Board of Directors and Citizens of the State of Missouri
Missouri Transportation Finance Corporation
Jefferson City, Missouri

The Missouri Transportation Finance Corporation (MTFC) is pleased to submit the Annual Comprehensive Financial Report (ACFR) of the MTFC for the fiscal years ended June 30, 2025 and 2024.

The Transportation Equity Act of the Twenty-first Century (TEA-21) Cooperative Agreement between the Federal Highway Administration, the Federal Transit Administration and the Federal Railroad Administration, agencies of the United States Department of Transportation, the Missouri Highways and Transportation Commission (MHTC) and the MTFC requires the MTFC to have an annual independent financial and compliance audit. In fulfillment of this requirement, the MTFC prepared this ACFR and contracted with the independent auditing firm of Williams-Keepers LLC to audit the financial statements.

Generally accepted accounting principles (GAAP) require management to provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The MTFC's MD&A can be found on page 21, immediately following the report of the independent auditors.

Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the MTFC. To the best of our knowledge and belief, this financial report is complete and reliable in all material respects and is reported in a manner designed to present fairly the MTFC's net position and changes in net position. All disclosures necessary to enable the reader to gain an understanding of the MTFC's financial activities have been included.

Profile of the MTFC

The MTFC, incorporated in August 1996 as a not-for-profit corporation, derived its authority to form and operate from the TEA-21. The Cooperative Agreement provided the original capitalization for the entity, a mixture of federal and state funds, to administer a program focused on funding Missouri highway and transportation projects by offering financing options such as low interest direct loans to private and public entities. An eight-member Board of Directors administers the MTFC and is responsible for the direction of the entity, including approval of all loans.

Internal Control

The MTFC assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements. The MTFC believes the corporation's internal control provides reasonable assurance that the financial statements are free from any material misstatement.

Economic Outlook

On November 15, 2021, the President signed into law the Infrastructure Investment and Jobs Act (IIJA), also referred to as the Bipartisan Infrastructure Law (BIL), which authorizes the federal surface transportation programs for highways, highway safety, transit and rail for the five-year period from 2022 through 2026. The IIJA is funded with receipts into the Highway Trust Fund, transfers from the General Fund and additional funding offsets. The IIJA is a five-year legislation to improve the Nation's surface transportation infrastructure, including roads, bridges, transit systems, and rail transportation network. The act reforms and strengthens transportation programs, refocuses on national priorities, provides long-term funding certainty and more flexibility for states and local governments, streamlines project approval processes, and maintains a strong commitment to safety. This bill is set to expire at the end of federal fiscal year 2026. Congress needs to continue to work on a new authorization bill and on a long-term source of transportation revenue to support the nation's infrastructure needs. For the first four years of IIJA, Missouri's annual apportionments have increased approximately 28 percent compared to the last year of the prior transportation act, the Fixing America's Surface Transportation (FAST) Act.

The Missouri General Assembly passed Senate Bill 262 during the 2021 legislative session. In July 2021, the Governor signed it into law. This legislation increases the state motor fuel tax beginning with 2.5 cents in October 2021 and increasing by 2.5 cents on July 1 each fiscal year until reaching an additional 12.5 cents per gallon on July 1, 2025. In addition, the legislation increases the fees for alternative fuel decals in effect on August 28, 2021, by 20 percent each fiscal year for a period of five years. Part of this increase in revenue is shared with cities and counties.

August 29, 2025

Board of Directors and Citizens of the State of Missouri

Page 2

From fiscal year 2024 to 2025, state collections designated for transportation increased from \$1,490.0 million to \$1,585.4 million, or 6.4 percent. Motor fuel taxes of \$786.5 million were collected in fiscal year 2025, which is an increase of 8.6 percent compared to fiscal year 2024 and includes additional taxes collected since October 2021, as enacted by Senate Bill 262 by the Missouri General Assembly. Motor vehicle sales taxes increased by 5.2 percent and motor vehicle and driver licensing fees increased 3.0 percent from fiscal year 2024 to fiscal year 2025.

