

## Missouri Highways and Transportation Commission Policies

**Category:** STATEWIDE TRANSPORTATION IMPROVEMENT PROGRAM  
**Subcategory:** Long Range Transportation Plan

### LONG RANGE TRANSPORTATION PLAN

The Commission recognizes the importance of having a long-term view of the transportation system that identifies challenges and needs that, if addressed, will preserve the system through asset management, and enhance safety and economic development for Missouri. Further, federal regulations require state departments of transportation to develop and maintain long-range transportation plans. The Director is authorized to periodically develop a long-range transportation plan for the State of Missouri in accordance with federal regulations. Such development must include broad input from the citizens of Missouri as well as strategic partners in transportation. It must lay out a clear and concise vision that is supported through public involvement in the development of the document.

Effective Date: February 6, 2019

Supersedes Policy Dated: November 7, 2013

Last Reaffirmed:

Date of Origin: July 8, 1994
