief Supplemental Appropriations Act (CRRSAA) – Signed into law on December 27, 2020, to help mitigate the financial impact of the COVID-19.

COVID-19 –Coronavirus is an infectious disease caused by a new virus.

Carbon Reduction Program (CRP) – Federal funds allocated to state and local governments for transportation projects and programs to help reduce transportation emissions.

Culvert – A drainage structure constructed beneath the roadway. Box sections, pipes, and arches are examples of various culvert shapes.

Deck – A portion of a bridge that provides the riding surface for vehicular and pedestrian traffic. The deck distributes loads to the superstructure elements.

Earmark – Federal funds dedicated to a specific project.

Emergency Relief Program – Provides funding to federal, state, and local highway agencies for repairs to damaged federal-aid highways and roads on federal lands resulting from natural disasters or catastrophic failures from an external cause.

Engineering – The work required to develop a project's scope and detailed design, as well as the inspection of a construction project.

Every Day Counts (EDC) – A federal program administered by FHWA.

Expansion Project – A transportation improvement that increases the capacity of the transportation system, such as new lanes, interchanges, or bridges.

Expressway – A multilane, divided highway where access is allowed at public roads via at-grade intersections.

FAST Act – On December 4, 2015, Congress enacted the five-year Fixing America's Surface Transportations (FAST) Act, which authorizes federal surface transportation funding for highways, highway safety, transit, freight, port, and rail. In the 116th Congress, the FAST Act was extended by the Continuing Appropriations Act, 2021 and other Extensions Act (P.L. 116-159) for an additional year until September 30, 2021.

Federal-Aid Highways – Those roads which are eligible for federal funding under Title 23 of the United States Code, except roads functionally classified as local or rural minor collector. Other exceptions apply to this general rule.

Federal Highway Administration (FHWA) – The federal agency that provides financial and technical support for the construction, improvement, and preservation of the highway system. FHWA implements a risk-based stewardship and oversight process that includes the identification of specific Projects of Division Interest (PoDI).

Federal Railroad Administration (FRA) –The federal agency that creates and enforces rail safety regulations, administers rail funding, and researches rail improvement strategies and technologies.

Federal Transit Administration (FTA) – The federal agency that provides financial and technical assistance to local public transit systems.

DRAFT

Fiscal Constraint – The demonstration that sufficient funds are reasonably expected to be available to cover the anticipated project costs within the five-year window of the STIP.

Fiscal Year – The 12-month period to which the annual STIP budget applies. The State of Missouri fiscal year is July 1 through June 30. The STIP fiscal year is July 1 through June 30. The federal fiscal year is October 1 through September 30.

Freeway – A multilane, divided highway where access is provided only at grade-separated interchanges.

Funding From Other Sources (FFOS) – Funds applied to a project that are from sources other than the funding distribution categories available for district use.

General Assembly Designated and Funded Initiatives (also called Legislatively Designated) – Projects funded by the Missouri General Assembly.

Geometric Improvement – The roadway improvement other than a surface treatment, such as adding turn lanes or widening an intersection.

Governor's Transportation Cost Share Program – A program that builds partnerships with local communities to pool efforts and resources to deliver road and bridge projects. This program is funded with a $25 million General Revenue appropriation and $75 million Budget Stabilization appropriation from the General Assembly and redirected federal CARES Act monies.

Highway Infrastructure Program (HIP) – Allocated funding for road, bridge, and other transportation improvements during the FAST Act.

Highway Trust Fund (HTF) – An account established by law to hold federal highway user taxes levied on motor fuels and various highway-related products such as tires and heavy trucks. The HTF has two accounts: the Highway Account and the Mass Transit Account.

Infrastructure for Rebuilding America (INFRA) Grant Program – Provides dedicated, discretionary federal funding for projects that address critical issues facing our nation's highways and bridges.

Infrastructure Investment and Job Act (IIJA) – On November 15, 2021, the President signed into law the Infrastructure Investment and Jobs Act (IIJA). IIJA authorizes federal surface transportation funding for highways, highway safety, transit, and rail for the five-year period from October 1, 2021 to September 30, 2026.

Interchange – Where two or more roadways meet. An interchange has two or more roadways that provide for the movement of traffic on different levels (grade separated).

Intersection – Where two or more roadways meet. An at-grade intersection has two or more roadways that provide for traffic movement on the same level.

Lane – The travel path of one vehicle on a roadway and usually delineated by a dashed or solid stripe.

DRAFT

Legislatively Designated and Funded Initiatives (also called General Assembly Designated) – Projects funded by the Missouri General Assembly.

Let – To advertise projects and take bids from contractors to perform the work.

Long-Range Transportation Plan (LRTP) – A multimodal transportation plan covering a period of at least 20 years developed through the statewide transportation planning process.

Major Bridge – Any bridge with a total length of at least 1,000 feet. There are about 200 major bridges in Missouri, located mainly over larger lakes, rivers, and interchanges.

Major Bridge Funds – A STIP funding category focused on improving the condition of bridges longer than 1,000 feet.

Major Highway System – Includes all of Missouri's most traveled roads consisting of approximately 5,500 miles that carry nearly 80% of the state's traffic. Approximately 95% of Missouri residents live within 10 miles of these roads.

Moving Ahead for Progress (**MAP-21**) – On July 6, 2012, the President signed into law the Moving Ahead for Progress in the 21st Century Act of 2012, which authorized the federal surface transportation programs for highways, highway safety, and transit for the two-year period from 2013 through 2014. MAP-21 was extended through most of 2015.

Member Designated Project (MDP) – Federal funds dedicated to a specific project.

Metropolitan Planning Organization (MPO) – The entity responsible for transportation planning in urbanized areas with populations greater than 50,000. The nine MPOs in Missouri serve the following metropolitan areas: Cape Girardeau (Southeast Metropolitan Planning Organization), Columbia (Columbia Area Transportation Study Organization), Fayetteville-Springdale-Rogers, AR and a small part of McDonald County, MO (Northwest Arkansas Regional Planning Commission), Jefferson City (Capital Area Metropolitan Planning Organization), Joplin (Joplin Area Transportation Study Organization), Kansas City (Mid-America Regional Council), St. Joseph (St. Joseph Area Transportation Study Organization), St. Louis (East-West Gateway Council of Governments), and Springfield (Ozarks Transportation Organization). Also see TMA.

Metropolitan Transportation Plan (MTP) – A multimodal transportation plan covering a period of at least 20 years developed through the MPO transportation planning process.

Minor Highway System – Includes any state road that is not on the Major Highway System consisting of approximately 28,000 miles, which carry nearly 20% of the state's traffic. These roads are often referred to as farm-to-market roads in the state's rural areas.

National Environmental Policy Act (NEPA) – A federal law requiring agencies to assess the environmental impacts of proposed actions before making decisions.

DRAFT

National Highway Freight Network – A system of highways and public roads designated by the federal government that are essential for the movement of freight and that provide continuity and connectivity to freight hubs.

National Highway System (NHS) – A system of major highway networks designated by the federal government that includes interstate routes, most urban and rural principal arterials, the defense strategic highway network and strategic highway connectors.

National Highway Freight Program (NHFP) – One of several categories of federal transportation funds and can be used for projects that contribute to the efficient movement of freight on the National Highway Freight Network. This program was created with the FAST Act and provides funding for projects included in the State Freight Plan.

National Highway Performance Program (NHPP) – One of several categories of federal transportation funds and can be used for road, bridge, or other improvements. This category was created in MAP-21 and incorporates the former federal categories of National Highway System, Bridge and Interstate Maintenance.

Obligation – The federal government's legal commitment (promise) to pay or reimburse a state or other entity for the federal share of a project's eligible costs.

Obligation Limitation – A restriction or "ceiling" on the amount of federal assistance that may be promised (obligated) during a specified time period. This is a statutory budgetary control that does not affect the apportionment or allocation of funds. Rather, it controls the rate at which the funds may be used.

ONEDOT – The Federal Highway Administration and Federal Transit Administration are referred to collectively as ONEDOT.

Outlays – Actual cash (or electronic transfer) payments made to the state or other entity to pay the entity for eligible costs incurred. Outlays generally are provided as work progresses for the federal share for approved highway program activities.

Passenger Rail Investment and Improvement Act (PRIIA) – On October 16, 2008, the President signed the Passenger Rail Investment and Improvement Act. PRIIA reauthorized the National Railroad Passenger Corporation, better known as Amtrak, and strengthened the U.S. passenger rail network by tasking Amtrak, the U.S. Department of Transportation (US DOT), Federal Railroad Administration (FRA), states and other stakeholders in improving service, operations, and facilities for fiscal years 2009 through 2013. PRIIA was extended through 2015 and is currently included in the FAST Act.

Payback – A project will not be let. Payback projects are payments made to an entity after the work has already occurred, typically in a later fiscal year. Projects are noted in Section 4 with a "Payback" watermark.

Payment – A project will not be let. Payment projects are payments made to an entity for new work and actively occurring work. Projects are noted in Section 4 with a "Payment" watermark.

Performance-Based Planning and Programming (PBPP) – Refers to the application of performance management within the planning and programming processes of transportation agencies to achieve desired performance outcomes for the multimodal transportation system. This

DRAFT

includes a range of activities and products undertaken by a transportation agency together with other agencies, stakeholders, and the public as part of a 3C (cooperative, continuing, and comprehensive) process.

Planning Framework – Since 2004, this is MoDOT's process of involving the general public and planning partners, which represent regions of the state, and local areas in the identification and prioritization of transportation needs and projects.

Preventive Maintenance – A planned strategy of cost-effective treatments to an existing roadway system and its appurtenances that preserves the system, retards future deterioration, and maintains or improves the functional condition of the system (without significantly increasing the structural capacity).

Primary Funding Category – STIP distributed funds that include Asset Management, Major Bridge, Safety, Safety (Statewide) and System Improvements. These are MoDOT categories, not federal categories, and indicate the type of MoDOT funds that are used for the project.

Programmed – A project that has right of way and/or construction funds committed for expenditure within the five state fiscal years of the STIP.

Projects of Division Interest (PoDI) – Individual projects for which project-specific risks are identified and reviewed as part of FHWA's stewardship and oversight process. A listing of the programmed PoDI projects can be viewed in the Engineering Policy Guide in 123.1.1 PODI_List.pdf

Promoting Resilient Operations for Transformative, Efficient, and Cost-saving Transportation (PROTECT) – Provides dedicated, formula, and discretionary federal funding to invest in planning, resilience improvements, community resilience and evacuation routes, and at-risk coastal infrastructure projects.

Rebuilding American Infrastructure with Sustainability and Equity (RAISE) – A federal discretionary grant program administered by FHWA that helps communities around the country carry out projects with significant regional impacts.

Reconstruction – A type of improvement designed to replace the existing roadway or bridge when it has reached the end of its useful life. Reconstruction is often accompanied by improvements to the highway's functional and operational capacity.

Regionally Significant Project – A transportation project on a facility that serves regional transportation needs (such as access to and from the area outside the region; major activity centers in the region; major planned developments such as new retail malls, sports complexes or employment centers; or transportation terminals) and would normally be included in the modeling of the metropolitan area's transportation network. At a minimum, this includes all principal arterial highways and all fixed guide-way transit facilities that offer a significant alternative to regional highway travel.

Regional Planning Commission (RPC) – A local body of governments that provides coordinated planning efforts in developing various regional and local transportation plans.

DRAFT

Rehabilitation – A type of improvement designed to preserve and extend the service life and enhance the safety of an existing roadway or bridge when total replacement is not warranted.

Resurfacing – A type of improvement that adds a new layer of material over an existing pavement.

Right of Way – Land or property used specifically for transportation purposes.

Safe and Sound Bridge Improvement Program – An initiative to improve 802 bridges throughout the state by December 31, 2013. A team of contractors and designers was selected to replace more than 550 bridges as part of a single design-build package. The remaining bridges were rehabilitated using a modified design-bid-build approach.

Safety Funds – A federal and STIP funding category for eligible safety-related activities with a goal of reducing traffic crashes.

Scoping and Design – The early stages of a potential construction project. See Section 3 of the STIP for more information and for scoping and design project lists.

Senate Bill 262 (SB262) – Passed to increase the Missouri state fuel tax for the first time in 25 years. The legislation increased Missouri's fuel tax by 2.5 cents annually each year for five years from 17 cents to 29.5 cents on July 1, 2025.

State Funds – State revenue generated through Missouri taxes, license, permits, and fees.

Surface Transportation Block Grant Program (STBG) – One of several categories of federal transportation funds and can be used for road, bridge, and other improvements. Prior to the FAST Act, this program was known as the Surface Transportation Program.

Statewide Transportation Improvement Program (STIP) –MoDOT's fiscally-constrained short-term capital programming document that is used to implement MoDOT's statewide transportation plan. It translates the policies, strategies, and directions of the plan into specific decisions on transportation project scoping, preliminary design, construction contract awards, and investments in special federal programs during the STIP five-year period. Projects in Section 4 of the STIP are commitments.

Surface Transportation System Funding Alternatives (STSFA) – A federal program administered by FHWA.

Substructure – Abutments, piers, or other bridge elements built to support the bridge superstructure. The substructure transfers loads from the superstructure to the ground.

Superstructure – The portion of a bridge that supports the bridge deck and traffic loads. The superstructure transfers these loads to the bridge substructure. Examples of superstructure types include trusses, concrete beams, and steel girders.

System Improvements – A STIP funding category which may be used for any type of system improvement, including safety, condition, or operational improvements. This funding category may also be used for capacity and expansion projects if a district has sufficient other funds to meet their asset management goals.

DRAFT

Transportation Improvement Program (TIP) – The MPO's fiscally-constrained short-term capital programming document that is used to implement the MPO's metropolitan transportation plan. It translates the policies, strategies, and directions of the plan for the metropolitan planning area into specific decisions on transportation projects and investments during the TIP four-year period.

Transportation Management Area (TMA) – A geographically defined urbanized area determined by the U.S. with a population greater than 200,000. Missouri's four TMAs include the Kansas City (Mid-America Regional Council), St. Louis (East-West Gateway Council of Governments), Springfield (Ozarks Transportation Organization) and Fayetteville-Springdale-Rogers, Arkansas, which includes a small part of McDonald County in southwest Missouri (Northwest Arkansas Regional Planning Commission) metropolitan areas.

Work Zone – A designated area where highway construction or maintenance is taking place.

Section 3 – Scoping and Design Projects

DRAFT

This page intentionally left blank

2027-2031 Scoping and Design Projects

The purpose of this section is to identify potential future highway and bridge projects. These projects may be in the evaluation stage, which is called project scoping, or may be further along in the preliminary design process. **Projects listed in this section are not commitments to construct or implement an improvement.** These commitments won't be made until the NEPA process is completed. These projects are being included in the STIP for the scoping or preliminary design phase only, and subsequent phases have not yet been determined or are beyond the STIP period.

After needs have been identified and prioritized, the higher-priority needs are included in this section. Next, a core team is formed, comprising personnel from various MoDOT divisions. The core team investigates the problem or concern and develops several solutions that may be either short term or long term. Some problems have no transportation or construction solution and instead may require public education or assistance through law enforcement.

Once a solution is selected, additional preliminary design work occurs. Design progresses up to a point at which MoDOT is confident the solution will properly address the problem or concern of the improvement's cost. The potential project moves into the next stage of the planning framework, which is the prioritization and selection of projects for construction. Projects that have been prioritized and selected for construction are listed in the construction program (see Section 4). Only the construction projects in Section 4 represent a commitment by MoDOT to build the project.

Please see Section 2 for additional discussion regarding how a need becomes a project through the planning framework. This process includes identifying and prioritizing needs, developing solutions, prioritizing and selecting projects for construction.

The amount of time a potential project spends in the scoping and design phase varies. Some potential projects are more complex than others, and they might remain in the scoping and design phase for several years. This is especially true for projects such as Missouri and Mississippi River bridge replacements, new roadway construction, or converting a two-lane road to a four-lane road. Some projects could be added to the construction program (see Section 4) in future STIP amendments, either using existing capacity shown in Section 5 or if additional funding becomes available.

Section 4 – Highway and Bridge Construction Schedule

DRAFT

This page intentionally left blank

2027–2031 Highway and Bridge Construction Schedule

RSMo 21.795.2(3)

The Highway and Bridge Construction Schedule identifies highway and bridge projects funded for right of way acquisition and/or construction during the five-year period between July 1, 2026 and June 30, 2031. Engineering costs for these projects are included as well. The construction contingency is applied to construction costs in the year the project is awarded. A 3% project growth factor compounded annually is applied to right of way and construction costs in program years 2, 3, 4 and 5. No inflation is applied to the Funding From Other Sources (FFOS) or Payback and Payment projects.

Projects on this schedule are funded and represent a commitment to implement an improvement, purchase right of way and/or construct. Projects on this schedule with right of way funding only represent a commitment to buy right of way, <u>not</u> a commitment to construct.

There are assumptions and requirements that must be met for project construction to begin. Some assumptions and requirements apply to all projects. Other assumptions and requirements vary depending upon the complexity of the project. These assumptions are as follows:

- The assumed funding levels from state and federal sources are reached.
- All environmental requirements and clearances are obtained.
- Any legal matters are resolved.
- Right of way acquisition and utility relocation occur as scheduled.
- Concurrence is obtained from the MPO for projects in the following areas: Cape Girardeau, Columbia, Fayetteville-Springdale-Rogers AR-MO, Jefferson City, Joplin, Kansas City, St. Joseph, St. Louis, and Springfield. Projects in these areas are subject to the approval of the TIP by the governing MPO.

Statewide Transportation Improvement Program 2027-2031 Central District

Highway and Bridge Construction Projects

Only SFY 2027-2029 projects are displayed on maps.

State Fiscal Year

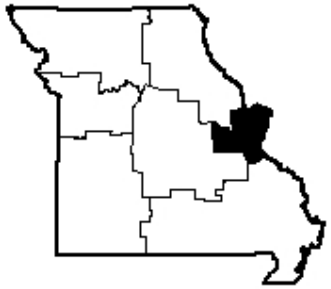

- 2027
- 2028
- 2029
- Missouri Major Roads
- Urban Areas

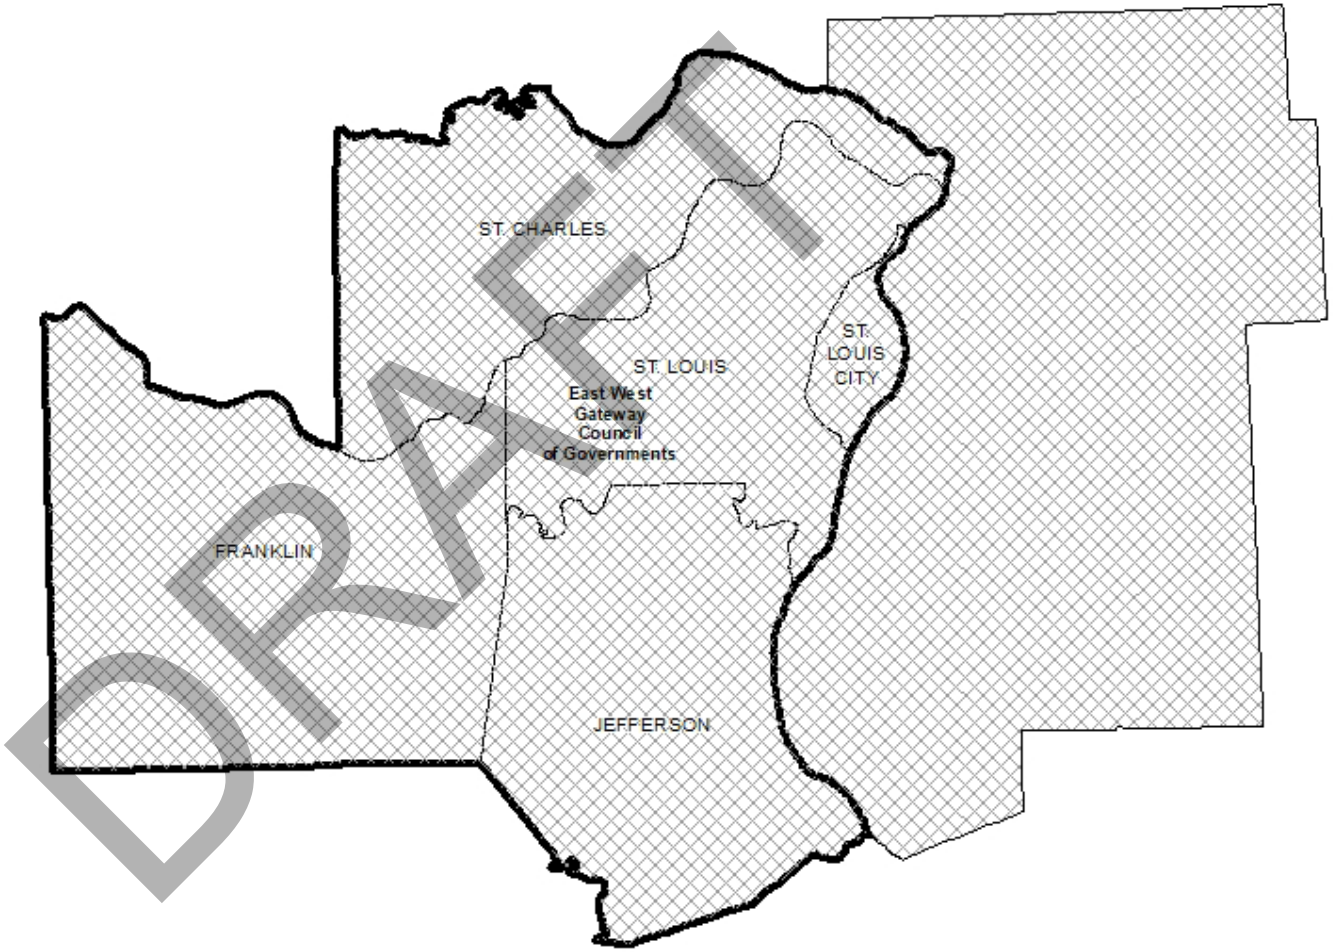

(July 1-June 30)

- 2027 Bridge
- 2028 Bridge
- 2029 Bridge
- Columbia Area Transportation Study Organization
- Capital Area Metropolitan Planning Organization

Note: Bridge projects are displayed first.
Other project overlaps will follow the order shown in the legend.