Future of MTFC

The MTFC's Cost Share Program, which sets aside monies for which local entities can compete to accomplish transportation projects that are a local priority, allows local priority projects to be completed with a mixture of local funds and monies from the Cost Share Program. The Cost Share Committee meets approximately three times a year to select Cost Share projects and can meet as needed if an investment in critical infrastructure warrants. After the reinstatement of the Cost Share Program in 2018, the expectation was the demand for the program would return to the same levels as before it was suspended in 2014. Because of the availability of other funding, like the American Rescue Plan Act funds, many entities have not been interested in financing. As other sources of funds become scarcer, we anticipate a higher demand for the Cost Share Program. As the Cost Share Program becomes committed and the availability of funds is pushed to future years, the expectation is the number of loan applications will increase. For fiscal year 2025, two loan requests from one entity were received compared to one loan request in fiscal year 2024. The low number of loans can be attributed to the availability of funds provided by the federal government for COVID relief and by reductions in the workforce to complete projects.

Historically, the MTFC's net position has increased primarily as a result of income derived from interest earned on loans and investments. The MTFC's net position increased in both fiscal years 2025 and 2024. The reasons for the increase were because of interest income on loans and interest income on deposits. We expect loan activity to increase in the future. As loan activity increases, we anticipate continued net position growth in the future; however, the amount will be dictated by interest rates and fluctuations in the market value of investments.

Initiatives

MoDOT's Financial Services staff is responsible for educating stakeholders about MTFC loans as a transportation project funding option. They accomplish this activity by:

- Maintaining information about the MTFC on the Partnership Development Website;
- Attending and presenting at meetings throughout the state to educate partners; and
- Preparing newsletters to communicate activity to potential customers.

The MTFC made no updates to policies that significantly impacted the financial statements for the fiscal year ended June 30, 2025.

Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the MTFC for its ACFR for the fiscal year ended June 30, 2024. This was the seventeenth consecutive year the MTFC received this prestigious award. To be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized ACFR. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year. We believe that our current ACFR continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for a certificate.

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
Missouri Transportation Finance Corporation

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the business-type activities of the Missouri Transportation Finance Corporation (the Corporation), a component unit of the State of Missouri, as of and for the years ended June 30, 2025 and 2024, and the related notes to the financial statements, which collectively comprise the Corporation's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of the Corporation as of June 30, 2025 and 2024, and the respective changes in financial position and, where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Corporation and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Corporation's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements are free from material misstatement, whether due to fraud or error, and to issue an Auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatements of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an (or update our) understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Corporation's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Corporation's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 21 through 24 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Management is responsible for the other information included in the Annual Comprehensive Financial Report (ACFR). The other information comprises the introductory and statistical sections but does not include the basic financial statements and our Auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon. In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material consistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated August 29, 2025, on our consideration of the Corporation's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Corporation's internal control over financial reporting and compliance.

Management's Discussion and Analysis

This page intentionally left blank

Management's Discussion and Analysis

The following section of our annual financial report presents our discussion and analysis of the MTFC's financial performance during the year. This section is intended to provide an objective and easily readable analysis of the MTFC's financial activities based on currently known facts, decisions and conditions. Readers should consider the information presented here in conjunction with the information presented in the financial statements and notes, which follow this section

FINANCIAL HIGHLIGHTS

- During fiscal year 2025, the MTFC approved two loans totaling \$5.5 million. By comparison, in fiscal year 2024, the MTFC approved one loan totaling \$639,999. In fiscal year 2023, the MTFC approved no loans. With the availability of COVID relief monies, many communities are using that funding source to pay for transportation infrastructure projects. Since funding has been available, local entities' demand for financing has been reduced. MTFC's Cost Share Program sets aside monies for which local entities can compete to accomplish transportation projects that are a local priority. While the two loans approved in fiscal year 2025 were not related to the Cost Share Program, the loan approved in fiscal year 2024 was to finance the local entities' portion of a Cost Share Program project.
- Loan disbursements totaling \$25.1 million were made to three entities in fiscal year 2025 with some entities having multiple disbursements for the same or for different loans. In fiscal year 2024, loan disbursements totaling \$26.8 million were made to two entities. In fiscal year 2023, loan disbursements totaling \$25.6 million were made to two entities.
- In fiscal year 2025, one entity declined the second disbursement of an approved loan and the entity had previously paid off the first disbursement. In fiscal years 2024 and 2023, no entities declined their approved loans and no entities requested loan reductions.
- Operating income increased by \$70,000 from fiscal year 2024 to 2025 and increased by \$72,000 from fiscal year 2023 to 2024. For both fiscal years 2025 and 2024, the increase in operating income is related to higher revenues from interest income on loans as the loans receivable balance increases.
- Total nonoperating revenues (expenses) decreased \$518,000, 17.6 percent, from fiscal year 2024 to 2025 due to a decrease in interest income on deposits. From fiscal year 2023 to 2024, total nonoperating revenues (expenses) increased \$1.3 million, 79.0 percent, due to an increase in interest income on deposits and the market value of investments.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the MTFC's basic financial statements, which are comprised of two components: 1) financial statements and 2) notes to the financial statements.

