

Widen Route 94 from two lanes to four lanes with 4-foot shoulders for approximately 1.0 mile between Route D and the I-64 Interchange.

- EXISTING PAVEMENT
- PROPOSED PAVEMENT WIDENING
- PROPOSED SHOULDER

LEGEND

- EXISTING RIGHT-OF-WAY
- PROPOSED TEMPORARY CONSTRUCTION EASEMENT
- PROPOSED PERMANENT EASEMENT
- PROPOSED RIGHT-OF-WAY

To make these improvements, provide drainage and safe slopes, and maintain a utility corridor, additional right-of-way will be required, including a 0.80-acre section from the August A. Busch Conservation Area (Conservation Commission of Missouri) and a 0.13-acre section of Weldon Spring Conservation Area. MoDOT will begin Outreach to affected property owners soon.

Access will be maintained during construction, and no direct impacts are expected to the nearby Hamburg Trail and Busch Greenway. Travel delays and short-term detours may be encountered during construction.
