Jefferson City, MO 65109

*RE: Letter of Interest for trails and sidewalks  
Missouri's Local Program On-Call Services*

**Dear Ms. Buechter,**

Thank you for the opportunity to submit our letter of interest and qualifications for Missouri's Local Program On-Call Services. Baer Engineering, LLC is a civil engineering and land surveying firm with more than 35 years of experience supporting municipal and county governments, as well as commercial and industrial clients, across Missouri.

Over the years, our team has successfully delivered a wide range of infrastructure improvement projects— including residential, commercial, and industrial streets; bridge and culvert improvements; hiking and biking trails; multi-use paths and sidewalks; public park facilities; sewer and water systems; stormwater improvements; detention basins; parking lots; and complete site development for new construction.

**Our services typically include:**

- Land surveying, right-of-way and easement plats and descriptions
- Engineering analysis and design
- Construction drawings, bid specifications, and contractor procurement
- Construction supervision, inspection, testing, and project close-out

We have extensive experience working with MoDOT, including permitting and coordination efforts related to MoDOT right-of-way and transportation facilities. Our team understands the importance of clear communication, timely reviews, and smooth integration with MoDOT processes.

**Trail & Sidewalk Expertise**

Baer Engineering has designed and delivered numerous trail and sidewalk projects over the past three decades. Our completed projects include shared-use paths along state highway corridors, recreational trails within parks, safe-routes-to-school improvements, downtown beautification initiatives, and pedestrian enhancements in both urban and rural communities.

These projects frequently incorporate complex functional and aesthetic elements such as ADA-compliant design, crosswalks and pedestrian signals, lighting, landscaping, colored or stamped concrete, and amenities such as benches, trash receptacles, and restroom facilities.

**A Trusted, Pre-Qualified Partner**

Our firm is currently listed on MoDOT's Pre-Qualified Consultants List for Federal-Aid projects. We have worked extensively on projects funded through MoDOT Transportation Alternatives Program (TAP), MoDOT Enhancement, ARRA, and the Community Development Block Grant Program. We are committed to completing every project on time, within budget, and to the full satisfaction of our clients.

We would welcome the opportunity to continue supporting MoDOT and Missouri's Local Public Agencies on future projects. If you have any questions or need further information, please don't hesitate to contact us.

Sincerely,

**Timothy J. Baer**

## **GENERAL INFORMATION & TECHNICAL EXPERIENCE**

Baer Engineering, LLC specializes in civil engineering and land surveying, and has extensive experience with municipal and county government infrastructure improvement projects as well as commercial and industrial building developments. These projects have consisted of civil engineering, land surveying and construction supervision and inspection for residential, commercial, and industrial streets, bridge and culvert improvements, hiking & biking trails, multi-use shared use paths, sidewalks, public park restroom facilities, pavilions, baseball and softball fields and related park facilities, sewer mains, sewage pump stations, water mains, storm sewers, detention basins, parking lots and site development for new building construction. Our company is routinely responsible for land surveying, ALTA/NSPS Land Title Surveys, preparation of right-of-way and easement plats and descriptions, engineering, design, preparation of the construction drawings, bid specifications, bidding, awarding of the construction contracts, and construction supervision and inspection services for these types of projects. In addition, we have successfully and efficiently engineered and supervised several construction projects funded through various grant programs such as Missouri Department of Transportation Enhancement, Transportation Alternatives Program (TAP), and ARRA funded projects and Community Development Block Grant Program projects.

Baer Engineering, LLC has been performing engineering and surveying services, construction supervision and inspection services for municipal and county government projects for over 35 years. Our experience includes preliminary design and preparation of final construction drawings, specifications, and project manual, surveying and preparation of right-of way drawings, ALTA/NSPS Land Title Surveys, easement plats and descriptions, geotechnical investigations, coordination with various utility companies and permitting agencies, and hydraulic analysis for storm water related projects. We are fully capable of managing, documenting, and inspecting projects of various scopes and size. Our experience has involved contract administration, reviewing shop drawings and material certifications, reviewing and processing pay requests and change orders, and ensuring proper progress of the contractor by identifying, coordinating, and resolving any potential issues to the progress and quality of the work. We routinely perform on-site construction observation and inspection, including sampling and testing materials, traffic control and public safety oversight, and working with all affected constituents, property owners, and/or concerned citizens. We strive to ensure the project is completed and closed out to the satisfaction of the client, on-time, and within the budget constraints.

