

Donna's Announcement Page!

Last Update: 09/30/2021

- **09/30/2021:**

1. While we wait for the contract to be completed with the new location for Superpave, HMA, TSR and Binder Ignition certification program, MoDOT Central Laboratory will be offering small groups of recertification testing for Superpave, HMA, and TSR. Please check the calendar for date and time, fill out "Application for Courses at MoDOT".
2. Certification season with State Technical College will begin early this year starting in November; Calendar and registration coming soon.
3. We will continue to offer certification extensions for Superpave, HMA, TSR and Binder Ignition until Feb 1st 2022.
4. All renewals with State Technical College will be Virtual testing from this point on.
5. Changes in pricing for AT will go up due to adding Specific Gravities T84 and T85. Changes in pricing for renewals will go down, see Figure 2 on the MoDOT web.
6. Absorption has been removed from AT.
7. Absorption and Aggregate Specific Gravities will no longer be stand alone certifications. Both have been removed from our program.
8. Manuals for recertification (renewals) can be printed off the MoDOT web-site, or you can contact Donna Hoeller at donna.hoeller@modot.mo.gov to make arrangements to pick up manuals from a MoDOT office near you.
9. There will no longer be Renewals on the road beginning 2022.
10. Superpave, HMA, Binder Ignition, and TSR certifications will be extended to Feb 1st 2022.

- **08/11/2021:**

1. TCP will be changing the title of the manual Concrete Field/Advanced Concrete to **Concrete Field (CF)**. Advanced Concrete will be included in the same manual with Concrete Field and exams will also be consolidated. Having (CF/AC) = (CF) At State Technical College this class will seem more like one class instead of two separate classes. The exam will be only one exam not two. Class will still be two days in length.
2. This change will be seen on TCP certification letters, reports and cards starting today and eventually on more items such as Manuals and Exams.
3. Certification season will begin in the Fall.