Financial Statements report information about the MTFC through accounting methods used by private-sector companies, the economic resources measurement focus and accrual basis of accounting. These statements provide short- and long-term information about the financial status of the MTFC.

The *Statements of Net Position* include all MTFC assets and liabilities with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the MTFC is improving or deteriorating.

The *Statements of Revenues, Expenses and Changes in Net Position* account for all revenues and expenses of the MTFC as soon as the event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods.

The *Statements of Cash Flows* provide readers the sources and uses of cash and the changes in the cash balance during the year.

Notes to the Financial Statements provide additional information and discuss particular accounts in more detail. The Notes are essential to a full understanding of the data provided in the financial statements.

FINANCIAL ANALYSIS

MTFC Net Position June 30, 2025, 2024 and 2023 (dollars in thousands)

	<u>2025</u>	<u>2024</u>	<u>2023</u>
Assets			
Cash and investments	\$ 57,647	\$ 57,615	\$ 65,643
Interest receivable on loans and investments	690	603	507
Loans receivable, net	<u>65,144</u>	<u>62,018</u>	<u>50,383</u>
Total assets	<u>123,481</u>	<u>120,236</u>	<u>116,533</u>
Liabilities			
Accounts payable	<u>6</u>	<u>12</u>	<u>8</u>
Net Position			
Restricted for lending purposes	88,376	85,958	83,022
Unrestricted net position	<u>35,099</u>	<u>34,266</u>	<u>33,503</u>
Total net position	<u>\$123,475</u>	<u>\$120,224</u>	<u>\$116,525</u>

Assets

Cash and investments increased \$32,000 from June 30, 2024 to June 30, 2025, and decreased \$8.0 million between June 30, 2023 and June 30, 2024. At June 30, 2025, net loans receivable was \$3.1 million more than at June 30, 2024. Net loans receivable at June 30, 2024 were \$11.6 million more than the prior year. In fiscal year 2025, loan disbursements of \$25.1 million exceeded loan repayments of \$21.9 million. In fiscal year 2024, loan disbursements of \$26.8 million exceeded loan repayments of \$15.2 million.

Net Position

Net position increased \$3.3 million in fiscal year 2025 and increased \$3.7 million in fiscal year 2024. The primary reason for the net position increase at June 30, 2025 is the increase in interest income on loans and the increase in earnings on investments. As more of the infrastructure bank's funds are disbursed for loans, the income on loans will continue to increase. The components of earnings on investments include interest income on deposits and the market value of investment adjustment. Income on deposits totaled \$885,801 in fiscal year 2025, which was a decrease of \$641,919 from fiscal year 2024. Market value is the amount that securities can be sold in the market on any given day. As the national market has improved, the market value of investment adjustment has increased in fiscal year 2025. At June 30, 2024, net position increased \$3.7 million as a result of the increase in interest income on loans and the increase in earnings on investments. Similar to fiscal year 2025, the components of earnings on investments also increased in fiscal year 2024. Net position restricted for lending purposes includes federal grants received to capitalize the MTFC, the required state transportation funding match and the accumulated net investment earnings (loss).

MTFC Changes in Net Position
Years ended June 30, 2025, 2024 and 2023
(dollars in thousands)

	<u>2025</u>	<u>2024</u>	<u>2023</u>
Operating Revenues			
Interest income on loans	\$ 915	\$ 855	\$ 789
Other income	8	1	---
Total operating revenues	<u>923</u>	<u>856</u>	<u>789</u>
Operating Expenses			
Administrative fees	74	79	86
Other operating expenses	16	14	12
Total operating expenses	<u>90</u>	<u>93</u>	<u>98</u>
Operating Income	<u>833</u>	<u>763</u>	<u>691</u>
Nonoperating Revenues (Expenses)			
Investment earnings	2,449	2,961	1,673
Nonoperating expenses	(31)	(25)	(33)
Total nonoperating revenues (expenses)	<u>2,418</u>	<u>2,936</u>	<u>1,640</u>
Change in net position	3,251	3,699	2,331
Net position at beginning of year	120,224	116,525	114,194
Net position at end of year	<u>\$ 123,475</u>	<u>\$ 120,224</u>	<u>\$ 116,525</u>

