

Section 4 – Highway and Bridge Construction Schedule

2025 – 2029 Highway and Bridge Construction Schedule RSMo 21.795.2(3)

The Highway and Bridge Construction Schedule identifies highway and bridge projects funded for right of way acquisition and/or construction during the five-year period between July 1, 2024, and June 30, 2029. Engineering costs for these projects are included as well. The construction contingency is applied to construction costs in the year the project is awarded. A four percent project growth factor compounded annually is applied to right of way and construction costs in program years 2, 3, 4 and 5. No inflation is applied to the Funding From Other Sources (FFOS) or Paybacks.

Projects on this schedule are funded and represent a commitment to implement an improvement, purchase right of way and/or construct. Projects on this schedule with right of way funding only represent a commitment to buy right of way, not a commitment to construct.

There are assumptions and requirements that must be met for project construction to begin. Some assumptions and requirements apply to all projects. Other assumptions and requirements vary depending upon the complexity of the project. These assumptions are as follows:

- The assumed funding levels from state and federal sources are reached.
- All environmental requirements and clearances are obtained.
- Any legal matters are resolved.
- Right of way acquisition and utility relocation occur as scheduled.
- Concurrence is obtained from the Metropolitan Planning Organizations (MPO) for projects in the Cape Girardeau, Columbia, Fayetteville-Springdale-Rogers AR-MO, Jefferson City, Joplin, Kansas City, St. Joseph, St. Louis, and Springfield areas. Projects in these areas are subject to the approval of the Transportation Improvement Program by the governing MPO.
