RIGHT or LEFT Lane Closed or MERGE	RIGHT or LEFT Lane CLOSED or MERGE SIGN: 149.5
Right or Left Lane Closed Ahead	RIGHT or LEFT Lane CLOSED AHEAD: 149.2

### Description and Benefit

This innovation is an excel sheet that lays out work zones with a live link to the correct TA that needs to be used. This innovation saves time and money by reducing and limiting the number of trips to work locations by not having to physically lay out the work zone before the project starts. It simplifies our work because of its ease of use. This innovation improves safety from the amount of time you don't have to physically be out on the road.
