# Project Overview

MoDOT is planning pavement improvements along I-44 in and near the communities of Rolla and St. James. These improvements include rebuilding interstate pavement, a bridge replacement, and interchange upgrades to improve drivability, safety and capacity along this section of I-44.

**What This Means for Drivers**

- A smoother, more consistent drive.
- Improved safety across the entire area.
- A modern interstate designed for better traffic flow.

## Project Area

The project includes portions of I-44 in and near Rolla and St. James, including westbound I-44 from Rolla to Doolittle, the Route V interchange and bridge, and the Route 68/8 interchange. The project also includes a section of I-44 through Rolla where improvements will be made in both the eastbound and westbound directions.
