

Designing Pedestrian Facilities for Accessibility (DPFA)

May 6 - 7, 2019 ~ 8 a.m. - 5 p.m.

**Harry S. Truman Building, 301 W. High St.
Jefferson City, MO 65102**

This two-day course was designed to ensure that pedestrian facilities and access routes are properly constructed and maintained for individuals of all abilities. This course also focuses on proper design and maintenance of pedestrian access routes in new construction or when existing facilities are altered. Participants are engaged through a power point presentation, discussion, video demonstrations, small group problem identification, and features a hands-on outdoor wheelchair, low-vision goggles, white cane exercise. This training was developed to provide information for those involved in the design and maintenance of pedestrian facilities, and for those individuals that ensure the proper adherence to all applicable laws and guidelines.

***Instructor: Patrick E. Gomez, FHWA Resource Center
Civil Rights Specialist***

To Register:

- You must create an account through MoDOTu by [Clicking Here](#).
- If you have already signed up for a MoDOTu account, [Click Here](#) to sign in with your username and password.