Statewide Transportation Improvement Program 2027-2031 Southwest District

Highway and Bridge Construction Projects

Only SFY 2027-2029
projects are displayed on maps.

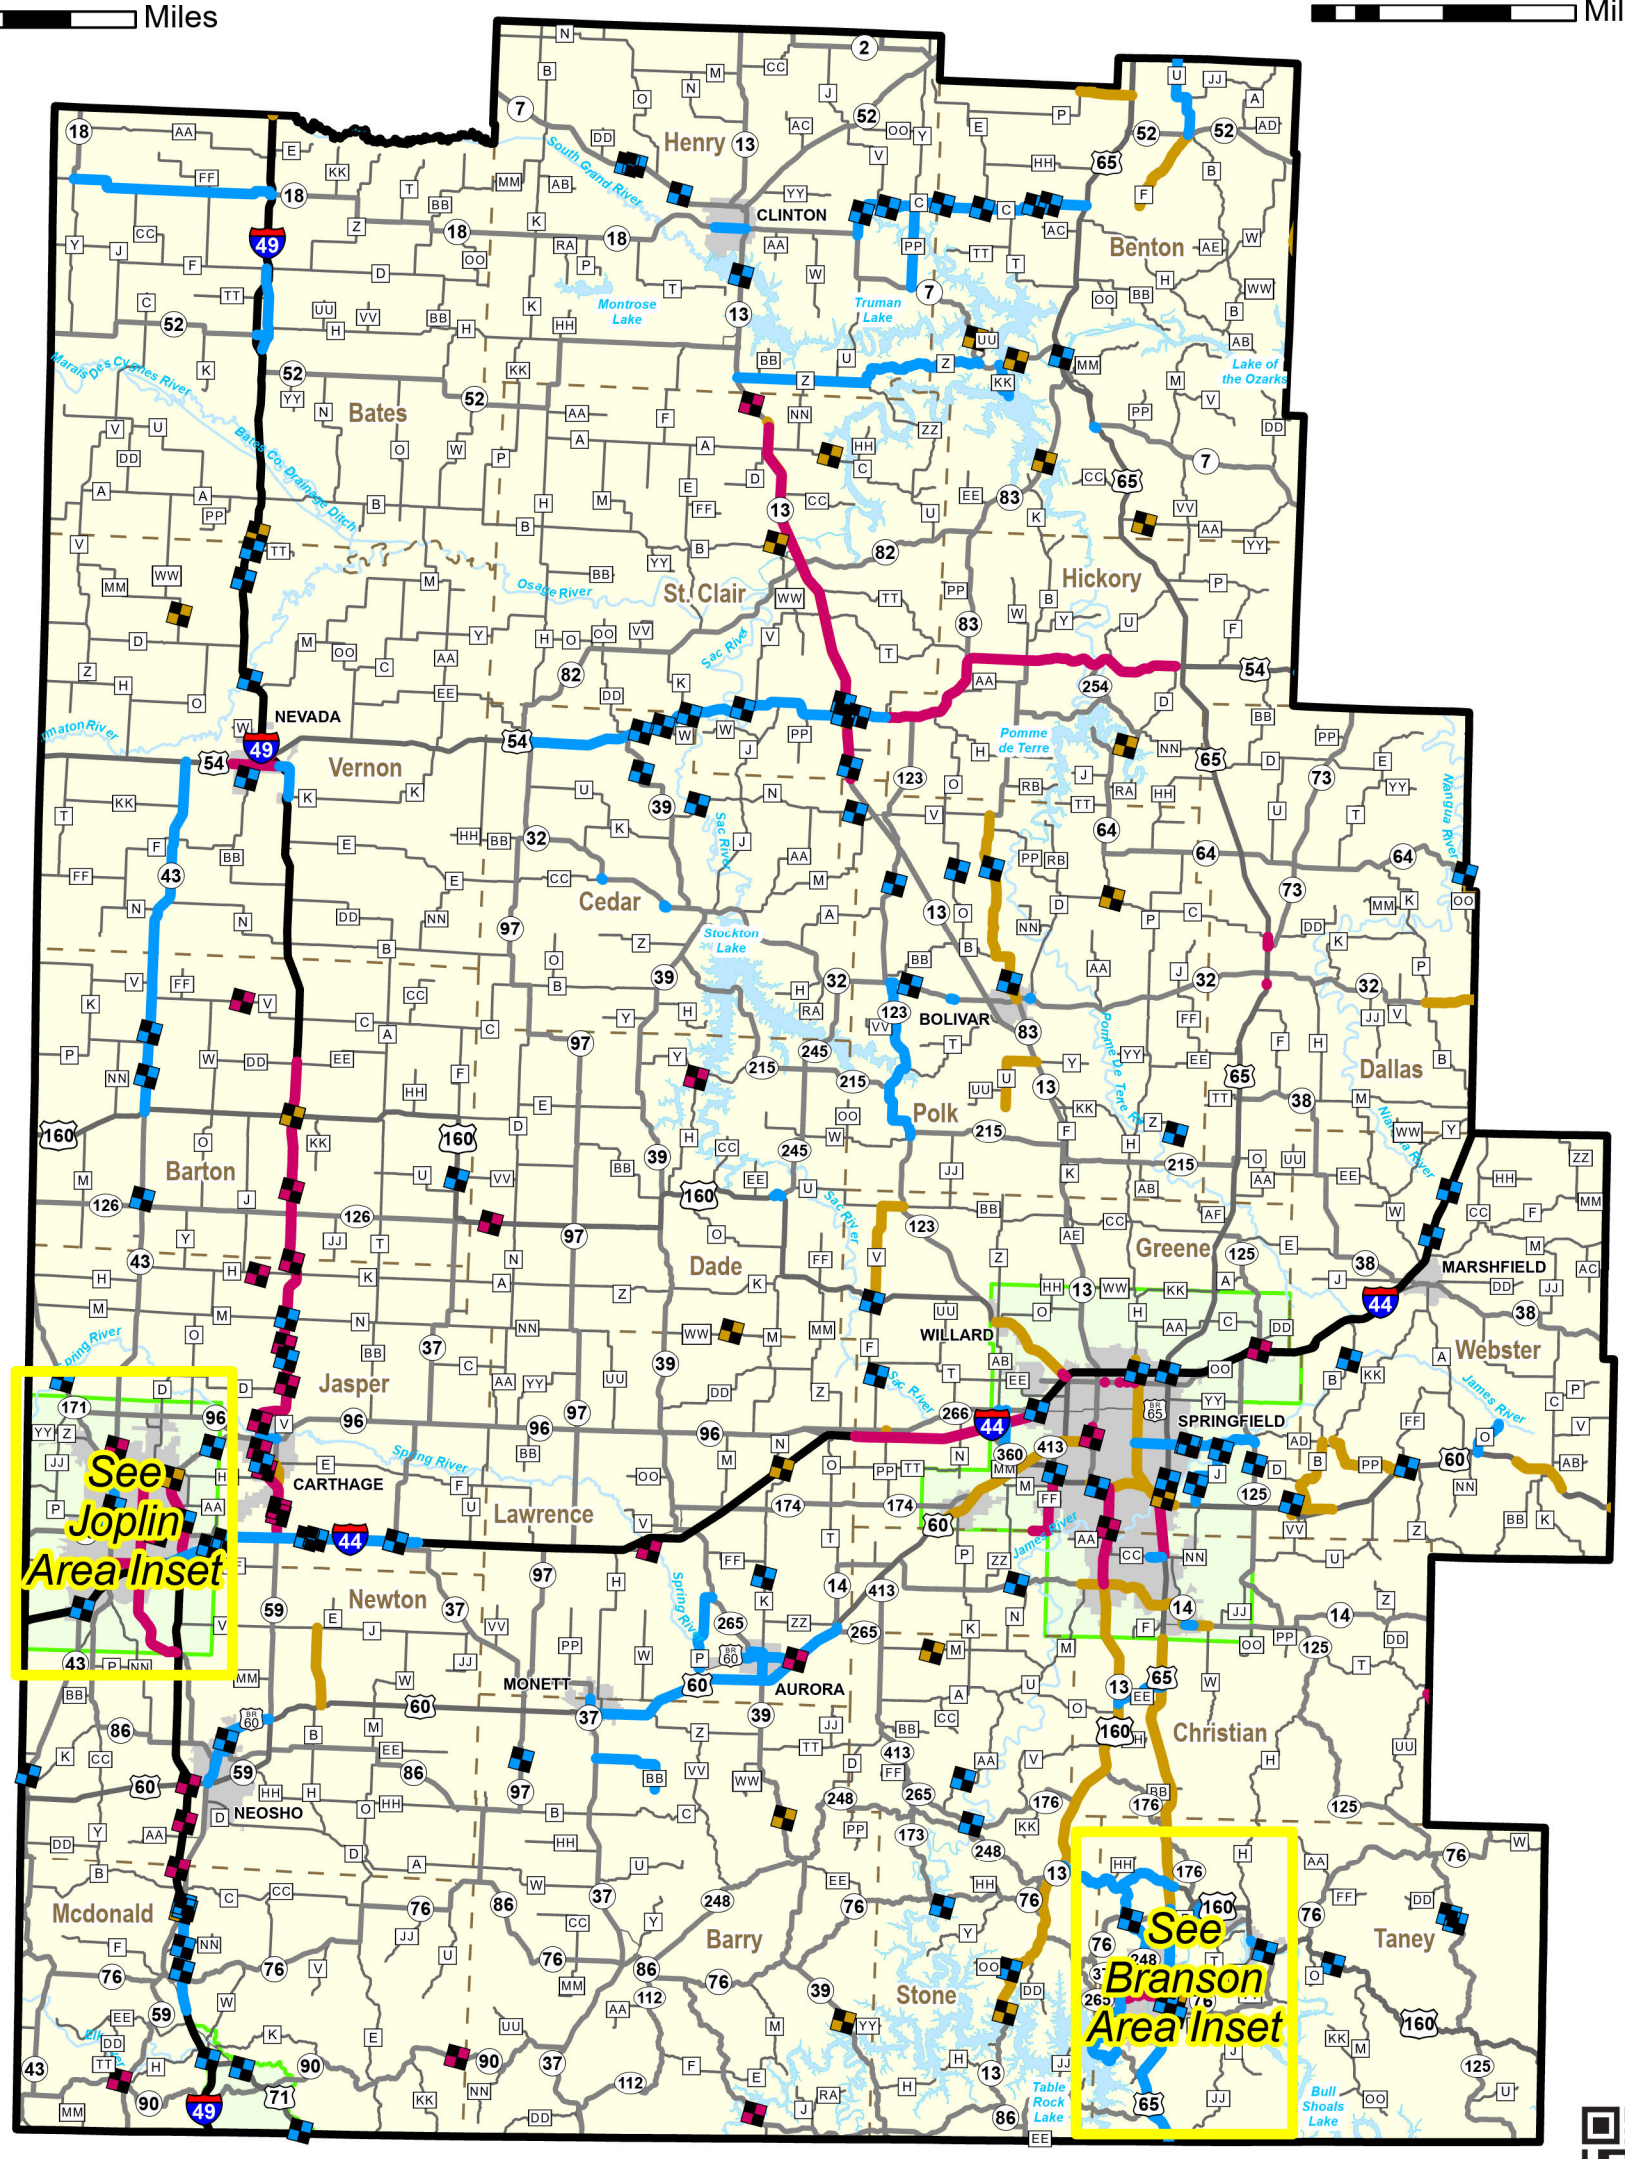

State Fiscal Year

- 2027
- 2028
- 2029
- Missouri Major Roads
- Urban Areas

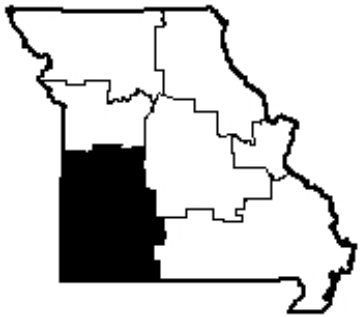

(July 1-June 30)

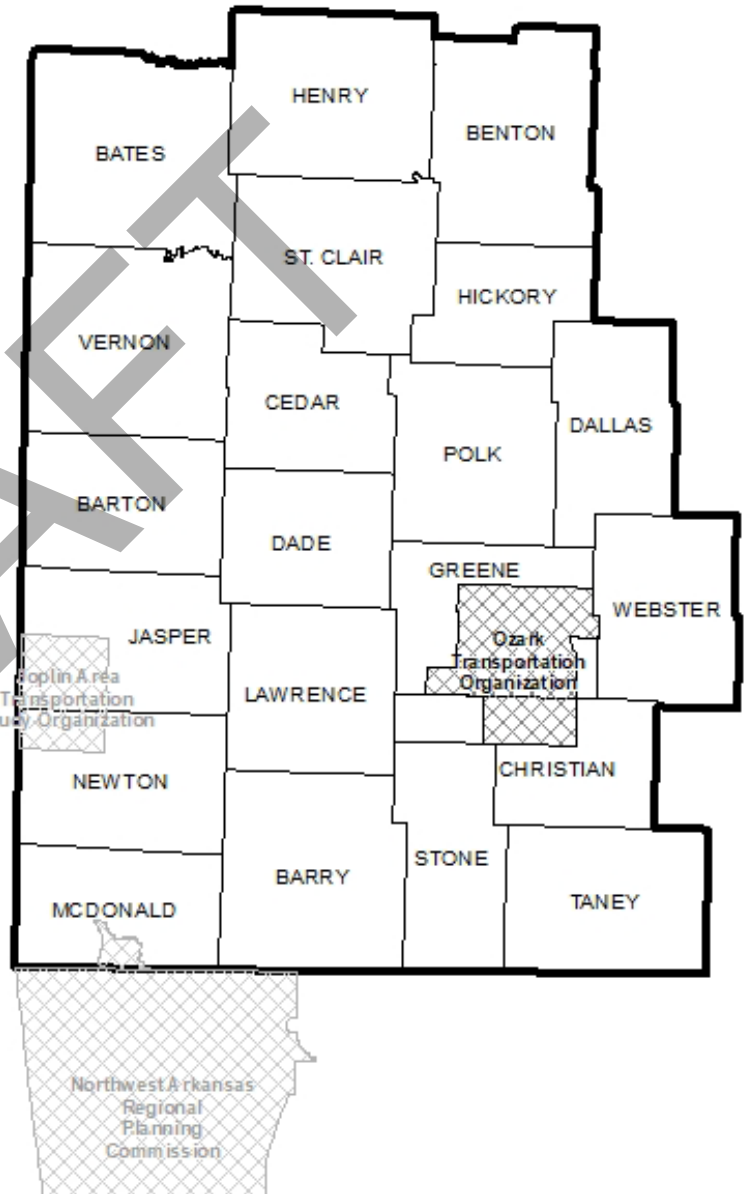

- 2027 Bridge
- 2028 Bridge
- 2029 Bridge
- Ozark Transportation Organization
- Joplin Area Transportation Study Organization
- Northwest Arkansas Regional Planning Commission

Note: Bridge projects are displayed first.
Other project overlaps will follow the order shown in the legend.

Section 4b – SFY 2024 Legislatively Designated and Funded Initiatives

SFY 2024 Legislatively Designated and Funded Initiatives

This section of the Statewide Transportation Improvement Program contains projects funded by Missouri's General Assembly during the 2023 legislative session. These projects are funded by either General Revenue or bonding authorized by the General Assembly.

During the 2023 legislative session, the Missouri General Assembly addressed the top transportation need in the state, widening I-70. Missouri's FY 2024 budget from the General Assembly, supported by Governor Parson, provides General Revenue for the costs to plan, design, construct, reconstruct, rehabilitate, and repair three lanes in each direction on approximately 200 miles of I-70 from Blue Springs to Wentzville. The Improve I-70 program is programmed from FY 2024 through FY 2027.

The following is a list of those projects and their specifics, along with information about their funding and timing. MoDOT will track these projects and report regularly on their progress.

Section 4c – SFY 2025 Legislatively Designated and Funded Initiatives

SFY 2025 Legislatively Designated and Funded Initiatives

This section of the Statewide Transportation Improvement Program contains projects funded by Missouri's General Assembly during the 2024 legislative session. These projects are funded by either General Revenue or bonding authorized by the General Assembly.

During the 2024 Missouri legislative session, the Missouri General Assembly addressed many transportation needs in the state, highlighted by the investment in several locations of I-44. Missouri's FY 2025 budget from the General Assembly, supported by Governor Parson, provides General Revenue for the costs to plan, design, construct, reconstruct, rehabilitate, and repair designated segments and other I-44 needs from Tiers 2 and 3 of the High Priority Unfunded Needs list.

In addition to the I-44 projects, the General Assembly also made substantial investments in other projects. These other projects are funded by General Revenue and the Budget Stabilization Fund on corridors including, but not limited to, routes such as US 65, US 67, I-35, and other projects from corridor enhancements.

The following is a list of those projects and their specifics, along with information about their funding and timing. MoDOT will track these projects and report regularly on their progress.

SFY 2026 Legislatively Designated and Funded Initiatives – Off the State-Owned System

This section of the STIP contains projects funded by Missouri's General Assembly during the 2025 legislative session off the state-owned system. Projects shaded in gray are subject to funding being made available.

The following is a list of the projects and locations.

FY 2026 Legislatively Designated and Funded Initiative - Off the State-Owned System			
County	**Description**	**House Bill**	**Amount**
Platte	Mexico City Avenue Road Replacement	17	$17,000,000
Webster	Road Spur in Seymour	17	$250,000
Buchanan	Environmental Assessment for Bridge	17	$25,000
Jackson/Clay	Road Repair in Sugar Creek	17	$700,000
Taney	Highway 76 Infrastructure Improvements	17	$4,000,000
		Total	**$21,975,000**

Section 5 – Estimated Financial Summary

DRAFT

This page intentionally left blank

Estimated Financial Summary for the 2027-2031 Highway and Bridge Construction Schedule

Overview

Section 5 of the Statewide Transportation Improvement Program (STIP) explains the sources and projected levels of Missouri's transportation revenues while also sharing the planned expenditures for the next five years.

The department is proud to build and maintain a safe and reliable transportation system that connects people with jobs and services, connects businesses with suppliers and customers, moves students to and from school, and allows visitors to explore the state's many destinations. Given the current funding resources, most of the revenue will address maintaining and preserving the existing system in its current condition; however, many high-priority unfunded needs still exist.

About 70% of every dollar MoDOT receives comes from motor fuel taxes. The federal motor fuel tax has not changed since 1993. The state motor fuel tax was increased from 27 cents to 29.5 cents per gallon on July 1, 2025. The Governor and General Assembly passed Senate Bill 262 (SB262) which raised Missouri's motor fuel tax an additional 2.5 cents per year over five years and is estimated to generate an additional $500 million in annual revenue less refunds. The additional revenue is distributed to the state, cities, and counties.

Other sources of state revenue for transportation include motor vehicle sales tax, vehicle and driver licensing fees, interest earned on invested funds and other miscellaneous collections, and general revenue funds. Revenue collected through these avenues has slightly grown over the years except for miscellaneous collections. Motor vehicle sales taxes are projected to grow 3% annually for 2027 and beyond. Motor vehicle and driver licensing fees are projected to grow 1% for 2027 and beyond.

Additional transportation funds have recently been made available via General Revenue for the Governor's Focus on Bridges Program, Transportation Cost Share Program, Improve Interstate 70 (I-70) Project, Forward 44 Effort, and General Assembly Designated and Funded Initiatives. An allocation from the Budget Stabilization Fund of $75 million has been made available for the Governor's Transportation Cost Share Program. The Governor and General Assembly recommended $2.8 billion for the Improve I-70 Project to plan, design, construct, reconstruct, rehabilitate, and repair three lanes in each direction on approximately 200 miles of I-70, from Blue Springs to Wentzville. The funding for the Improve I-70 Project includes $1.4 billion of General Revenue and the borrowing of $1.4 billion with $136 million of General Revenue to make the debt service payments annually for 15 years. The Governor and General Assembly recommended $577.5 million for the Forward 44 Effort to plan, design, construct, reconstruct, rehabilitate and repair I-44 from Missouri Route T to Missouri Route 68, from US Route 160 to Missouri Route 125, from I-49 to Missouri Route 249, to rebuild pavement and improve the I-44/Route 13 interchange and I-44/I-49 interchange and other I-44 Tiers 2

DRAFT

and 3 projects on the High Priority Unfunded Needs list. The funding for the Forward 44 Effort includes $213.7 million of General Revenue and the borrowing of $363.8 million with $44 million of General Revenue to make the debt service payments annually for 10 years. The General Assembly Designated and Funded Initiatives also includes funding for US 67 in Butler County, I-70 in Warren County, US 65 in Buffalo, the maintenance and repair of low-volume roads and other road improvements.

On November 15, 2021, the President signed into law the Infrastructure Investment and Jobs Act (IIJA), which authorizes the federal surface transportation programs for highways, highway safety, transit, and rail for the five-year period from 2022 through 2026. The IIJA is funded with receipts into the Highway Trust Fund, transfers from the General Fund and additional funding offsets. Missouri's annual apportionments are estimated to increase 26% compared to the last year of the prior highway act, Fixing America's Surface Transportation (FAST) Act. This forecast includes the assumption that IIJA funding will continue after 2026.

MoDOT continues to operate efficiently. The department's operating expenses remain relatively flat, except for minimal increases. In the past 10 years, MoDOT has invested in 4,211 projects, totaling $8.3 billion or 3.5% under budget.

Missouri's 2027-2031 STIP is primarily maintenance focused. In the last few years, annual contractor awards in the STIP averaged $2.0 billion with more than 50% aimed at meeting asset management goals. With an increase in contractor awards, the opportunities to expand the system – widening a busy two-lane road to four lanes to reduce congestion and make systematic safety improvements or building a new roadway or interchange to help promote business development and bring jobs to the state – are growing.

Missourians rely on a modern and safe transportation system to get to work, school and everywhere in between. A healthy transportation infrastructure ensures businesses can operate and grow. Essentially, transportation is what keeps Missouri moving. Missourians must work together and recognize that investments in transportation are part of the solution for the state's growth and prosperity.

