

US 61-67 in Jefferson County

MO 231 to Route Z

The Missouri Department of Transportation (MoDOT) is conducting a corridor study to evaluate potential traffic and safety improvements along approximately nine miles of Route 61-67 in Jefferson County, from MO 231 to Route Z. The corridor serves the communities of Arnold, Kimmswick, Barnhart, Imperial, and Pevely and is a critical regional route for residents, businesses, commuters, visitors, and freight traffic.

PROJECT OBJECTIVES

- Assess existing roadway conditions
- Identify opportunities to enhance roadway safety
- Support current and future transportation needs for all users
- Identify improvements to:
 - Address speeding drivers
 - Reduce crash frequency and severity
 - Enhance connectivity and mobility for pedestrians and bicycle users

SCHEDULE

This study will be developed through collaborative and inclusive engagement with the public. Several opportunities for engagement are planned.

SPRING 2026

Community advisory group meeting #1 to provide feedback on existing conditions

EARLY SUMMER 2026

Public Meeting #1: Understand Community Concerns

SUMMER 2026

Traffic & Safety Analysis

Draft Improvement Alternatives

FALL 2026

On-site Safety Demonstration

Community Advisory Group Meeting #2

WINTER 2026/2027

Draft Concept and Planning Reports

ROUTE 61-67 CRASH DATA (2020-2024)

10

Fatal Crashes

14

Serious Injury Crashes

105

Minor Injury Crashes

304

Property Damage Only
