Q13 – Q15: West Bridge Approach Feedback

- Respondents identified the following as preferred amenities to include:
  - Water Station
  - Restrooms
  - Betterment to lighting, benches, trash cans
  - Wayfinding (trail maps, signage, etc.)
  - Parking

- Respondents also expressed an interest in:
  - Prioritizing amenities usability over aesthetics.
  - Keeping native vegetation.
  - To consider increasing patrolling if there is added parking.
  - Street congestion and potential speeding
