RESPONSES TO REQUESTS FOR INFORMATION

NO. QUESTIONS / RESPONSES

1 Question: Are the Buy America and the typical Federal requirements still part of the project?

Response: Requirements of the Buy America Act are not specifically required for the project since it does not involve federal funding. However, the Missouri Domestic Products Procurement Act still requires all manufactured goods or commodities used or supplied in the performance of the contract to be manufactured, assembled or produced in the USA.

Bidder's should assume that all other references to federal regulations contained in the project documents are applicable to the project.