Revenue

Federal

The largest source of transportation revenue is from the **federal government** including the 18.4 cents per gallon tax on gasoline and 24.4 cents per gallon tax on diesel fuel. The last time either tax was increased was in 1993. Other sources include various taxes on tires, truck and trailer sales, and heavy vehicle use. These highway user fees are deposited in the federal Highway Trust Fund and distributed to the states based on formulas prescribed by federal law through transportation funding acts. This revenue source also includes multimodal and highway safety grants (see Section 7 for a summary of all multimodal operations). Approximately 37% of Missouri's transportation revenue comes from the federal government.

DRAFT

State

The next largest source of transportation revenue is from the **state fuel tax**. Fuel taxes represent the state share (approximately 27% is distributed to cities and counties) of revenue received from the state's 29.5 cent per gallon tax on gasoline and diesel fuels which must be spent on highways and bridges. This revenue source also includes a 9 cent per gallon tax on aviation fuel which must be spent on airport projects (see Section 7). These tax revenues provide approximately 25% of transportation revenues.

MoDOT receives a portion of the **state sales tax** paid on the purchase or lease of motor vehicles. This revenue source also includes the sales tax paid on aviation fuel which is dedicated to airport projects (see Section 7). These tax revenues provide approximately 14% of transportation revenues. In November 2004, voters passed constitutional Amendment 3, which set in motion a four-year phase-in, redirecting motor vehicle sales taxes previously deposited in the state's General Revenue Fund to a newly created State Road Bond Fund. In FY 2009, the process of redirecting motor vehicle sales taxes to transportation was fully phased in. Starting July 2013, state legislation eliminated the state motor vehicle use tax. Thise state motor vehicle use tax was replaced with the state motor vehicle sales tax which directs more of the tax to local government agencies.

Vehicle and driver licensing fees include the state share of revenue received from licensing motor vehicles and drivers. This revenue source also includes fees for railroad regulation which are dedicated to multimodal programs (see Section 7). These fees provide approximately 8% of transportation revenues.

The **interest earned on invested funds and other miscellaneous collections** provides approximately 4% of transportation revenues. As referenced in Table 1 of Section 5-12, the cash balance of all funds for roads and bridges is expected to be $2,386.7 million at the beginning of FY 2027 and approximately $789.7 million by the end of FY 2031. Other miscellaneous collections include construction cost reimbursements from local governments and other states, proceeds from the sale of surplus property and fees associated with the Missouri logo-signing program.

The state **General Revenue and Budget Stabilization Funds** for the Governor's Transportation Cost Share Program, Governor's Focus on Bridges' debt service payments, Improve I-70 Project, Improve I-70 Project debt service payments, Forward 44 Effort, Forward 44 Effort debt service payments, General Assembly Designated and Funded Initiatives and multimodal programs (see Section 7) provide 10% of transportation revenue.

Bonding

While not a true revenue, **bonding** is a method of financing used by the MHTC to deliver needed transportation improvements. Statutory authority was established in May 2000 for the MHTC to begin borrowing money, now called senior lien bonds. The **senior**

DRAFT

lien bonds are limited to a total issuance of not more than $2.25 billion. The lien was closed after $907 million was issued from 2001 to 2004. The MHTC will issue no additional bonds under this lien. Bonding is not a source of funding; it is a method of financing. It is debt that must be repaid along with interest payments.

In November 2004, constitutional **Amendment 3** was approved by Missouri voters. Amendment 3 redirects motor vehicle sales tax to transportation. In accordance with this constitutional change, MoDOT borrowed money and dedicated the funds to the Smoother, Safer, Sooner program. The Amendment 3 revenues are used for principal and interest payments on Amendment 3 debt. MoDOT borrowed $2 billion, authorized by Amendment 3 in FYs 2006 to 2010.

In FY 2009, MoDOT borrowed $143 million for a portion of the new I-64, a design-build project in the St. Louis region. For the first time, MoDOT secured bonds primarily with federal funds rather than state funds. These bonds are called Federal Reimbursement or **Grant Anticipation Revenue Vehicle (GARVEE)** bonds. In FY 2010, MoDOT borrowed $100 million additional GARVEE bonds for the new Mississippi River Bridge project and $685 million for the Safe and Sound Bridge Improvement Program. The GARVEE principal and interest is scheduled to be repaid through FY 2033. MoDOT sold $928 million of GARVEE bonds.

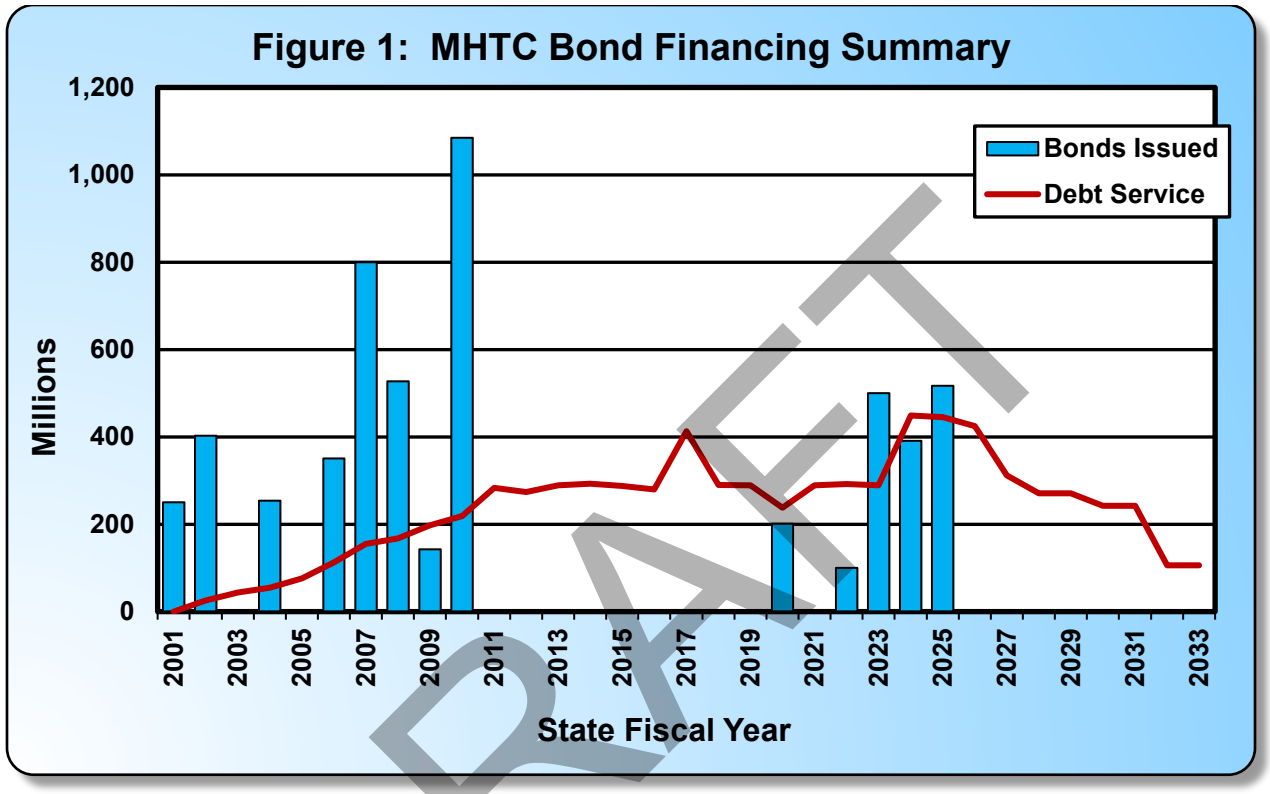

MoDOT borrowed $201 million in 2020 and another $100 million in 2022 for the Governor's Focus on Bridges Program. The bond proceeds were used to fund the costs to plan, design, construct, reconstruct, rehabilitate, and make significant repairs to 215 bridges on the state highway system. General Revenue Fund allocations of $45.5 million will be made available for seven years for debt service payments.

In 2023, MoDOT borrowed $500 million to fund the costs to plan, design, construct, and reconstruct roads and bridges on the state highway system. Amendment 3 revenues will be used for debt service payments.

MoDOT borrowed $391 million in 2024 and $517 million in 2026 for the Improve I-70 Project. The bond proceeds will be used to plan, design, construct, reconstruct, rehabilitate, and repair three lanes in each direction on approximately 200 miles of I-70, from Blue Springs to Wentzville. General Revenue Fund allocations of $136 million will be made available for debt service payments annually for 15 years.

See Figure 1 for a summary of the MHTC bond financing program. The summary includes calling $118 million of bonds in 2017, which provides interest savings of $29 million. The summary does not include future bond issuances.

DRAFT

DRAFT

Other

In 2020, MoDOT borrowed $62.5 million from the Missouri Transportation Finance Corporation (MTFC)/State Infrastructure Bank (SIB) to help fund the Rocheport Bridge/Mineola Hill INFRA Grant project. Along with federal and state revenues, **existing cash balances** are used each year to remain fiscally constrained. The existing cash balances are made up of federal and state revenue in the State Road Fund, State Highways and Transportation Department Fund, State Road Bond Fund, I-70 Project Funds and newly created Forward 44 Effort Funds. These funds are considered available for funding highway and bridge construction projects.

Expenditures

Missouri's Constitution dictates that a portion of state transportation revenues can be appropriated by the General Assembly to **other state agencies.** Appropriations are limited to (1) the Missouri State Highway Patrol (MSHP) to administer and enforce motor vehicle laws and (2) the Missouri Department of Revenue (DOR) to cover the cost of collection. DOR is entitled to the actual cost of collection not to exceed 3% of revenues collected. Approximately 91% of these expenditures are appropriated to the MSHP, and the remaining 9% is appropriated to the DOR. These costs are approximately 10% of transportation expenditures.

The state constitution also dictates that **debt service**, which is principal and interest payments on any outstanding state road bonds, must be paid prior to funding MoDOT operations and STIP costs. MoDOT borrowed $3.8 billion during FYs 2001 to 2010. In FY 2020, MoDOT borrowed $201 million and the remaining $100 million in FY 2022 for the Governor's Focus on Bridges Program. The bond proceeds were used to fund the costs to plan, design, construct, reconstruct, rehabilitate, and make significant repairs to 215 bridges on the state highway system. Debt service for the Focus on Bridges Program will be $45.5 million annually for seven years. Funding for the debt service payments will be provided by the General Revenue Fund. In FY 2023, MoDOT borrowed $500 million to fund the costs to plan, design, construct, and reconstruct roads and bridges on the state highway system. Amendment 3 revenues will be used for debt service payments. MoDOT borrowed $391 in state year 2024 and $517.3 million in state year 2026 for the Improve I-70 Project. The bond proceeds will be used to plan, design, construct, reconstruct, rehabilitate and repair three lanes in each direction on approximately 200 miles of I-70 from Blue Springs to Wentzville. Debt service for the Improve I-70 Project will be $136 million annually for 15 years. Also included in the total debt service are annual payments of $9.2 million starting in FY 2024 for the Missouri Transportation Finance Corporation (MTFC)/State Infrastructure Bank (SIB) loan to help fund the Rocheport Bridge/Mineola Hill INFRA Grant project. These costs are approximately 11% of transportation expenditures. See Figure 1, Section 5-4 for a summary of the MHTC bond financing program.

Administration includes activities such as audits and investigations, financial services, human resources, communications, governmental relations and legal services. The dollars associated with administering self-insurance plans and contributions to retiree medical plans are included in this disbursement category. Administration is approximately 1% of transportation expenditures.

Safety and Operations include maintenance, traffic, highway safety, and motor carrier services. Maintenance and traffic costs (approximately 92% of safety and operations costs) include funding for activities such as snow removal, signing, striping, litter control, mowing, maintaining roadsides and rest areas, completing routine road and bridge repairs, repairing guardrail and median guard cable, and traffic signal operations. The Highway Safety and Traffic Division (approximately 7%of safety and operations costs) implements programs addressing behavioral traffic safety issues. Emphasis areas include high-risk drivers, serious crash types and vulnerable roadway users. Safety strategies include enforcement (manpower, training, and equipment), education (promotional

DRAFT

materials, campaigns, and educational/awareness programs) and engineering (data collection/evaluation and high accident location assessments). Division staff work with safety advocates statewide to implement the Motor Carrier Safety Assistance Plan and Missouri's Strategic Highway Safety Plan to reduce traffic crashes, prevent serious injuries and save lives. This category includes the Highway Safety Program Motor Carrier Safety Assistance Program and Motorcycle Safety Trust Fund. The Motor Carrier Services Division (approximately 1% of safety and operations costs) is the one-stop shop for commercial vehicle licensing and permits and works with commercial vehicle safety and compliance. Commercial vehicles include trucks, tractor-trailers, buses, limousines and other vehicles that transport property, passengers, or hazardous materials. Safety and operations costs are approximately 15% of transportation expenditures.

MoDOT's continued investment in the **fleet, facilities, and information systems** infrastructure is necessary to support the safety and operations and program delivery. Annual costs to maintain MoDOT's fleet, facilities, and information systems are included in this disbursement category. These costs are approximately 3% of transportation expenditures.

The **Multimodal** Division works with cities, counties, and regional authorities to plan improvements for public transit, railroad, aviation, waterway facilities, and freight development in Missouri. These costs are approximately 2% of transportation expenditures. See Section 7 for further information on Multimodal Operations.

The **program delivery operating costs** are costs associated with implementing MoDOT's construction program which primarily includes in-house preliminary engineering, construction engineering and right of way incidentals as identified in Sections 3 and 4. These costs are approximately 5% of the transportation expenditures. All remaining revenues are made available for the **highway and bridge construction program**. This category encompasses payments to contractors for construction projects, right of way purchases, consultant engineering, utility relocations, and federal funding for local governments that passes through MoDOT's budget. Contractor payments encompass most of the construction program expenditures. Contractor payments, right of way purchases, consultant engineering, utility relocations, and federal pass-through payments are approximately 53% of the transportation expenditures.

Sections 5-1 through 5-7 provided an overview of all revenue and expenditures for MoDOT, which includes the Highway and Bridge Construction Program, Multimodal and Highway Safety. The remaining sections contain only projections of future revenue and expenditures for the Highway and Bridge Construction Program. Highway Safety programs not intended for road improvements are included in Section 6. Multimodal programs are included in Section 7.

Projections of future revenues and expenditures for the Highway and Bridge Construction Program as determined by cash flow analysis

DRAFT

The following provides a description of each revenue and expenditure category and how they are projected.

Revenue

- Federal Reimbursements
    - Annual obligation limitation is $1,358 million in 2027 through 2031. Obligation limitation is estimated to be 99% of apportionments. Obligation limitation is a restriction or "ceiling" on the amount of federal assistance that can be programmed to projects (obligated) during a specific period. It is a statutory budgetary control that does not affect the apportionment or allocation of funds. Rather, it controls the rate at which the funds may be used.

    - MoDOT estimates an average of $1,487 million of federal reimbursements in FY 2027 to FY 2031.

    - Additional details regarding federal funding starts on Section 5-16.

- Motor Fuel Taxes
    - Projections are based on historical data and gasoline and diesel consumption projections from the U.S. Energy Information Administration's Annual Energy Outlook 2025 (AEO 2025) for the region (region includes: ND, SD, NE KS, MO, IA, and MN).

    - In FY 2027, MoDOT estimates $859 million of motor fuel tax receipts which includes SB 262 receipts and then begins to decline in FY 2028 as it is expected that Missourians will turn to more fuel-efficient vehicles due to Corporate Average Fuel Economy (CAFÉ) standards that reduce energy consumption by increasing the fuel economy of vehicles. While good for the environment, these actions erode motor fuel tax revenues. The greater fuel economy of vehicles will offset increases in vehicle miles traveled.

- Motor Vehicle and Driver Licensing Fees
    - Projections are based on the four-year average of historical data and drivers' licensing renewal data from the Department of Revenue.

- In FY 2027, MoDOT estimates $326 million of motor vehicle and driver licensing fee receipts, growing to $339 million in FY 2031 (an annual growth rate of 1%). Motor Vehicle Sales Tax
    - Projections are based on historical data and real disposable income estimates from the AEO 2025.

DRAFT

- In FY 2027, MoDOT estimates $506 million of motor vehicle sales tax receipts, growing to $570 million in FY 2031 (an annual growth rate of 3%).

- Interest and Miscellaneous Revenue
  - Projections are based on a 3.12% earnings rate of interest revenue and historical receipts for miscellaneous revenue.

  - MoDOT estimates $184 million of interest earned on invested funds and other miscellaneous receipts in FY 2027 will decrease to $163 million in FY 2031. This category includes construction project cost reimbursements from local governments and other states.

- General Revenue and Budget Stabilization
  - Includes Governor's Transportation Cost Share Program, Governor's Focus on Bridges debt service payments, Improve I-70 Project, Improve I-70 Project debt service payments, Forward 44 Effort, Forward 44 Effort debt service payments, General Assembly Designated and Funded Initiatives and multimodal programs.

- Bond/Loan Proceeds
  - Bond proceeds to fund the costs to plan, design, construct, reconstruct, rehabilitate, and make significant repairs to 215 bridges on the state highway system for the Governor's Focus on Bridges Program. MoDOT borrowed $201 million in FY 2020 and the remaining $100 million in FY 2022. General Revenue Fund allocations of $45.5 million will be made available for debt service payments.

  - In FYs 2023, MoDOT borrowed $500 million to fund the costs to plan, design, construct, and reconstruct roads and bridges on the state highway system. Amendment 3 revenues will be used for debt service payments. Additional issuance of $654 million is planned in FY 2026, $580 million in FY 2028 and $508 million in FY 2030.

  - Bond proceeds totaling $1.4 billion for the Improve I-70 Project to plan, design, construct, reconstruct, rehabilitate, and repair three lanes in each direction on approximately 200 miles of I-70, from Blue Springs to Wentzville. MoDOT borrowed $391 million in FY 2024 and $517 million in FY 2026 and plans to borrow the remaining $492 million in FY 2028. General Revenue Fund allocations of $136 million will be made available annually for debt service payments.

  - Bond proceeds totaling $363.8 million for the Forward 44 Effort to plan, design, construct, reconstruct, rehabilitate, and repair I-44 from Missouri Route T to Missouri Route 68, from US Route 160 to Missouri Route 125, and from

DRAFT

I-49 to Missouri Route 249 rebuild pavement and improve the I-44/Route 13 interchange and I-44/I-49 interchange and other I-44 Tier 2 and Tier 3 projects on the Unfunded Needs List. MoDOT plans to borrow $363.8 million in FY 2027. General Revenue Fund allocations of $44 million will be made available annually for debt service payments.

DRAFT

Total Revenue

The stability and predictability of future transportation revenues is subject to many variables. However, using the U.S. Energy Information Administration's projections, Figure 2, Section 5-9 provides an estimate of Missouri's transportation revenues which includes bond and loan proceeds for FYs 2027 through 2031. As shown in Figure 2, estimated revenue of $5 billion in 2027 decreases to $3.5 billion in 2031. See Table 1, Section 5-12 for a breakdown of revenue.

Expenditures

- Other State Agencies
  - Projections are based on historical amounts with an annual growth rate assumption of 5.7%.
  - In FY 2027, MoDOT estimates $407 million of other state agency expenditures, growing to $508 million in FY 2031.
- Debt Service
  - Projections are based on the repayment of outstanding state road bonds and MTFC/SIB loan to help fund the Rocheport Bridge/Mineola Hill INFRA Grant project.
  - Amounts include the borrowing of $580 million in 2028 and $508 million in 2030 for Amendment 3.
  - Also included is $136 million of annual debt service payments for the Improve I-70 Project and $44 million for the Forward 44 Effort.
  - Amounts do not include capital or operating lease payments which are included in operating costs.
  - In FY 2027, MoDOT estimates $484 million of debt service expenditures, increasing to $499 million in FY 2029 and 2030.
- Operating costs (includes Administration; Safety and Operations; Fleet, Facilities and Information Systems; Multimodal; and Program Delivery Operating costs)
  - Projections are based on the FY 2026 budget and FY 2027 appropriations request.
  - The personal service and fringe benefits growth rate assumption includes the FY 2026 budget; a 2% market adjustment, continued implementation of the market plan, and tenure pay increases; additional employees in Safety & Operations to address customer service needs, and 2% annual cost of living adjustments starting in 2028. The fringe benefits include increases for all these personal service items.
  - The expense and equipment include the FY 2026 budget; $2.9 million for asphalt and concrete repairs on roadways, support tasks for the World Cup, roadside management activities, and safety measures; $3.0 million for inflation costs for fleet and 2.5% annual growth for expense and equipment inflation starting in 2028.

