

Tool and Equipment First-Round Winner

Innovations Challenge

April 2018

Prepared by Transportation Planning
Missouri Department of Transportation

Curlex Unroller

Description

The Curlex Unroller tool allows Curlex to be placed in less than half the time of unrolling it by hand. It keeps Curlex in a straighter line and tighter to the ground which keeps it from rolling downhill.

Benefit

Using the Curlex Unroller is safer than unrolling Curlex by hand because employees do not need to bend down to do the job. It is especially safe on uneven terrain since employees do not have to walk on uneven ground. It also saves time and simplifies work.

Materials and Labor

\$26.45 in materials costs with 2 hours of staff time. See parts list and diagram on back page.

For More Information Contact:

Robert Deters at Robert.Deters@modot.mo.gov or (573) 248-4839. Northeast Canton building.
