Farmington Fire Department

FEB 6-9

Perryville Fire Department

Attendees must be at least 18 years old at the time the course starts. The standardized child passenger safety technician (CPST) certification course is usually 3-4 days long and combines classroom instruction, hands-on work with car seats and vehicles, and a community safety seat checkup. Attendance is required for the entire course. Attendance does NOT guarantee a registrant will pass the class. Registration is limited, so act quickly! All attendees must pre-register and pay 2 weeks before class.

To register, please visit: cert.safekids.org