DRAFT

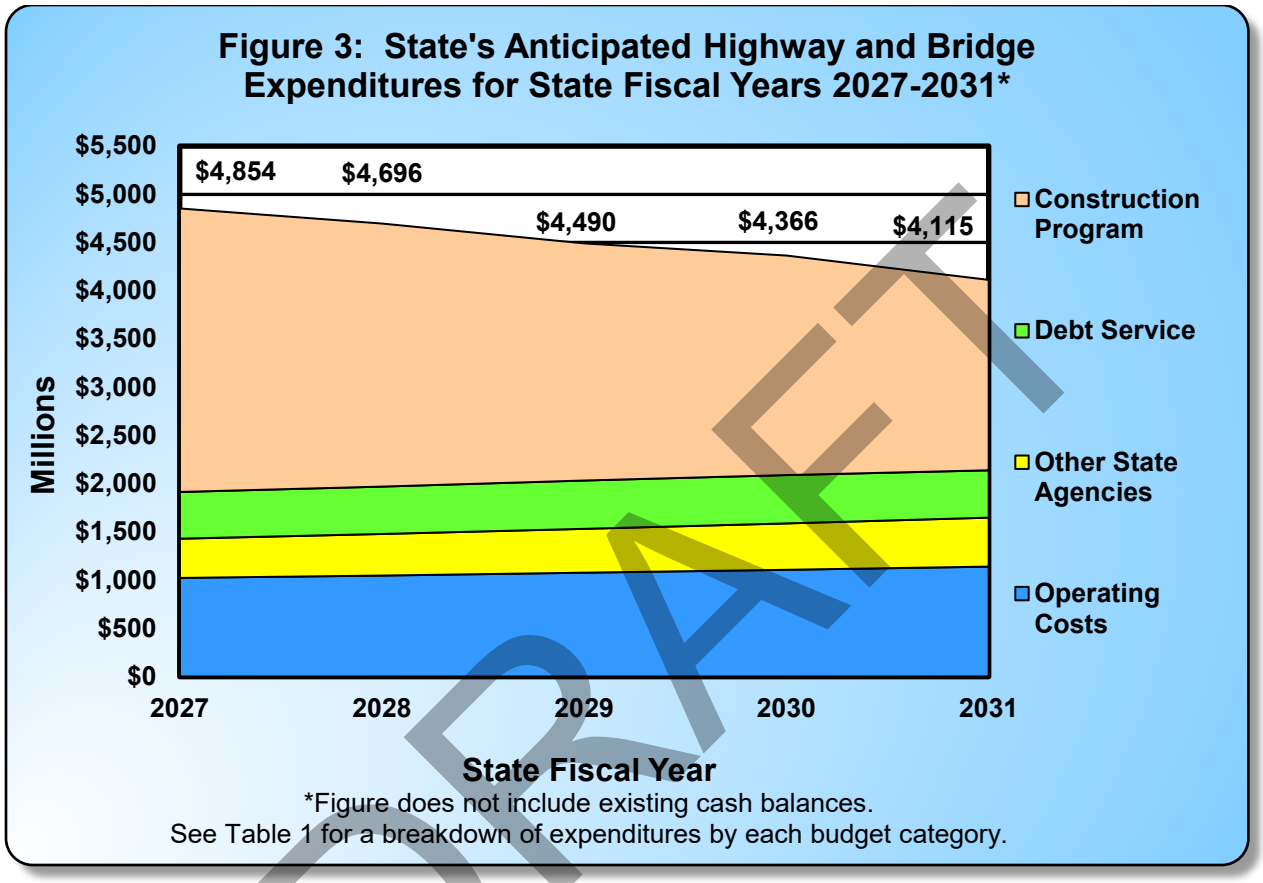

- In FY 2027, MoDOT estimates $1,024 million of operating expenditures, growing to $1,141 million in FY 2031 (an average annual growth rate of 2.5%).

- Construction Program Expenditures
  - Projections are based on a cash flow model that calculates payment schedules of MoDOT's active and future construction projects as provided in Section 4 of the STIP.

  - Contractor payments, right of way purchases, consultant engineering, accelerated program payments, suballocated federal funding for local governments and utility relocation costs are included.

  - In FY 2027, MoDOT estimates $3,141.6 million of disbursements that decrease to $2,203.1 million in FY 2031. See Table 1, Section 5-14 for further details on the construction program expenditures.

DRAFT

DRAFT

Total Expenditures

Consistent with future transportation revenues, future transportation expenditures are also subject to many variables. Using historical trends and various economic indicators, Figure 3 provides an estimate of Missouri's transportation expenditures for FYs 2027 through 2031. As shown in Figure 3, estimated transportation expenditures (including costs associated with state advance construction projects), will decline from $4.9 billion to $4.1 billion. See Sections 5-20 through 5-21 for further discussion on state advance construction projects.

The construction expenditures are derived from the cash flow analysis on the 2027-2031 Highway and Bridge Construction Schedule (Section 4). Assumptions for the construction program expenditures are in the next subsection. See Table 1 in Section 5-14 below for a breakdown of expenditures by each budget category.

Missouri's STIP includes a five-year plan of highway and bridge construction projects that is financially constrained for each FY in the State Road Fund. Table 1, Section 5-14 provides the cash flow analysis summary for the FY 2027-2031 STIP. An adequate cash flow balance is maintained as determined by projected monthly cash balances in any given year. MoDOT maintains at least a $250 million cash balance in the State Road Fund to manage revenue and expenditure fluctuations and respond to emergencies and natural disasters. The amounts only include revenues and disbursements dedicated to highways and bridges since Multimodal and a portion of Highway Safety funding cannot be included in the minimum cash balance.

Table 1: MoDOT Construction Cash Flow Projections for Roads and Bridges for FYs 2027-2031

Dollars in Millions

	Additions to Cash Balance								**Subtractions from Cash Balance**						
Fiscal Year	**Beginning Cash Balance**	Federal Reim-burse-ment*	Motor Fuel Tax Revenue	Motor Vehicle and Drivers Licensing Revenue	Motor Vehicle Sales Tax Revenue	Interest and Misc. DRAFT

* Includes regular federal funds, federal advance construction conversions and sub-allocated pass-through funds to local governments.

** Includes engineering, payments (see Section 4) and sub-allocated funds to local governments. See Table 2, Section 5-15 (blue line) for further analysis.

*** Includes Improve I-70 Project and Forward 44 Project Funds.

Construction Program

The anticipated expenditures for active construction projects awarded in prior FYs and the future construction projects programmed in the STIP, as provided in Section 4, are summarized in the following discussion. For example, a construction contract awarded today can result in contractor payments over multiple years as the project is completed. The future award amount assumptions and the contractor payment assumptions resulting from the cash flow analysis are summarized in Table 2. Other expenditures are included in the Highway and Bridge Construction Program in addition to awards. These other expenditures include utility relocation payments, right of way payments, MoDOT and consultant engineering, and accelerated program payments, as well as suballocated federal dollars that pass through MoDOT to local governments. The Total Construction Disbursements in Table 2 below (blue line) match the Construction Disbursements from Table 1 in Section 5-14 (blue column).

Table 2: STIP Construction Awards Versus Contractor Payments – How MoDOT Budgets for STIP Projects

	Award	FY27	FY28	FY29	FY30	FY31	Future FY
Prior FY Remaining Balance	$2,222.2	$1,491.0	$668.1	$46.5	$16.6	$0.0	$0.0
FY27	$2,738.6	$858.1	$907.0	$831.0	$86.5	$56.0	$0.0
FY28	$2,181.3	$0.0	$792.07	$762.4	$597.2	$29.0	$0.0
FY29	$1,526.0	$0.0	$0.0	$551.0	$525.0	$450.0	$0.0
FY30	$1,410.0	$0.0	$0.0	$0.0	$493.5	$493.5	$423.0
FY31	$1,410.0	$0.0	$0.0	$0.0	$0.0	$493.5	$916.5
Contractor Payments:		$2,349.1	$2,367.8	$2,190.9	$1,718.8	$1,522.0	
Utility Relocation Payments		$5.1	$5.1	$5.1	$5.1	$5.1	
Right of Way Payments		$30.0	$30.0	$30.0	$30.0	$30.0	
MoDOT and Consultant Engineering		$313.0	$317.9	$324.1	$330.5	$337.3	
Transportation Cost Share – Local Pass-Through		$31.8	$4.2	$0.0	$0.0	$0.0	
Federal Pass-Through*		$279.9	$250.2	$235.7	$235.7	$235.7	
Payments**		$0.0	$0.0	$0.0	$0.0	$0.0	
Total Construction Disbursements		$3,141.6	$2,933.8	$2,672.4	$2,497.8	$2,203.1	

* Federal transportation dollars paid directly to local public agencies.

** Payments include dollars to be paid back for accelerating a project or payments to others. Payments do not include GARVEE debt service payments.

DRAFT

Table 3 summarizes the total available funding for the Highway and Bridge Construction Program for FYs 2027-2031 based on cash flow projections. These amounts do not include sub-allocated federal funds as they are administered by local governments.

Table 3: Highway and Bridge Construction Funding Summary

Fiscal year	2027	2028	2029	2030	2031	Total
Available for Construction	$1,500.0	$1,500.0	$1,500.0	$1,410.0	$1,410.0	$7,320.0
Available for Construction – I-70 project	$955.5	$509.8	$0.0	$0.0	$0.0	$1,465.3
Available for Construction – I-44 project	$282.3	$141.2	$0.0	$0.0	$0.0	$423.5
Available for Construction - GA projects	$0.8	$30.3	$26.0	$0.0	$0.0	$57.1
Available for Right of Way & Utilities	$35.1	$35.1	$35.1	$35.1	$35.1	$175.5
Available for Payments	$44.7	$69.5	$69.5	$69.5	$69.5	$322.7
Available for Engineering	$313.0	$317.9	$324.1	$330.5	$337.3	$1,622.8
Total Available	**$3,131.4**	**$2,603.8**	**$1,954.7**	**$1,845.1**	**$1,851.9**	**$11,386.9**

DRAFT

Table 4 summarizes the programmed levels for FYs 2027-2031. FYs 2030 and 2031 are intentionally under programmed compared to the available amounts to accommodate unforeseen changes. If the cumulative construction amount is more than the cumulative amount programmed after the last letting of FY 2027, MoDOT will delay SFY 2027 projects to outer years of the STIP and /or utilize the MoDOT available cash balance (demonstrated on Table 1, Section 5-14) funding to ensure fiscal constraint.

Table 4: Highway and Bridge Construction Program Summary

Fiscal year	2027	2028	2029	2030	2031	Total
Programmed for Construction	$1,494.0	$1,424.4	$1,350.1	$796.6	$600.6	$5,665.6
Programmed for Construction – I-70	$1,268.5	$0.0	$0.0	$0.0	$0.0	$1,268.5
Programmed for Construction – I-44	$310.8	$50.0	$0.0	$0.0	$0.0	$360.8
Programmed for Construction – 2025 GA projects	$29.6	$0.0	$0.0	$0.0	$0.0	$29.6
Programmed for Right of Way & Utilities	$25.0	$21.6	$8.7	$4.9	$0.0	$60.2
Programmed for Right of Way & Utilities – I-70/I-44/GA Projects	$9.9	$0.0	$0.0	$0.0	$0.0	$9.9
Programmed for Payments	$53.1	$53.1	$53.1	$53.1	$43.8	$56.2
Programmed for Engineering	$295.1	$209.5	$158.9	$87.6	$67.5	$818.6
Programmed for Engineering – I-70/I-44/GA Projects	$58.3	$5.7	$1.0	$1.2	$0.8	$67.0
Total Programmed	**$3,544.3**	**$1,764.3**	**$1,571.8**	**$943.4**	**$722.0**	**$8,545.8**

DRAFT

Funding Distribution

MHTC approved a funding distribution method in January 2003. It was developed with extensive public involvement and is consistent with MoDOT's Mission, Values and Tangible Results. Various modifications were approved in 2004, 2006, 2011, 2012, 2016, 2017, 2018, 2019, 2021, 2022, and 2024.

The following steps outline the distribution of funds for the Highway and Bridge Construction Program:

Of the total funds available for awards, right of way, utilities, payments, and engineering, including federally earmarked funds:

Step 1: Deduct federally sub-allocated pass-through funds designated for specific purposes (amount varies). This includes the following: the Off-System Bridge Replacement and Rehabilitation Program for county bridges, the Surface Transportation Block Grant Program for large city transportation improvements, the Congestion Mitigation and Air Quality Program for air quality improvements in the St. Louis and Kansas City regions, the Carbon Reduction Program for projects to reduce emissions, the Transportation Alternatives Program for regional improvements and the Recreational Trails Program. Additional information about these programs may be found in Section 6.

Step 2: Deduct state and federal funding for other transportation modes (aviation, railways, transit and waterways) (amount varies). This funding cannot be used for roads and bridges.

Step 3: Deduct the repayment of borrowed funds for projects accelerated through bond financing (amount varies). Excludes GARVEE bonds.

Step 4: Deduct engineering budget.

Step 5: Deduct funding for specific funding sources (amount varies). This includes categories such as Statewide Transportation Alternatives funds, Open Container safety funds, and other uniquely distributed funds.

Step 6: Deduct funding for the Cost Share Program (amount varies). Deduct $45 million in 2027 and $30 million for 2028 and each year thereafter.

Step 7: Deduct funding contributed by partner agencies (amount varies). These are funds dedicated to specific projects such as a city's portion of a cost share or cost participation project.

Step 8: Deduct funding for project savings and adjustments (amount varies). Savings or over-runs are credited or debited to specific districts or programs. Adjustments for certain types of planning studies are debited from specific districts.

Step 9: Deduct $25 million per year for an Asset Management Deficit Program.

DRAFT

Of the remaining funds available for road and bridge improvements:

Step 1: FY 2026 and 2027, allocate $58 million for Safety Projects. Distribute $27 million based on a three-year average of the number of fatalities and serious injuries on the state highway system. Allocate $31 million for statewide safety initiatives. Beginning in FY 2028, distribute all available Highway Safety Improvement Program (HSIP) funds to the districts, less any statewide initiatives, for safety projects based on a three-year average of the number of fatalities and serious injuries on the state highway system.

Step 2: Allocate funds to asset management. The asset management allocation amount is based on needs identified in MoDOT's Asset Management Plan and will be reviewed and updated, if necessary, annually. These amounts will include inflation consistent with MoDOT's Asset Management Plan. The allocation is distributed as follows:

- Major Bridges (bridges 1,000 feet or greater in length)
- Asset Management – Remaining asset management total distributed based on formulas that average:
    - Percent of total Vehicles Miles Traveled (VMT) on the National Highway Safety and remaining arterials.
    - Percent of square feet of typical state bridge deck (bridges less than 1,000 feet in length) on the total state system.
    - Percent of total lane miles of National Highway System and remaining arterials.

Step 3: Allocate remaining funds to system improvements. Funds must be first used to meet asset management goals, and then remaining funds may be used for other priorities. Distribution is based on the average of:

- Percent of total population.
- Percent of total employment.
- Percent of total VMT on the National Highway System and remaining arterials.

Federal Funding

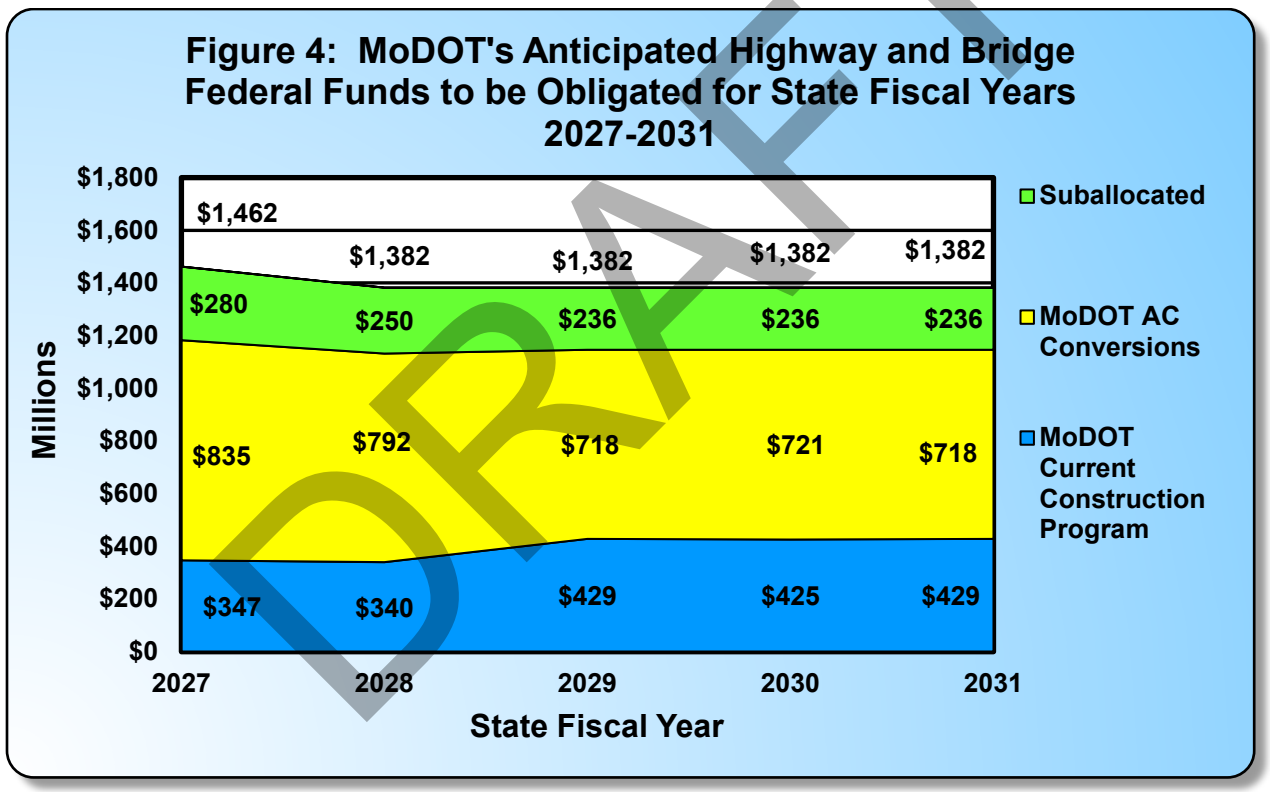

On November 15, 2021, the President signed into law the IIJA, which authorizes the federal surface transportation programs for highways, highway safety, transit and rail for the five-year period from 2022 through 2026. The IIJA is funded with receipts into the Highway Trust Fund, transfers from the General Fund and additional funding offsets.

The IIJA is five-year legislation to improve the nation's surface transportation infrastructure, including our roads, bridges, transit systems, and rail transportation network. The bill reforms and strengthens transportation programs, refocuses on national priorities, provides long-term certainty and more flexibility for states and local governments, streamlines project approval processes, and maintains a strong commitment to safety.

Missouri's annual apportionments are estimated to increase 26% compared to the last year of the FAST Act.

DRAFT

MoDOT's forecasted federal revenue is based on anticipated annual obligation limitation, which is the annual funding made available through the appropriations bill rather than the funding authorized in the surface transportation act. Federal funding for the 2027-2031 STIP will be obligated for the following: (1) sub-allocated funding that flows through MoDOT to local governments, (2) converting advance construction projects and (3) the current construction program. First, sub-allocated federal funds will pass through MoDOT to local governments. Second, MoDOT will convert advance construction projects to regular federal funds (see Section 520 through 5-21 for further information on advance construction). Lastly, any remaining federal funding will be available for the current construction program. See Figure 4 for federal obligation authority assumptions used for the 2027-2031 STIP.

DRAFT

Advance Construction (AC)

MoDOT uses a federal funding tool called Advance Construction (AC) to maximize the receipt of federal funds and provide greater flexibility/efficiency in matching federal aid categories to individual projects. AC is an innovative financing technique which allows states to initiate a project using non-federal funds while preserving eligibility for future federal aid. Eligibility means FHWA has determined the project qualifies for federal aid; however, no present or future federal aid is committed to the project. States may convert the project to regular federal aid provided it is available for the project. AC does not provide additional federal funding but simply changes the timing of receipts by allowing states to construct projects with state or local money and see federal aid reimbursement in the future.

MoDOT began using AC in 1992 and will continue to use it in future years. MoDOT generally utilizes AC for the National Highway Performance Program (NHPP) and Surface Transportation Block Grant Program (STBG) projects or when sufficient obligation limitation is not available.

MoDOT anticipates sufficient revenue exists to cover new AC projects, as shown in Table 1, Section 5-14. Funding sources include existing cash balances, state motor fuel, motor vehicle sales tax, motor vehicle licensing and fees revenue, federal reimbursement (including conversion of AC), interest and miscellaneous revenue as shown in Figure 2, Section 5-10.

Table 5, Section 5-21, provides MoDOT's AC forecast, which shows the projected balance at the end of each FY. Generally, state funds pay for new AC project expenditures until federal aid is available. Once federal aid is available, the projects are converted to federal funds and previous state expenditures are reimbursed. The oldest projects are converted first, if possible, to maximize federal aid reimbursement. Which projects are converted also depends on what federal funds are made available. The AC balance is driven by the relationship between available federal funds and the construction program. For example, if available federal funds are greater than the size of the construction program, the AC balance will decrease. The amounts in Table 5 are based on MoDOT's AC forecast. Also included in Table 5 are AC conversions of projects from prior STIPs. The amounts are subject to change based on future federal apportionment amounts and categories.

DRAFT

Table 5: MoDOT's Advance Construction Forecast Estimates

Fiscal year	2027	2028	2029	2030	2031
Beginning AC Balance*	$1,253	$1,454	$1,707	$2,046	$2,309
Plus: New AC Projects (incl. Unprogrammed)**	$1,037	$1,044	$1,057	$985	$985
AC Subtotal	$2,290	$2,498	$2,764	$3,031	$3,295
Less: AC Conversions (prior STIP projects)	$835	$0	$0	$0	$0
Less: AC Conversions (incl. Unprogrammed)**	$0	$792	$718	$721	$718
Estimated Ending AC Balance	$1,454	$1,707	$2,046	$2,309	$2,577

* Estimated Beginning AC Balance

** Additional projects will be programmed in outer years of the STIP.

This STIP does not contain a listing of partial AC projects, as previous STIPs have. Projects will be wholly federally funded, AC, or state funded. The timing on the distribution of obligation limitation and August redistribution and the availability of federal funding categories may impact projects programmed as AC-State and Federal Program funds at the time of federal authorization. MoDOT anticipates sufficient revenues exist to cover these differences at the time of federal authorization, as shown in Table 1, Section 5-14. Funding sources include existing cash balances, state motor fuel, motor vehicle sales tax and motor vehicle licensing and fees revenue, federal reimbursement (includes conversion of AC), interest and miscellaneous revenue as shown in Figure 2, Section 5-10.

DRAFT

Federal Funds Supplement - (dollars in millions)

Table 6 - Federal Funding Categories - Apportionment Levels[3]

	April 2026 Balances	Est. 2027 Apportionment	2027[1]	2028[2]	2029[2]	2030[2]	2031[2]
NHPP	769.4	687.6	1,457.1	1,076.2	921.7	697.0	718.3
STBG	163.6	244.8	408.4	648.9	890.5	1,132.8	1,377.6

PROTECT	1.6	9.2	2.4	0.1	0.1
Carbon Reduction	0.0	0.0	0.0	0.0	0.0
Total	1,196.7	1,176.0	1,015.4	685.0	426.7

[1]Includes federal category balances as of April 6, 2026.

[2]Includes previous years available balances (apportionment less program) plus current year estimated apportionment. Assumes 0% growth in FY 2027, 2028, 2029, 2030 and 2031.

[3]Apportionments are subject to annual obligation limitation. Obligation limitation (authority) is estimated to be 99 percent of apportionments. Obligation limitation is the annual funding made available through the appropriations bill. Section 5-8 of the STIP provides additional information regarding the obligation limitation available for programming. Table 6 reflects only MoDOT's share of apportionments and obligation limitation, Local Program funding has been removed. Table 7 provides a summary of the projects programmed in the STIP by federal funding category and is representative of the available obligation limitation and the available federal funding categories currently available in the STIP Information Management System (SIMS).