Revenues

In fiscal years 2025, 2024 and 2023, the primary source of income was interest income on loans and earnings on investments. In fiscal year 2025, interest income on loans, recognized as operating revenue, increased \$60,000 compared to fiscal year 2024 and increased \$66,000 in fiscal year 2024 compared to fiscal year 2023. The increase can be attributed to higher loans receivable balances in fiscal years 2025 and 2024. As the infrastructure bank disburses more funds and those loaned funds are paid back, the interest income on loans will increase. The average loans receivable balance was \$69.5 million in fiscal year 2025 compared to \$62.6 million in fiscal year 2024 and \$51.5 million in fiscal year 2023. Program fees, included in other income in the schedule above, are received at the time applications are submitted and are calculated based upon a percentage of the requested loan amount. In fiscal year 2025, \$8,000 in program fees were collected related to two loans. In fiscal year 2024, \$1,000 in program fees were collected related to one loan, compared to fiscal year 2023, which collected no program fees, since the infrastructure bank did not receive any loan applications.

Nonoperating revenue (expense) is recognized on investments. The primary reason for the decrease of nonoperating revenue (expense) in fiscal year 2025 is due to the decrease in interest income on deposits because less cash was available to earn interest and as interest rates declined from 5.2 percent at June 30, 2024 compared to 4.2 percent at June 30, 2025. This decrease was offset by the increasing fair value of investments adjustment as the national market improves.

Expenses

In fiscal year 2025, administrative fees totaled \$74,000, a decrease of \$5,000 from fiscal year 2024. Administrative fees in fiscal year 2024 decreased \$7,000 from fiscal year 2023. The decrease in administrative fees between fiscal years 2025 and 2024 is the result of MTFC staff charging fewer hours to the MTFC. As staff gain experience and are more familiar with routine processes, tasks can be performed more efficiently and require less time. The other operating expenses increased slightly for fiscal years 2025 and 2024. The increase was because of increased professional fees for the annual audit and staff participating in a conference to market the MTFC as a financing option.

ECONOMIC AND OTHER FACTORS

For fiscal year 2025, the MTFC made two loans. The previous year had one loan. Additional funds have been made available through the federal government to state and local entities to provide financial relief because of impacts from COVID. The state and local entities have chosen to use some of the funds received for infrastructure. This infusion of cash has resulted in a decreased need for financing related to those infrastructure projects. In January 2017, the MHTC re-activated its Cost Share Program, which became effective in fiscal year 2018. The Missouri Department of Transportation sets aside monies for which local entities can compete to accomplish transportation projects on the state system that are a local priority. These projects are completed with a mixture of local funds and monies from the Cost Share Program. MTFC loan activity will lag behind the actions taken related to the MHTC's Cost Share Program. Prior to the suspension of the Cost Share Program in January 2014, local entities would often accelerate the Cost Share projects selected using a MTFC loan or finance their portion of the Cost Share project. The reactivation of this program is one of the reasons we have seen activity in the bank increase in the last several years. As other funding sources become more scarce, we anticipate the infrastructure bank will have an increase in activity.

The MTFC's net position increased in fiscal year 2025 and 2024. The increases in both fiscal years are from increases in interest income on loans and are related to the market value of investment adjustment, which has normalized as investments matured and new investments were procured. The MTFC anticipates continued net position growth in the future as cash provided through COVID relief is spent and entities once again have a need for financing.

CONTACTING THE MTFC

This financial report is designed to provide the Missouri Transportation Finance Corporation's interested parties, including citizens, taxpayers, customers, potential investors, and creditors, with a general overview of the MTFC's finances and to demonstrate the MTFC's accountability for the money it receives. Questions about this report or requests for additional financial information should be addressed to Missouri Transportation Finance Corporation, P.O. Box 270, Jefferson City, Missouri 65102.

Increase (decrease) in fair value of investments	<u>\$ 1,378,536</u>	<u>\$ 1,181,163</u>

Notes to the Financial Statements

Notes to the Financial Statements

Note 1: Summary of Significant Accounting Policies

The Missouri Transportation Finance Corporation (MTFC) was created by the Missouri Highways and Transportation Commission (MHTC), under Missouri Nonprofit Corporation Law Act, Chapter 355 of the Revised Statutes of Missouri (RSMo), on August 23, 1996. The entity administers a program, in conformity with federal transportation laws, to provide financing and other assistance to public and private entities for highway and transportation projects in the state of Missouri.

