Let Your Voice Be Heard on the Future of Interstate 70

Interstate 70 is the lifeblood of St. Charles County. The future of the interstate is as important to the region as almost anything else.

That's why MoDOT, in collaboration with the East-West Gateway Council of Governments and Metro, has begun a high-level study of what I-70 is today and what it can be in the future.

We want your input as well. Whether you use the interstate on a daily basis or once in a while you can take part in a study that asks what you envision the future of I-70 to be. The study covers everything from just west of the I-70/I-64 interchange in Wentzville to the Stan Musial Veterans

Memorial Bridge in downtown St. Louis City.

To provide your input and learn more about the study, go to www.envisioni70.com.

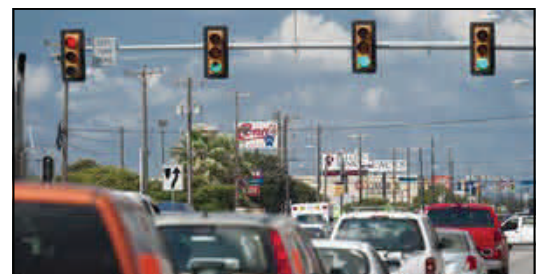

Have a Say in How Traffic Moves Around St. Charles

Gateway Green Light is looking for the public's input into how traffic moves around St. Charles County.

Take a few minutes and take GGL's survey that looks at issues from congestion to traffic signals to how you get your traffic information.

To take the survey, please

go to <https://www.surveymonkey.com/r/DKCZNZP>.