[4]Title 23 U.S.C. § 126, provides states the flexibility to transfer funds apportioned under section 104(b) (not to exceed 50 percent) to other apportioned programs if necessary.

[5]Fiscal constraint is managed with the use of advance construction. A large project (4I3458 - Section 4 KC District TMA) programmed in fiscal year 2028 will use available funds and advance construction. Figure 4 in STIP does not include August Redistribution.

DRAFT

Section 6 – Federal Programs

DRAFT

This page intentionally left blank

Introduction

On November 15, 2021, the President signed into law the Infrastructure Investment and Jobs Act (IIJA), which authorizes the federal surface transportation programs for highways, highway safety, transit, and rail for the five-year period from 2022 through 2026.

The previous transportation act, Fixing America's Surface Transportation (FAST) Act, expired on September 30, 2021. Many of the programs authorized under the FAST Act were included in IIJA, along with several new programs.

The "Special Programs" portion of this section includes some of the more unique federal programs.

The "Sub-Allocated Programs" portion of this section includes programs which provide federal transportation funds for cities and counties. Funding for some of these programs is subject to future MHTC action.

DRAFT

Special Programs

The following special programs were established, replaced, or continued in IIJA:

Disadvantaged Business Enterprise Program

IIJA provides funding for Disadvantaged Business Enterprise programs. Missouri receives approximately $300,000 annually for this program.

On-the-Job Training Program

IIJA provides funding for the on-the-job training activities. Missouri receives approximately $200,000 annually for this program.

Non-State System Bridge Inspection Program

Federal law mandates that bridges must be inspected on a periodic basis. Missouri uses approximately $2 million of Surface Transportation Block Grant funds annually for non-state system bridge inspections.

State System Bridge Inspection Program

Federal law mandates that bridges must be inspected on a periodic basis. Missouri uses approximately $4 million in performance of these inspections on the state system.

Preventive Maintenance Program

Missouri continues to work with FHWA to expand federal funding of the preventive maintenance efforts for qualifying work. These efforts will include both contract and in-house efforts which are deemed preventive maintenance or have other specific approval by FHWA. Missouri typically spends between $150 to $190 million per year on preventive maintenance activities. The estimated reimbursement for 2026 is approximately $93 million. Activities include striping, pavement repair, pavement surface treatments or surface seals, crack sealing, pipe culvert repair, bridge structural painting, bridge sealing, bridge deck repair, bridge flushing, intersection marking, sign replacement, highway lighting, slab lifting, and deep-pipe installations.

Eligible Operating Costs Program

Missouri is working with FHWA to expand federal reimbursement to eligible operating expenses of the state's transportation system. Certain components of the system require ongoing operating costs to provide continuous operation. Missouri typically spends between $5 and $10 million per year on operating costs related to traffic signals, highway lighting, and ITS. Operating costs include utilities, labor, administrative costs, and system maintenance costs.

Prioritization of Projects to Improve Freight Movement Program

Efficient movement of freight is critical to the economy, jobs, and quality of life in Missouri. Freight movement is completely dependent on the reliability, condition, and safety of the transportation system. IIJA continued the National Highway Freight Program, which provides funding for projects that improve the efficient movement of freight. These projects implement the strategies identified in the Missouri Freight Plan. Activities include replacement of load-posted bridges, technology to improve the flow of freight, truck parking facilities, and geometric improvements to interchanges and ramps. The projects are included in the STIP and also identified in the Missouri State Freight and Rail Plan's Freight Investment Plan (2022 State Freight and Rail Plan Documents | Missouri Department of Transportation). The current update of the Missouri State Freight and Rail Plan may impact funding new projects under the existing Freight Investment Plan.

DRAFT

Open Container and Repeat Offender Penalty Transfer

Section 154 (Open Container) and Section 164 (Repeat Offender) penalty transfer funds are used to address system-wide safety initiatives. Funding from these programs has allowed Missouri to implement systemic safety treatments, such as median guard cable which significantly reduced cross-median fatalities. This funding source, approximately $49 million, will continue to be focused on reducing severe crashes by deploying strategies identified in Missouri's Strategic Highway Safety Plan (Show-Me Zero Plan.pdf).

Better Utilizing Investments to Leverage Development (BUILD) Program

The BUILD Program provides dedicated, discretionary federal funding to invest in road, rail, transit, and port projects that promise to achieve national objectives. Previously known as the Rebuilding American Infrastructure with Sustainability and Equity (RAISE) and Transportation Investment Generating Economic Recovery (TIGER) discretionary grants, Congress has dedicated nearly $14.3 billion for 15 rounds of National Infrastructure Investments to fund projects that have a significant local or regional impact (BUILD Discretionary Grants - Infrastructure - FHWA Freight Management and Operations).

Infrastructure for Rebuilding America (INFRA) Grant Program

The INFRA Program provides dedicated, discretionary federal funding for projects that address critical issues facing our nation's highways and bridges. INFRA advances a pre-existing grant program established in the FAST Act of 2015. It utilizes updated criteria to evaluate projects to align them with national and regional economic vitality goals and to leverage additional non-federal funding.

Additionally, the program promotes innovative safety solutions that will improve our transportation system. Grants are awarded by the USDOT through a competitive application process (The INFRA Grant Program | US Department of Transportation).

Safe Streets and Roads for All (SS4A) Grant Program

IIJA established the new SS4A discretionary program with $5 billion in appropriated funds over five years (2022-2026). The SS4A program funds regional, local, and Tribal initiatives through grants to prevent roadway deaths and serious injuries.

The SS4A Program supports the Secretary of Transportation's National Roadway Safety Strategy and MoDOT's goal of zero deaths and serious injuries on our nation's roadways (Safe Streets and Roads for All (SS4A) Grant Program | US Department of Transportation).

DRAFT

Bridge Investment Program

The Bridge Investment Program provides dedicated, discretionary federal funds to invest in improving bridge (and culvert) conditions, safety, efficiency, and reliability (BIP - Funding Programs - Management and Preservation - Bridges & Structures - Federal Highway Administration).

Promoting Resilient Operations for Transformative, Efficient and Cost-Saving Transportation (PROTECT) Program

The PROTECT Program provides dedicated, formula, and discretionary federal funding to invest in planning, resilience improvements, community resilience and evacuation routes, and at-risk coastal infrastructure projects (Infrastructure Investment and Jobs Act - Promoting Resilient Operations for Transformative, Efficient, and Cost-Saving Transportation (PROTECT) Formula Program Fact Sheet | Federal Highway Administration).

Charging and Fueling Infrastructure Program

The Charging and Fueling Infrastructure Program provides dedicated, discretionary federal funds to invest in deploying electric vehicle (EV) charging and hydrogen/propane/natural gas fueling infrastructure along designated alternative fuel corridors and in communities (Federal Funding Programs | US Department of Transportation).

National Electric Vehicle Program

The National Electric Vehicle Program provides dedicated, formula and discretionary federal funds to invest in deploying electric vehicle (EV) charging infrastructure and establish an interconnected network to facilitate data collection, access, and reliability (Infrastructure Investment and Jobs Act - National Electric Vehicle Infrastructure (NEVI) Formula Program Fact Sheet | Federal Highway Administration).

Congestion Relief Program

The Congestion Relief Program provides dedicated, discretionary federal funds to invest in advancing innovative, integrated, and multimodal solutions to reduce congestion and the related economic and environmental costs in the most congested metropolitan areas with an urbanized population of over one million (Infrastructure Investment and Jobs Act - Congestion Relief Program Fact Sheet | Federal Highway Administration).

DRAFT

Reconnecting Communities Pilot Grant Program

The Reconnecting Communities Pilot Grant Program provides funding for two types of grants. Planning Grants fund the study of removing, retrofitting, or mitigating an existing facility to restore community; conduct public engagement, and other transportation planning activities. Capital Construction Grants are to carry out a project to remove, retrofit, mitigate, or replace an existing eligible facility with a new facility that reconnects communities (Reconnecting Communities Pilot (RCP) Grant Program | US Department of Transportation).

Advanced Transportation and Congestion Management Technologies Deployment (ATCMTD) Program

The ATCMTD Program provides competitive grants to deploy, install, and operate advanced transportation technologies to improve safety, mobility, efficiency, system performance, intermodal connectivity, and infrastructure return on investment (Office Of Research, Development, And Technology At The Turner-Fairbank Highway Research Center | FHWA).

Strengthening Mobility and Revolutionizing Transportation (SMART) Program

The SMART Program was established to provide grants to eligible public sector agencies to conduct demonstration projects focused on advanced smart community technologies and systems to improve efficiency and safety (SMART Grants Program | US Department of Transportation).

Rural Surface Transportation Grants Program

The Rural Surface Transportation Grants Program provides dedicated, discretionary federal funds to invest in improving and expanding the surface transportation infrastructure in rural areas to increase connectivity, improve the safety and reliability of the movement of people and freight, generate regional economic growth, and improve quality of life (The Rural Surface Transportation Grant Program | US Department of Transportation).

National Infrastructure Project Assistance Program

The National Infrastructure Project Assistance Program provides dedicated, discretionary federal funds to invest in single-year or multi-year grants to projects generating national or regional economic, mobility, or safety benefits (The Mega Grant Program | US Department of Transportation).

DRAFT

Reduction of Truck Emissions at Port Facilities Program

The Reduction of Truck Emissions at Port Facilities Program provides dedicated, discretionary federal funds to invest in reducing truck idling and emissions at ports, including through the advancement of port electrification (Infrastructure Investment and Jobs Act - Apportionment Fact Sheet | Federal Highway Administration).

Wildlife Crossings Pilot Program

The Wildlife Crossings Pilot Program provides dedicated, discretionary federal funds to invest in reducing the number of wildlife-vehicle collisions and improving habitat connectivity (Wildlife Crossings Program | FHWA).

Roadside Pollinator Program

The Pollinator-Friendly Practices on Roadsides and Highway Rights of Way, also referred to as the Roadside Pollinator Program, is an annual competitive grant program that awards grants to eligible entities to carry out activities that benefit pollinators on roadsides and highway rights of way, including planting and seeding of native, locally appropriate grasses and wildflowers, as well as milkweed (Title 23 United States Code 332). The intent of the program is to fund the implementation or improvement of existing pollinator-friendly practices, plans and projects, as well as encourage the use of best management practices for improving, restoring, creating, or protecting pollinator habitat on roadsides and rights of way. Eligible applicants for Roadside Pollinator Program discretionary grants are State Departments of Transportation, Indian Tribes, and Federal Land Management Agencies. An eligible entity that receives funding shall use the funds for the implementation, improvement, or further development of a pollinator-friendly practices plan. A qualifying plan must describe pollinator-friendly practices that have been implemented or will be implemented. The pollinator-friendly practices should seek to create, enhance, restore, sustain, or maintain pollinator species and pollinator habitat on roadsides and highway rights of way. Eligible activities and practices included in the statutory language are listed under 23 USC 332(d). Additional information about the Roadside Pollinator Program may be found at RPP | Pollinators | Ecosystem and Vegetation System Management | Environmental Review Toolkit | FHWA.

Highway Construction Training Program (HCTP)

The HCTP is a program funded by the Bipartisan Infrastructure Law and aims to address critical workforce shortages in highway construction, maintenance, and operations. It provides training and placement opportunities, particularly for underrepresented groups, to prepare individuals for entry-level positions in the industry. The program's goal is to increase the capacity and capability of the highway construction workforce (FHWA - Roads To Your Future: Highway Construction Training Program FY24 Grant Awards).

DRAFT

Transportation Infrastructure Finance and Innovations Act (TIFIA) Loan Program

The TIFIA Program provides federal credit assistance to nationally or regionally significant surface transportation projects, including highway, transit, and rail (TIFIA Program Overview | Build America).

Surface Transportation System Funding Alternative (STSFA) Program

The STSFA Program provides grant opportunities to states to demonstrate user-based alternative revenue mechanisms that utilize a user fee structure to maintain the long-term solvency of the Federal Highway Trust Fund (Surface Transportation System Funding Alternatives Program - FAST Act Fact Sheets - FHWA | Federal Highway Administration).

Accelerated Innovation Deployment (AID) Demonstration Program

The AID Demonstration Program provides funding as an incentive for eligible entities to accelerate the implementation and adoption of innovation in highway transportation projects (AID Demonstration | Federal Highway Administration).

State Transportation Innovation Council (STIC) Incentive Program

The STIC Incentive Program provides funding for initiatives that support or offset some of the costs of standardizing innovative practices in a state transportation agency. STIC Incentive funds may be used to develop guidance, standards, and specifications, implement process changes, organize peer exchange, or offset implementation costs (STIC Network | Federal Highway Administration).

Accelerating Market Readiness (AMR) Program

The AMR Program provides funding to spur the advancement of emerging transformative innovations that have potential to enhance roadway safety, shorten the project delivery process, and improve the performance of the transportation infrastructure. Funding is available for testing and field evaluations, pilot demonstration projects, and documentation and dissemination of performance results to widen the knowledge base on the innovations (Accelerated Market Readiness (AMR) Program | Federal Highway Administration).

Work Zone Data Exchange (WZDx) Program

The WZDx Program provides discretionary federal funds to invest in infrastructure that makes harmonized work zone data available for third party use. The intent is to make travel on public roads safer and more efficient through access to data on work zone activity (Work Zone Data Exchange (WZDx) | US Department of Transportation).

DRAFT

Repurposed Earmarks

Section 125 of the 2016, Section 422 of the 2017, Section 126 of the 2018, Section 125 of the 2019, Section 124 of the 2021 and Section 124 of the 2022 U.S. Department of Transportation Appropriations Acts authorized states to repurpose unobligated balances of certain eligible earmarks. MoDOT identified eight earmarks totaling $9.7 million in 2017, nine earmarks totaling $1.2 million in 2019, four earmarks totaling $2.1 million in 2021 and one earmark totaling $950,000 in 2022. MoDOT repurposed the eligible earmarks on Statewide Transportation Improvement Program (STIP) projects either already underway or included in the STIP and local projects. The list of eligible earmarks and corresponding projects can be found on MoDOT's web page at 2019 Repurposed Earmarks-STIP Section 6_1 and 2022 Repurposed Earmarks (1).pdf.

Community Project Funding/Congressionally Directed Spending (Earmarks)

The Consolidated Appropriations Act of 2022, 2023, and 2024 included General Funds for Community Project Funding/Congressionally Directed Spending projects. The projects and associated funding can be found at Congressionally Directed Spending - Special Funding - Federal-aid Programs and Special Funding - Federal Highway Administration.

Highway Infrastructure Program (HIP)

The HIP Program provides funding for activities eligible under Section 133(b) of Title 23, United States Code (U.S.C.). The Department of Transportation Appropriations Acts of 2018, 2019, 2020, and 2021 have set aside funds for this program, including sub-allocation to urbanized areas. In 2019, 2020, and 2021, the appropriation also included funding specifically for the Bridge Replacement and Rehabilitation Program. These specific funds were apportioned to the states based on total deck area of bridges classified as in poor condition in each qualifying state.

Coronavirus Response and Relief Supplemental Appropriations Act of 2021 (CRRSAA)

On December 27, 2020, the CRRSAA, which includes $900 billion in supplemental appropriations for COVID-19 relief, was signed into law. This funding includes $50 million nationally for Enhanced Mobility of Seniors and Individuals with Disabilities (Section 5310 formula grants). In Missouri, MoDOT will fully administer the Federal Transit Administration (FTA) Section 5310 Program in rural areas (populations less than 50,000) and in small, urbanized areas (Columbia, St. Joseph, Joplin, Jefferson City, Cape Girardeau, and Lee's Summit). CRRSAA Section 5310 funding is available for operation assistance at 100% federal share for agencies serving older adults and people with disabilities. The CRRSAA Section 5310 apportionment for Missouri small, urbanized areas is $141,054

DRAFT

and for Missouri rural areas is $307,545. St. Louis and Springfield FTA Section 5310 funds are $352,003 and $50,792 respectively. The Kansas City Section 5310 allocation of $237,773 will not be administered by MoDOT.

Coronavirus Response and Relief Supplemental Appropriations Act of 2021 (HIP-CRRSAA Funds)

On December 27, 2020, the CRRSAA was enacted into law. These funds are to be used for activities eligible under 23 U.S.C. 133(b) (Surface Transportation Block Grant (STBG) Program) and costs related to preventive maintenance, routine maintenance, operations, personnel including salaries of employees (including those employees who have been placed on administrative leave) or contractors, debt service payments, availability payments, and coverage for other revenue losses. The distribution for Missouri is $234.8 million with $206.3 million for any area of the state and $28.5 million for urbanized areas with a population over 200,000.

Coronavirus Response and Relief Supplemental Appropriation Act of 2021 (CRRSAA) – Aviation Funding

On December 27, 2020, the CRRSAA, which includes almost $2 billion in economic relief funds for eligible airports and concessions at those airports, was signed into law. MoDOT will administer $954,324 in CRRSAA funding for airports in the State Block Grant Program. These funds are available for costs to prevent, prepare for, and respond to the COVID-19 pandemic, including airport operating costs and debt services payments.

American Rescue Plan Act of 2021

The $1.9 trillion American Rescue Plan Act of 2021 was signed into law on March 11, 2021. The bill includes $30.5 billion for the transit industry. This bill delivers an estimated $250 million to Missouri transit providers. MoDOT-administered transit estimated funding for the following Rescue Plan Act programs:

Section 5311 Rural Transit Program	$9,058,625
Section 5311 Rural Technical Assistance Program	$152,411
Section 5311 Intercity Bus	$2,841,247
Section 5310 Small Urbanized Area Program	$141,056
Section 5310 Rural Program	$307,550
Section 5310 St. Louis Urbanized Area	$352,009
Section 5310 Springfield Urbanized Area	$50,792

DRAFT

American Rescue Plan Act of 2021 – Aviation Funding

The $1.9 trillion American Rescue Plan Act of 2021 was signed into law on March 11, 2021. The bill includes $8 billion for eligible airports. This bill delivers approximately $111 million to Missouri airports for costs to prevent, prepare for, and respond to the COVID-19 pandemic, including airport operating costs and debt service payments. MoDOT will administer $2,207,000 in airport rescue grants for airports in the State Block Grant Program.

American Rescue Plan Act of 2021 – State and Local Fiscal Recovery Funds

The $1.9 trillion American Rescue Plan Act of 2021 was signed into law on March 11, 2021. The bill established the Coronavirus State and Local Fiscal Recovery Funds (SLFRF). In 2024, the Missouri General Assembly through House Bill 2020 appropriated SLFRF for capital improvements for MoDOT to administer as follow:

Missouri Port Authority	$25,000,000
Missouri Transit Program	$6,000,000
New Madrid Port Authority	$5,000,000
Washington County Airport	$1,000,000
Buffalo Airport	$686,500
Kirkwood Amtrak Station	$2,500,000
Carrollton Amtrak Station	$1,000,000

DRAFT

Sub-Allocated Programs

Sub-allocated programs utilize transportation funds provided under the IIJA. These programs include Surface Transportation Block Grant Programs, Off-System Bridge, Bridge Formula, Congestion Mitigation and Air Quality, Transportation Alternatives, and Carbon Reduction. MoDOT administers these programs through its design, planning and programming, and financial services functions in the Jefferson City Central Office and seven district offices around the state. Projects under these programs are typically funded on an 80% federal / 20% local match basis with the Bridge Formula Program being 100% federal. A list of these projects can be found on MoDOT's website at LPA Funding and Program Information | Missouri Department of Transportation.

MoDOT has a Reasonable Progress Policy for all the sub-allocated programs. This policy ensures Missouri receives the maximum benefit for its federal transportation funds. The policy has two objectives: (1) ensure federal funds will be programmed for a project within one year of the funds being allocated by MoDOT, and (2) ensure once a project is programmed it will be constructed. Transportation Management Areas (TMAs) with a Reasonable Progress Policy in place are exempt from MoDOT's Reasonable Progress Policy.

Information on these programs and MoDOT's Reasonable Progress Policy can be found in the Local Public Agency Manual on MoDOT's website at LPA:136 Local Public Agency (LPA) Policy - Engineering Policy Guide.

Surface Transportation Block Grant (STBG) Program

Large Urban Program

The STBG Program funds projects such as pavement preservation, bridges, highway expansion, congestion mitigation, safety, environmental mitigation, transit, and pedestrian facilities. IIJA mandates that a portion of the STBG Program funds be spent in the TMAs, which are urbanized areas with populations greater than 200,000 (large cities).

There are four Metropolitan Planning Organizations (MPOs) that are responsible for carrying out metropolitan transportation planning in the four Missouri TMAs – Mid-America Regional Council (MARC) in the Kansas City area, East-West Gateway Council of Governments (EWG) in the St. Louis area, Ozarks Transportation Organization (OTO) in the Springfield area, and Northwest Arkansas Regional Planning Commission in the Fayetteville-Springdale-Rogers, Arkansas-Missouri area, a small part of which extends into McDonald County in southwest Missouri. Their allocations are distributed based on their population relative to the state.

The STBG Program has the most flexible funding allocation among the sub-allocated programs. Projects on roads functionally classified as local or rural minor collectors are not eligible for these funds. However, all bridge projects are eligible, regardless of their functional classification.

The MPOs identify regional transportation needs. They work in coordination with the state and local agencies to address the regional needs, to define the scope of projects, and to identify appropriate project sponsors. Any agency, state or local, who wants to sponsor a project submits an application to the MPO. Projects that MoDOT sponsors compete with all other applications for large urban funding using MPOs defined prioritization and project selection process.

DRAFT

The annual allocation for the Large Urban Program in Missouri is approximately $88 million. This figure includes the urban clusters (populations between 5,000 and 50,000) and small urbanized areas (populations between 50,000 and 200,000) within the Kansas City, St. Louis, and Southwest District boundaries.

Off-System Bridge Replacement and Rehabilitation (BRO) Program

This program funds the replacement or rehabilitation of poor condition bridges located on roads functionally classified as local or rural minor collectors. The state's Surface Transportation Block Grant Program (STBG) apportionment is used on off-system bridges and off-system bridge inspections. MHTC allocates STBG Program funds to the seven regions of this program.

