REV. 1 – ADDENDUM NO. 1
Sealed Digitally Sept. 17, 2020
ADDENDUM NO. 1
CONSTRUCT TAXILANE, HANGARS

This addendum is herewith a part of the Contract Documents of the above issued project, and is issued to amend and supplement the August 25, 2020 construction plan drawings, proposal, contract documents and specifications.

The CONTRACT DOCUMENTS are revised as follows:

SECTION 1 – NOTICE TO BIDDERS, Contract Time

CLARIFICATION: There is no intent to include the lead time for hangar materials wholly within the 130 calendar days available to complete the work. It would be anticipated that a materials procurement notice to proceed be issued shortly after award. A separate notice to proceed for construction would be issued based on the anticipated hangar delivery date, with input from the successful contractor, so that site work could commence at a pre-scheduled date to be ready for hangar delivery. If the project commenced earlier than optimal to complete site work ahead of poor winter weather, a suspension of calendar days would be granted while waiting for hangar materials delivery for final building erection.

SECTION 3 – GENERAL PROVISIONS

REVISE: the first line of Section 100 CONTRACTOR QUALITY CONTROL PROGRAM to read:

"NOTE: A formal quality control plan is not required for the project, however, the guidelines outlined below are included to assist the contractor in delivering quality materials and installation."

CLARIFICATION: The requirements of Section 100 are not intended to be enforced to the letter, but rather included to give the contractor an outline of how to provide quality materials and a finished product.

SECTION 5 – TECHNICAL SPECIFICATIONS

ITEM 13000 – T-HANGAR BUILDINGS

CLARIFICATION: All exterior panels, including the roof, shall be finished with a 1 mil PVDF/Kynar 500/Hylar 500 (or Siliconized Polyester, if desired by the owner).

REVISE: Section 1.02 DESIGN, B. to add, “A future hangar, as shown in the revised plan sheets, is anticipated to be attached (no gap) to the northwest face of the proposed 4-unit T-hangar building. Structural steel impacted by this future hangar installation shall be designed for the reactions from the future hangar. The future hangar is anticipated to be a single FulFab BC48, Erect-A-Tube RG41-48 or equal.”

REVISE: Section 1.09 H. 1), sentence six, to read, “Doors and frames shall be painted a standard white color.”

The CONSTRUCTION PLANS are revised as follows:

Sheets 2 of 36, SUMMARY OF QUANTITIES

REVISE: QUANTITIES table, item 27 to read, “48’x41’ BOX HANGAR”

Sheets 24 of 36, PROPOSED TYPICAL SECTIONS

DELETE: This sheet.
ADD: Attached sheet.

CLARIFICATION: This sheet is clarifying the minimum hangar slab and aggregate base thickness, as well as the incidental nature of that work to the hangar pay items.
Sheets 25 of 36, HANGAR FLOOR PLAN AND ELEVATIONS

DELETE: This sheet.
ADD: Attached sheet.

CLARIFICATION: This sheet now shows the future box hangar to be attached at the northwest end of the T-hangar buildings. Hangar complex signage is also shown.

Sheets 26 of 36, HANGAR DETAILS

DELETE: This sheet.
ADD: Attached sheet.

CLARIFICATION: This sheet is clarifying the minimum hangar slab and aggregate base thickness, as well as the incidental nature of that work to the hangar pay items.
REVISED CONSTRUCTION PLAN SHEETS
ACKNOWLEDGEMENT

Each bidder shall acknowledge receipt of this Addendum No. 1 of CONSTRUCT TAXILANE, HANGARS by his/her signature affixed hereto, and shall attach this Addendum to the original bid.