Our firm is listed on MoDOT's current List of Pre-Qualified Consultants for Federal-aid projects, and has experience with MoDOT LPA, MoDOT TAP, ARRA, CDBG, and EDA funded projects. We are also very familiar with the MoDOT permitting and design departments and have extensive experience with coordinating the various aspects of projects that impact MoDOT Right of Way and transportation facilities.

## **FAMILIARITY & CAPABILITY TO PERFORM THE WORK**

Baer Engineering, LLC is fully staffed and ready to perform the necessary surveying and engineering services for various types of Local Public Agency projects. We are experienced and fully capable of managing numerous projects concurrently and able to dedicate the necessary resources to a specific project to meet the timeline of the client. Our staff includes many years of experience that we will rely upon to complete projects in a cost-effective manner.

We have successfully and efficiently engineered and supervised several construction projects funded both by local funding and through various grant programs such as Missouri Department of Transportation Enhancement, Transportation Alternatives Program (TAP), and ARRA funded projects and Community Development Block Grant Program projects.

## **ACCESSIBILITY**

The office of Baer Engineering, LLC is located at 313 N. Jackson Street in Perryville, Missouri. We have successfully surveyed, designed, and facilitated the construction of many projects for municipalities and county governments within the surrounding areas.

  - Experience: Baer Engineering, LLC, 1993-present
  - Registration: Professional Engineer, Missouri  
Professional Land Surveyor, Missouri
  - Affiliations: American Society of Civil Engineers (ASCE)  
Missouri Society of Professional Surveyors (MSPS)  
Elected as County Surveyor, Perry County, Missouri
  - Education: University of Missouri – Rolla, B.S. Civil Engineering, 1993
  
- **David Schumer, P.L.S. ~ Survey Party Chief & Senior Engineering Technician**
  - Experience: Baer Engineering, LLC, 1982-1985, 1990-present  
St. Louis County Surveying & Engineering, 1985-1990
  - Registration: Professional Land Surveyor, Missouri
  - Affiliations: Missouri Society of Professional Surveyors (MSPS)
  - Education: Linn Technical School, Graduate, 1982
  
- **Adam Tiches, P.E. ~ Project Engineer**
  - Experience: Baer Engineering, LLC, 2006-present
  - Registration: Professional Engineer, Missouri
  - Affiliations: American Society of Civil Engineers (ASCE)
  - Education: University of Missouri – Rolla, B.S. Civil Engineering, 2006  
University of Missouri – Rolla, B.S. Arch. Engineering, 2006
  
- **Kyle Bierk, E.I. ~ Design Engineer & Construction Inspector**
  - Experience: Baer Engineering, LLC, 1998-present
  - Registration: Engineer Intern, Missouri
  - Certifications: OSHA 10 Hour  
MoDOT Concrete Field/Advanced Conc., Conc. Field & Strength, Field Density
  - Education: University of Missouri – Columbia, B.S. Civil Engineering, 1998
  
- **Luke Miget, P.E. ~ Project Engineer**
  - Experience: Baer Engineering, LLC, 2017-present  
Penzel Construction Company, 2004-2017
  - Registration: Professional Engineer, Missouri
  - Affiliations: American Society of Civil Engineers (ASCE)
  - Education: University of Missouri – Rolla, B.S. Civil Engineering, 2004
  
- **Isaac Baer, E.I. ~ Design Engineer & Construction Inspector**
  - Experience: Baer Engineering, LLC, May 2021-present
  - Registration: Engineer Intern, Missouri,  
Land Surveying Intern, Missouri
  - Affiliations: 1<sup>st</sup> Lieutenant, United States Army Reserve
  - Education: Missouri University of Science & Technology, B.S. Civil Engineering, 2021

## PAST RECORD OF PERFORMANCE

Baer Engineering, LLC has a history of performing services which meet the needs and goals of the client. It has always been our priority to control costs within the client's budget for both the design and construction phases, and constantly communicate design options to make efficient use of the available funding. Our goal is to provide the client with quality work, utilizing our professional expertise and widely accepted design methods, surveying equipment, and computer software. Our company also strives to complete the design work in a manner that will meet the client's overall project timeline.