The estimated annual allocation for the BRO Program in Missouri is $28.3 million. These funds are distributed to each region based on the ratio of poor condition deck area per county compared to the statewide total of poor condition deck area of locally owned bridges that are off-system. As part of the regional bridge program, $1.0 million is set aside for off-system bridge inspections and $2.0 million is set aside for Large Bridge and Emerging Needs to aid regions on an application basis for these more expensive projects and/or emerging needs. As part of a plan of corrective action with FHWA, $2.5 million will be set aside for work on a Load Rating Update Plan for the local bridges in Missouri. The balance available for projects will be $22.8 million which will be distributed to the seven regions.

Bridge Formula Program (BFP) – Off-System

The BFP, created in IIJA, funds the replacement, rehabilitation, preservation, protection, and construction of bridges on public roads. The bill requires 15%of funding be spent on off-system structures with the focus being on structures that are in poor condition. The definition for off-system is the same as the current BRO Program.

The estimated annual allocation for the off-system portion of BFP is approximately $29.7 million. These funds are distributed regionally based on the ratio of poor condition deck area per county compared to the statewide total of poor condition deck area of locally owned bridges that are off-system.

Congestion Mitigation and Air Quality (CMAQ) Improvement Program

Eligible projects for the CMAQ Improvement Program include alternative fuel vehicle research, signal coordination, transit services, intelligent transportation system, bike/pedestrian facilities, rideshare programs, programs to educate the public about air quality ozone issues, construction of high occupancy vehicle lanes and congestion management systems. IIJA mandates federal funds for this program be spent on projects that improve air quality in affected areas. Affected areas are defined as areas required by the Clean Air

DRAFT

Act to address air quality issues. MoDOT distributes funding to eligible areas for project selection. The Environmental Protection Agency (EPA) determines the geographical boundaries for this program.

The FHWA and EPA establish the CMAQ Improvement Program funding levels and eligible work types. The purpose of these funds is to reduce transportation-related emissions and improve air quality. A CMAQ guidance booklet is available at CMAQ - Air Quality - Environment - FHWA.

Missouri receives approximately $27.2 million annually. MHTC approved a funding distribution such that the estimated minimum guarantee of CMAQ funds to Missouri is distributed to EWG in the St. Louis area and MARC in the Kansas City area. The remaining funds (the total Missouri CMAQ funds less the estimated minimum guarantee) will be distributed to the areas not meeting federal air quality requirements (EWG - $24.4 million, MARC - $2.8 million).

Transportation Alternative Program (TAP)

Eligible projects for the TAP include the construction of facilities for bicycle and pedestrian activities, construction of infrastructure-related projects and systems that will provide safe routes for non-drivers, conversion and use of abandoned railroad corridors for trails for pedestrians, bicyclists, or other non-motorized transportation users, amongst others. The annual allocation for the TAP in Missouri is approximately $34.1 million.

Carbon Reduction Program (CRP)

The CRP funds projects that reduce transportation emissions. Eligible projects include the establishment and operation of traffic monitoring, management, and control facilities or programs, advanced transportation and congestion management technologies, and deployment of infrastructure-based intelligent transportation systems capital improvements.

Federal Lands Access Program (FLAP)

IIJA continues to allocate FLAP funds for projects on Federal Lands Access Transportation Facilities that are located on or adjacent to, or that provide access to federal lands. Eligible activities include the following:

- transportation planning, research, engineering, preventive maintenance, rehabilitation, restoration, [NEW] context-sensitive solutions, construction, and reconstruction of federal lands access transportation facilities located on or adjacent to, or that provide access to, federal land, and
    - adjacent vehicular parking areas, including interpretive panels in or adjacent to those areas;

DRAFT

    - acquisition of necessary scenic easements and scenic or historic sites;
    - provisions for pedestrians and bicycles;
    - environmental mitigation in or adjacent to federal land to improve public safety and reduce vehicle-caused wildlife mortality while maintaining habitat connectivity;
    - construction and reconstruction of roadside rest areas, including sanitary and water facilities;
    - contextual wayfinding markers;
    - landscaping;
    - cooperative mitigation of visual blight, including screening or removal;
    - other appropriate public road facilities, as determined by the Secretary;
- operation and maintenance of transit facilities;
- any transportation project eligible for assistance under title 23, United States Code, that is within or adjacent to, or that provides access to, federal land.

Federal lands access transportation facilities include public highways, roads, bridges, trails, or transit systems located on, adjacent to, or provide access to federal lands for which title or maintenance responsibility belongs to a state, county, town, township, Tribal, municipal, or local government.

The Missouri Division Office of the FHWA administers the FLAP program in Missouri in coordination with the FHWA Eastern Federal Lands Highway Division. The estimated allocation for Missouri for Federal Fiscal Year (FFY) 2027 through 2029 is $4.4 million.

The project lists for FYs 2027-2029, 2023-2026, 2020-2022, 2017-2020, 2015-2018 and 2013-2014 are available at Missouri Federal Lands Access Program | FHWA.

The full EFL TIP(s), as well as any associated amendments or mid-year updates, are incorporated in the Missouri STIP by reference (EFL Transportation Improvement Program | FHWA. Additional information about the FLAP may be found at Federal Lands Access Program (FLAP) | FHWA.

DRAFT

Safe Routes to School (SRTS) Program

The SRTS Program funds projects that enable and encourage children to walk and bicycle to school; makes bicycling and walking to school safer; and facilitates the planning, development, and implementation of projects and activities that will improve safety and reduce traffic, fuel consumption, and air pollution in the vicinity of schools.

Recreational Trails Program (RTP) – Department of Natural Resources (DNR)

The RTP is a federally funded assistance program authorized by the U.S. Congress under the IIJA. Its purpose is to help states provide and maintain recreational trails and trail-related facilities for both motorized and non-motorized recreational use. Examples of recreational trail uses include hiking, bicycling, in-line skating, equestrian use, boating, off-road motorcycling, all-terrain vehicle riding, four-wheel driving or using other off-road motorized vehicles.

The U.S. Department of Transportation, FHWA, oversees the RTP and has delegated the administration of the program to each state. In Missouri, the Governor has designated DNR as the agency responsible for administering the RTP.

DNR has a call for projects each year and distributes the funding in response to recreational trail needs within the state. The RTP grants are scored and ranked by an eight-member Missouri Trail Advisory Board which represents diverse trail interest groups. The RTP encourages trail enthusiasts to work together to provide a wide variety of recreational trail opportunities.

The FY 2023 Missouri grantees are shown in the tables on the following pages. The FY 2023 projects were amended to the STIP in March 2024.

For a grant application or to address questions regarding the RTP, call DNR's Missouri State Parks' Grants Management Section at (573) 751-0848.

DRAFT

Recreational Trails Program – FY 2024 Grant Recipients

Grant#	Project Sponsor and Scope of Work	Grant Awarded	Project Cost
2024-02	**Finger Lakes State Park Equipment Purchase** – Non-Motorized Trail Purchasing motorized trail and trailhead maintenance equipment for the offroad vehicle (OVR) trail system. Equipment includes a skid loader, hydra bucket, and a 5-in-1 attachment. *MSP – Finger Lakes*	$79,200	$19,800
2024-03	**VTRA Equipment Storage, Event Sign-Up Container, Herbicides, Trail Maintenance Equipment Upgrades –** Motorized Trail Purchase of herbicides, 40-foot shipping container for storage, 20-foot shipping container for even sign-up registration. 66-inch root grapple bucket attachment, and mini track skid steer. *Midwest Trail Riders Association*	$54,014	$13,503
2024-04	**Flower City Park Multi-Use Trail Phase 1** - Non-Motorized Trail Construction of 2800 linear feet, 9 feet wide, ADA concrete trail. The trail will connect to the existing parking lot at the southwest corner. Installation of 3 culverts and planning of 40 trees along the trail. *City of Palmyra*	$151,360	$250,000

DRAFT

2024-05	**City of Perryville Viola Blechle Park Paved Trail** – Non-Motorized Trail Construction of 0.33 mile, 10 feet wide, concrete trail. The trail will connect to a soccer complex with other trails. Installation of 2 benches along the trail. *City of Smithville*	$250,000	$149,900
2024-06	**Owl Creek Park Project, Phase II** – Non-Motorized Trail Construction of 4,100 linear feet, 10 feet wide, 6-inch ADA/ABA asphalt multi-use trail connector. Installation of amenities includes 9 benches, 9 trash cans, trail markers, and signage. *St. Francois County*	$250,000	$367,896
2024-08	**City of Joplin Trail Amenities** – Non-Motorized Trail Construction of 80 4 x 6.5 concrete pads, with installation of 80 6-foot ADA benches. Installation of other amenities include 48 bicycle racks, 8 bicycle repair stations, 21 trail signs. *City of Joplin*	$147,210	$98,140

DRAFT

Access and Mobility Partnership Grant

The Federal Transit Administration Innovative Coordinated Access and Mobility (FTA-ICAM) Discretionary Grant is authorized under Section 3006(b) of the FAST Act (Pub. L. 114-94, December 4, 2015). FTA's Innovative Coordinated Access and Mobility Grants | FTA focus on transportation and technology solutions to reach medical appointments, access healthy food, and improve paratransit services. The program emphasizes better coordination between health care providers and transit agencies, as well as technology improvements such as mobility-on-demand shared transportation services and smart phone apps for booking services. The FTA selected the Missouri Rural Health Care Association (MRHA) $906,374 project proposal to receive $725,387 in federal funds for the project. MRHA will provide the $181,347 local match. This grant will be administered directly by the FTA.

Federal Lands Transportation Program (FLTP)

The FLTP is a subcomponent of the Federal Lands Highway Program, authorized under IIJA to improve the transportation infrastructure owned and maintained by the following Federal Lands Management Agencies (FLMA): National Park Service (NPS), U.S. Fish and Wildlife Service (FWS), USDA Forest Service (Forest Service), Bureau of Land Management (BLM), U.S. Army Corps of Engineers (USACE), Bureau of Reclamation and independent federal agencies with land and natural resource management responsibilities.

The FLTP provides funds for projects on federal lands and transportation facilities. Eligible activities include the following:

- Program administration, transportation planning, research, engineering, preventive maintenance, rehabilitation, restoration, construction, and reconstruction of federal lands transportation facilities and
    - adjacent vehicular parking areas;
    - acquisition of necessary scenic easements and scenic or historic sites;
    - provisions for pedestrians and bicycles;
    - environmental mitigation in or adjacent to federal land open to the public;
        - to improve public safety and reduce vehicle-caused wildlife mortality while maintaining habitat connectivity;
        - to mitigate the damage to wildlife, aquatic organism passage, habitat and ecosystem connectivity, including the costs of constructing, maintaining, replacing, or removing culverts and bridges, as appropriate;
    - construction and reconstruction of roadside rest areas, including sanitary and water facilities;
    - congestion mitigation;
    - other appropriate public road facilities, as determined by the Secretary.

- Capital, operations and maintenance of transit facilities.
- Any transportation project eligible for assistance under Title 23 of the United States Code that is on a public road within or adjacent to, or provides access to, federal land.

Federal lands transportation program funds are for projects on federal lands transportation facilities, which are facilities within or adjacent to, or that provide access to, federal lands (national forests, national parks, national wildlife refuges, national recreation areas and other federal public lands) open to the public, are owned and maintained by the federal government, and which appear in the nation federal lands transportation inventory.

A complete list is available at FY25-FY28 EFL TIP - FINAL.xlsx.

DRAFT

Ferry Boat Federal Program

IIJA provides capital funds to the public ferry services of Mississippi County Port Authority, Ozark National Park Service, and Ste. Genevieve-Modoc which operate in lieu of constructing a bridge or tunnel. Funds are distributed to Missouri by a formula based on the number of passengers, vehicles, and total route miles. Funds can be used by the designated operator for activities such as construction of terminal facilities, ferry boat upgrades and docks. These funds cannot be used for routine maintenance, other transportation purposes, or by any other entity. Missouri receives approximately $100,000 annually for this program (FBP - Federal-aid Programs - Federal-aid Programs and Special Funding - Federal Highway Administration).

DRAFT

Section 7 – Multimodal Programs

DRAFT

This page intentionally left blank

Multimodal Operations

The Multimodal Operations Division performs statewide planning, grant administration, and technical assistance in the areas of aviation, railroads, transit, freight development, and waterways. In addition, MoDOT has regulatory responsibility over railroads.

IIJA of 2021, FAST Act of 2015, Federal Aviation Administration (FAA) Reauthorization Act of 2024, and state revenue provide the proposed funding for this section. Coronavirus relief funding is detailed in Section 6 of the STIP. Changes in any fiscal year may occur depending on the availability of state, federal or local funds; federal or state laws and regulations; local goals and objectives; or unforeseen changes in planning variables. This section begins with an estimated financial summary for the next five state fiscal years.

Program descriptions are included within the appropriate modal area of responsibility. The 2027-2031 Multimodal Anticipated Project List contains projects that will be funded by the programs listed in this section. The programs listed support projects that are locally owned and operated. These projects are impacted by community priorities and budgets.

Therefore, the Multimodal Anticipated Project List will change as the dynamics around the community priorities change. At a minimum, it will be updated quarterly.

Some Multimodal Operations programs require investments from State General Revenue funds; however, these are subject to the legislative appropriations process and gubernatorial release of funds. An estimate is included in this section of the STIP for these programs and associated projects based on the best available information at the time.

MoDOT's active listing of awarded projects can be found at Statewide Transportation Improvement Program (STIP) | Missouri Department of Transportation.

DRAFT

Multimodal Estimated Financial Summary – FY 2027-2031

Table 7-1 Multimodal Estimated Financial Summary		STATE FISCAL YEAR PROJECT BUDGETING					
		7/2026- 6/2027	7/2027- 6/2028	7/2028- 6/2029	7/2029- 6/2030	7/2030- 6/2031	Total
STAR Fund	State Cost	$1,000,000	$1,000,000	$1,000,000	$1,000,000	$1,000,000	$5,000,000
	Total	$1,000,000	$1,000,000	$1,000,000	$1,000,000	$1,000,000	$5,000,000

* Funding for Passenger Rail and Port Capital Improvements are annually appropriated by the Missouri legislature.

** Funding From Other Sources are funds from Kentucky to support the Dorena-Hickman Ferry operations between Mississippi County and Kentucky.

DRAFT

State Transportation Assistance Revolving Fund

In 1996, Senate Bill 780 established the State Transportation Assistance Revolving (STAR) Fund, and an initial appropriation of $2.5 million was made in 1997. Provisions are contained in the Revised Statutes of Missouri (RSMo) 226.191. MHTC administers the fund, which assists political subdivisions or not-for-profit organizations in the development of non-highway transportation facilities. This includes aviation, rail, water, freight or transit facilities. Funds cannot be used for operating expenses or for the construction or maintenance of state highways. The following are the specific eligibility requirements:

- the planning, acquisition, development, and construction of facilities for transportation by air, water, rail, freight, or transit;
- the purchase of vehicles for the transportation of elderly or disabled persons; or
- the purchase of rolling stock for transit purposes.

Applications are received and reviewed throughout the fiscal year. Loans are awarded based on the type of project, the benefit to the public, the financial viability and the local sponsor's willingness and ability to complete the project. Loan repayments and any interest earned go back into the fund for additional transportation projects. Since its inception, this program has been primarily used to help local public airports finance improvements not eligible for federal or state grant programs. This includes hangar, terminal building, and fuel facility projects. The program also assisted in financing a multimodal facility in St. Louis to bring together passenger rail, light rail, and public transit modes.

	Total	$1,000,000	$1,000,000	$1,000,000	$1,000,000	$1,000,000

DRAFT

Aviation

Grant Program Funding – Aviation grant programs assist in the planning, purchase, construction, maintenance, and improvement of airports.

Federal funding appropriated by the U.S. Congress through the federal Airport Improvement Program (AIP) and IIJA, also referred to as the Bipartisan Infrastructure Law (BIL), typically provides 90 to 100% of eligible project cost. Missouri is one of ten states currently participating in the State Block Grant Program, under which MoDOT administers federal aviation funding to general aviation airports. The FAA programs and administers federal funding to the airports with commercial passenger service over 10,000 annual passenger enplanements, including St. Louis Lambert International, Kansas City International, Springfield-Branson National, Columbia Regional, Joplin Regional, Cape Girardeau Regional, and Branson.

There is uncertainty associated with federal aviation funding. Notification of the amount to be received and the actual transfer of funds often do not occur until several months into the federal fiscal year. Also, the non-primary airport entitlement program can significantly impact funding available for MoDOT programming, but it is only implemented if Congress appropriates funding above a threshold level. There are currently 68 airports participating in this program. Eligible airports may receive federal funding of up to $150,000 annually, with an exception for airports with more than 8,000 but less than 10,000 passenger enplanements. Those airports may receive up to $600,000 per year. In addition to the AIP funding, eligible airports accrue IIJA Airport Infrastructure Grants (AIG) allocated funds ranging from $100,000 to $851,000 depending on size, traffic, based aircraft and passenger count. MoDOT is a pass-through agency for the non-primary airport entitlement program and IIJA allocated programs AIG. There are also opportunities for additional federal funding through AIP Supplemental, Congressionally Directed, Supplemental Discretionary, Apportionment, Discretionary, IIJA Airport Terminal Program (ATP), and IIJA Federal Control Tower (FCT) grants. MoDOT staff pursue this additional funding whenever possible.

Current federal authorization legislation for the FAA and the AIP, the Federal Aviation Administration Reauthorization Act of 2024, which includes all federal aviation funding, expires on September 30, 2028. The FAA Reauthorization Act of 2024 increases AIP funding $650 million per year to $4 billion total by 2028. These are the first increases in the AIP program since 2012. Public Law 117-5 IIJA 2022 provides $20 billion over five years for airport infrastructure, terminal development, including multimodal terminal development and on-airport rail access projects and airport-owned towers.

State funding comes from the State Aviation Trust Fund, which derives its revenue from a portion of the state sales tax on jet fuel and a nine-cent per gallon tax on aviation gasoline. On state/local projects, the state can provide up to 90% of eligible project costs. The state can also provide up to 50% of the local share on federally funded projects. Safety-related equipment and services do not require cost sharing. Additional state funding for FY 2027 will be determined by the Missouri General Assembly and as approved by the Governor.

DRAFT

Project Priorities – The primary sources for prioritizing airport projects are the FAA National Plan of Integrated Airport Systems (NPIAS), the MoDOT State Airport System Plan, and the Capital Improvement Plans (CIPs) submitted by airports. The NPIAS establishes basic criteria for airports to be eligible for federal aviation funds. The State Airport System Plan is a working document updated regularly to reflect current activity levels and change to airport facilities and air navigation aids. All federally obligated airports are required to annually submit an updated CIP, and non-NPIAS airports are encouraged, but not required, to submit similar documentation. These plans document an airport's project needs.

Project applications are reviewed, and funds are distributed based on an established priority system that considers items such as the number of aircraft based, activity levels and the type of project requested. To program AIP funds, FAA requires MoDOT Aviation to use the project prioritization formula in FAA Order 5090.5. This formula determines how projects compete for federal funding. MoDOT Aviation uses the same prioritization formula to program Aviation Trust Fund projects but also considers additional factors, such as the political subdivision's willingness and ability to complete the project commitment of local matching funds, prior maintenance and support of the airport, and aviation staff knowledge of airport needs. Project needs always exceed the funds available, so throughout the project prioritization process, MoDOT Aviation works closely with airport sponsors to discuss project needs, to ensure they are aware of what can and cannot be funded, and to package projects together that will best compete for federal funding. These detailed discussions with airport sponsors ensure that airports are already aware of which projects will be programmed prior to the release of the STIP.

MoDOT's active listing of awarded projects can be found at Statewide Transportation Improvement Program (STIP) | Missouri Department of Transportation.

Table 7-3 Aviation Program		**STATE FISCAL YEAR PROJECT BUDGETING**				
		7/2026 - 6/2027	**7/2027 - 6/2028**	**7/2028 - 6/2029**	**7/2029 - 6/2030**	**7/2030 - 6/2031**
Aviation Program	Federal Cost	$104,765,000	$100,000,000	$90,632,000	$40,736,000	$32,160,000
	State Cost	$36,000,000	$25,560,000	$12,400,000	$5,643,000	$5,643,000
	Total	$140,765,000	$125,560,000	$103,032,000	$46,379,000	$37,803,000

DRAFT

Railroads

Missouri is in the central corridors of the nation's railroad transportation system, with St. Louis and Kansas City being the second and sixth largest rail hubs in the nation, behind only Chicago. Missouri rail system carries more freight than any other mode. Missouri has the fifth-most railroad employment and is the eleventh largest in total size. The rail system is also critical to the nation's passenger rail transportation and Missouri's passenger rail service between St. Louis and Kansas City, the Missouri River Runner.

The Multimodal Operations Division administers the state's railroad program. This program includes rail safety regulation, passenger rail, light rail safety oversight, highway/rail construction coordination, and highway/rail crossing safety.

Passenger Rail – State supported passenger rail service is provided between St. Louis and Kansas City, with stops in Kirkwood, Washington, Hermann, Jefferson City, Sedalia, Warrensburg, Lee's Summit, and Independence. In state fiscal year 2025, this service carried more than 197,000 passengers. Amtrak operates the service and The Midwest Fleet Board; which is comprised of Missouri, Illinois, Wisconsin, and Michigan; owns locomotives and passenger rail coaches for use on the state supported midwest passenger rail routes.

The rail line on which the Missouri River Runner operates is owned and maintained by Union Pacific Railroad and two terminal railroads. MoDOT, Union Pacific Railroad, and Amtrak focus on reliable on-time performance through coordination, efficient dispatching, bottleneck removal, and capacity enhancements.

There is no dedicated funding in Missouri for the state supported passenger rail. Funding is subject to legislative general revenue appropriation and gubernatorial approval each year.

To help control costs, MoDOT has consistently increased passenger fares for the Missouri River Runner. The following are the latest fare increases: FY 2012 – 2%, FY 2013 – 3%, FY 2014 – 2%, FY 2017-2020 – 5% each year, FY 2023 – 2%. Fares were not increased in FY 2021-2022 due to the impacts of COVID. In FY 2024, Price Point Expansion ticketing was implemented. This increases prices during high demand periods and decreases ticket prices during low demand time periods. This has resulted in increased revenues.

