Subject: Bridge Advertisement: BSP update (Paint Systems, etc.)
Date: Friday, August 14, 2026 10:56:18 AM

The [Bridge Special Provisions](#) have been updated as described below:

Implementation Statement: Effective immediately for projects not yet submitted to Design

(The Implementation Statement is a recommendation by the Development Section. The SPM is responsible for the level of implementation for any particular job.)

Revision Date	Items Revised	Description of Change
Aug. 2026	EPG: NA	104-BSP-01 Construction Requirements: - Updated an incorrect EPG section reference in guidance for section 2.9. - Changed “geotechnical report” to “foundation investigation report” in section 2.0 to be consistent with Geotechnical Section’s current verbiage. - Updated references of System G recoat to System L in sections 3.2 and 3.3 since System L is the current default for recoating (references to overcoating remain as System G).
	Bridge Standard Drawings: NA	
	MicroStation Cells: NA	
	Std. Specifications: NA	
	Standard Plans: NA	
	Bridge Special Provisions: 104; 712	712-BSP-09 Strengthening Existing Beams: - Updated references of System G recoat to System L in guidance and section 3.5 (references to overcoating remain as System G). 712-BSP-13 Existing Diaphragm Connection to Flange: - Updated reference of System G recoat to System L in section 3.2. - Removed references to metric measurements. 712-BSP-14 Structural Steel Protective Coating Requirements: - Updated all references of System G recoat to System L. - Updated all references of organic zinc primer to inorganic zinc primer which is required for System L. 712-BSP-16 Hinge Modification:

		• Added System L to title of spec book section in section 2.4.