Below is a listing of projects we have completed that demonstrate we have the necessary experience and competence to complete various types of municipal improvement projects, including federal projects that are compliant with federal law, while meeting the needs of the client:

- **Perryville Boulevard Shared Use Path ~ Phase IV**
  - Project No.: MoDOT TAP-9900 (148)
  - Client: City of Perryville, Missouri
  - Date: Under Contract To Be Constructed in 2026
  - Description: Design and construction of 830 linear feet of 10 feet wide concrete shared use path, 240 linear feet of 5 feet wide concrete sidewalk, curb ramps, concrete pavement with integral curb, segmental retaining wall, excavation and grading.
  
- **Star Street Sidewalk and Shared Use Path**
  - Project No.: MoDOT TAP-9900 (149)
  - Client: City of Perryville, Missouri
  - Date: Constructed in 2025
  - Description: Design and construction of 520 linear feet of 10 feet wide concrete shared use path, 1,045 linear feet of 5 feet wide concrete sidewalks, curb ramps, concrete stairs and ADA switchback ramp with handrails, excavation and grading, stormwater piping and landscaping.
  
- **Perryville Boulevard Shared Use Path ~ Phase III**
  - Project No.: MoDOT TAP-5000 (010)
  - Client: City of Perryville, Missouri
  - Date: Constructed in 2024
  - Description: Design and construction of 1,050 linear feet of 10 feet wide concrete shared use path, curb ramps, driveways, curb and gutter, excavation and grading, and stormwater inlets and piping.

- **Perryville Boulevard Shared Use Path ~ Phase II**
  - Project No.: MoDOT TAP-5000 (009)
  - Client: City of Perryville, Missouri
  - Date: To be Constructed in 2023
  - Description: Design and construction of 3,900 linear feet of 10 feet wide concrete shared use path, curb ramps, concrete retaining wall, excavation and grading, and stormwater piping.
  
- **Perryville Boulevard Shared Use Path – Perryville**
  - Project No: MoDOT TAP 5000 (008)
  - Client: City of Perryville, Missouri
  - Date: Constructed in 2020
  - Description: Design and construction of 2,200 linear feet of 10 feet wide concrete shared use path, curb ramps, excavation and grading, stormwater piping, concrete box culvert extension, and signalized pedestrian crossing.
  
- **Fredericktown Sports Complex – Fredericktown**
  - Client: City of Fredericktown, Missouri
  - Date: Constructed in 2018 and 2019
  - Description: Earth moving, excavation and grading for construction of five baseball/softball fields, water main extension, sewer main extension, parking lot construction, concrete sidewalk and trail, finish work for three ball fields, including fencing, dugouts, seating areas, infield mix, turf and irrigation.
  
- **Ste. Genevieve River Beautification & Hiking Trail – Ste. Genevieve**
  - Project No.: Transportation Enhancement Program STP-9900(025)
  - Client: City of Ste. Genevieve, Missouri
  - Date: Constructed in 2016
  - Description: Construction inspection services for approximately 5,000 linear feet of concrete sidewalks, curb ramps and stormwater inlets and piping.
  
- **Sidewalk Enhancement Program – Perryville**
  - Project No.: Transportation Enhancement Program ARRA-ES10(007)
  - Client: City of Perryville, Missouri
  - Date: Completed in 2010
  - Description: Concrete sidewalks along existing streets, curb ramps, crosswalks, segmental retaining walls, concrete driveway reconstruction to meet ADA requirements, easement surveys & acquisitions.
  
- **Town Square Enhancements – Fredericktown**
  - Project No.: Transportation Enhancement Program STP-9900(031)
  - Client: City of Fredericktown, Missouri
  - Date: Constructed in 2008
  - Description: Concrete curbs and gutters, concrete sidewalks (including stamped and colored concrete), curb ramps, retaining wall, landscaping, lighting, and seating areas around the Madison County Courthouse Square.
