\$1.1 billion

THE NEEDS

THE OUTCOME

- \$4.7 billion of tiered road and bridge needs in new updated document
 - Three tiers
 - Tier one = could be accomplished in the current STIP horizon
- \$1 billion of multimodal needs

THE PROCESS

3

Prioritize needs – MoDOT district offices work with MPOs and RPCs to annually prioritize regional needs, collectively. This requires multiple planning entities within a MoDOT district to work collectively to create priorities among all needs identified, regardless of location. Safety, traffic volume, asset condition data are used to help select the highest priorities within a MoDOT district boundary.