(A) *Reporting Entity*

The MTFC is a discretely presented component unit of the state of Missouri. The MHTC has authority to remove any board member for cause, and therefore, may impose its will on the MTFC. The accompanying basic financial statements include only those operations related to the MTFC.

(B) *Basis of Accounting*

MTFC accounts for its activities as an Enterprise Fund, a type of Proprietary Fund. Proprietary Funds are used to account for ongoing activities that are similar to activities found in the private sector. The measurement focus is upon determination of net income. In reporting its financial activity, the MTFC applies all applicable Governmental Accounting Standards Board (GASB) pronouncements. The accrual basis of accounting is utilized under which revenues are recognized when earned and expenses are recorded when liabilities are incurred. In applying the accrual concept to federal grant revenues and contributions, the legal and contractual requirements of the individual programs are used for guidance.

(C) *Cash, Cash Equivalents and Investments*

Cash and cash equivalents include:

- Cash
- Overnight repurchase agreements, which are investments with original maturities of three months or less. MTFC requires that securities underlying overnight repurchase agreements must have a fair value of at least 100 percent of the cost of the agreement. The fair values of the repurchase agreements are determined daily.

Investments are reported at fair value.

(D) *Loans Receivable*

Program loans are made and collected to fulfill the MTFC's responsibility to provide financing and other assistance to public and private entities for highway and transportation projects in the state of Missouri. Management has determined, based on prior experience and collateral pledged on the loans, that an allowance for uncollectible loans is not necessary.

(E) *Net Position*

Equity is categorized in the statements of net position as restricted and unrestricted. Restricted net position is legally restricted by outside parties or by law through constitutional provisions or enabling legislation. In general, restricted net position is composed of the original federal and state grant funds provided to establish the loan program and net investment income earned on those funds not currently loaned. When both restricted and unrestricted resources are available for use, generally it is the MTFC's policy to use restricted resources first for program loans to provide financing and other assistance to public and private entities for highway and transportation projects in the state of Missouri. Unrestricted resources are used for operating expenses and loans as needed.

(F) Classification of Operating and Nonoperating Revenues and Expenses

The MTFC has classified its revenues and expenses as either operating or nonoperating according to the following criteria:

Operating revenues: Operating revenues include activities that have the characteristics of exchange transactions, including interest income on program loans made to entities as provided by federal transportation laws and program fees.

Nonoperating revenues: Nonoperating revenues include activities that have the characteristics of nonexchange transactions, including federal, state and local grants and contracts. Investment earnings are also classified as nonoperating revenue.

Operating expenses: Operating expenses primarily include administrative fees and professional services. The administrative fees are reimbursements to the Missouri Department of Transportation for personal service costs related to the support of the MTFC.

Nonoperating expenses: Nonoperating expenses consist of investment fees.

(G) Use of Estimates

The preparation of basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates.

(H) Income Taxes

The MTFC submitted a request for ruling to the Internal Revenue Service (IRS). In response to that request, the IRS ruled the income of the MTFC is excludable from gross income for federal income tax purposes under Section 115 of the Code. The MTFC is required to file an annual income tax return on Form 1120.

Note 2: Cash and Investments

(A) Deposits

The carrying amounts of deposits of the MTFC at June 30, 2025 and 2024 were \$14,043,408 and \$28,118,094, respectively, which agrees to cash and cash equivalents on Statements of Net Position. The bank balances were covered by federal depository insurance and by collateral held by a third-party bank under a joint custody agreement.

(B) Investments

The MTFC's investment policy is approved by the Board. This policy supports the MTFC's conservative and prudent approach to investment management. The policy also addresses authorized financial dealers and institutions, internal controls, suitable and authorized investments, collateralization, diversification of the portfolio, maximum maturities, performance standards and reporting requirements.

The policy allows funds to be invested in time deposits, linked deposits, certificates of deposit, commercial paper, bankers' acceptances, repurchase and reverse repurchase agreements and United States Treasury and federal agency securities. The MTFC's investments are reported at fair value. At June 30, 2025 and 2024, the MTFC had \$43,603,740 and \$29,497,350, respectively, of unregistered government sponsored securities for which a financial institution's trust department holds the securities in the MTFC's name.

The maturities of mortgage-backed investments have been estimated based on the weighted average life of the investment type. Estimated maturities will differ from actual maturities because issuers may have the right to call or prepay obligations.

