MoDOT Names New St. Charles County Area Engineer

MoDOT is pleased to announce that the new area engineer for St. Charles County is Andy Tuerck. Andy grew up in St. Charles County, graduating from St. Charles High School in 1994, before earning his civil engineering degree from the University of Missouri-Columbia.

Andy came to work for MoDOT in 2000 as a construction inspector at the O'Fallon project office. He has spent the majority of his career working in St. Charles County, including serving as the lead construction inspector on projects along the Interstate 64 corridor at Route 94, Route N and Prospect Road. Andy spent three years working on the I-64 Daniel Boone Bridge design-build project before taking over the administration of district-wide maintenance and traffic contracts in 2015.

"I am thrilled to be leading MoDOT's transportation efforts in my home county and I look forward to working with the residents,

legislators and businesses in St. Charles County to continue to help the area grow and prosper," says Tuerck.

In his free time, Andy enjoys playing volleyball and is an avid photographer. He is also a big fan of the St. Louis Cardinals and Missouri Tigers. Andy, his wife Amy and their two-year-old son, Tyler, live in O'Fallon.

Andy, Tyler and Amy Tuerck

Andy will be transitioning into his new role over the next month. A public meet and greet will be scheduled in February to give everyone a chance to get to know Andy.
