

COMPANY PROFILE

Brungardt Honomichl & Company, P.A., (BHC) was founded in 1992 by three young entrepreneurs whom are still leading the company after 30 years.

In 2001, the corporation began to experience rapid change over the next six years. With careful strategic planning, they added public works expertise followed by development, traffic, stormwater, and construction management services. During that time of growth and transition, the company merged with Rhodes Surveyors, Inc., a land surveying company based in Kansas, forming BHC RHODES.

Continuing upward growth momentum following the merger, the company added LEED accredited expertise and a specialized 3D laser scanning surveying service, one of the first in the Kansas City area. By 2009, they expanded both Kansas office locations, opened a new office in Dodge City, Kansas, and acquired the assets of two local engineering and surveying firms. The acquisitions expanded their land records library covering counties in Kansas and Missouri, placing them in top position of the largest land records owned in the Kansas City metropolitan area. In 2022, they opened a new office in Wichita, Kansas.