The MTFC has categorized its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. As defined by generally accepted accounting principles, Level 1 inputs are quoted prices in active markets for identical assets. Level 2 inputs are significant other observable inputs comprised of fair value quoted prices for similar, but not identical, assets or liabilities in active markets or inactive markets. Level 3 inputs are significant unobservable inputs.

At June 30, 2025, the MTFC's investments have the following ratings, fair value measurements and maturities:

Investment by Type	Rating		Total Investments	Investment Maturities (in years)			Fair Value Measurements	
	Moody's	S&P		Less than 1 year	1-5 years	6-10 years	Level 1	Level 2
U.S. Treasury obligations	Aaa	AA+	\$33,872,920	\$33,872,920	\$ ---	\$ ---	\$33,872,920	\$ ---
U.S. agency obligations	Aaa	AA+	9,730,820	6,963,337	2,363,710	403,773	---	9,730,820
			<u>\$43,603,740</u>	<u>\$40,836,257</u>	<u>\$2,363,710</u>	<u>\$403,773</u>	<u>\$33,872,920</u>	<u>\$9,730,820</u>

Level 1 classifications above consist of U.S. treasury obligations that are valued based on third party pricing services for identical assets. Level 2 classifications above consist of U.S. agency obligations that are valued based on third party pricing services for similar assets. No investments were classified as Level 3 at June 30, 2025.

At June 30, 2024, the MTFC's investments have the following ratings, fair value measurements and maturities:

Investment by Type	Rating		Total Investments	Investment Maturities (in years)			Fair Value Measurements	
	Moody's	S&P		Less than 1 year	1-5 years	6-10 years	Level 1	Level 2
U.S. Treasury obligations	Aaa	AA+	\$15,078,557	\$15,078,557	\$ ---	\$ ---	\$15,078,557	\$ ---
U.S. agency obligations	Aaa	AA+	14,418,793	4,351,453	9,623,117	444,223	---	14,418,793
			<u>\$29,497,350</u>	<u>\$19,430,010</u>	<u>\$9,623,117</u>	<u>\$444,223</u>	<u>\$15,078,557</u>	<u>\$14,418,793</u>

Level 1 classifications above consist of U.S. treasury obligations that are valued based on third party pricing services for identical assets. Level 2 classifications above consist of U.S. agency obligations that are valued based on third party pricing services for similar assets. No investments were classified as Level 3 at June 30, 2024.

Investment earnings consisted of the following for the years ended June 30, 2025 and 2024:

	2025	2024
Interest income on deposits	\$ 885,801	\$1,527,720
Interest income on investments	185,193	251,783
Net appreciation (depreciation) in fair value of investments	<u>1,378,536</u>	<u>1,181,163</u>
Total investment earnings (loss)	<u>\$2,449,530</u>	<u>\$2,960,666</u>

(C) Interest Rate Risk

Interest rate risk is the risk that the fair value of securities in the portfolio will fall due to changes in general interest rates. The MTFC policy states interest rate risk will be managed by the following objectives:

Safety: The investment portfolio is developed to avoid the need to sell securities on the open market prior to maturity, with securities scheduled to mature to meet cash requirements for ongoing operations.

Liquidity: The investment portfolio shall remain sufficiently liquid to meet all operating requirements that may be reasonably anticipated. This is accomplished by structuring the portfolio so the securities mature concurrent with cash needs to meet anticipated demands (static liquidity).

Yield: The investment portfolio shall be designed with the objective of attaining a market rate of return throughout budgetary and economic cycles, taking into account the investment risk constraints and liquidity needs.

(D) Credit Risk

The MTFC minimizes credit risk by limiting investments to the safest types of securities as defined in Note 2: Cash and Investments, Section (B) Investments.

(E) Concentration of Credit Risk

The MTFC diversifies its investments to minimize the risk of loss resulting from over-concentration of assets in a specific maturity, issuer or class of securities. The asset allocation is periodically reviewed by management.

(F) Custodial Credit Risk

Custodial credit risk is the risk that, in the event of the failure of a depository financial institution, the MTFC will not be able to recover collateralized securities in the possession of an outside party. The MTFC's policy is to collateralize demand deposits and repurchase agreements with securities held by the financial institution's agent in the MTFC's name. The MTFC policy also states security transactions are settled "delivery versus payment." This means payment is made simultaneously with the receipt of the security. These securities are delivered to the MTFC's safekeeping bank.

