

# U.S. ROUTE 54 BRIDGE REHABILITATION PROJECT

over U.S. Route 50 and McCarty Street

## WHAT

Bridge rehabilitations to extend the life to two vital overpasses in Jefferson City.

## WHERE

0.6 miles between just south of the Missouri River and Missouri Boulevard.

## WHEN

Traffic will be shifted for only 90 days - total. Start date to be determined.

## TRAFFIC IMPACT

U.S. Route 54 narrowed to a single lane of traffic, each direction, for 0.6 miles.

## WORK TO BE DONE

Rehabilitation on the overpass bridges on U.S. Route 54 over U.S. Route 50 and McCarty Street includes:

- Joint repairs (pictured).
- Bridge deck repairs.
- New concrete overlay.

Due to the location of the joint and deck repairs - so close to the lane line - the work cannot be performed under traffic, and will require a traffic shift to keep U.S. Route 54 open during construction.

## WHAT'S COMING UP

For the first phase of work, westbound traffic will shift to a head-to-head configuration with eastbound traffic, while the westbound bridges are repaired.

All ramps are expected to remain open during Phase 1.

The contractor is working with our partners for the necessary clearances to begin work.

We hope to be able to announce a start date soon.
