STAY INVOLVED

What happens next?

- The project team will summarize all data, analysis, and community feedback in a planning report, which will guide future decisions on Gravois.
- A preferred design for the 2029 project will be developed and shared with the public.
- Engineering design for the 2029 project will begin. This design will turn concepts into detailed plans for how improvements will be built.
- Coordination will continue with the City of St. Louis, Metro, emergency services, and other partners throughout the design process.

JOIN US AGAIN IN SPRING 2027 FOR PUBLIC MEETING #4!

Whether you live, work, play, or travel on Gravois, your input will shape the recommended path to be presented in Spring 2027. Construction will still be two years away, so plans can be adjusted.

Visit the comment area, and tell us what you think!
