|               | Bridge Standard Drawings: PSI_01-07 | Decision based on:  
- Request by fabricator.  
- Review of original research revealing coil ties have a minimal effect on positive connectivity.  
- Review of other DOT standards. |
|               | MicroStation Cells: NA | EPG 751.22, showing details of these coil ties, is being revised as part of an upcoming rewrite of the concrete diaphragm articles. |
|               | Std. Specifications: NA | Combined coil tie details for closed and open diaphragms on all PSI standard drawings. |
|               | Standard Plans: NA | |
|               | Bridge Special Provisions: NA | |

Follow links above for more information, or to view more details about this (or any) revision, use the Revision Index Database, located under Completed Revisions on Development’s Sharepoint page.

Instructions:

- Under Tables (left-hand side) double-click on RevisionRecords.
- Click on the link under the Effective Date to access documentation for the completed revision.