State funding for FY 2027 will be determined by the Missouri General Assembly as approved by the Governor. Funding for Missouri's passenger rail service is used to pay Amtrak's contract, improvements to passenger rail service and expenses to maintain the Midwest Fleet.

DRAFT

Prior to the end of 2014, Missouri received nearly $50 million in Federal Railroad Administration (FRA) funding to improve passenger rail services. These funds leveraged nearly $20 million in private investment. Projects targeted improvements in on-time performance and travel time reduction. Notable completed projects include a new Osage River bridge, a universal crossover near Kirkwood, a third main line in St Louis on the Terminal Railroad, a new approach to Merchant's Bridge, and the upgrade of 15 crossings. Projects are located along the state supported passenger rail line from St. Louis to Kansas City. The federal funding required a state commitment to continue operation of the Missouri River Runner passenger rail service. Missouri also introduced new locomotives in FY 2018 to increase reliability of equipment as part of the Midwest Fleet. The new locomotives are Tier IV compliant and have reduced emissions by 90% over previous equipment. The new locomotives were obtained through a 100% federally funded grant to the states of Missouri, Wisconsin, Illinois, Michigan, Washington, and California. In FY 2022, new passenger coaches were placed into service on the Missouri River Runner through another 100% federally funded grant. These passenger coaches will be operated as part of the Midwest Fleet and will feature spacious interiors focused on passenger comfort and convenience, with Wi-Fi, seats with convenient power outlets and USB ports, large windows, overhead luggage storage, worktables, state-of-the-art restrooms with touchless controls and full ADA accessibility, and modern information and route map displays. Bicycle racks will also be built into the coach cars.

Highway/Rail Crossing Safety Program – Missouri's Highway/Rail Crossing Safety Program goal is to systematically improve the safety of crossings across the state, maximizing the use of available funding sources. Two primary sources of federal funding are FHWA Surface Transportation Program Safety Funds and federal discretionary grant programs available primarily through the FRA. FHWA funds are distributed to states based on a formula with Missouri's share being approximately $6 million per year. The discretionary grant program provides the opportunity for states, counties, and cities to compete for additional federal funding. These discretionary grant programs typically require a non-federal match. The goal for the discretionary grant funds is to ensure that MoDOT and planning partners are aware of the opportunities and have projects able to compete for the grant funding.

Missouri also has a 25-cent state motor vehicle licensing fee that is deposited into the Grade Crossing Safety Account and generates approximately $1.5 million a year. This money is required to be spent on grade crossing safety improvements and is generally used to provide the required match to federal funds.

For FY 2024, $50 million was approved by the state to improve safety at highway/rail crossings. These funds were re-appropriated at $49 million in FY 2025 and $25 million in FY 2026. These funds will continue to require a re-appropriation to be used in subsequent fiscal years. Table 7-4 assumes funding will be re-appropriated until expended.

The railroad crossing improvement program is approved as a whole per 23 CFR 450.216(h) and 450.326(h) and is, therefore, not approved on the individual project level as is done in other sections of the STIP. However, projects will be reported on the department's website.

DRAFT

MoDOT's active listing of awarded projects can be found at Statewide Transportation Improvement Program (STIP) | Missouri Department of Transportation.

DRAFT

Transit

Missouri public transit provides mobility to individuals of all ages, incomes, and circumstances throughout the state of Missouri. Missouri's public transit agencies provide over 34.3 million one-way passenger trips each year. MoDOT offers financial and technical assistance to 29 public transit providers and 169 specialized transportation providers. Some form of public transit or specialized transit is available in all 114 counties of Missouri and the City of St. Louis.

The Multimodal Operations Division administers state and FTA funds to Missouri transit providers to support planning, maintenance, safety, operating, and capital assistance activities.

MoDOT is committed to transit asset management to try to maintain a State of Good Repair (SGR) for Missouri's public transportation assets. Transit Asset Management (TAM) is a business model that uses transit asset conditions to guide the optimal prioritization of funding.

Transit asset performance is measured by asset class, a subgroup of capital assets within an asset category. MoDOT coordinated with transit agencies and MPOs to develop the MoDOT state sponsored group TAM plan, including the state TAM targets.

MoDOT is committed to transit safety. MoDOT coordinated with affected transit agencies to develop a comprehensive Public Transportation Agency Safety Plan (PTASP). Each transit agency developed their own PTASP and received funds directly from the FTA.

PTASP requirements include a comprehensive safety program that identifies (1) measurable performance targets that minimize exposure of the public, personnel, and property to hazards and unsafe conditions, are consistent with guidelines of the Centers for Disease Control and Prevention or a state health authority and minimize exposure to infectious diseases; (2) risk reduction of injuries, assaults on transit workers, and vehicular/pedestrian accidents.

In the 2027-2031 STIP, MoDOT has programmed projects to move towards the federal TAM targets. These funds are distributed to transit providers based on annual applications. Transit agencies request funding to replace equipment and rolling stock and to make facility improvements. Annual applications exceed funding availability, and awards are evaluated based on transit needs. No transit safety projects are included in the STIP since transit agencies receive funds directly from FTA. MoDOT supports the transit safety targets included in PTASP plans.

DRAFT

Statewide Transit Planning Grants
Section 5304

Section 5304 of Chapter 53, Title 49, U.S.C. Federal Transit Administration – MoDOT administers FTA statewide transit planning and other technical assistance activities grants that can be used for planning support, research, development, and demonstration projects, fellowships for training in the public transportation field, university research and human resource development.

FTA distributes funds to Missouri based on the latest census information. However, a state must receive at least 0.5% of the amount annually apportioned. For these planning and technical assistance activities, the federal share is 80%, and the local non-federal share is 20%. This funding is used for statewide transit planning with an amount allocated to the state transit association for transit-related technical assistance activities.

MoDOT provides funding to each of the Regional Planning Commissions (RPCs) and MPOs for updates to the Coordinated Public Transit – Human Services Transportation Plans. These plans are updated every five years to allow subrecipients to apply for FTA Section 5310 funding within each planning area.

MoDOT's active listing of awarded projects can be found at Statewide Transportation Improvement Program (STIP) | Missouri Department of Transportation.

Enhanced Mobility of Seniors and Individuals with Disabilities Program
Federal Transit Administration – Section 5310

Section 5310 of Chapter 53, Title 49, U.S.C. Federal Transit Administration – Section 5310 funds provide capital assistance and operating assistance for non-profit organizations, as well as governmental entities that provide service to senior citizens and persons with disabilities. These funds are annually apportioned to each of the large, urbanized, areas (St. Louis, Kansas City, and Springfield), apportioned separately on an aggregate basis to the small, urbanized areas (between 50,000 and 199,999 population) and annually apportioned separately in aggregate to the rural areas of the state. Part of the section 5310 funds apportioned in the St. Louis and Springfield urbanized areas are administered by MoDOT once MPOs for these areas have allocated apportioned funds. Section 5310 funds apportioned to rural and small urban and urbanized portions of Missouri are administered by MoDOT. Projects to be funded by Section 5310 must be derived from a locally developed Coordinated Public Transit – Human Services Transportation Plan.

Rural fund priorities are selected and programmed directly by MoDOT based on received applications. Eligible applications for what FTA defines as "traditional projects" are first reviewed and prioritized by MoDOT to attain the Section 5310 program's 55% funding floor. For projects proposed in small, urbanized areas, any prioritization of projects provided to MoDOT from the MPOs will be accepted as long as those projects are Section 5310 eligible activities proposed by eligible applicants. Otherwise, within this category of "traditional projects', the rural prioritization and small urbanized prioritization of projects in descending order are as follows:

(a) replacement of accessible vehicles that have reached the end of their useful life,
(b) replacement of non-accessible vehicles that have reached the end of their useful life,
(c) accessible vehicles to be used in eligible expanded mobility services,
(d) non-accessible vehicles to be used in eligible expanded mobility services,
(e) support for mobility management and coordination programs,
(f) all other "traditional" Section 5310 eligible project types.

In selecting "traditional" projects for funding, consideration will be given to a geographic distribution to deter concentrations of projects and funds in a few areas of the state. Also, based on applicant responses to Title VI Civil Rights questions about clients served, consideration will be given to ensure low-income individuals and minorities are not excluded from accessing funds for eligible Section 5310 activities.

DRAFT

MoDOT's active listing of awarded projects can be found at Statewide Transportation Improvement Program (STIP) | Missouri Department of Transportation.

DRAFT

Rural Transit Assistance Program
Federal Transit Administration Section 5311

Section 5311 of Chapter 53, Title 49, U.S.C. Federal Transit Administration – Section 5311 provides capital and operating assistance to public transportation systems in rural areas. A rural area is outside an urbanized area of 50,000 or greater population. Section 5311 projects include planning and technical studies, system design, capital assistance, and assistance in defraying operating losses. Intercity over-the-road bus services are also eligible for funding.

Eligible recipients of Section 5311 assistance include public bodies, private not-for-profit corporations and operators that provide general public transportation services. Private for-profit providers of service are eligible through purchase of service agreements with a local public body for the provision of public transportation services. For-profit intercity carriers are also eligible.

Section 5311 project selection is performed by MoDOT based upon annual applications. Requests for operating assistance are given priority over capital project requests. Once operating assistance is awarded, capital requests are reviewed for award if funding is available. Operating assistance awards are based upon the project's budget for the coming year compared to previous year's expenditures. Priority is given to local public bodies because they meet the program's primary objective of offering general public service. Not-for profit organizations are also eligible to participate in the program if they meet program criteria and have available local matching funds. Generally, capital projects are funded 80% federal and 20% local. Operating assistance projects may be used to support up to 50% of a project's net operating loss. Net operating loss is the total expense incurred minus any fares collected. As federally required, 15% of the Section 5311 funds are reserved to support intercity bus service. In the event eligible applicants do not express an interest in supporting intercity bus service or if the requests received are less than the reserved amount, the funding reserved for intercity bus will be transferred to the rural public transit service. The grant allows for up to 10% of Section 5311 apportionment for program administration, planning and technical assistance, with no state match required.

MoDOT's active listing of awarded projects can be found at Statewide Transportation Improvement Program (STIP) | Missouri Department of Transportation.

Rural Transit Assistance Program
Section 5311 (b)

Section 5311 (b) of Chapter 53, Title 49, U.S.C. Federal Transit Administration – MoDOT administers the FTA Section 5311 (b) Rural Transit Assistance Program for the development and implementation of training, technical assistance, and other support services for use by local transit providers in rural areas. No matching funds are required.

FTA allocates Rural Transit Assistance Program funds to each state based on an administrative formula. FTA first allocates $65,000 to each state and then distributes the balance of the annual funding according to the rural population of each state.

Through a competitive selection process, MoDOT currently contracts these services with the Missouri University of Science and Technology.

MoDOT's active listing of awarded projects can be found at Statewide Transportation Improvement Program (STIP) | Missouri Department of Transportation.

DRAFT

State Safety Oversight Formula Grants
Federal Transit Administration – Section 5329

Section 5329 of Chapter 53, Title 49, U.S.C. Federal Transit Administration – Each state with transit rail systems not regulated by the FTA is required to establish a State Safety Oversight (SSO) program with the responsibility to enforce federal law and oversee fixed guide way public transportation safety. MoDOT administers FTS Section 5329 SSO grants. These grants fund up to 80% of the cost to administer and operate the SSO program. Grant matching funds may not be derived from the transit systems subject to the SSO and are funded through the State Transportation Fund. Systems subject to MoDOT oversight from this program are St. Louis MetroLink, the Delmar Loop Trolley, and the Kansas City Streetcar.

MoDOT's SSO program uses a combination of internal staff and consultant expertise to help ensure the systems in Missouri are as safe as possible. MoDOT elected to competitively procure expertise when new requirements were passed by the U.S. Congress in MAP-21. This allowed MoDOT to quickly get up to speed with the new, more stringent requirements and to develop and implement ways of improving the safety of these systems much quicker than hiring and training internal staff. Each of the systems regulated have reduced incidents and improved efficiencies because of this approach.

MoDOT's active listing of awarded projects can be found at Statewide Transportation Improvement Program (STIP) | Missouri Department of Transportation.

Table 7-9 Section 5329 Funding		STATE FISCAL YEAR PROJECT BUDGETING				
		7/2026 - 6/2027	7/2027 - 6/2028	7/2028 - 6/2029	7/2029 - 6/2030	7/2030 - 6/2031

	Total	$700,000	$700,000	$700,000	$700,000	$700,000

DRAFT

Bus and Bus Facilities Program Formula Grants
Federal Transit Administration – Section 5339

Section 5339 of Chapter 53, Title 49, U.S.C. Federal Transit Administration – MoDOT administers FTA Section 5339 Bus and Bus Facilities Program formula grants. This grant category funds up to 80% of the cost to replace, rehabilitate, and purchase buses and related equipment, as well as construction of bus-related facilities. These funds are annually apportioned to each of the large, urbanized areas (St. Louis, Kansas City, and Springfield), apportioned separately on an aggregate basis to the small, urbanized areas (between 50,000 and 199,999 population) and annually apportioned separately in aggregate to the non-urbanized/rural areas of the state. MoDOT administers the funds apportioned to the non-urbanized/rural areas of Missouri.

MoDOT worked with the Missouri Public Transit Association (MPTA) to develop consensus on a formula funding arrangement for the allocation of the FTA Section 5339 Bus and Bus Facilities Program funds to Missouri's large, urbanized areas, small, urbanized areas, and rural transportation providers.

MoDOT only administers Section 5339 rural apportionment for rural transportation providers. Rural transportation providers submit an annual application requesting vehicle replacement or expansion. Awards are based upon the useful life criteria identified in the Transit State Management Plan. Useful life criteria identify the expected lifetime of vehicles based upon years and/or mileage. Vehicles must meet or exceed the useful life criteria to be eligible for replacement.

The small urbanized apportionment and large urban apportionment are transferred to the 5307 program for east of grant management. By transferring to the 5307 program, the large and small urban providers apply directly to FTA to receive funds for eligible projects in the Section 5339 Bus and Bus Facilities Program. In addition, MoDOT administers Section 5339 discretionary funding to rural projects throughout Missouri.

MoDOT's active listing of awarded projects can be found at Statewide Transportation Improvement Program (STIP) | Missouri Department of Transportation.

Missouri Elderly and Handicapped Transportation Assistance Program

The Missouri Elderly and Handicapped Transportation Assistance Program (MEHTAP) is a state funded program that provides funding to the Area Agencies on Aging (AAA), non-profit organizations, and other eligible applicants statewide that offer transportation services to senior citizens and persons with disabilities at below-cost rates.

MEHTAP funding is allocated by the department in accordance with RSMo Sections 208.250 – 208.265 and CSR 7 CSR 10-7.010 based on the following criteria: need for service, trip purpose, cost effectiveness, and cost and availability of alternative service.

Fifty percent of the MEHTAP appropriation is reserved for AAA. Reserved funds supplement state and federal funds available to the area agencies for transportation. Area agencies may use MEHTAP funds in combination with other transportation funds to provide transportation services or to contract with existing providers for service. Each year, project funding is contingent upon receipt of applications from eligible providers and an appropriation from the state legislature. Federal, local, and private matching funds do not flow through MoDOT.

MoDOT's active listing of awarded projects can be found at Statewide Transportation Improvement Program (STIP) | Missouri Department of Transportation.

Table 7-11 MEHTAP Funding		STATE FISCAL YEAR PROJECT BUDGETING

DRAFT

Missouri State Transit Assistance Program

The Missouri State Transit Assistance (STA) Program is a state funded program that provides state funds to public transportation service providers to defray the operating and capital cost incurred by public transportation service providers. STA funding is allocated by MoDOT in accordance with RSMo Section 226.195 and CSR 7 CSR 10-7.030. The distribution of funds to public transportation service providers is made based on population, ridership, cost, and efficiency of the public mass transportation service provider's program, availability of alternative public transportation in the service area, and local effort or tax support.

Each year, project funding is contingent upon the total number of grant applications received from eligible providers. The STA Program is funded with state transportation funds and general revenue funds and is subject to the Missouri General Assembly legislative appropriation process and any subsequent directives mandated by the Governor regarding withholdings.

MoDOT's active listing of awarded projects can be found at Statewide Transportation Improvement Program (STIP) | Missouri Department of Transportation.

Table 7-12 STA Funding		**STATE FISCAL YEAR PROJECT BUDGETING**				
		7/2026 - 6/2027	**7/2027 - 6/2028**	**7/2028 - 6/2029**	**7/2029 - 6/2030**	**7/2030 - 6/2031**

DRAFT

Waterways

Missouri is fortunate to have over 1,000 miles of navigable waterways on the Mississippi and Missouri rivers, which provide opportunities for waterborne commerce. Barge transport provides a safe and environmentally friendly way to transport large amounts of material at a lower cost compared to other modes. One barge can hold equivalent of 13 railcars or 58 trucks. The Missouri General Assembly appropriates funding for waterway programs from General Revenue and the State Transportation Fund. Projects are implemented when funds are appropriated through the legislative and gubernatorial budget processes.

Port Authority Administrative Grants – The administrative grants are used to reimburse public port authorities for administrative costs, such as salaries, benefits, travel, office expenses and utilities authorized in Section 68.035.1, RSMo. These grants do not require a match and are funded from the State Transportation Fund. The administrative grants were created to assist public port authorities as they establish their economic base (i.e., "keep the lights on"). The port authority must demonstrate tangible efforts to mature the port to be eligible for administrative grants. Most administrative funds are allocated by formula based on two components: a base amount and a performance amount. The formula allocates 1% of available funds as a minimum level of support. The performance amount is focused on assisting the ports as they establish their economic base with the level of capital assets, movement of freight, or passengers during the prior year, whether tonnage was over or less than one million tons in the last four years, development of a work plan for purchasing capital assets or moving freight/passengers within the next three years, and lastly, penalty for ports that allowed funding to lapse within the previous five years.

The remaining $300,000 is allocated to port authorities to prepare plans for upcoming capital improvement projects and/or multi-port supported planning efforts. When the proposed project priority list is developed for the Port Capital Improvement Program (CIP), port authorities request funding for preliminary engineering to prepare these plans for construction to begin in one year. This funding stream allows the public port authorities to be ready for construction at the beginning of the budget year (July 1) if the General Revenue funds are received.

DRAFT

This program has received an appropriation for FY 2026 of $1,000,000. One million dollars was requested for FY 2027. The program currently offers assistance to the following port authorities:

Heartland Port Authority of Central Missouri	Howard/Cooper Co. Regional Port Authority	Jefferson County Port Authority
Port of Kansas City	Lewis County Regional Port Authority	Mic-America Port Commission
Mississippi County Port Authority	New Bourbon Regional Port Authority	New Madrid County Port Authority
Pemiscot County Port Authority	Pike/Lincoln County Port Authority	St. Charles County Port Authority
St. Joseph Regional Port Authority	St. Louis County Port Authority	City of St. Louis Port Authority
Southeast Missouri Regional Port Authority	Marion-Ralls County Port Authority	Greater Montgomery County Port Authority
Northeast Missouri Regional Port Authority of Clark County		

MoDOT's active listing of funded projects can be found at Statewide Transportation Improvement Program (STIP) | Missouri Department of Transportation.

DRAFT

Waterways

Ferry Boat Operating Assistance – The State of Missouri currently provides funding for two public ferry boat operations in Ste. Genevieve and Mississippi counties. These ferry services provide a link for passengers and freight moving from Missouri to Illinois or Kentucky, respectively, at substantially less expense than constructing a Mississippi River bridge crossing in the areas. Each ferry charges a toll that is supplemented annually by $88,000 to support each ferry boat operation. During FY 2024, the ferry services transported 18,231 passengers and 8,643 vehicles. The State of Kentucky matches dollar for dollar support for the Mississippi County ferry service. Illinois does not provide operating assistance to the Ste. Genevieve County ferry.

MoDOT's active listing of funded projects can be found at Statewide Transportation Improvement Program (STIP) | Missouri Department of Transportation.

DRAFT

Port Capital Improvement Program – Capital improvement funds assist ports with capital expenditures, such as dock construction, mooring dolphins, access improvements, utility extensions, and general site development as authorized in Section 68.035.2, RSMo. MoDOT requests $11.6 million annually from the State of Missouri General Revenue budget for Port CIP. Funding requires an annual appropriation by the general assembly and budget approval by the Governor, and State of Missouri projections continue to demonstrate sufficient incoming revenue to allow release of all or a portion of the approved funds. Fluctuations in Missouri revenue can result in restrictions on General Revenue funded programs, including the Port CIP funds. When appropriated, the CIP requires a 20% local match. The amount of funds available for the CIP; in SFY 2021, that amount was $6.1 million; and in SFYs 2022-2025, $11.6 million per year was appropriated. In SFY 2026, $14.6 million was appropriated.

Each summer, the public ports present priority projects to be considered for the next state fiscal year. The Missouri Port Authority Association members evaluate and prioritize each of these projects based on economic development benefit to the state, increased freight capacity and tonnage at the port, environmental impacts of the project, and safety improvements. As the legislature discusses General Revenue appropriations, the prioritized list is used to match the highest priority projects with the appropriated funding. The ports have detailed more than $400 million in current port capital improvement needs.

The funding for this program is appropriated annually and available only during the current state fiscal year. To ensure all funds are used, they are reallocated at fiscal year-end if a project is experiencing delays. High water levels are the most frequent cause of delays for the construction of port capital improvement projects. When this occurs, unfunded projects are accelerated to construction, and the delay project is moved to high priority for the next available funding.

MoDOT's active listing of funded projects can be found at Statewide Transportation Improvement Program (STIP) | Missouri Department of Transportation.

DRAFT

Table 7-15 Port Capital Improvement Program		STATE FISCAL YEAR PROJECT BUDGETING				
		7/2026 - 6/2027	7/2027- 6/2028	7/2028 - 6/2029	7/2029 - 6/2030	7/2030 - 6/2031

Freight

Freight Enhancement Program – The objective of the Freight Enhancement Program is to focus on improving and maintaining the high priority freight assets and corridors that are critical to the movement of freight into, out of, within, and through the state. This process is based on partnerships with freight stakeholders and public officials to identify the greatest freight movement needs and remove barriers to efficient movement of goods through capital improvements to the system. MoDOT was appropriated $3.25 million from the Missouri legislature for FY 2026 from the State Transportation Fund. In SFY 2027, MoDOT is also requesting $3.25 million. A minimum 20% local match is required. MoDOT solicits project applications each spring. Staff evaluates and selects projects based on correlation to the 2022 State Freight and Rail Plan Documents | Missouri Department of Transportation strategies, objectives, goals, and recommended actions and whether the capital improvement is needed to support a new committed business or expansion of existing business strategies. Because program funding comes from the State Transportation Fund, projects are limited to non-roadway locations. Project selections are announced by July 1 to allow project sponsors the full fiscal year to implement the project.

