

# MoDOT's BETA Workspace Configuration for ORD 10.09.00.91

Follow the steps below to activate MoDOT's workspace.

1. Open the zip file and place the **Beta\_MoDOT\_Consultant.cfg** file and the **Beta\_MoDOT\_Consultant** folder within the folder shown below:

**C:\ProgramData\Bentley\OpenRoads Designer CE\Configuration\Workspaces**

2. After placing the file and folder in the correct location you will see the Beta\_MoDOT\_Consultant workspace once you restart ORD. You will still need to create your workset.

## OpenRoads Designer CONNECT Edition