Note 3: Loans Receivable

Loans are entered into to provide financing for highway and transportation projects. Future revenues primarily secure public entity loans. Irrevocable letters of credit or designated funds secure loans for private entities. The receivable balance as of June 30, 2025 and 2024 consists of the following:

(amounts in thousands)

Customer and Project Description	Loan Date	Maturity Date	Interest Rate	2025	2024
Principal and Interest Paid Semi-annually					
City of Wentzville Finance the city's project to construct a new I-70 interchange west of the existing Wentzville Parkway.	01/02/20	01/01/25	1.00%	\$ ---	\$1,020
City of Holts Summit Finance the city's project to widen Halifax Road to reduce a slight curve, install curb, gutter and sewer for drainage and construct a pedestrian sidewalk.	04/15/16	12/31/25	2.26	---	85
City of Warrenton* Finance the city's project to construct a new I-70 interchange and extend Route MM to the north across I-70 to the North Outer Road.	12/01/16	10/31/27	2.64	---	4,847
Principal and Interest Paid Annually					
City of Park Hills Finance the city's project to improve East Main Street from View Street to Strauss Street and Strauss Street from East Main Street to St. Joe Drive.	06/15/16	08/31/24	3.26%	\$ ---	\$ 25

Customer and Project Description	Loan Date	Maturity Date	Interest Rate	2025	2024
Principal and Interest Paid Annually (continued)					
City of Park Hills Finance the city's project to extend Fairgrounds Drive to a proposed trail head serving the St. Joe State Park.	06/15/16	10/31/24	3.26%	\$ ---	\$ 108
City of Cottleville Finance the city's cost apportionment project to widen Route N to three lanes with a center turn lane, add shoulders and a shared-use path.	07/01/16	07/30/26	2.57	186	276
City of Warsaw Finance the city's cost apportionment project to provide intersection improvements at Route 7 and Commercial Street.	11/28/18	07/31/28	2.64	120	148
City of Warrenton Finance the city's portion of a Cost Share project to install sidewalks along Route 47.	06/17/19	07/15/29	2.93	608	721
City of Sunrise Beach Finance the city's portion of the Cost Share project to widen Route 5 to three lanes from Route F to the city of Laurie.	07/01/15	08/31/30	2.55	142	164
City of St. Charles Finance part of the city's portion of a Cost Share project to provide improvements to the Route 94/Route 364 and Muegge Road interchange.	12/16/19	06/30/29	1.40	228	282
City of St. Charles Finance the city's project to reconstruct and relocate Boschertown Road from Hecker Street to Route B.	12/16/19	06/30/29	1.40	506	628
City of St. Charles Finance the city's project to construct a roundabout at Little Hills Expressway and Mel Wetter Parkway.	12/16/19	06/30/29	1.40	204	254
City of Ashland Finance the city's portion of a Cost Share project to construct a roundabout at Route M and Henry Clay Boulevard.	02/21/20	07/15/29	2.64	564	564
City of Poplar Bluff Finance the city's portion of a Cost Share project to reconstruct Route 67 to a divided, multi-lane interstate highway facility from Route 160 south to County Road 338.	07/01/21	09/01/35	2.09	5,843	4,195

Customer and Project Description	Loan Date	Maturity Date	Interest Rate	2025	2024
Principal and Interest Paid Annually (continued)					
City of St. Charles Finance part of the city's portion of Phase II of a Cost Share project to provide improvements to the Route 94/364 and Muegge Road interchange.	10/01/21	06/30/31	1.05%	\$ 4,735	\$ 5,487
Saline County Finance the county's portion of a Cost Share project to relocate a median crossing at Route 65 and County Road 226/237.	02/01/22	08/15/31	1.45	999	1,133
City of Poplar Bluff Finance the city's portion of a Cost Share project to reconstruct Route 67 to a divided, multi-lane interstate highway facility from County Road 338 to County Road 352.	04/01/22	09/01/35	1.45	4,758	---
City of Republic Finance the city's portion of a Cost Share project to widen Route MM to four lanes plus a center turn lane from Route 360 (James River Freeway) to Interstate 44.	06/01/22	04/15/32	1.40	1,409	1,830
Missouri Highways & Transportation Commission Finance the Infrastructure for Rebuilding America (INFRA) grant project that replaces the Rocheport Bridge and constructs climbing lanes at Mineola Hill.	08/01/22	08/01/29	1.06	44,724	40,251
City of Sweet Springs Finance the city's portion of a Cost Share project to lower the vertical curve on Route 127 and add right turn lanes onto and off Route 127 and I-70.	12/01/24	04/30/34	2.50	<u>118</u>	<u>---</u>
Total				<u>\$ 65,144</u>	<u>\$ 62,018</u>

*City of Warrenton paid off their loan in March 2025 which is prior to the maturity date of October 2027.