Freight is the economy in motion. As freight efficiency increases in a state, the total economy of the state increases. Businesses receive raw materials at less cost; and therefore, their finished products are more competitive on the domestic and global market. Lower freight transportation costs decrease prices at the store, providing financial savings for Missouri consumers. Lower transportation costs attract new businesses and allows reinvestment and expansion of current businesses.

Freight movement depends upon the connectivity, safety, reliability, and condition of the transportation system. Missouri's central location within 600 miles of 50% of all U.S. households is a natural advantage to attract the freight industry. Missouri's transportation assets in rail, water, interstate highways, and airports, combined with Missouri's strategic location, provide great opportunity to become the freight center of the nation. MoDOT's active listing of funded projects can be found at Statewide Transportation Improvement Program (STIP) | Missouri Department of Transportation.

Section 7b – SFY 2026 Multimodal Legislatively Designated and Funded Initiatives

DRAFT

This page intentionally left blank

Legislatively Designated and Funded Initiatives

This section of the Statewide Transportation Improvement Program contains projects funded by Missouri's General Assembly during the 2025 legislative session for Multimodal Operations Projects and Programs. Projects shaded in gray are subject to funding being made available.

All other modes of transportation (aviation, rail, waterways, freight, and transit) received general revenues to focus on safety, capital improvements and/or operating assistance in these various projects and programs within Multimodal Operations.

The following is a list of those projects and information about their funding.

FY 2026 Legislatively Designated and Funded Initiatives - Multimodal		
Description	**House Bill**	**Amount**
Phelps County Grade Crossing Safety	17	$500,000

Section 8 – Certification and Federal-Aid Project Oversight

DRAFT

This page intentionally left blank

Certification

MoDOT certifies that the transportation planning process is being carried out in accordance with the following requirements in 23 CFR 450.218(a).

1. 23 U.S.C. 134 and 135, 49 U.S.C. 5303 and 5304, and this part;
2. Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000d-1) and 49 CFR part 21;
3. 49 U.S.C. 5332, prohibiting discrimination on the basis of race, color, creed, national origin, sex, or age in employment or business opportunity;
4. Section 1101 (b) of the FAST Act (Pub. L. 114-357) and 49 CFR part 26 regarding the involvement of disadvantaged business enterprises in department of transportation funded projects;
5. 23 CFR part 230 regarding implementation of an equal opportunity program on federal and federal-aid highway construction contracts;
6. The provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) and 49 CFR parts 27, 37, and 38;
7. In non-attainment and maintenance areas, Sections 174 and 176 (c) and (d) of the 1990 Clean Air Act, as amended (42 U.S.C. 7504, 7506 (c) and (d) and 40 CFR part 93;
8. The Older Americans Act, as amended (42 U.S.C. 6101), prohibiting discrimination on the basis of age in programs or activities receiving federal financial assistance;
9. 23 U.S.C. 324 regarding the prohibition of discrimination based on gender; and
10. Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and 49 CFR part 27 regarding discrimination against individuals with disabilities.

In addition to the above specifically stated requirements, 23 CFR 450.216 describes several requirements that MoDOT ensures are met with submission of the Statewide Transportation Improvement Program (STIP). These requirements are as follows:

1. Public involvement was provided for the STIP development as required by 23 CFR 450.210(a).
2. The metropolitan planning area Transportation Improvement Programs (TIPs) are included by reference, without modification, in the STIP and have been approved by the Governor of Missouri.
3. In non-attainment and maintenance areas, the STIP contains only transportation projects found to conform, or from programs that conform, to the air quality requirements.
4. The STIP contains only transportation projects consistent with the long-range statewide plan.
5. The STIP is financially constrained by year as required.

DRAFT

6. The STIP includes a descriptive list of priority transportation projects to be carried out in the first four years.
7. The STIP contains all capital and non-capital transportation projects or identified phases of transportation projects requiring action by the Federal Highway Administration (FHWA) or Federal Transit Administration (FTA).
8. The STIP contains all regionally significant projects requiring action by FHWA and FTA.
9. The STIP was developed in consultation with local officials with responsibility for transportation and with Indian Tribal governments.

DRAFT

Federal-Aid Project Oversight Agreement

Background and Purpose

The Intermodal Surface Transportation Efficiency Act (ISTEA) of 1991; the Transportation Equity Act for the 21st Century (TEA-21) of 1998; the Safe, Accountable, Flexible, Efficient Transportation Act: A Legacy for Users (SAFETEA-LU) of 2005; the Moving Ahead for Progress in the 21st Century Act (MAP-21) of 2012 and the Fixing America's Surface Transportation (FAST) Act of 2015 allow states to assume certain responsibilities for FHWA in some National Environmental Policy Act approvals and in the design, construction, award, and inspection of certain federal-aid projects.

Section 106 of Title 23, Project Approval and Oversight, requires an agreement between the Secretary of Transportation and the State relating to the extent to which the State assumes nearly all FHWA responsibilities for projects under Title 23 for project development (plans, specifications, and estimates), contract awards, and inspections/final acceptance of federal-aid highway projects. The FHWA Missouri Division and MoDOT updated the FHWA/MoDOT Stewardship and Oversight Agreement on July 24, 2024. The agreement outlines the basic oversight responsibilities and roles of the two agencies in administering the federal aid program in Missouri. The following is a summation regarding oversight responsibilities.

Oversight Responsibilities

Oversight responsibilities can be identified through FHWA's Risk-Based Stewardship and Oversight model. Risk-Based Stewardship and Oversight has three main components: (1) data-driven compliance assurance, the Compliance Assessment Program (CAP), (2) risk-based stewardship and oversight of Projects of Division Interest (PoDI), and (3) program reviews (or annual reviews).

CAP – The purpose of the CAP is to provide reasonable assurance, at both the national and local levels, that federal-aid highway design and construction projects are in compliance with key federal requirements. This is accomplished through FHWA compliance

reviews in the areas of civil rights, contract administration, emergency relief, environment, finance, material quality, planning, realty and work zones. FHWA reviews will be coordinated with appropriate MoDOT staff, as necessary. Unless a CAP project is identified as a PoDI, MoDOT will assume oversight responsibility for all CAP projects.

PoDI – FHWA's level of involvement (oversight) on PoDIs will vary by project, dependent upon identified risk elements specific to the individual projects. FHWA involvement on PoDIs will be developed based upon project specifics, such as project complexity, cost, scope of work to be constructed, environmental constraints or commitments, impacts to traffic, additions or modification to interstate access, etc. On low-risk projects, such as those of low complexity or with minimal traffic impacts, FHWA involvement may be limited to elements developed during preliminary design stages, while complex projects may require involvement throughout the design phase up to, and including, review and approval of the final Plans, Specifications, and Estimates. Construction risk will be assessed in much the same manner. Projects of low complexity or with minimal traffic impacts may require a lesser level of FHWA involvement during construction, while complex projects may require involvement in all facets of the construction. FHWA involvement during both design and construction will be developed in coordination with MoDOT. A PoDI can be any project with federal aid, whether administered by MoDOT or a local public agency. MoDOT assumes oversight responsibility for all non-PoDI projects. A listing of programmed PoDI projects can be found in the Engineering Policy Guide at Category:123 Federal-Aid Highway Program - Engineering Policy Guide.

Identification of CAP and PoDI Projects

CAP – Around April of each year, the project population for each FHWA division office will be randomly identified by FHWA Headquarters' Program Management Improvement Team and will include all federal-aid projects authorized for construction or advance construction within the last 12 months.

PoDI – PoDIs are identified collaboratively by MoDOT and FHWA and have an elevated level of risk (threat or opportunity) to the agency's successful delivery of the federal highway program. In addition to regular amendments of MoDOT's STIP, MoDOT and FHWA will conduct an annual review of the MoDOT STIP to identify the projects that will be administered as PoDI by FHWA. CAP projects are eligible to be identified as PoDI.

Authorization of Work and Obligation of Federal Funds

MoDOT will not submit requests for the authorization of work and obligation of federal funds on any federal-aid construction project until the National Environmental Policy Act (NEPA) approval process has been completed; right of way, utility, and railroad clearance

DRAFT

has been approved; and the project for which federal funds are being requested is listed in MoDOT's STIP, and if necessary, in the appropriate MPO's TIP.

Other Oversight Agreement Provisions

This agreement is made with the following understandings

- MoDOT will administer all projects previously authorized prior to the effective date of this agreement under certification acceptance as though the projects were authorized under the provisions of this agreement.

- All non-Title 23 U.S.C. requirements will continue to be subject to FHWA project review, oversight, and approval.

- All projects on the National Highway System (interstate and non-interstate) will conform to MoDOT adopted design and construction standards as approved by FHWA. Amendments or revisions to these standards are subject to FHWA's review and approval.

- All non-National Highway System projects shall be designed, constructed, operated, and maintained in accordance with state laws, regulations and directives, and safety, design, and construction standards.

- FHWA may complete a final inspection and final acceptance on FHWA identified PoDI projects. MoDOT assumes this responsibility for all other projects. MoDOT will act to close projects in a timely manner.

- This agreement does not preclude FHWA from observing a federal-aid highway project under MoDOT responsibility, including those under a local public agency agreement, should the project contain unique features, if unusual circumstances arise, or should such projects be party to inclusion in join agency MoDOT Quality Assurance Reviews or FHWA Process Review and Evaluations.

- FHWA and MoDOT enter into this agreement to conduct project oversight activities in accordance with the above stipulated agreement provisions. The effectiveness of these oversight responsibilities will be evaluated periodically and adjustments made upon mutual agreement.

DRAFT

Certification

It is hereby certified that MoDOT will follow all federal and state laws, regulations, and directives for the design, construction, operation, and maintenance of all federal-aid projects.

DRAFT

Section 9 – MoDOT Operations & Maintenance Plan

DRAFT

This page intentionally left blank

MoDOT Operations and Maintenance Plan

MoDOT spends approximately $725 million annually on operations. As shown in the table below, this includes Maintenance, Fleet, Facilities and Information Systems. Most of these expenditures, approximately $597 million, are in Maintenance. This section will discuss the composition of the maintenance expenditures, their outcomes, and what is planned for state calendar years 2026, 2027, and 2028.

Expenditures (Operations)	2021	2022	2023	2024	2025
Maintenance	$448	$494	$529	$569	$597
Fleet, Facilities and Information Systems	$80	$97	$101	$121	$127

Includes personal services and fringe benefits of MoDOT employees and expense and equipment costs. Costs are in millions.

Maintenance Composition

Major components of maintenance efforts are pavements, bridges, and emergency operations, such as flooding, roadsides, traffic operations, and winter operations. The most erratic of these components is winter operations. Expenditures in winter operations can range from $18 million to $75 million in a winter season. To ensure that Missouri's transportation system is resilient during winter events, MoDOT has more than 2,600 employees who operate over 1,500 heavy-duty trucks from over 170 facilities statewide. When needed and when staffing is available, all those trucks can be operated 24 hours a day for extended periods until operational goals have been met. Many MoDOT employees who are not in Maintenance, as well as seasonal hires, assist in plowing snow. The expectation of a rapid and widespread response to statewide winter events is the driver for the staffing, facilities, and equipment levels in MoDOT's Maintenance Division.

Maintenance efforts on MoDOT's more than 33,800 centerline miles are the single largest component of the maintenance expenditures. Typically, around $282 million is spent on pavements for various activities, for example asphalt pavement repair, chip sealing, pothole patching, full-depth concrete pavement replacement, pipe culvert replacement and striping. Many of these activities (e.g., chip sealing, asphalt pavement repair and full-depth concrete pavement replacement) are planned and submitted for federal reimbursement. Planning for these activities can be challenging because of the variance in winter operations expenditures.

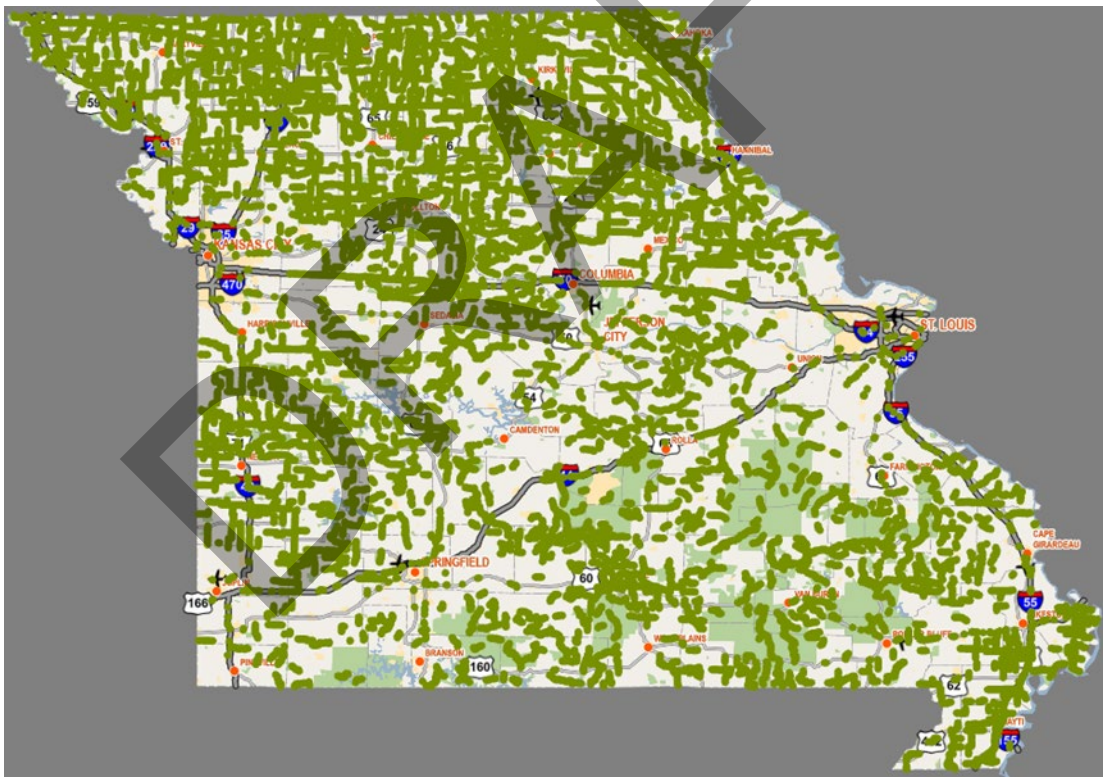

Federal participation in MoDOT's in-house or force account preventive maintenance efforts, such as chip seals, asphalt pavement repairs, pipe repairs, bridge deck sealing, and bridge deck repairs, has been in place for several years and has resulted in federal funding levels more than $85 million per year. Due to the complicated scope of some of this work, minor supportive contracts are

DRAFT

required to assist in these efforts, such as pipe repair efforts on very deep pipes that MoDOT does not have the equipment to perform. Federal participation in these types of contracts is addressed in paragraph 6.a.(2) of the March 12, 2012, FHWA memorandum, FHWA Policy on Agency Force Account Use (Appendix D) FHWA Policy on Agency Force Account Use (5060.1) – Resources Federal Highway Administration (dot.gov).

In 2025, more than $90 million in federal reimbursement was secured due to properly planned, executed, and tracked in-house maintenance efforts. Other pavement maintenance efforts are simply reactive, such as pothole patching, the bulk of which occurs after the winter season in March. Until recently, the one asset that MoDOT's maintenance forces are typically responsible for managing without any roadway contract assistance is the low-volume route pavements, which are roads with generally less than 400 vehicles per day.

Low volume routes

DRAFT

Typical asphalt pavement repair

DRAFT

MoDOT's bridges are a critical component of the transportation system. A failure in a structure can result in a long-term interruption to the traveling public and highway-based commerce. MoDOT's over 10,400 bridges include approximately 3,000 large culvert structures. Bridges are inspected every two years. They may be inspected more frequently if they are major bridges or if damage occurs or is identified. Bridge conditions are determined from these inspections, and preventive and major maintenance efforts are planned. Typically, around $12 million is spent on bridge maintenance for various activities. Preventive maintenance efforts include bridge flushing, bridge deck sealing, erosion prevention and channel clearing. Bridge flushing is the application of fresh water to the bridge surface and its supporting structure. This ensures the chemicals and other materials applied for winter operations are removed from the bridge structure and will not promote deterioration of the bridge. Typical spanning structure bridges are flushed at least annually. Over 10% of the bridges also have their decks sealed annually to help preserve the bridge. MoDOT's large culverts do not require flushing or sealing. In 2025, more than $7 million in federal reimbursement was secured due to properly planned, executed and tracked in-house bridge maintenance efforts.

Typical bridge sealing

DRAFT

MoDOT's emergency operations have a large impact on Missouri's system availability. This work includes incidents ranging from a single-vehicle accident response to a major earthquake or flood response and recovery. Many of these events and severe weather events, such as tornados that impact Missouri's transportation system, require a coordinated effort between MoDOT's emergency operations and the State Emergency Management Agency (SEMA). These coordinated efforts are led from MoDOT's central and regional emergency operations centers and the State Emergency Operations Center. Incidents like a major flood usually have state and federal disaster declarations, which allow the opportunity to recover some costs related to the response and recovery efforts. Maintenance staff members coordinate, track, and report the activities that qualify for federal reimbursement during these events and during the recovery efforts following them. The most common role of emergency operations is the response to vehicle incidents that occur every day on Missouri's roads. MoDOT emergency response vehicles in Missouri's urban areas respond to lane-blocking incidents to keep traffic moving and reduce secondary crashes. These emergency response vehicles assist stranded or stalled motorists when they are not responding to a lane-blocking incident. They usually set up the initial traffic control for incidents. For larger impact incidents, additional maintenance crews help establish traffic control.

MoDOT emergency response vehicle assisting a major vehicular incident

DRAFT

Roadside maintenance includes vegetation management, such as mowing, herbicide applications, plant growth regulator applications and brush clearing. MoDOT mows over 650,000 acres of right of way annually. MoDOT's mowing policy is driven by safety concerns. To ensure sight distance requirements are not impeded by vegetation growth, a 15-foot pass of mowing outside the shoulder is performed every year. To ensure trees do not grow in the recovery zone for run-off vehicles, a 30-foot-wide pass is mowed outside the shoulder every year. This occurs only during the last mowing of the season to minimize impacts to species such as pollinators. Trash collection through volunteer efforts, contractor and maintenance staff, results in the disposal of over a half a million bags of trash per year. For contracts with combined mowing and litter pick-up, the litter pick-up accounts for about 20% of the total cost.

Safety is MoDOT's top priority. Work on state right of ways may encounter homeless encampments, such as areas under bridges, overpasses, and near busy highways. This is not a safe place for the homeless to gather, as roadway construction and maintenance work can pose dangers. MoDOT strives to be sensitive to people seeking shelter on state right of way and works closely with local law enforcement and social services to clean up encampments when an encampment becomes a fire hazard or other threat to the traveling public or infrastructure. In 2025, MoDOT invested $13 million in litter management including encampment clean-up.

Traffic operations manage approximately 2,600 traffic signals, 270 dynamic message signs, 600 traffic cameras and traffic management centers in Kansas City, Springfield, and St. Louis. They also manage all of MoDOT's roadway striping and signing. Over 55,000 miles of striping is performed annually. All signs on MoDOT's transportation system are inventoried and inspected biennially. Sign maintenance and replacement costs in 2025 were over $17 million. In addition, signals regularly undergo preventive maintenance checks, and nearly $10 million in maintenance efforts are performed annually on signals and lighting.

Maintenance Outcomes

Many of the results from maintenance efforts can be found in MoDOT's performance measure publication known as TRACKER. Winter operations are measured by the time required to complete MoDOT's snow and ice removal efforts. Pavement maintenance is measured by the percent of good pavements on the minor route system. MoDOT's goal is to maintain the percent of pavements in good condition. Similarly, bridge maintenance is also measured by the percent of bridges in good condition. Both are pursued mostly with preventive maintenance treatments and occasionally heavy maintenance efforts.

Emergency and traffic operations have several measures driving their outcomes, such as clearance times for incidents, freeway travel times, and costs due to congestion. Roadside maintenance has Maintenance Division measures determining their efficiency and effectiveness. Unit prices of mowing and vegetation control are measured and compared to previous years as are overall roadside costs. The proper use of herbicides to reduce mowing and brush cutting costs are constantly reviewed and measured to ensure the most cost-effective total vegetation management practices are implemented at MoDOT.

DRAFT

Maintenance Plans

Some maintenance activities are reactive and unpredictable, such as pothole patching and winter operations, but most of the maintenance work is planned, executed, and tracked. These planned activities include striping, intersection marking, pavement repair or overlays, pavement surface treatments or surface seals, crack sealing, pipe culvert repair, bridge preventative maintenance, sign replacement and highway lighting. Signal maintenance is currently being evaluated for potential reimbursement. Additionally, MoDOT may seek federal reimbursement to supplement in-house resources with contract work for preventive maintenance minor services, including but not limited to slab-lifting, deep pipe installations, and bridge flushing. Maps depicting several of these planned activities for the calendar years 2026, 2027, and 2028 seasons for each district are on the following pages. Several of the expenditure categories from FY 2025 are shown on the maps as well. Due to the high availability of contract resources in the urban areas of Kansas City and St. Louis and the high traffic volumes, the work plans vary greatly from the rural districts. More maintenance and system operations activities in the urban areas are focused on emergency response, traffic signal operations, sweeping, mowing, litter pick-up and incident management rather than the typical roadway work in the rural districts. Traffic management centers are staffed 24 hours a day, seven days a week to meet the vast system operation needs. A great deal of urban operations is focused on emergency response compared to roadway work. The urban operations in Kansas City and St. Louis respond to over 50,000 incidents annually. Some urban roadway work is handled with contracted projects. Planned preventive maintenance work plans or preservation work performed by MoDOT forces are submitted annually for federal participation through the federal Preservation Program.
