

## **Southeast Coalition for Roadway Safety Google Map Consent Form**

With the membership of the SE Coalition growing, we thought it would be a great idea to visually showcase our partners across the district. This is done on a Google Map and is located at the bottom of our website, [www.savemolives.com/se](http://www.savemolives.com/se). We will only publish information if the partner agrees to have their information listed. This feature will only be available for members who work for an organization/business that is also part of our coalition. For example, this feature will not be available to a retired individual who is not associated with a business/organization. A feature has been added to our new online applications in which the applicant must indicate if they consent to have their business/organization contact information shared online.

Please fill out the form below if your agency/business/organization agrees to have your contact information shown on our website. Email completed form to [ashley.metelski@modot.mo.gov](mailto:ashley.metelski@modot.mo.gov).
