Revised – 2016
**72 - HOUR PERMITS**

A 72-Hour Permit can be issued for Reciprocity, Fuel, and/or Authority Sticker Trip permits. Permits are necessary for carriers based in another jurisdiction when traveling into Missouri who are not properly registered for Missouri. This permit allows interstate and intrastate movements. Seventy two hour permits are vehicle specific. The permit cost is determined by permit type(s) selected. Permits are valid for 72 hours/3 days. Missouri currently has no limitation on how many permits can be purchased before apportioned license or IFTA license must be purchased.

Note: Permit may be issued when an out of state carrier’s load is *non reducible* and is heavier than their weighted plate. If the load exceeds 80,000 lbs an Oversized/Overweight permit is required.

**Who is required to have an OPA Trip permit?**

- A carrier making point to point movements in the state of Missouri (for hire), is required to have Missouri Intrastate Operating Authority in active status. **An OPA trip permit does not take the place of required Missouri Operating Authority; it takes the place of the decal, only.** If carrier has current UCR (Unified Carrier Registration), decal or permit is NOT required.
- An OPA trip permit would be needed when a unit does not have the required decal, but the carrier does have existing Missouri Intrastate Operating Authority.
- When a carrier makes **Interstate** moves only, only UCR is required, no permit or decal is required.

**When is an IRP/IFTA permit required?**

- Carrier operates in two or more jurisdictions;
- The power unit licensing weight is 26,001 lbs., or higher;
- The power unit has more than two axles regardless of licensed weight;
- The power unit is used in combination and the said combination is 26,001 lbs. or higher; or
- The power unit performs commercial **intrastate** movements in Missouri, regardless of licensed weight.

**Exempt Vehicles:**

- Farm registered vehicles *(IRP ONLY)* – Used to transport agricultural products produced or property purchased by the owner for use on his/her farm.
- Commercial vehicles – Traveling entirely intrastate (within a jurisdiction) - such as those used for city pickup and delivery vehicle(s) or vehicles that display restrictive plates, which have geographic area, mileage or commodity restrictions.
- Recreational vehicles – such as motor homes, pickup trucks with attached campers, and buses when used exclusively for personal pleasure by an individual. In order to qualify as a recreational vehicle, the vehicle shall not be used in connection with any business endeavor.
- Government owned vehicles *(IRP ONLY)*.
- Crane/Special Mobile Equipment: If it is a true crane/special mobile equipment (equipment that is not generally plated) no permits are required. If it is a truck (plated unit) with a crane lift (i.e. hauling bricks, lumber, steel, etc...) than it is required to have IRP/IFTA license/permits.

*Note: Vehicles or combinations having a gross vehicle weight of 26,000 pounds or 11,793.401 kilograms or less and buses used in transportation of chartered parties may be registered at the option of the registrant.*