Annual loans receivable to maturity are indicated in the following schedule.
(amounts in thousands)

<u>Fiscal Year</u>	<u>Principal</u>
2026	\$11,601
2027	11,744
2028	11,714
2029	11,613
2030	11,295
2031-2036	<u>7,177</u>
Total principal	<u>\$65,144</u>

Loans receivable are included in the accompanying statements of net position, as follows:
(amounts in thousands)

	<u>2025</u>	<u>2024</u>
Current loans receivable	\$11,601	\$13,217
Noncurrent loans receivable	<u>53,543</u>	<u>48,801</u>
Total loans receivable	<u>\$65,144</u>	<u>\$62,018</u>

Note 4: Administrative Expenses

Administrative expenses and accounts payable represent reimbursements to the Missouri Department of Transportation (MoDOT) for personnel and administrative costs.

Note 5: Restricted Net Position

The MTFC received money from federal grants, which is restricted for lending purposes only. Those grants required a state transportation funding match, which, with net investment earnings (loss), is also restricted for lending purposes. Restricted net position increased due to the gain on net investments for the fiscal years ended June 30, 2025 and 2024, included in net operating revenues (expenses).

(amounts in thousands)

	<u>2025</u>	<u>2024</u>
Federal grant	\$49,410	\$49,410
State grant	10,250	10,250
Cumulative net investment earnings	<u>28,716</u>	<u>26,298</u>
Total restricted net position available for lending purposes	<u>\$88,376</u>	<u>\$85,958</u>

Note 6: Risk Management

The MTFC is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets. The MTFC does not carry commercial insurance but takes additional internal control steps to ensure safekeeping of assets. The State's Legal Expense Fund covers all state employees for the risks of errors and omissions. Liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. No liabilities of loss related to torts were reported at June 30, 2025 or 2024. The MTFC has had no settlements in the last three years.

Note 7: Loan Commitments and Loans Approved

At June 30, 2025, the MTFC had four loan commitments totaling \$7.5 million that were approved and executed, but not disbursed.

(amounts in thousands)

<u>Customer and Project Description</u>	<u>Approved Date</u>	<u>Executed Date</u>	<u>Projected Disbursement Date</u>	<u>Interest Rate</u>	<u>Amount</u>
Principal and Interest Paid Annually					
City of Republic Finance the city's portion of a Cost Share project to widen Route MM to four lanes plus a center turn lane from Route 360 (James River Freeway) to Interstate 44.	02/28/22	05/26/22	02/01/27	1.40%	\$ 1,507
City of Sweet Springs Finance the city's portion of a Cost Share project to lower the vertical curve on Route 127 and add right turn lanes onto and off Route 127 and I-70.	02/21/24	05/30/24	10/01/25	2.50	453
City of St. Charles Finance the city's project to construct road and pedestrian improvements on First Capitol Drive.	02/04/25	06/18/25	07/01/25	3.11	228
			10/01/26		<u>2,076</u>
					2,304
City of St. Charles Finance the city's project to construct road and pedestrian improvements on North Second Street.	02/04/25	06/18/25	07/01/25	3.11	36
			10/01/25		<u>3,164</u>
					<u>3,200</u>
Total loan commitments*					<u>\$ 7,464</u>

*Unrestricted and restricted net position are sufficient to meet loan commitments and loans approved.

Note 8: Accounting Pronouncements

GASB Statements implemented during the current fiscal year that had no financial impact on the MTFC financial statements include:

- 101, *Compensated Absences*; and
- 102, *Certain Risk Disclosures*.

GASB Statements that will be implemented in future fiscal years include:

- 103, *Financial Reporting Model Improvements*; and
- 104, *Disclosure of Certain Capital Assets*.

Other Information

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
*GOVERNMENT AUDITING STANDARDS***

To the Board of Directors
Missouri Transportation Finance Corporation

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities of the Missouri Transportation Finance Corporation (the Corporation), a component unit of the State of Missouri, as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the Corporation's basic financial statements, and have issued our report thereon dated August 29, 2025.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Corporation's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Corporation's internal control. Accordingly, we do not express an opinion on the effectiveness of the Corporation's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the Corporation's financial statements will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Corporation's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Corporation's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Corporation's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
